FRANKLIN HOUSE,

Portsmouth, N. H.

The undersigned having assumed the management of this well known public house, and having made extensive improvements therein, solicits a continuance of the patronage of the travelling public that has so long been extended to the house.

A new parlor and an extensive suite of commodious rooms, conveniently adapting apartments have been added; and a separate Ladies' Entrance from Congress Street, arranged. Gentlemen with their families, or ladies unattended, will now find quiet and retired apartments connected with the street and dining hall by an independent staircase.

The house will be kept as a first class hotel in every respect, and the proprietors will spare no pains to merit the patronage of those visiting this section of the State.

A good STABLE is connected with the house, where persons visiting Portsmouth with teams, will be promptly and carefully waited upon.

MATHEWS' Arnica HAIR GLOSS

This is a new and invaluable preparation for preserving and beautifying the hair.

The wonderful virtues of Arnica in allaying and removing inflammation are universally known.

ARNICA HAIR GLOSS is a combination of these virtues; with other tried and excellent ingredients.

ARNICA HAIR GLOSS stimulates and invigorates the hair, prevents it from falling out—restores it when lost—promotes its growth and strength—renders it proof against all diseases.

ARNICA HAIR GLOSS permanently cures all irritations and eruptions of the scalp, and makes it healthy and fertile. For the removal of dandruff it has no equal. Its operations in this particular are magical and permanent.

ARNICA HAIR GLOSS is unequalled as a hair-dressing compound. It not only cleanses the scalp and invigorates the hair, but it renders the latter charmingly soft and lustrous. Its odor is particularly delicate and fragrant, the proprietor having taken especial pains to secure this result.

ARNICA HAIR GLOSS is the very best preparation for the hair ever discovered.

ARNICA HAIR GLOSS, notwithstanding its surpassing merits—is retailed at only Twenty-five cents a bottle, by all Druggists.

IRREPRESSIBLE.—Within a few days, a test case in regard to the treatment of refugee negroes has been reported to Washington by Gen. Butler, for the decision of the Government; showing it to be absolutely *impossible* for our officers to get along in any city, or populous place in the rebel States, without some regular policy as to slaves and slavery. The case is this:

"On the 15th of June, about one hundred and fifty negroes, comprising men, women and children, had collected near the camp of Gen. Phelps, at Carrollton, where they were likely to experience much suffering from want of food and shelter unless Goverment aid could be extended to them, which could not be done owing to the order of Gen. Butler excluding them from the lines. One party, seventy-five in number, reported that they were sent over the river by a planter named Le Blanche, who gave them their choice of leaving before sundown or receiving fifty lashes each.—Gen. Phelps sent a communication to Gen. Butler on the subject, with the request that it should be transmitted to Washington. With this request Gen. Butler has complied, accompanying the letter of Gen. Phelps with a statement of his own. He says he is informed by the friends and neighbors of Mr. Le Blanche, and by Jack Le Blanche, his slave, who is the leader of the party of negroes, that Mr. Le Blanche claims to be loyal and to have taken no part in the war; that he has a son in the rebel army; that his house was searched by the order of Gen. Phelps, for arms and contraband of war; and his neighbors say that his negroes were told they were free if they would come to the General's camp; that thereupon the negroes, under the lead of Jack, determined to leave, Mr. Le Blanche making no opposition and *assisting* them to get safely across the river."

Gen. Butler says:—

"The account of Gen. Phelps is the negro side of the story; that above given is the story of Mr. Le Blanche's neighbors, some of whom I know to be loyal men.—Gen. Phelps, I believe, intends making this a test case for the policy of the Government. I wish it might be so, for the difference of action upon this subject is a source of trouble."

[Since the above matter was prepared for the Chronicle, we have seen, in the Amherst Cabinet, a letter from Lieut. Col. Lull, of the 8th N. H. Regiment, in which he states that this "Creole planter Le Blanche has kept a secession flag flying.—Some of our soldiers, with permission went over and took it. He was mad about it, told his negroes King Cotton didn't rule any longer, but the d—d yankees; and made them all take their few old traps, and cross the river and leave him. There were seventy-eight of them, without food, shelter or protection, of all ages, sizes and peculiarities."]

☞ Rev. Dr. Pennington, formerly a well known minister of a colored church in New York, was brought before the Liverpool police court on the 18th ult., on a charge of stealing a copy of Pope's Homer's Odyssey from a book-stand. The trial was postponed for a week. It is known that "the unfortunate divine" had for some time given way to intemperate habits.

☞ A great meeting of the conservative elements of all sorts was held on Tuesday evening, in the Cooper Institute, New York. Wm. Chauncey presided, and speeches were made by ex-Gov. Wickliffe of Kentucky, William A. Duer, James Brooks and Fernando Wood.

☞ ATTENTION, THE WHOLE! ☜
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
Exeter, Feb. 24, 1838. Dr. Swett:—Sir, for the benefit of others, I feel as affliated as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. P. LEAVITT.
From ELDER I. CHESLEY, *Lee, May* 31, 1841.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA, and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it does not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26d

Portsmouth, N. H.

TUESDAY, JULY 8, 1862.

THE REBELLION.

Dispatches which have been received at the War Department from Gen. McClellan, dated 1 o'clock P. M. on Friday last, state that there had been no fighting since Tuesday night, when the enemy were repulsed with great slaughter. This would seem to disprove the statement, received by telegraph on Sunday, that the rebels were attacked and defeated on Thursday. On the 4th inst. Gen. McClellan issued a spirited address to the army under his command, highly extolling their courage and endurance.

Richmond dispatches to July 1 and 2, still claim that the rebels captured 12,000 prisoners, 8 Generals, all Gen. McClellan's siege guns, and supplies enough for the rebel army for three months. They represent the battle of July 1 as the most fearful and desperate of the entire war. The latest reports are less exultant.

The rebel gunboat Teazer was captured in a bend of the James River on the 4th inst. Very important papers were found on her.

Gen. Halleck reports that on the 1st inst. Col. Sheridan's 2d Mich. Cavalry, with two regiments of 728 men, was attacked at Boonsville, Miss., by parts of eight rebel regiments, numbering 4700, which he defeated and drove back, after seven hours' fighting. Our loss was 41 killed, wounded and missing. The rebel loss must have been very great. They left 65 dead on the field. Gen. Halleck recommends Col. Sheridan for promotion, for gallant conduct in battle.

Fresh troops from Washington passed up James river on the 4th; also artillery, horses, &c. There was a skirmish Friday morning near our left wing, resulting in the defeat of the rebels. We took 1000 prisoners and three small batteries. Our cavalry then followed the rebels until they passed beyond White Oak Swamp. The rebels for two days had shown little disposition to fight, and they relinquished their ground and batteries almost without resistance.

The Tribune's Washington dispatch says Com. Wilkes has been ordered to take command of the flotilla on James river.

Several thousand negroes have been ordered by Gen. Butler to work on the canal across the bend on which Vicksburg is situated. The channel of the Mississippi will thus be changed, and Vicksburg will become an inland town. The city had not been captured on the 2d, and the bombardment was being kept up at regular intervals from both fleets, Commander Davis having arrived. The rebel batteries were still replying occasionally. It was believed that the rebel works would be stormed on the 4th. The city is said to be not so badly damaged as first stated. All non-combatants were previously removed. The rebel force is said to be 16,000 strong.

There is an important error in the number of prisoners reported to have arrived at Fortress Monroe. Instead of 6533 as stated the number was only 533.

A letter in the N. Y. Post asserts that there was a skirmish on Thursday, resulting in the capture of 6 guns and some prisoners. Gen. McClellan had removed his headquarters, and his army had advanced 5 miles towards Richmond.

A correspondence in the Philadelphia Enquirer states that the Richmond papers of the 4th acknowledge a loss of 20,000 men in the recent battles, though they claim a victory. The correspondent of the Press, writing under the same date, reports that Gen. McClellan is pushing rapidly forward, and driving the enemy at all points, —the gunboats accompanying the advance, shelling the woods and scattering the enemy. His main forces are following in support.

☞ The Catholic Telegraph states that the congregation, chiefly Irish, of a Catholic church in the South, was strongly disposed to support the Union, but their pastor, a native of the South, preached secession and prayed for it. He had it all his own way until the armies of the North took possession of the town. The Provost Marshal managed affairs and regulated the currency. The Priest depended principally on the Sunday collections for his support, and on the next Sunday discovered that all the money received consisted of five and ten cent scrip, which it was lawful to give away, but a matter of imprisonment to attempt to pass for money.

☞ We are gratified to announce that the late restrictions on the telegraphic news have been removed by the War Department, thus restoring the press to its former footing. Military news not contraband of war, and which would not give the enemy information of movements of troops, &c., can now be transmitted to the newspapers. The press are chiefly indebted for this favor to the exertions of Col. Sanford, the Government's military supervisor of telegrams.

BOSTON "ISMS."—In Boston the "Temple Church" is occasionally let for rope-dancing and comic singing; Theodore Parker's church is let for a "Karey Show" the Park street church has let its basement to the "Philadelphia Ice Cream Co.," and Winter street church, to a hoop skirt, corset and dress-maker." All these churches were devoted to prominent "isms" of the day.—*Baltimore paper.*

Bostonians, and all people who know the condition of the Boston Churches, must laugh at the above nonsense, which is seriously put forth in the Baltimore paper, as an important statement of a dreadful fact. To any reader who don't know much about the churches there, it may be well to say, that the "Temple Church" and "Theodore Parker's Church," are no church buildings at all; but that these Congregations occupy spacious Halls, which were erected to be let for a great variety of purposes;—and that, as almost everybody knows, the *basements* of many churches were made and are used for stores or shops. We know of one church which never meddles with *isms* but it has a capital cellar for keeping beer; and long before the "isms" were born, we saw it well filled with crockery ware, liquors and groceries.

CONGRESS.—In the Senate, Saturday, July 5, a number of bills were passed,—among them several bills regulating ports of entry in the Southern States, and the payment of duties there; also the bill making appropriation for payment of certain bounties,—and a bill in relation to schools for colored children in Washington and Georgetown.

In the House, Mr. Wickliffe of Ky. moved to reconsider the vote by which Major General Hunter's reply to the inquiries as to the organization of negro regiments was ordered to be printed. Mr. Wickliffe addressed the House on the subject, and quite a spirited debate ensued,—at the close of which, by a vote of 61 to 26, Mr. Wickliffe's motion was laid on the table. The House passed the bill reported from the Judiciary Committee prohibiting the confinement of soldiers in the District of Columbia except in punishment of certain crimes, and discharging those now there. Mr. Hall introduced a joint resolution, which was passed, authorizing the Secretary of War to furnish clothing to wounded and other soldiers as a substitute for that lost by the casualities of war. The House non concurred in the Senate's amendments to the U. S. Note bill, and a committee of conference was ordered.

PROSPECTS OF RECRUITING.—The N. Y. Post states that the prospects for recruiting in that State are much better than is generally supposed. Enlistments under the recent call for volunteers, made since the order to close all the offices was rescinded, are now quite as frequent as they were after the Bull Run excitement, when it was deemed necessary to raise the army to half a million men. It is even said that, considering the fact that arrangements for recruiting are yet imperfect, the enlistments are more rapid than they have been within a period of several months past.

PARSON BROWNLOW'S VIEWS.—In a recent lecture at Washington, Parson Brownlow is represented as saying:

"This country is now pursuing a course with this infernal, wicked rebellion which I do not approve of; unless we pursue a different and a more vigorous one we shall never end this rebellion in God's world!"

He added that the Government must adopt a more vigorous war policy, or give up the attempt to put down the rebellion—he was sure of that. He had no faith whatever in the "conciliatory policy," for the reason that, he says, he knows that the rebels are determined not to be conciliated. They will only give up to actual brute force.

☞ The Portland Advertiser calls this Chronicle "sulky." Now we shall not return this compliment, although that same Advertiser *has* been rather "riding a high horse" of late; but we must confess that it looks a little strange to see a man who boasts even to cant, that his columns cannot be bought, (and, by the way, who ever saw an editor state that his *could!*) at one time editing a Democratic paper, and afterwards a Republican organ. "No doubt ye are the men, and wisdom will die with ye."

☞ By orders from the War Department, the entire authority over the recruiting service of the State of New York, and probably in other States, has been placed in the hands of the Governor, including all supplies of ordnance stores, all expenses of subsistence and mustering the troops, and all powers of commissions, organization, etc. This will leave the State authority entirely untrammeled until the regiments are mustered into the service of the U. S. government, and prevent any clashing between the authorities.

☞ Governor Washburn, of Maine, has issued a call for more troops, and states that general orders will be issued immediately, giving authority for raising new regiments of infantry, and for calling into actual service a portion of the ununiformed militia of the State.

A lawyer's brief will be brief, before a free thinker thinks freely.

NEW HAMPSHIRE ITEMS.

—— Mr. Nathan Peters, of South Hampton, while endeavoring to catch a horse one day last week, received a severe kick in the head.

—— The church recently erected by the Methodist society at Salem was dedicated on Tuesday last. The house is of convenient size for the location, containing fifty-two pews. The entire finish is of chestnut, oiled and varnished, presenting a very neat appearance. The cost was about $3000.

—— A correspondent of the N. Y. Times writes to that paper that Col. Jesse A. Gove, who is reported to have been killed, fell at the head of his regiment, seriously wounded. His wife and her brother-in-law, H. P. Rolfe, Esq., have gone to Virginia, entertaining great hope that the gallant Colonel is yet alive.

—— Lieut. Col. Bell has been appointed Colonel of the 4th Regiment, and Capt. Gilman E. Sleeper, of Salem, commanding Co. C, Lieut. Colonel. It is rumored that Capt. Plympton, of the 3d, has been appointed Major of that regiment.

—— Major Josiah Stevens, of the Second Regiment, found a bullet hole in the rim of his hat after the advance of McClellan's left, two weeks since. He was shot at by a rebel sharpshooter posted in a tree-top.

—— The Boston Journal gives the following list of N. H. soldiers killed and wounded in the recent battles:—

Second Regiment—Killed—John Brown, Co. I.

Wounded—Co. A—Chas. G. Isham, leg; Orlando M. Lanphear, contusion, left breast; Chas. F. Austin, back. Co. B—Patrick Honnegan, right temple; Edward Richardson, right thigh; Aaron Goodwin, right leg; M. S. Billings, finger; John H. Hanscom, contusion, forehead. Co. E—George W. Weeks, right fore-finger amputated. Co. G—Samuel J. Beard, left thigh. Co. H—Lieut. John F. Holman, left fore-finger; John H. Goodwin, finger; John Straw, left foot. Co. K—William McIntyre, contusion, right hand; Alexander Stewart, contusion, left breast.

Third Regiment—Wounded — George Watson, in wrist.

—— The ten o'clock train on the Cocheco Railroad was thrown from the track near Dover, on the morning of the 4th, and Mr. Edwin A. Hills, publisher of the Dover Gazette, jumped from a car, which in falling struck him, breaking his leg and causing other severe injuries. He will speedily recover. It was a most wonderful escape from death. No one else was injured.

——The Manchester Mirror says that "if the Governor and Council will appoint Capt. Donohoe, of the 3d Regiment, Col.,—and John Coughlin, member of the Legislature from that city, Lt. Col.,—and Jesse F. Angell, overseer there, and an officer in the Mexican war, Adjutant, for the 10th Regiment, they would be sure of filling up one regiment in a very short time, all in that section. The two leading officers would be Irishmen, but as respectable, intelligent and worthy as any two in the same position that New Hampshire has sent forth."

—— A Washington dispatch says "Senator Clark of New Hampshire, leaves here to raise a regiment in that State."

☞ An unknown laboring man, between 30 and 40 years old, was discovered by the roadside in Newburyport, on Saturday evening, apparently in a fit. He was conveyed to a neighboring dwelling, where he died in a few hours.

Sense must be very good, indeed, to be as good as good nonsense.

☞ See you fair maiden in another column, picking Sambuct Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. June1 1md.

THE FOURTH.

A few additional items of 4th of July interest, have been collected by our reporters, which we add to our published account.

In the early morning, about the time the Antiques and Horribles appeared,—"Knight's Brass Band," consisting of sixteen or eighteen pieces, Mr. John Knight leader, drove briskly through some of our streets, playing spiritedly. They were riding in Mr. Nathan Jones' omnibus, "Fanny Fern," which, drawn by four good horses, well caparisoned and skilfully reined, made up a very handsome turnout—on the way to South Newmarket, to help celebrate there.

The military portion of the Procession, said to be one of the finest ever seen in Portsmouth, we have already described; but we give some details of the Floral Division, which was also first rate. Mr. James H. Head was Chief Marshal, with Messrs. Jas. W. Lefavour, Marcellus Eldredge, Alfred L. Bennett, Alfred Stavers, Wm. H. Sise, Michael Fisher, Thos. H. Rider, Nath'l K. Raynes, Frank D. Webster, and Henry C. Walker, as Aids and Assistant Marshals.

The Epping Brass Band, thirteen pieces, led the third Division of the Procession; and furnished very acceptable music,—playing very creditably, considering the difficulties under which they have been laboring.

Then came the Car of the Goddess of Liberty,—prettily decorated with bunting and mottoes,—in which rode a young lady, costumed finely, representing the Goddess. Then the Car of the States, filled with thirty-four misses; costumes representing the red, white and blue, and each bearing a flag. This car was profusely decorated with bunting and evergreen, and drawn by eight handsome oxen from the City Farm, decorated with wreaths, festoons, and flags—much credit being given Superintendent Norton for his efficient aid in the matter. Mottoes,—Washington, Our country, The spirit of '76 still lingers, Union and liberty.

Frigate "Constitution."—A yawl boat 26 feet long, rigged as a frigate, and manned by 40 lads in red shirts, white pants and tarpaulins, who were placed about the deck, in the rigging and tops. There were also some passengers, including one or two ladies. This was rigged under the superintendence of Capt. James Hill, and was the finest exhibition in that portion of the Procession. Banner—"We love our country."

Soldiers of the Revolution and War of 1812, in open barouche, decorated with pennants and American ensigns. One only of the Revolutioners appeared;—Mr. Daniel Fernald, 94 years of age. Messrs. Jonathan Morrison and Reuben Randall of the war of 1812. This was escorted by a file of Continentals as body-guard.

Soldiers of the War of 1862.—Through the kindness of one of our citizens, the Committee were able to procure the most showy and commodious private barouche in this vicinity, drawn by four grey horses, decorated with flags, myrtle and pennants. The names of the soldiers were Horace F. Smith, who fought at Bull Run and at Williamsburg, in which last battle he was wounded; Christopher Marshall, who also fought at Bull Run, where he was taken prisoner, and has been one year in prison at Richmond; and Wm. P. Magraw, also a member of the N. H. 2d, who was taken prisoner at Williamsburg, and paroled.

Car of E Pluribus Unum.—This consisted of a square framed carriage, decorated with American flags, eagles and anchor;—inside of which was a drum and fife playing Yankee Doodle. Motto—"A big thing for John Bull to take, or any other man."

Washington Testimonial.—A pretty monument 25 feet in height, decorated with flags, portrait of Washington, Declaration of Independence, and evergreen wreaths. Motto—"First in war, &c." Banner—"Never forget Washington or his precepts."

Musicians' car, drawn by 2 horses, handsomely decorated with flags, pennants, and evergreen: it contained a singing school, under the superintendence of Mr. Moses, who presided at the melodeon, the children singing en route. Mottoes—"Our future Jenny Linds," "Mozart," Beethoven."

Car of the Peasants.—Young Misses dressed in unique costume, each holding a staff.

Indian Canoe, prepared by Mr. H. M. Carter.—A small boat painted to represent birch bark, contained five persons dressed in the Aborigines' costume. It was a fine display, very close to life. Motto—"We are passing away."

Car of the Fairy Festival. — Beautifully decorated.—A fountain in the centre and 12 misses dressed to represent the fairies.

Car of the Flower Garden.—Represented by a platform trimmed with verdure so as to appear like a garden bed. In the centre was placed a Chinese vase and bowl, five feet in height, which held a mammoth bouquet. Mottoes—Sweet Flowers, Flowers are the Smiles of Nature.

[This caused not a little wonder, as to its signification. A reader of the Forty Thieves, thinks it must have been one of *their* jars.]

Banner.—Made by Miss Izette Drisco.

Car of Goddess Flora, prettily trimmed with bunting and flowers. Mottoes — Flowers are the Autographs of Angels, Thank God for Flowers.

Car of the Flower Girls, containing 36 misses, dressed in white, a garland of flowers on the head, and a bouquet in the hand. Mottoes—Flora is our Queen, Buds and Blossoms of Life, Life's Flowers.

Car of the Lafayette Road School, decorated profusely with evergreens and flowers, and the school misses attired in a pretty uniform. The car was drawn by two horses, and was one of the best in the line.—Mottoes—With them remains the Future; Banner, on which was inscribed, Our public schools are the nurseries of our statesmen and patriots.

Car of Female accomplishments of 1776, gotten up by Mr. Marden on Lafayette Road; 3 ladies personating our ancient grandmothers' accomplishments, were from Portsmouth. The car was well arranged with spruce and flowers, and covered with a canopy. In it was one "old" lady plying the spinning wheel; and another sat braiding a mat, a third knitting stockings. The parts were well carried out. Motto—"The pilgrim spirit has not fled."

Car of the Fruit Girls.—A well arranged team holding twelve pretty lasses, each holding a basket of fruit.

Car of the Farmers.—By Mr. Marden, Lafayette Road.—It was quite artistic and glistened with eyes and sharp sickles. It was drawn by two horses trimmed quite prettily.

Banner—by Mr. J. W. Goodwin—very beautiful. Car and May Queen with two attendants. Mottos, Our May Queen, You must wake and call me early, mother dear.

Car of the Seasons, representing Spring, Summer, Autumn and Winter;—very well arranged.

A friend present says the display of 200 or more children at the Pavilion was very beautiful—and Mr. Tilton deserves much credit for his exertions to furnish good singing there.

In addition to the street decoration already chronicled, we are told that Mr. Thos. Norton, Mr. Curtis on Water street, and Rev. Mr. Eddy, made very neat and tasteful displays at their residences—and no doubt many others.

THE PORTSMOUTH CORNET BAND, which has always stood deservedly high in public esteem, has recently brought out a lot of capital new music, and on the occasion of the Mason's celebration in Portland, and on the Fourth of July in Portsmouth, won the highest praise from all. We heard a gentleman say, recently, that he was going to get up a subscription for a series of out-door concerts by the Band—and we should like to see somebody do it, for the sake of the public, much more than for the Band. We are neither authorized nor requested to mention the matter or the Band at all; but the keeping up a good Band costs a good deal of time, money and trouble,—and we consider such a Band a most useful and necessary institution, well worthy every possible encouragement and support a comparatively small public can give it. Mr. Charles H. Tompson of South Berwick, is leader of the Band, and he, as well as every member, seems to be doing his best for the success of the Band, and the cause of good music. Let all who can, see to it that they have all due encouragement to persevere.

DRAMATIC AND ELOCUTIONARY ENTERTAINMENT.—Mr. and Mrs. J. C. Fredericks, of New York, announce a dramatic entertainment at the Temple tomorrow evening. The Canadian papers say, they attracted crowded and fashionable audiences in Kingston, Montreal and Quebec, and were patronized by His Excellency, Sir Fenwick Williams, as well as the Staff and Officers of the Garrison in each place. The press of the entire Province speak in the most eulogistic terms of their talent. See advertisement.

☞ Mr. Freeman Teague, of this city, a member of Co. K, 2d N. H. Regiment, who has been reported missing, has arrived in Boston. While on picket duty in Virginia, a few weeks since, he was sun-struck, and was removed in an insensible state, from his post to the Hospital. Being missed, it was thought that he had been captured or killed by the rebels. He has recovered somewhat from the effects of the sun-stroke and has obtained a furlough.

"MAN THE LIFE-BOAT—Man the life-boat," when need be; and for mercy's sake, have the boat ready to *be* manned when sudden occasion requires. Many years ago, the Massachusetts Humane Society placed one fine life-boat at the Shoals, and another at New Castle, under charge of the Custom House Department, we believe.—We regret to learn that for want of repairs, that at the Shoals is said to be almost worthless; and the one at Fort Constitution has a hole stove in her bottom, and needs some little repairing. Somebody ought to see that this neglect is remedied—and our Collector, the tide-waiters, the officer in command of the Fort, would each and all be blamed by the public, should a loss of life occur at any time, for lack of these boats. If the object can be attained in no other way, the Humane Society should be informed of the facts; or a subscription could readily be raised among our merchants for the purpose.

☞ See Auction advertisement of Furniture, to be sold at No. 14 Austin street, corner of Cabot, this forenoon.

Also, Sheriff's sale of Groceries, &c., tomorrow.

DIMAN'S.—Only three days more, for a chance to visit Highland Cottage, at Stratham Hill; for Mr. Diman closes on the 10th inst., and the strawberry season is drawing to a close.

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,

Blacksmith and Horse-Shoer,

NO 80 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

in this city and vicinity; and is prepared to furnish and set the same, at the regular prices for other shoes, (except for steel Shoes, which are 25 cts. extra), and warrant them to give full satisfaction in all cases. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold on better, and also to wear longer than the horse without corks, except on very hard roads.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c.; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other patterns of Shoe will be put on, to suit customers, as usual; and

BLACKSMITH JOBBING generally attended to. S. W. WEBBER.

Morning Chronicle.

An old gentleman in the city, who was remarkable for his prosy powers, had a disagreeable habit of talking continually of his "grey pony"—say what you would, it was pretty sure to be introduced. A gentleman who prided himself on his conversational powers, one day made a wager that he would converse with the old fellow without allowing him an opportunity of "mounting his grey pony," or even introducing him.—Soon afterwards, the couple who made the wager met him at a dinner, and the gentleman opened the conversation with the remark, "That's a very fine piece of salmon you've got there." "Yes, sir," said the octogenarian, "it's pretty good; but whenever I wish to enjoy salmon in perfection, I mount my little grey pony, and——" "Hang your little grey pony!" said the other; "he's cost me a dozen of wine and a supper of oysters for six."

The period of College Commencements has commenced. They will get brief reports this year. The war is a sharp censor of long speeches about the Greeks and Romans. The Homeric battles are nothing to the battles of the Great American Rebellion. The "wrath of Achilles" is a feeble emotion compared to the wrath of Miss Columbia. The American eagle is a bigger bird than the Roman vulture, and twice as vociferous. Let the eagle scream till the peril is past!—*Boston Post.*

A contemporary thinks the Charleston, S. C., Mercury is not ill-named. Light fingered and light footed was its mythologic type in legendary days; but now, instead of being the messenger of Gods, it condescends to become the *forerunner* of devils. A fast journal, truly, and very discreet, withal, if not valorous.

A party of thirty Englishmen recently arrived at Quebec under the auspices of a swindling company in London, which advertised to carry them across the continent in comfortable carriages for the moderate sum of forty guineas per head, and left them adrift in Canada.

PURE OLD BOURBON WHISKEY.

Correspondence between some of the most eminent physicians of New York and Brooklyn, and Wm. J. Cutter, Jr., Louisville, Ky:

NEW YORK May 1, 1861.

MR. WM. T. CUTTER, Jr., Louisville, Ky.:

Dear Sir—The great difficulty experienced in procuring Brandy sufficiently pure for medicinal purposes, has induced many of the physicians of this vicinity to adopt Bourbon Whiskey as a substitute, both in the hospitals and private practice; and, since the latter has come into such general use, we have reason to believe that a great deal now sold is of very inferior quality.

Presuming that your residence in the vicinity of the manufacture of Whiskey in Kentucky, as well as your skill as a chemist, will enable you to select a reliable article, and having full confidence in your integrity, we are led to inquire whether you will aid us in having this article supplied, through an Agency, with the best quality of Pure Old Bourbon Whiskey for the use of the sick.

We are, very respectfully, your obt. servants,

LOUISVILLE, Ky., July 31, 1861.

DRS. VALENTINE MOTT, Willard Parker & others.

Gentlemen—The letter of May 1st has been received. In accordance with your wishes, I have made arrangements to supply your city and vicinity with a pure article of copper distilled Bourbon Whiskey, which I trust will fully meet the requirements of your letter. Thanking you for your kind expressions of confidence, &c.,

I remain, very respectfully, your obt. servt.,

WM. T. CUTTER, Jr.

We, the Physicians of Portsmouth, having full confidence in the integrity of D. R. AMBROSE, recommend him as a suitable person to sell OLD BOURBON WHISKEY in Portsmouth, for medicinal purposes, in accordance with an arrangement made between the New York Physicians and Wm. T. Cutter, Jr., of Louisville, Ky., and a similar agreement between said Cutter and the Physicians of Boston.

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

FRANKLIN HOUSE,

Portsmouth, N. H.

The undersigned having assumed the management of this well known public house, and having made extensive improvements therein, solicits a continuance of the patronage of the traveling public that has so long been extended to the house.

A new parlor and an extensive suite of commodious and well-ventilated sleeping apartments have been added; and a separate Ladies' Entrance from Congress Street, arranged. Gentlemen with their families, or ladies unattended, will now find quiet and retired apartments connected with the street and dining hall by an independent staircase.

The house will be kept as a first class hotel in every respect, and the proprietors will spare no pains to merit the patronage of those visiting this section of the State.

A good STABLE is connected with the house, where persons visiting Portsmouth with teams, will be promptly and carefully waited upon.

MATHEWS' arnica HAIR GLOSS

This is a new and invaluable preparation for preserving and beautifying the hair.

The wonderful virtues of Arnica in allaying and removing inflammation are universally known.

ARNICA HAIR GLOSS is a combination of these virtues, with other tried and excellent ingredients.

ARNICA HAIR GLOSS stimulates and invigorates the hair, prevents it from falling out—restores it when lost—promotes its growth and strength—renders it proof against all diseases.

ARNICA HAIR GLOSS permanently cures all irritations and eruptions of the scalp, and makes it healthy and fertile. For the removal of dandruff it has no equal. Its operations in this particular are magical and permanent.

ARNICA HAIR GLOSS is unequalled as a hair-dressing compound. It not only cleanses the scalp and invigorates the hair, but it renders the latter charmingly soft and lustrous. Its odor is particularly delicate and fragrant—the proprietor having taken especial pains to secure this result.

ARNICA HAIR GLOSS is the very best preparation for the hair ever discovered.

ARNICA HAIR GLOSS, notwithstanding its surpassing merits—is retailed at only twenty-five cents a bottle, by all Druggists.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street.
BOSTON.
After an extensive practice of upwards of twenty years, continued under the auspices of the United States Patent Office in Great Britain, France and other foreign countries, Caveats, Specifications, Bonds, Assignments, and all Papers for Obtaining Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, and opinions and other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, together with an extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
Exeter, Feb. 24, 1858. Dr. Sweet:—"Sir, for the benefit of those who are afflicted as I have been with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to all other medicine I ever used for humors and consumptive complaints."
WM. P. LEAVITT.
From ELDER I CHESLEY, *Lee, May 31, 1861.*
Dr. Sweet: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without hope, natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with the case, or if not worth the price. All orders directed to DR. S. SWEET, Portsmouth, N. H., promptly attended to. may20

Portsmouth, N. H.

WEDNESDAY, JULY 9, 1862.

N. H. LEGISLATURE.

WEDNESDAY.—The Senate at the evening session passed the bill relating to naturalization, and concurred in the House amendments to bill entitled "An Act providing for the removal of foreign paupers."

In the House, the bill establishing an invalid hospital for sick and wounded soldiers was considered, and Mr. Kent, of Lancaster, stated that by the bill the Governor was authorized to procure a suitable building or buildings, at such place as he should select, and to appoint a suitable surgeon as superintendent, who might employ such nurses and medical attendants as were needed. He had been requested by the Governor to inform the House that surgeons who were among the most eminent in the State had volunteered, if the hospital was established in this way, to give their professional services gratis; and he would also state, on the same authority, that a subscription paper had been started in the city of Concord to provide means for such a hospital. Hospital supplies, also, had been offered. After considerable discussion, the bill passed.

The bill, in addition to the act in aid of the families of volunteers, was amended so as to confer the same privileges upon volunteers in the navy and in the regular army, as in the militia, and was then passed.

THURSDAY.—In the Senate, the resolution from the House appropriating money for repairs upon the Arsenal at Portsmouth, was read and referred. Committees reported the bill appropriating money for the repair of the Arsenal at Portsmouth, and one establishing a hospital for disabled soldiers.

In the House, Mr. Head of Hooksett, from the joint select Committee to whom was referred so much of the report of the Quartermaster General as relates to the subject of repairs to the State Arsenal at Portsmouth and the establishment of a new arsenal, submitted their report, recommending that the arsenal at Portsmouth be slated and the shutters be covered with iron, and sundry other repairs be made, and offered a resolution appropriating $250 for that purpose. The establishment of a new arsenal, the committee did not consider called for at the present time. The appropriation of $250 was made.

The committee on claims for aid furnished families of volunteers, reported that they had examined the claims, and stated that many of the returns, especially those from the larger towns and cities, embracing the largest amounts claimed, seem to contain errors and improper charges, and to need investigation in other respects, which it is impossible to make during the present session. They therefore recommended that the claims be referred to the Governor and Council, to be by them, in connection with the State Treasurer, further examined and finally audited and allowed; and that as fast as said claims are allowed, the same be paid, with interest thereon from August first, 1862. The resolution was ordered to a third reading.

The resolution relating to the pay of N. P. Coleman, of Newington, was indefinitely postponed, by a vote of 132 to 108.

☞ A gentleman has shown us a copy of the Christian Banner, for June 18, published at Fredericksburg, Va., J. W. Henricutt editor. It is an out-and-out loyal paper, and has been suspended for a year because the editor would not talk treason to the "purest form of human government the world has ever known." Some of the difficulties against which the editor has struggled, may be learned from the fact that, from the want of advertisements and to save labor, he is compelled to republish the editorials of one week on the fourth page of the next issue. The present number is printed on extremely poor paper, and the editor announces that unless he can obtain means to buy paper and ink, he must suspend the publication of his paper. He writes strongly and we trust his paper will be continued.

☞ Comte de Paris, Duc de Chartres, Capt. M. Mohain and Dr Le Clerc arrived in Boston on Monday evening from New York. They were accompanied by three servants and an inconceivable amount of baggage. Comte de Paris and Duc de Chartres have been on Gen. McClellan's staff for the last six months; and were in the recent battles before Richmond. They are to sail in the Arabia for Europe. The Prince de Joinville arrived in Boston on Tuesday morning.

☞ Madame Susini (late Miss Isabella Hinkley) died in New York on Saturday morning of typhoid fever. Madame Susini was a native of Albany, and received her musical education abroad. She was married to Signor Susini last year, and has recently given birth to a son, and fever supervened.

THE REBELLION.

A "distinguished general officer" of the Army of the Potomac, lately arrived in Washington, says that the rebel losses, killed, wounded and missing, must be no less than 75,000! They will admit no flags of truce for any purpose.

Generals Heintzleman, Sumner, Keyes, Franklin, and Fitz John Porter are nominated for promotion to be brevet Brigadier-Generals in the regular service and Major-Generals of volunteers for gallant conduct in the field.

It is stated in Fortress Monroe letters that the reported death of Stonewall Jackson is a canard.

The Philadelphia Press has a dispatch from Newbern 3d, stating that Gen. Burnside's entire army is in motion against Richmond.

Gen. McClellan has advanced his lines down to the Chickahominy, and no fears are now entertained of a flank movement in that direction.

Richmond papers, to July 4th, contain full particulars of the late battles. They claim a victory as a general result, but admit a severe defeat on Tuesday. The Examiner says 15,000 will not cover their losses in killed and wounded during the week. Military men on the Peninsula think 30,000 is more like the number.

A Winchester letter of the 2d reports that Gen. Geary's command has advanced into Beg Fort valley. The rebels attempted an ambuscade near Fort Furnace, but were driven. Gen. Geary holds the ground gained.

It is rumored that Com. Foote is to be placed at the head of the naval expedition, for which vessels, chiefly of the regular navy are now fitting out.

NAVAL.—Frigate Sabine, 51, has left Brooklyn yard for Newport, and other places, to fill up her crew. She has been in commission for some months, and was ordered to Fortress Monroe sometime since, but her crew being wanted for steamers, she had to remain there.

Gunboat Mohican, 10, Com'r S. W. Godon, arrived at Philadelphia on Saturday from the Gulf. The Mohican has just completed her first cruise, which began in the coast of Africa three years ago. She captured the Erie, with 900 negroes on board, and after her return participated gallantly in the attack on Hilton Head.—Her crew will be discharged and paid off and her officers relieved. The Mohican was built at Portsmouth, and is the second best vessel of her class in the navy.

CONGRESS, Monday.—In the Senate, the report of the conference committee on the bill regulating the pay of army officers, was agreed to. A bill supplementary to the District of Columbia emancipation bill, was passed; also the general pension bill.

In the House, the bill establishing arsenals at Columbus, O., Indianapolis and Rock Island, and appropriating $100,000 for each, was passed; also the bill to carry into effect the slave trade treaty with Great Britain.

INDEPENDENCE DAY passed off in Newburyport in the most quiet manner; not a drum was heard, nor a martial note, nor a ringing bell, (save one, thanks to the liberality of the south end,) nor a firing gun, except where the boys were in operation. It had been decided to have no celebration; and no extra police were necessary unless it was to call at the houses and wake up the sleepers. In the morning there was quite a collection of people at the prayer meeting in the Whitefield church. Some speeches are reported to have been made favorable to immediate and universal emancipation as a war measure. We heard of no other speeches in town.—*Herald.*

We don't believe in a man nor a city being buried before they are dead—and until Americans, especially New Englanders, have more holidays than now, it seems to be poor policy to give up or neglect any of them. "Let us laugh while we may"—and he who contributes to the mirth and fun of the world, is a benefactor.

☞ The Hygienic Teacher and Water Cure Journal, is the new name for our old friend, the Water Cure Journal, published, as usual, monthly, by Fowler and Wells, New York; with considerable improvements.

The same publishers issue the Phrenological Journal, which contains this month, a portrait of Gen. Mitchell, with a sketch of character.

☞ The Unionists of Tennessee, unanimously recommended the appointment of Col. Trigg of East Tennessee for Judge, in place of Humphries, impeached. On the very night Brownlow was imprisoned, Col. Trigg was to have been hung by the rebels, but he made his escape!

☞ The New York Post is informed that Gen. Scott has been in Washington several days, and has a room at the War Department.

☞ Com. Foote writes from New Haven to the Navy Department, under date of July 3: "My health is rapidly improving, and I hope soon to be afloat again."

☞ Mr. Abner B. Hardy, for a long period Assistant Editor of the Boston Journal, died in Boston on Monday morning, after a long illness, of consumption.

NEW HAMPSHIRE ITEMS.

—— As Mr. Horace Quinby, a stone mason, was at work in Manchester, on Monday, a heavy stone fell upon his left leg just above the ankle, crushing the bones very badly.

—— Israel Hadley, Jr., of Dunbarton, 52 years of age, was killed on Wednesday, 2d, by the falling of a limb of a tree, while engaged in pealing bark.

—— The Littleton Journal says there is a fair tide of mountain travel for the season, and business in that town is flourishing.

—— William Duncan, Esq., of Lebanon, who has had twenty or thirty years' experience as a millwright, has invented a new water wheel, which is claimed to combine more advantages than any other.

—— Will the Manchester Journal of Agriculture please give us further particulars of that hail storm? It says:—

During the storm on Friday the 27th, in Goffstown, the *hail* broke 40 panes of glass out of the house of Mr. John Dodge, *and uprooted a maple tree* in front of his house and several apple trees.

—— The second ward in Concord has a population not exceeding 1600, and among them there are 44 persons between 70 and 80 years of age, 15 between 80 and 90, and 4 over 90.

—— On the 4th, the Sabbath Schools of the two Baptist churches in Exeter held a very pleasant meeting in a grove in that town. Rev. Mr. Hooper offered prayer. The Declaration of our National Independence was read by Mr. Leonard of P. E. Academy. Mr. J. F. Moses gave an account of the settled Ministers, from the settlement of the town to the year 1861. Also of the Meeting-houses and of the origin and progress of Sabbath Schools in Exeter. Addresses were also made by other gentlemen, among whom was Mr. Nicholas E. Boyd, of Portland. Music was interspersed by the Quadrille Band of young gentlemen of P. E. Academy, and a patriotic Ode, composed by Miss Mary W. Janvrin, was sung by the children. A table, spread by the ladies, was bountifully supplied and all present were cordially invited to partake.

MORE SOLDIERS.—The call for more troops from New Hampshire is imperative; and if not answered promptly in the ordinary way, resort must be had to drafting—There is no need of it if "red tape" can be got out of the way, and the Governor and Council will look merely to enlisting fighting men, and leave out of mind party or gratification of personal friends.—*Manchester Mirror.*

There has been much *talk* among the people, of drafting, in Massachusetts, New Hampshire and Maine, within a few days; but nothing official has yet appeared. It is reported that Gov. Berry is opposed to it, and prefers offering never so large bounty for recruits. Time will show what is necessary to be done; and although it is a very pleasant thing to be able to say that our whole army are volunteers, yet *drafting* is as much more equitable than *volunteering*, as *taxation* is more equitable than *subscription*.

Drafting was resorted to in the war of 1812-15, and was not productive of any great evils. Nor would a well managed draft, now, be anything to complain of.—The governor of New Hampshire could issue a table of all the towns, with the number of men needed from each, to make up our quota. Suppose Portsmouth to be called upon for 125, to make out the 300,000. The Mayor and Aldermen call for volunteers, giving a certain bounty to those enlisting in 10 days. At the close of that term only 25 have volunteered. Now put in all the names of able-bodied men from 18 to 45, say 1000 in number, and draw out 100, exactly as we draw jurors. Some would be drawn who, not choosing to go, would readily find good substitutes, who would be very glad of the *bonus* which is usually paid in such cases.

We suppose, however, that the appointment of a few popular and efficient Colonels, with liberty to officer their own regiments as soon as raised, would render drafting in this State unnecessary.

☞ Canvassers have commenced a census of Boston, with a view to ascertain such as are liable to be drafted for the army. The method of procedure is to visit each house, ascertain its male inhabitants, their age, physical ability, &c., &c. The inquiry is extended to such as are able-bodied, up to the age of fifty.—The quota of Boston under the new call of 15,000 from Massachusetts is about 2700. There are now about 5000 in the army from that city.

POWDER MILL EXPLOSION.—At about 8 o'clock Monday morning two of the Oriental Company's Powder Mills at Gorham, Me., blew up. Augustus Little, of Windham, was instantly killed. Albert Glidden, of Effingham, N. H., and Mark Varney, of Windham, who were shockingly mutilated, have since died. There was no one in one of the mills at the time of the explosion. There was a loss of about twenty-five tons of powder. Cause of explosion unknown. One of the men killed commenced working in the mill on the morning of the explosion. Some others were slightly injured.

An officer had recruited an awkward squad, who would never draw up in straight line, do what he might. One day he held up both hands in horror, as he looked at the line, and exclaimed—"Oh! what a bent row! Just come out, boys, and look at it yourselves."

☞ Ex-Gov. Boutwell of Massachusetts has been tendered the appointment of Commissioner of the internal revenue under the tax law.

☞ We learn that Dinan's Highland Cottage, Stratham, is to be kept "open" for visitors during the whole month of July.

☞ The President has signed the bill to prohibit polygamy and annul the polygamic laws of the Territory of Utah.

NEARLY READY!
The American Annual Cyclopædia,
—and—
Register of Important Events
OF THE YEAR 1861,
Embracing Political, Civil, Military and Social Affairs, Public Documents, Biography, Statistics, Commerce, Finance, Literature, Science, Agriculture, and Mechanical Industry.
The form of a Cyclopædia has been selected, as affording room for the greatest variety of details, without becoming too minute and tedious. The work is already in an advanced stage of preparation, and will be issued as early in the year as its proper completion will permit. The volume will be in the style of the New American Cyclopædia, having not less than 750 pages, royal 8vo.
The work will be published exclusively by subscription, and in exterior appearance will be at once elegant and substantial.
In Cloth, $3. In Library Style, leather, $3.50.
Specimen sheets may be seen at the bookstore of the subscriber, who is the agent for Portsmouth.

☞ We are indebted to John S. Harvey, Esq., of this city, for his annual remembrance of us, in the shape of a well-filled basket of large, handsome and luscious Tartarian and white heart Cherries, from his garden. Mr. Harvey, for some time a neighbor of ours in business, and always one of the stanchest and most liberal patrons of the Chronicle, has of late years complimented us thus personally, each recurring season. May a good cup of cherries ever hang within his reach, is our disinterested wish.—We wonder if he can "insure a crop," at Home.

We have also to acknowledge the receipt of three boxes of superb seedling Strawberries, left at our residence, "not for any public benefit, but for your own personal comfort—you will please make no mention of them." Well, we won't, then, except to say that they were worthy the season, the brand, and the attention of one of our amateur gardener, who furnishes this market with some of the very best fruits.

☞ The steam tug-boat Boston arrived at the Portsmouth Navy Yard, on Tuesday afternoon, with seventy seamen for the U. S. gunboat Sonoma, which immediately went into commission.

☞ We learn that the Committee of Arrangements for the Portsmouth 4th of July Celebration, were not successful in raising enough funds to pay all their contracts.—The exhibition at the Temple took many from their Promenade Concert, which was expected to be quite remunerative; so that funds are needed to settle their bills. We hope some movement will be taken, either by our citizens or City Government, to assist the Committee, who have given to the public so well conducted and successful a celebration.

☞ We learn that the famous Denier Brothers, whose exhibitions of rope-walking, &c., in this city, on the Fourth of July, were so successful and satisfactory to an immense crowd of people, citizens and strangers,—are to give similar exhibitions at Rye and Kittery, and perhaps Hampton, in a week or two. Also that it is proposed that a complimentary benefit be given them next week in Portsmouth, in consideration of their free out-door exhibitions on the 4th.

☞ Among the *minor* accidents on the Fourth, one of the little misses who were to sing at the Pavilion, fell through the elevated rier of seats to the ground—causing her literally to "sing low," but doing no serious injury, we believe, though the little girl was carried home.

One of the Assistant Marshals of the Procession, also,—whose name would indicate that he should *keep* on the ground,—as he was passing the Chronicle office before the Procession formed, clapped his spurs into his horse; and the said horse clapped *his* heels high in the air, throwing the rider,—whose name, by the way, was *not* Rider, over his horse's head, and landing him flat on his back, in the middle of the street. He was soon up and off again—not off the horse, but he rode off this time—having first taken off his spurs. We don't know as we ought to mention such an incident; but as it was done directly in front of our office, we suppose the horse, at any rate, wished for "a notice."

☞ We understand that the Concord Railroad Co. are preparing to make extensive additions and improvements to the C. & P. Railroad wharf at the North End in this city, at an estimated outlay of $10,000 or so. Superintendent Gilmore and President Kendrick are sparing no efforts to have things right on the new old line.

☞ "Perley" telegraphs that the Committee of Conference has disagreed on the House amendment to the Naval bill providing for the purchase of the land adjoining the Charlestown Navy Yard, but agreed to purchase a portion of Seavey's Island, opposite Portsmouth Navy Yard.

☞ We learn that Capt. Towle, with his fine Company of Boy Lancers (otherwise Portsmouth Light Guard,) are to make an excursion to Manchester and Concord to-day per invitation of Gov. Berry; Col. Gilmore, with his usual liberality, having complimented them with a free ride over the C. & P. Railroad.

☞ Capt. John Murray, of Newcastle, of the Fifth New Hampshire Volunteers, left here on Monday, to rejoin his regiment before Richmond, having in a great measure recovered his health.

☞ The alarm of fire about half past eight o'clock on Tuesday evening was false.

☞ See Bachman & Co.'s new advertisement of low prices for dry goods and millinery.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. junez1 1md

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,

Blacksmith and Horse-Shoer,

NO 80 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

In this city and vicinity; and is prepared to furnish and set the same, at the regular prices for shoes, (except for steel Shoes, which are 25 cts. extra,) and warrant to give full satisfaction in all cases. The improvement consists in the nails being set in a steel groove which protects the heads, and leaves the Shoe nailing clean on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, splints, sore heels, reaching, &c.; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, if equal to any other.

Morning Chronicle.

THE AMERICAN FLAG is one of the most beautiful that floats upon any land or sea. Its proportions are perfect when it is properly made—one-half as broad as it is long. The first stripe at the top is red, the next white, and these colors alternate, making the last stripe red. The blue field for the stars is the width and square of the first seven stripes, viz: four red and three white. The colors of the American flag are in beautiful relief, and it is altogether a most beautiful national emblem. Long may it wave untarnished. He who would erase one stripe or dim one star upon it, "acts a traitor's part, and deserves a traitor's doom."

☞ As one of the features of these extraordinary times, it may be mentioned that the appropriation of $150,000 for secret service, one of the items in the army appropriation bill, has been increased in the Senate to $300,000.

The utter-most parts of the earth are supposed to be the parts where there are most women.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert E. Haich, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Also on hand, the celebrated and unequalled

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed, in the first instance, to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, Strictures, and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the thousand and horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth are: Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous apprehensions, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contracting matrimony, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other unnatural derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE.

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

MATHEWS'

VENETIAN LIQUID

HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been USED BY THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR!

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most permanent Dye ever used.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street.
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the novelty of any intended patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent can be obtained by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not unnecessarily superior to, any which can be offered them elsewhere. The Testimonials bel ow given prove, that, in the MOST SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe that he can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enable him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr R. H. Eddy has made for me THIRTEEN applications, all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

☞ ATTENTION, THE WHOLE! ☜

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my usual hours, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.

Exeter, Feb. 24, 1858. Dr. Swett:—Sir, for the benefit of those who are afflicted as I have been, with a tumor, that prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved, therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. P. LEAVITT.

From ELDER I. CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named."

ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

THURSDAY, JULY 10, 1862.

N. H. LEGISLATURE.

MONDAY.—The Senate passed a resolution authorizing the State Treasurer to borrow $250,000 for the temporary use of the State. On motion of Mr. Smith, Resolved—That the business of the present session be brought to a close on Wednesday next at 4 1-2 o'clock, A. M.

In the House, a resolution was adopted that the Committee on Military Affairs be instructed to inquire as to the expediency of providing for an early enrollment of the militia of the State, and for measures for drafting any portion of the same, under the direction of the Adjutant General.

The bill authorizing the Eastern Railroad in N. H., and the Eastern Railroad in Mass., to unite and form one company was postponed to the next session, with an order that notice be served on all parties interested. The bill to exempt sewing machines from attachment, was passed.

A resolution was adopted that the Governor be authorized to accept the services of so many volunteer Surgeons, resident in this State, who shall have passed an examination as prescribed for candidates for Surgeons in the Regiments, or have been ten years in the active practice of the profession including surgery, as the exigencies of the time may demand; said Surgeons to devote their time and skill to the care of the sick and wounded soldiers from this State, now at or near the seat of war.

The Committee on Military Affairs, to whom was referred a joint resolution requesting the Governor to correspond with the President regarding the acceptance of volunteers from this State for a period of three or six months, reported that they had considered the same, and are of the opinion that the raising of troops for so short a period would materially retard enlistments for the war, as now called for by the President; and further, that if troops for three or six months are needed, ample power is now vested in the Governor to answer any calls upon him for such troops.

The following resolutions of thanks to the 3d Regiment were passed:

Resolved by the Senate and House of Representatives in General Court convened: That the thanks of this Legislature are hereby tendered to the officers and soldiers of the Third Regiment, Lieut. Col. John H. Jackson commanding, for their bravery and soldierly bearing at the late severe encounter on James Island, near Charleston, S.C., where, amid all the perils and uncertainties of the conflict, they maintained the honor of the State, and won for themselves enduring praise; and that while the State appreciates their bravery and devotion, it shares in the sorrows of the friends of those who have fallen for their State and country.

Resolved; That these resolutions, duly attested, be forwarded to the field and other officers of the Regiment, and that they be read at the head of the command.

NEW HAMPSHIRE ITEMS.

—— Perley writes to the Boston Journal that at a recent examination of the scholars of the Roman Catholic educational establishment at Georgetown, Gen. Whipple of New Hampshire saw several premiums awarded to his daughter, who is at the Academy of the Sisters of the Visitation, and a silver medal to his son, who is at the Georgetown College.

—— On the 4th inst., a young man named Charles Lowell, from Salisbury was very seriously injured on the cars near Tewksbury's pond in Grafton. While walking across an open-topped car he fell off the plank used for a walk, and struck his head on a grind-stone, thereby fracturing his skull. Medical aid was summoned but it is feared he cannot recover.

—— A letter in the Manchester Mirror from James Island, S. C., in an account of the recent fight, says that when Gen. Wright sent a flag of truce to obtain information in regard to the killed and wounded left on the battle field, much inquiry was made by the rebels as to who sat on the cream colored horse in the fight, (Col. Jackson of the N. H. 3d,) and it appears the gunners paid Col. J. especial attention. The rebels acknowledged that the 3d regiment made sad havoc on their reinforcements as they came up and said enough to intimate their loss was about 300.

—— Patrick Sullivan, of Manchester, was one of the crew of the gunboat Mound City, which was blown up June 17th, while engaged in the attack on the rebel batteries at St. Charles, only 2 officers and 26 men being left, out of 19 officers and 167 men on board. Sullivan escaped by jumping through the port and swimming ashore. He formerly worked in the Manchester Mirror office, and that paper says:—

Patrick is very smart. He was at the taking of Fort Henry and Fort Donelson, at the bombardment of Island Number Ten, and was on the Carondelet when she made the famous run by the batteries in the night, was at the taking of Memphis, and finally in the fatal expedition up White River.—All his letters breathe the true spirit.

☞ Rev. Mr, Atwell will be installed Pastor of the Universalist Church in Newburyport, this (Thursday) afternoon.—Charge to the Pastor by Rev. A. J. Patterson of Portsmouth.

THE REBELLION.

Large and enthusiastic meetings are being held in different portions of the North, to encourage enlistments under the new call. Com. Foote presided over a meeting in New Haven on Tuesday evening, although disabled by his wounds and unable to walk.

The dispatches from Fortress Monroe report Gen. McClellan had advanced seven miles up the James river. Three regiments of cavalry had gone up the river to join him. The flag-boat of Gen. Burnside had arrived at the Fortress.

The Washington Star says—"On Friday last a division of Gen. McDowell's corps took up their line of march for Warrenton, Va., which point they now hold. We presume this movement is preparatory to a prompt and proper concentration of Gen. Pope's army."

The bombardment of Vicksburg was still continued on the 3d.

A New York dispatch states that two divisions of Gen. Burnside's army were on shipboard and had actually started to join Gen. McClellan's army ten days ago. The expedition was nearing Hatteras, when a boat from Roanoke Island, with dispatches for Gen. Burnside containing the intelligence that Gen. McClellan's army was in Richmond, intercepted the fleet. Upon this information the troops were ordered back to Newbern, and a boat was sent to Fortress Monroe to obtain positive information. The return of the boat brought the true story, and matters were arranged accordingly. The fleet doubtless passed up James river Monday night and Tuesday morning.

A dispatch from Memphis, 6th, to the N. Y. Tribune, states that the Little Rock Gazette says Gen. Curtis has crossed Black river, and is coming to the Mississippi.—Gen. Hindman issues an appeal to the people of Arkansas to engage in guerilla warfare. The Arkansas State Government has been removed to Hot Springs.

☞ The Dover Gazette criticises the political course of the Maine Democrat, in reply to some remarks from the latter paper, and says:—

"We ought to vote for men who entertain and are guided by the *principles* of Democracy, and not for the men who have *discarded* the principles and only retain the *name*."

The Democrat replies:—

"We have some among us who have, in our opinion, discarded both the *name* and the *principles* of democracy. They are such as ask democrats to sustain this Republican-abolition war.—The Gazette is read to some extent in our own county, and we would by no means have the democrats of Maine regard its teachings as worthy of acceptance. Our New Hampshire Democratic neighbors have at least *one* true and able defender of Democracy—the *N. H. Patriot*."

☞ A dispatch from Pacific Springs, Utah, July 7, says—"The Indians have taken all the stage stock from three or four stations east of the Rock Ridge, 32 head in all, killed two emigrants and taken their stock. They also took 140 horses from Californians at Yo Springs. A war with the Cheyennes, Snakes and two or three bands of Sioux appears inevitable.—There are only 500 troops on the whole line, which is not enough for its protection."

☞ A pamphlet of thirty-two pages has been issued from the New York Tribune office, containing the Tax bill, which is given word for word, and an alphabetical Recapitulation of every article to be taxed and the amount of the tax. Price six cents, postpaid; $4 per 100, if sent by express; $5 per 100, if by mail.

☞ We learn that Mr. Thomas B. Rand, of Boston, formerly of Portsmouth, has been commissioned Captain in the 33d Regiment Massachusetts Volunteers. He will make a popular, efficient, and accomplished officer.

THE REBELLION RECORD, edited by Frank Moore, and published by George P. Putnam, New York, has reached its nineteenth number, and still retains the high reputation for reliability and value which it acquired at the start. Each monthly number contains a diary of verified occurrences, with documents, narratives, poetry, anecdotes, and a vast amount of other important and interesting matter connected with the rebellion. It also gives each month fine steel-engraved portraits of two of the notable men of the time, and these alone are worth the price of the number. No. 19 contains portraits of Com. Foote and Gen. Pope. Public libraries, at all events, and private libraries which contain any works relating to the present war, should have Putnam's Rebellion Record. Charles T. Evans is the general agent.

The Newburyport Herald speaks of Grace's Salve as follows: "Its efficacy has been fully tested by hundreds of persons in this neighborhood, who have given certificates acknowledging benefits derived from its use. Every family should have a box on hand; and nothing could be more convenient for persons going into the army or to sea. It might save trouble, suffering and money. Try it.

AUBURN BAND OF HOPE, AND OTHER MATTERS.—*To the Editor of the Portsmouth Chronicle.*—Perhaps some of your readers may be interested to know something of what is going on in our little town. On Sunday, the 29th ult., Mr. Garrison occupied the desk of the Methodist Church in the forenoon, and at 5 o'clock, spoke on slavery and the war, at the Congregational Church, to a full house; many coming from Chester, Derry and Candia; and he spoke to general acceptance. The respective pastors attended and conducted the devotional exercises. A strong effort was made to close the Congregational House, but by the liberality of the pastor and some leading members it was opened.

Four or five years ago, the ministers of the two religious societies, accompanied by another individual, canvassed the town, by holding meetings in the eight school houses, and secured the names, as far as they were able, to a pledge, to abstain from the use of all intoxicating drinks, tobacco, and the use of profane language, of those under 18 years of age, and organized them into a Band of Hope. We now have the names of over two hundred and sixty. There are probably some violations, but I think as small a proportion of apostates as of any organization whatever. We hold quarterly meetings, which are usually addressed by some neighboring clergyman. We held our meeting on the 4th at the Congregational Church, and had an address by our old townsman and fellow laborer in the cause, Rev. J. W. Ray, with a dialogue on tobacco between two boys and two girls; with short addresses by others. We then repaired to a grove and had refreshments in picnic style, and had a social and good time generally. The house was well filled, partly by people from out of town; and I think the day pleasantly and profitably spent, much more so than by the old fashioned rum drinking, and bombast orations. We have thus celebrated the day every year since the formation of our Band.

BENJAMIN CHASE,
Superintendent of the Band of Hope.
Auburn, N. H., July 7th, 1862.

☞ Dover Point and the surrounding region, present some of the most charming landscapes in this vicinity—whether viewed from the land or water. A drive to the promontory at the Ferry Ways, Bloody Point and the former site of Piscataqua Bridge—of which the only remains are now the grass-clothed stone abutments and the shell of the old toll-house and other buildings on the island and opposite shore—will give you a charming ride and the most picturesque view to be found in this section.—The rivers, bays and creeks, with well-wooded banks, stretch away on all sides,—the trees and fields are refreshingly green and luxuriant, and the old ruins across the river, give the spot an ancient, moss-grown aspect, the like of which we know not where to find in this vicinity.

Or, a sail to the Dover Point House, or Great Bay, is delightful. Mine host Hanson knows how to do the right thing for guests, and is sure to do it. And if you prefer, you can ride to Miss Nancy Drew's Ferry, and leave your team, and signalize to Mr. Hanson to send his boat over—which will give agreeable variety.

But we had the good luck to be counted in as one of a party of a score or more, who rowed up in the Sunnyside, the other evening. And such an evening! We don't dare to start our pen in the task of describing the romantic in that trip of "moonlight, music, love and flowers." Not only was the Dover Point House "woke up" by music, dancing, bowling, and so forth; but the oft-repeating echoes were roused among the hills all along the river's banks. Somewhere near the small hours, after a good lunch in Hanson's parlors, the merry party *buckled* on their water-proofs, and glided down by Frankfort, boiling rock, and the echoing hills, to their homes. How are those buckles?

☞ As an evidence of the interest felt in the Fourth of July celebration, by our suburban neighbors, we have already somewhat indefinitely stated that three of the finest cars in the Floral Procession were from Lafayette Road,—one arranged by Mr. James Winchester, one by Thomas M. Lang, Esq., and the other by Mr. John Marden. We hope on another occasion to see still more of the same sort from the rural districts.

☞ It has been ascertained that Wilbur F. Lamb, formerly of this city, a member of Co. I, Mass. 10th regiment, who was reported missing by his Colonel a month since, is lying at the hospital at Portsmouth, Va., having been overcome by illness while on picket duty, and removed immediately to the Hospital.

HAYING, that season of much romance in idea, and more real rub and tug in experience, has been commenced in good earnest. The crop is rather more than an average yield in this region, but the weather thus far has been "very uncertain," perhaps more so than usual.

☞ On Monday afternoon a sub-marine battery was towed to the Washington Navy Yard by a tug from Philadelphia. As it lies in the water it resembles a sturgeon; and is about 30 feet long and 6 in diameter.

CONGRESS, Tuesday.—The Senate refused to agree to the House confiscation bill,—14 to 23,—insisting on its amendment—28 to 10—and asking for a Committee of Conference. The resolution for the expulsion of Senator Simmons was referred to the Judiciary Committee—31 against 7. A bill to amend the act of 1796, calling on the militia to suppress invasion, was introduced. An amendment to the bill equalizing the grade of naval officers, was adopted, that naval officers have the same pay as the same rank of army officers, and disallowing rations to retired officers. The grade of Admiral was changed to Rear Admiral.

The House concurred in the report of the Committee of Conference on the Treasury Note bill. The Senate bill defining the pay and emoluments of officers of the army was passed. One of the sections empowers the President to discharge any officer unsuitable for duty, or whose dismissal would promote the public interests. Another bestows full citizenship upon persons born abroad after one year's residence, on condition of honorably serving in the army. The House insisted on its disagreement to the Senate substitute for the Confiscation bill, and consented to a Committee of Conference.

—— The Boston Journal has the following dispatch from Concord, July 8th:—

The Tenth N. H. Regiment is to be composed of Irishmen. Capt. Donahue of the Third Regiment, a resident of Manchester, is to be Colonel, and John Coughlin, a member of the Legislature from the same city, is to be Lieutenant Colonel, Jesse T. Anger, Major. Meetings for the encouragement of volunteering are to be held in all the towns of the State, and everything indicates a noble response from the old Granite State.

—— You generally have to pay a fair price for "having your picture taken," but in the Manchester Police Court, Tuesday, Ann Castles, for taking a daguerreotype, was fined $7 and costs, $3.83, and ordered to pay the owner $1.50.

—— The mercury, in Concord, stood at 95° in the shade on Sunday last, and at the Second Advent House of worship the minister stripped off his coat and preached in his shirt sleeves. Several gentlemen in the room liked the move, and "did likewise," with the exception of the "preaching."

——A photographic firm in Concord are preparing a "Rogues' Gallery" in which they will put the pictures of all those who have had photographs of them, which are now unpaid for. These pictures will be placed in a conspicuous place.

—— The bonds of Manchester for $22,500, due July 1, 1862, have been paid by issuing new bonds, running twenty years. Mayor Bunton sold the bonds at a premium of *five per cent*, getting for the Treasury $1125. The bonds were taken by private individuals. The interest on them is six per cent, payable semi-annually.

☞ At the naval rendezvous in this city there have been recruited nearly seven hundred men for the U. S. Navy. Of these there were about one hundred seamen, one hundred ordinary seamen, two hundred and fifty landsmen, nineteen boys, and the remainder were coal-heavers, firemen, &c.—The seamen are generally sent to the receiving ship Ohio, at the Charlestown Navy Yard, while the firemen, coal-heavers, &c., go on board the steamers which are fitted out here.

HALL'S JOURNAL OF HEALTH, of which we have received the May and June numbers, is a live work, and treats the subjects which it discusses, in a common-sense way, that none can fail to understand. The editor announces his object—to show how disease may be avoided, and that it is best, when sickness comes, to take no medicine without consulting a physician. It is published at only $1 per year.

☞ The papers say that gold has been discovered in the brick clay which underlies the city of Philadelphia, to such an extent as to warrant the belief that in the ten square miles area occupied by the city, there is ten times more gold than has been found in California. The experiments with the clay have been made under the direction of an officer of the U. S. mint.

A SECESSION FAMILY IN BOSTON.—On Tuesday, F. S. Gordon and his sons, avowed secessionists, were brought before E. Merwin, Esq., U. S. Commissioner. After a partial hearing, the case was continued until Thursday.

☞ Just at the close of the session of the U. S. Senate, on Tuesday, a bill was introduced giving the President power to call out the militia of the country whenever it was deemed necessary, and when such call was made none to be exempt on account of color, caste, or nationality.

☞ It is currently reported that Congress will adjourn *sine die* next Monday. The business has been reduced to only a few prominent measures, and the other matters will be disposed of without much controversy.

☞ Gold advanced to 12 per cent. premium in New York on Tuesday, and in some cases was sold at still higher rates, there being rumors of an export duty.

NAILS IN FRUIT TREES.—A singular fact, and one worthy to be recorded, is mentioned by Mr. Alexander Duke, of Albermarle. He states that while on a visit to a neighbor, his attention was called to a large peach orchard, every tree of which was totally destroyed by the ravages of the worm, with the exception of three, and these were the most thrifty and flourishing peach trees he ever saw. The only cause of their superiority known to him, was an experiment made in consequence of observing that those parts of worm-eaten timber into which nails had been driven were generally sound. When his trees were about a year old, he drove a tenpenny nail through the body, as near the ground as possible; while the balance of his orchard had gradually failed, and finally yielded entirely to the ravages of the worms, these three trees, selected at random, treated precisely in the same manner with the exception of the nailing, had always been healthy, furnishing him at the very period with the greatest profusion of the most luscious fruit. It is supposed that the salt of iron afforded by the nails is offensive to the worm, while it is harmless, perhaps beneficial, to the tree.

A chemical writer on the subject says: "The oxydation or rusting of the iron by the sap, evolves ammonia, which, as the sap rises, will of course impregnate every particle of foliage, and prove too severe a dose for the delicate palate of intruding insects." The writer recommends driving half a dozen nails into the trunk. Several experiments of the kind have resulted successfully.—*Scientific American.*

☞ Patrick McCollough, a pedlar, belonging to Providence, R. I., died very suddenly in Newburyport, on Monday afternoon last. After being in a house a short time, he complained of being unwell; a physician was sent for, but the man was beyond the reach of medicine, having ruptured a blood vessel and died from hemorhage.

☞ Counterfeit halves and quarters were quite plenty in Portland on the 4th. They are very accurate in the get up and can only be detected by a trifling lightness, or by acid.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Fresh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Stiffness, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand. For it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money is to be refunded.

A Real and Great Improvement
IN HORSE SHOES.
S. W. WEBBER,
Blacksmith and Horse-Shoer,
NO 80 STATE STREET, Portsmouth,
Has purchased the sole right to manufacture and use
Cate's Patent Grooved Horse Shoes,
in this city and vicinity; and is prepared to furnish and set the same at the regular prices for other Shoes, (except for steel Shoes, which are 25 cts. extra), and warrant them to give full satisfaction in every instance. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

PURE OLD BOURBON WHISKEY.

Correspondence between some of the most eminent physicians of New York and Brooklyn, and Wm. J. Cutter, Jr., Louisville, Ky:

NEW YORK May 1, 1861.

MR. WM. T. CUTTER, Jr., Louisville, Ky.:

Dear Sir:—The great difficulty experienced in procuring Brandy sufficiently pure for medicinal purposes, has induced many of the physicians of this vicinity to adopt Bourbon Whiskey as a substitute, both in the hospitals and private practice; and, since the latter has come into such general use, we have reason to believe that a great deal now sold is of very inferior quality.

Presuming that your residence in the vicinity of the manufacture of Whiskey in Kentucky, as well as your skill as a chemist, will enable you to select a reliable article, and having full confidence in your integrity, we are led to inquire whether you will not aid us in having this market supplied, through an Agency, with the best quality of Pure Old Bourbon Whiskey for the use of the sick.

We are, very respectfully, sir, yours truly,

DR. VALENTINE MOTT, WILLARD PARKER & others.

Gentlemen:—Your letter of May 1st has been received. In accordance with your wishes, I have made arrangements to supply the city of New York with a pure article of copper distilled Bourbon Whiskey, which I trust will fully meet the requirements of your profession, and merit you for your kind expressions of confidence. &c.,

I remain, very respectfully, yours truly,
WM. T. CUTTER, Jr.

We, the Physicians of Portsmouth, having full confidence in the integrity of D. R. AMBROSE, recommend him as a reliable person to sell OLD BOURBON WHISKEY in Portsmouth, for medicinal purposes, in accordance with an arrangement made between the New York Physicians and WM. T. CUTTER, Jr., of Louisville, Ky., and a similar agreement between said Cutter and the Physicians of Boston.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases, (or the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never yet failed in first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Mercurial Disease, and diseases in the secrecy of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary Vice, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating marriage, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

MATHEWS'

VENETIAN LIQUID

HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been USED BY THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most permanent Dye ever yet offered.

BURIED TO-DAY.
BY MISS MULOCH.

Buried to-day,
When the soft green buds are bursting out,
And up on the south wind comes a shout
Of village boys and girls at play
In the mild spring evening gray.

Taken away,
Sturdy of heart and stout of limb,
From eyes that drew half their light from him.
And put, low, underneath the clay,
In his spring—on this spring day.

Passes away
All the pride of boy-life begun,
All the hope of life yet to run!
Who dare to question when One saith "Nay"?
Murmur not—only pray.

Enters to day,
Another body in churchyard sod,
Another soul on the life in God.
His Christ was buried—and lives alway;
Trust Him, and go your way.

YANKEE CONTRIVANCES IN THE CHURCHES OF BOSTON.—If the organ-blower's occupation is not already gone, there appears a fair prospect that the period is not very remote when the organist may dispense with the services of his "assistant." In the new Methodist Episcopal Church on Tremont street, Boston, the organ-blowing is performed by *water power*—a small stream of Cochituate being introduced, which does the work admirably, without getting the "sulks" and quarreling with the organist. All that the latter has to do is to turn a stop cock, which lets on the water, and the organ bellows are put in motion, and supply all the wind desired. In the new church spire of Rev. Dr. Gannett, also in the City of Notions, there is a fine chime of bells which is to be played upon by means of *electricity*, so that the performer may cause them all to sound exactly in the respective order he may desire, while seated at a key-board similar to that of an organ.—*Scientific American.*

WHAT IS HEAT LIGHTNING?—The flashes of lightning, often observed on a summer evening, unaccompanied by thunder, and popularly known as "heat lightning," are merely the light from discharges of electricity from an ordinary thunder cloud beneath the horizon of the observer, reflected from clouds, or perhaps from the air itself, as in the case of twilight. Professor Henry says that Mr. Brooks, one of the directors of the telegraph line between Pittsburgh and Philadelphia, on one occasion, to satisfy himself upon this point, asked for information from a distant opera for during the appearance of flashes of this kind in the distant horizon, and learned that they proceeded from a thunder storm then raging two hundred and fifty miles eastward of his place of observation.—*Scientific American.*

☞ ATTENTION, THE WHOLE! ☜
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
Exeter, Feb. 24, 1858. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints".
WM. F. LEAVITT.
From ELDER I CHESLEY, *Lee, May 31, 1841.*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not come up with his sign, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may29

Morning Chronicle.

FRIDAY, JULY 11, 1862.

THE REBELLION.

The President went up James river on Tuesday, on a visit to the army. It was reported at Fortress Monroe, that Gen. Halleck was with the party accompanying Mr. Lincoln.

Memphis is to be strongly fortified immediately, that less force may be needed for holding and protecting it.

A battery in the vicinity of Ellis Cliff and Rodney, Miss., which the rebels had prepared to annoy our fleet, was shelled out by our gunboats on the 26th ult.

The correspondence of Forney's Press, dated U. S. steam sloop Brooklyn, June 28, says:

"All hands were called early this morning to attack the batteries of the city of Vicksburg. The first gun was fired at one o'clock. The firing was intense. The Hartford, Richmond, and the gunboats have passed the batteries and city without silencing them. The Brooklyn received orders not to pass a battery without silencing it. She remains below. The loss on the Hartford was 1 man killed and 11 wounded. That on the Richmond was 1 killed, (the Master's Mate,) and 6 wounded."

Gen. Mitchell has been assigned to a command under Gen. Pope. The Washington Star says there is now quite a division of Gen. Pope's army at Front Royal.

A letter in the N. Y. World says that Com. Farragut was wounded in the head during the Vicksburg engagement, but the injuries were not considered dangerous.

A New York dispatch states that a Richmond paper of the 3d reports Magruder's and Johnston's divisions frightfully cut up, and the loss of officers very great.

The number of our prisoners at Richmond is 4500. Richmond is so crowded with wounded that it is proposed to put our men on the islands in James river rapids, where a large guard is unnecessary. The rebel army is in danger of complete demoralization. The paper says that when whole divisions turn their backs upon the foe, the very safety of the army is imperiled.

Parson Brownlow writes that 8000 rebel troops at Knoxville, Tenn., are on the point of leaving for Atlanta, Ga. Secesh citizens are going the same way.

A dispatch dated Vicksburg 9th, says that mortars from above and below continue to shell the city. The rebels have a number of siege guns mounted on field carriages, which they transfer from point to point, as the previous positions are made untenable by our guns. Gen. Williams has planted a field battery opposite the city, which causes considerable annoyance to the rebel gunboats. The work on the canal progresses rapidly and many more contrabands are employed.

A Washington dispatch, 10th, says no intelligence of public interest has been received from the army of the Potomac for several days, further than that it is improving in strength and efficiency.

FROM NASSAU.—Nassau advices to the 28th ult. have been received. The rebel steamer Cecil was totally wrecked in Abaco; part of her cargo was saved, including six brass guns marked Vienna. The rebel steamers Nashville and Kate sailed on the 21st for New Inlet, N. C., but were chased back, the former getting into Gun Cay, Abaco, and the latter into Eleuthera. The Ovieto was still under seizure by the British war steamer Greyhound, with a prize crew aboard.

☞ A gentleman who has just returned from the Peninsula, says very few of the officers or soldiers whose duties do not require it, can tell the day of the week or month! This is not for lack of intelligence, but from the fact that there are "no Sundays in war," and consequently no starting place to reckon from.

☞ The Portland Press says "quite a demand for trusses has been made within the past day or two—say since the publication of General Orders at Augusta. We hope this bears no connection with the *rupture* now existing between the Government and the rebels."

☞ It is said that dispatches have been received at Washington from Columbus, O., stating that Vallandigham has made a speech there for the vigorous prosecution of the war, declaring that the rebellion should be speedily put down at the point of the bayonet, and the abolitionists by the ballot-box.

☞ "As the present constitution and state laws of Illinois," the Gloucester Telegraph says, "already proscribe blacks, the vote on the negro question makes no difference in their relations, and would make none, even if the new constitution had been adopted."

—— A public meeting was called in Exeter for Thursday evening, to raise funds to send a surgeon to look after the volunteers from that town. A mass meeting is to be held next week to increase enlistments.

—— The New Hampshire Legislature adjourned *sine die* on Thursday forenoon.

NEW HAMPSHIRE ITEMS.

—— At the Law Term of the S. J. Court, recently held at Manchester, A. L. Mellows, Esq., of New Market, was admitted to the Bar of this State, as an Attorney at Law.

—— The 5th N. H. regiment recently sent home $25,000 of its pay.

—— Drown Potter, son of Hon. Chandler E. Potter of Hillsborough, was killed at Gaslick's Landing, in front of Richmond, on the 13th of June. He was Quartermaster Sergeant of the 16th Michigan regiment.

—— A new Post Office has been established at Wilson's Crossing, Rockingham Co., and Warren Richardson has been appointed Postmaster.

—— The members of the House of Representatives presented, on Tuesday evening, Hon. Edward A. Rollins, their Speaker, with an elegant cane. It was presented by Col. Henry O. Kent in an appropriate speech, to which the Speaker happily responded. The members also presented Uriel L. Comings, the Senior Doorkeeper, with a handsome watch.

—— There are between 500 and 600 soldiers enlisted for the 9th Regiment, and quite a proportion of this number are now in camp in Concord.

—— Two little boys, sons of Mr. Orlando Young of Marlbury, aged about 11 and 7, were drowned on Monday, while fishing in a mill pond near their father's house in that town. It is supposed that one fell in and the other, in attempting to rescue him, shared his fate.

—— The Governor and Council have decided to organize an Irish regiment.—Michael T. Donahoe, appointed Colonel of the regiment, is of Irish parentage, and was born in Lowell, Mass. The Manchester American says:

"He is a man of talent, taste, and refinement. He raised a company for the Third Regiment, and during his connection with the army has gained a name which the most ambitious might well envy. His age is 24 years.

John Coughlin, the Lieut. Colonel of the regiment, was born in Vermont about 25 years ago, and like his superior officer is of Irish parentage. In 1859, a few months after reaching his majority, he was elected to the Legislature from Ward 5, and has been returned every year since. For two years he has been a member of the Board of Aldermen and School Committee of Manchester. In every position he has acted with prudence and fidelity, and has exerted a positive and beneficent influence.

Jesse F. Angell, now Major Angell, has had military experience, has been in the Mexican war, and seen actual service in the field. He is a man of commanding personal appearance, a genial companion, and possesses the happy faculty of drawing around him multitudes of friends. He is about 35 years old, is a native of Massachusetts, and has been engaged as overseer in the Stark Mills for about twelve years. If hard work will render the regiment efficient, Major Angell will contribute his proportion."

CONGRESS, Wednesday.—The Senate passed the Naval Grade bill. The Naval Appropriation bill from the Conference Committee was reported and agreed upon.

The House nonconcurred in the Senate amendments to the Tariff bill, and to the Pension bill, and asked for Commitees of Conference. The Senate's resolution requiring the publication weekly in Washington of a full statement of all contracts was passed. The House then passed the Senate bill supplementary to the District of Columbia Emancipation Act, declaring free all slaves under the laws of any State who since April, with the consent of their owners, have been actually employed in the District, or who may hereafter be thus employed.

☞ The Union State Convention in Vermont, on Wednesday, re-nominated Gov. Holbrook, republican. Hon. Paul Dillingham, democrat, was nominated for Lieut. Governor, and J. G. Page, Esq., republican, for Treasurer.

Resolutions were adopted, favoring the confiscation of the property and slaves of rebels; urging the speedy and effectual suppression of the rebellion; approving the general policy of the national administration, and pledging Vermont to furnish men and money to the last extent of her ability.

N. H. CONFERENCE AND FEMALE COLLEGE.—At a meeting of the Board of Trustees held at Sanbornton Bridge, June 24th, the following officers were elected for the ensuing year: Hon. Thomas L. Tullock, President; Rev. James Pike, 1st Vice President; William T. Cass, Esq., 2nd do.; Addison B. Wyatt, Esq., Secretary; Rev. Wm. D. Cass, Treasurer; Rev. Jonathan Hall, Rev. James Pike, Benjamin F. Cass, Esq., J. H. Bailey, Esq., Wm. T. Cass, Esq., Executive Committee.

A SAD ACCIDENT.—As two little girls, named Catherine Jenkins and Lizzie Carwin, were playing upon a team in Portland, on Tuesday afternoon, they were knocked down and run over when jumping to the ground, by a three horse truck team. Catherine Jenkins was greatly injured—her skull being fractured. The other is very seriously, if not fatally injured, a wheel having passed over her breast and shoulders.

N. H. LEGISLATURE.

TUESDAY.—The Senate passed the resolution authorizing the Governor to transport the Militia force out of the State. The Senate also passed the resolutions providing for the allowance and payment of claims for supporting families of volunteers; and for additional surgical aid to N. H. forces in actual service.

Mr. Kent, from the Committee on Military Affairs, reported a bill, providing for an early enrollment of the militia, and for drafting by the Adjutant General, if necessary. He stated that it was believed by the committee, that in drafting the matter should be made equal, and those towns which had furnished their quota should not be called on for more, and hence the 5th section had been inserted.

Resolutions were passed requesting the Governor forthwith to issue his proclamation, calling upon the people of the State to raise the regiments required by the present emergency, and to make every possible exertion, with the co-operation of all other State officials and all patriotic citizens, to animate the sons of New Hampshire to another and final uprising in behalf of the imperilled government of our beloved country. Also, recommending that the Governor, as a means to accomplish the end aforesaid, by proclamation, request the holding of public meetings in the different towns and cities, and the appointments by such towns and cities of War Committees, consisting of not less than double the delegation of such towns or cities in the Legislature, to encourage enlistments, and by correspondence or otherwise, transmit any intelligence which may be derived, to the Executive, and communicate any information from the Executive to the inhabitants of such town or city.

A WONDERFUL DISCOVERY.—A correspondent of the Boston Transcript, who is the Topographical Engineer of New Hampshire, states that one of the most wonderful geological discoveries ever made around the White Mountains, has just been brought to the notice of scientific men.—Two young men of Berlin Falls in sliding down the cliffs of a rugged mountain, two miles from that town, found the entrance to an enormous cave, the existence of which was unknown before. Wm. D. Sanborn a noted guide in that region, made a thorough exploration of it, using candles to light his way. Finding in it a beautiful mineral of bright color, he reported the fact, and the cave was visited by Mr. E. S. Brown, a mineralogist, who found the entire cave was made of *jasper*, of magnificent color and quality. The entrance is so small that a man can barely enter it on his hands and knees. About ten feet from the entrance it is nine feet high and fifteen feet wide, opening into a fine apartment *sixty* feet in length, formed of jasper of a delicate blue and ash color, striped with fire red, so exquisitely beautiful as to draw exclamations of surprise and admiration from the dullest student of nature.

But the wonders of the cave do not lie in the fact that it is formed, but in the fact that the long-disputed question is now settled where the Indians of New England got their jasper to make their arrow heads. It has never been known until now where this jasper of a blue color, which they used, came from. There can be no doubt but that the Indians, hundreds of years since, commenced the work of chipping off pieces, and continued their work until a cavern sixty feet in extent was cut out of the rock, for the top and sides of the cave all show that it has been chipped in many thousand places. In many places the vein of jasper has been cut to its intersection with the granite, and there the work stopped. An Indian axe and tomahawk were found in the bottom of the cave, such as were used during the French and Indian wars, when the Pequawhets, Pennacooks and Androscoggins wandered in this beautiful region—in which their savage implements are now found in abundance. Berlin Falls is in Coos County, N. H., within an hour's ride of Gorham.

ANTIOCH COLLEGE.—At the meeting of the Trustees of Antioch College, on the 24th of June, Rev. Dr. Hill resigned his position as President, and Rev. Austin Craig, D. D., was elected his successor.—Retrenchments have been made by reducing the number of professors and lowering the salary of those who remain. Dr. Hill's three years' administration closed, it is said, with every account on the Treasurer's books balanced, and no debts remaining, either to collect or to be paid.

The agency of the liberal Unitarians, in the affairs of Antioch College, amounts to this: they have cleared off its debts, and now leave it in the hands of the Christian Societies, who will conduct it henceforth.

☞ The Cape Cod Railroad corporation held its annual meeting in Middleboro', Mass., on Wednesday. The old Board of Directors were re-elected by acclamation, a few ballots being cast for legal reasons; a dividend of 2 1-2 per cent. was declared, and the meeting adjourned, having been in session just sixteen minutes.

☞ The Times' Washington dispatch announces that a discovery has been made by the Government of a great rebel conspiracy, which was to have burst upon the country simultaneously with the great battles before Richmond. The rising was expected to take place in Tennessee, Kentucky and Maryland, and Jeff. Davis was in the confusion to march on Washington. The first part, the defeat of Gen. McClellan, failed, however, and consequently the rest was not attempted.

☞ A New York dispatch says Sergeant Ricker, Co. K, 2d New Hampshire, with right leg shot off, left the Hospital in that city, on Wednesday evening, for Salem, Mass., his native place, accompanied by Dr. Graves, of the Chelsea Marine Hospital.

☞ Ex-Governor Boutwell, of Massachusetts, has accepted the office of Commissioner of Internal Revenue, under the direct tax bill. The salary of the office is $4000.

☞ Mr. James G. Blaine has been nominated for Representative to Congress by the Republicans of the Third District, in Maine. S. C. Fessenden is the present Representative of that district in Congress.

☞ Rev. Dr. E. H. Chapin has passed the last three days in Boston, on a visit to his relatives and friends. He sails for Europe next Saturday.

☞ All the artillery officers of the graduating class at West Point, not wanted at the Academy as teachers, are ordered to report for duty at once.

ADVANCE OF COTTON GOODS.—Brown cotton sheetings have advanced ten per cent. within the last ten days, and the prospects are now that they will continue to advance.

☞ A dispatch from New York states that five brothers in the 5th Vermont regiment, of the name of Clayton, were all killed in the recent Virginia battles.

Among the passengers on the steamer from Boston, on Wednesday, were Col. Robert I. Burbank and lady. The Colonel was married on Tuesday, and goes abroad to spend the gay and festive honeymoon.—*Boston Post.*

Yesterday another refreshing rain fell upon the parched earth, but it will hardly prevent the hay crop from being *cut off.*—*Portland Press.*

"SOUND AN ALARM."—Some folks appear to be considerably alarmed, in these times, about the state of public affairs—which, sure enough, are rather sad; but is it as well to keep cool, and wait the motion of events. So thought our citizens, as a young man on horseback, from Rye, galloped his steed through the streets of Portsmouth, Thursday, for half an hour or so, crying, "Fire, fire,—Prospect House, Rye Beach." And no voice echoed his earnest calls, and no ring but that of laughter was excited—one engine did start out; but the evident impossibility of rendering any sort of aid at a distance of several miles, deterred any from starting, except as lookers-on.

☞ The Prospect House, at Rye Beach, (Foss' Beach,) with the bowling-alley, shed and large barn and stable connected, were burned to the ground, with nearly all their contents, on Tuesday morning, between 8 and 12 o'clock. The property was owned by Messrs. Foss, and the building and contents are insured for $6,000 in the North Western Ins. Co. of Springfield. There were no boarders, and Mr. Henry Foss' family occupied a portion of the hotel. The origin of the fire is unknown. Mr. Foss had been to the shore for a short time, to fit a boat for sailing, and on his return found the cellar and lower part of the house full of smoke—and so rapidly spread the flames, that only the furniture in two front rooms could be saved. A large number of fine shade trees were scorched to death, and a handsome field of corn probably ruined by the heat. One or two other houses at the leeward caught on fire several times, but it was easily put out. The Prospect House was a large and fine-looking building, with neat surroundings; it was built only a few years ago, and we were told the property burnt cost nearly double what it was insured for.

☞ "Mr. and Mrs. J. C. Fredericks," who announced a theatrical entertainment at the Temple for Wednesday night, did not appear, on account of—well, of too many *unsettled* "accounts." We have a way of asking for our pay before we do much work for unknown strangers; and so we declined to print programmes for Mr. F. without "indemnity for the past—pay up; and security for the future—pay down." And he, being troubled with "the shorts," took the shortest road out of town. They are said to be excellent performers, he and his wife,—and their entertainment in Newburyport gave great satisfaction; and Mr. F. appeared like a gentleman, *except* that he had no money to pay his "honest debts"—if any debts can *be* "honest," contracted without any known ability to pay. It may not be wicked to be poor, but it is certainly very inconvenient to have an empty pocket—and a man in that condition has no right to start in the show business, at any rate. He don't have any "show" at all for success. The show business, take it all together, through the country, is a very precarious business—and printing for it, and furnishing hotel and ball accommodation for it, are not much better, especially when done for anything save cash in advance. We are willing to take the risk of our own business, but don't care to risk our pay on other folks' success—and we have long observed, that if you let a debtor increase his debt in hope of getting all, you rarely get anything. "The first loss is usually the smallest."

☞ The editor of the Ballot pronounces the "wit" of the Chronicle to be "exalted," and its "witticisms ass-tonishing." He also thinks the "Chronicle's ass-ertions" concerning him, are on rather "a small subject." So do we. So, until he attacks us or our own affairs again, we'll let him up.

☞ The balloon Star Spangled Banner made an ascension from Boston Common on Wednesday, about 7 P. M., the proprietor being accompanied by three other gentlemen. The balloon took an easterly course, and passed immediately over the harbor. There was a fog at the time over the water, and it was decided to make a descent as soon as possible. But the effort to land on an island failed, the balloon striking the water but again rising. In the meantime several boats and the steam-tug Huron were endeavoring to follow the aeronauts. Lines were thrown out, and caught first by a sailboat; but this proved inefficient. The balloon continued to go up and down by turns, dashing the party beneath the water. The Huron finally got a purchase upon it, but an inch rope was broken as if it had been only a thread. A second time it was attached to the tug, and after the boat had been drawn three-quarters of a mile the passengers made their escape on board.—The passengers had no sooner left the basket than the rope parted and the balloon shot off into the clouds at a fearful rate. It was valued at $800. The party got on board the Huron about half-past 8.

NOT IMPOSSIBLE.—A tobacco manufacturer advertises a new brand as "Ladies' Delight." Our Cynical Contributor wishes to know if that isn't the sort they make into Widows' Weeds.

SCARCITY OF CHANGE.—The scarcity of silver change seems to be increasing, and causes great trouble to traders and others who have to take pay in small sums. Brokers in Boston charged seven or eight per cent. premium for silver change on Thursday. In New York nickel cents bring a premium of one to two per cent. The sub treasurer in that city refuses to exchange them at par for treasury notes because they are worth a premium. In some places notices are posted stating that the purchaser must pay for his change—for instance, if he buys an article priced at twenty-five cents, he is expected to give twenty-seven cents therefor, if change is made.

☞ The Herald's Washington dispatch intimates that Reverdy Johnson went to New Orleans with an extraordinary mission from the State Department, and power to settle all claims and pass all laws and regulations referring to the relations between the foreign and civil authorities of New Orleans. It is even surmised that he will gradually absorb all civil powers now entrusted into the hands of Gen. Butler, who will retain the military command of the place.

☞ See Auction column for sale of a large decked boat, this morning.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. June 1 2md

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—they are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, difficulty of breathing, and sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and when any obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are the most *convenient, safest, and most medical regularity*. They are Known to thousands, who have used them at different periods, through out the country, having the sanction of some of the most *eminent Physicians in America*.

Explicit Directions, stating when they should not be used, with each Box, price *Five One Dollar per Box*, containing from 50 to 60 Pills.

Pills *sent by mail, promptly*, by remitting to the Proprietor. Sold by druggists generally.

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,
Blacksmith and Horse-Shoer,
NO 80 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

in this city and vicinity, and is prepared to furnish and set the same, at the regular prices for other shoes, (except for steel shoes, which are 25 cts. extra), and warrant them to give full satisfaction in all cases. The improvement consists in the insertion of a steel groove or calk, imbedded in the heads, and the Shoe being concave on both the upper and under sides, so as to be much easier to hold on better, and afford a firm purchase for the horse without corks, except on very hard ice.

These shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c.; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and
BLACKSMITH JOBBING generally attended to. S. W. WEBBER.

PURE OLD BOURBON WHISKEY.

Correspondence between some of the most eminent physicians of New York and Brooklyn, and WM. J. CUTTER, Jr., Louisville, Ky:

NEW YORK May 1, 1861.

MR. WM. T. CUTTER, Jr., Louisville, Ky.:

Dear Sir—The great difficulty experienced in procuring Brandy sufficiently pure for medicinal purposes, has induced many of the physicians of this vicinity to adopt Bourbon Whiskey as a substitute, both in the hospitals and private practice, and, since the latter has come into such general use, we have reason to believe that a great deal now sold is of very inferior quality.

Presuming that your residence in the vicinity of the manufacture of Whiskey in Kentucky, as well as your skill as a chemist, will enable you to select a reliable article, and having full confidence in your integrity, we are led to inquire whether you will not aid us in having this market supplied, through an Agency, with the best quality of Pure Old Bourbon Whiskey for the use of the sick.

We are, very respectfully, yours truly,

LOUISVILLE, Ky., July 31, 1861.

DR. VALENTINE MOTT, Willard Parker & others.

Gentlemen—Your letter of May 1st has been received. In accordance with your wishes, I have made arrangements to supply your city and vicinity with the pure article of corn distilled Bourbon Whiskey, which I trust will fully meet the requirements of your letter. Thanking you for your kind and gentlemanly consideration,

I remain, very respectfully, yours truly,

WM. T. CUTTER, Jr.

We, the Physicians of Portsmouth, having full confidence in the integrity of D. R. AMBROSE, recommend him as a suitable person to sell OLD BOURBON WHISKEY in Portsmouth, for medicinal purposes, in accordance with an arrangement made between the New York Physicians and Wm. T. Cutter, Jr., of Louisville, Ky., and a similar agreement between said Cutter and the Physicians of Boston.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Meadam,
Henry E. Wendell, John Sise, and others.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate sufferers, who die that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beside his treatment, all the horrors of venereal and impure blood, impotency, Scrofula, Gonorrhœa, Gleets, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Prostrate Glands, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those who have contracted secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the most melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE

in all cases, for No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been used by THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of the class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.

THE WATER-LILY.

—The Water-lilies, that are serene in the calm clear water, have the sweet power among the black and eddying waves.—*Lights and Shadows of Scottish Life.*

Oh! beautiful thou art,
Thou sculpture-like and stately River-Queen!
Crowning the depths, as with the light serene
Of a pure heart.
Bright Lily of the wave!
Rising in tearless peace with every swell,
Thou seem'st as if a spirit meekly brave
Dwelt in thy cell!
Lifting alike thy head
Of placid beauty, fearless yet free,
Whether with foam or pictured azure spread
The waters be.
What is like thee, fair flower,
The gentle and the firm, that bearest up
To the blue sky that alabaster cup,
As to the shower?
Oh! Love is most like thee,
The Love of Virtue, quivering to the blast
Through every nerve, yet rooted deep and fast,
Midst Life's dark sea.
And Faith—oh! is not Faith
Like thee, too, lily? springing from the light,
Still buoyantly, above the pilfrous might,
Through the storm's breath!
Yes, link'd with such high thoughts,
Flower, let thinly musing on thy bosom lie!
Tell something there of its own purity
And peace be wrought:
Something yet more divine
Than the fair tear, nearly, that heaven shed
Forth from thy breast upon the river's bed,
As from a spring.

NEW HAMPSHIRE ITEMS.

—— A newspaper writer has ascertained that not a member of the N. H. Council uses tobacco in any form; nor is any one addicted to the use of intoxicating liquors. Their average weight "physically" is 174 pounds.

—— S. H. Young, who arrived in Boston a day or two since, having deserted on the 16th of June from the 3d Louisiana Battalion, is a native of Westmoreland.—He went to New Orleans five years ago, and when the rebellion broke out he volunteered rather than be forced to work in intrenchments. After serving at Norfolk and Fredericksburg, his battalion reached Richmond two days before the battle of Fair Oaks.

—— Letters from the N. H. Battery state that they are still at Fredericksburg, and every man in good condition.

—— The American says Capt. Bailey writes to his father in Manchester, that several members of the 2d Regiment are missing, probably taken prisoners, but that none were killed in the late engagements near Richmond. The Regiment is now at City Point, 20 miles from Richmond.

—— A correspondent of the Keene Sentinel states that among the four thousand names recorded on the books of the Alpine House last year he does not recognize over five from Cheshire County, and two of these are really residents of Boston.

—— Col. Cowdin of the 1st Mass., in his official report of the fight on the 25th of June, says:—

After advancing about one-third of the distance, our advanced pickets became engaged and drove the enemy's pickets back on their reserve, where they made a determined stand. I now sent for support, as had been previously agreed, and was promptly joined by the Second New Hampshire Regiment than which a more reliable one cannot be found in the service.

IMPORTANT JUDICIAL OPINION.—In the United States circuit court, at Philadelphia on Monday, Judge Grier delivered an opinion in the matter touching the right of the Government to seize and confiscate vessels and cargoes belonging to citizens of States in rebellion against the general government, without their agency in the rebellion being shown. A large amount of property is involved in the question, which was argued several months ago. The opinion of the Judge sustains the views taken by the counsel for the United States, viz., that such vessels and cargoes may lawfully be confiscated.

If this be sound law, then there is something in the doctrine that a State can rebel, and although such State may not be able to release herself from her *obligations* to the Union, she may nevertheless have lost nearly all her *privileges* in consequence of her rebellious and murderous attempts.

Her case may be like that of a citizen, who has broken into a house in the night time, armed, and attempted to rob and kill, but happening to get overpowered, the State takes away his revolver and knife, deprives him of his liberty for 20 years or a lifetime, don't let him vote at all, and makes him work for the State.

Poor citizen! he has lost his privileges—but still they hold him to his duties, and "bring his nose to the grindstone." Is a rebel State any better than a rebel man?

The first duty of the Union is to overpower the rebels, and next, to govern them, as the Constitution *guarantees* republican government to every State.

☞ The President, accompanied by F. P. Blair, Mr. Watson and Gen. Nagle, returned to Washington on Thursday evening from the army of the Potomac. Upon the President's arrival in James River, off Harrison's Landing, he was visited by Gen. McClellan and staff. Soon after the whole party landed and proceeded to Gen. McClellan's headquarters; thence with little delay he reviewed the whole army. The President rode to the extreme front. The welcome that greeted him was in the highest degree enthusiastic. Not satisfied with riding to the front of the army, the President dismounted and scaled the ramparts, in view of the rebel pickets. Many of the men were at work in ditches, including one or two ex-Congressmen. All were cheerful and sanguine of early and final success.

☞ Ladies, in "canning" fruit, must exercise caution in handling the cans filled with scalding hot fruit. The Akron Beacon says that as Mrs. Horace May was removing a can of strawberries, which she had just sealed up, from the stove to the table, an explosion took place, blowing off the lid of the can, and quite severely scalding the hands and wrists of Mrs. M. with the hot fruit.

☞ The Connecticut Legislature has voted to pay each volunteer a bonus of $50, in addition to a former bonus of $30, making a State bounty of $80.

THE REBELLION.

The President has issued instructions to Gen. Saxton, commanding the department of South Carolina, &c., to take possession of deserted plantations, and to control or employ the people thereon as circumstances may require. Gen. Butler is informed that the negroes cannot be sent back, and must not be allowed to suffer. Those who can work, should be made to do so. This is not to be considered as a general rule, applicable to all cases everywhere.

Rebel dispatches say that the British steamer Modern Greece, while going into Wilmington on the 27th, was run aground near Fort Fisher by the blockading fleet, who hauled off on the opening of the fort on them. The boat succeeded in striking so as to wet the powder and prevent her explosion by the Federal shells. It was believed that a large portion of her cargo would be saved. Passengers and crew were saved.

The British steamer Racer arrived in Charleston harbor June 28th.

A special dispatch to the New York Herald, dated Nashville, 20th, says "four companies of the 9th Penn. cavalry were surrounded and cut to pieces on Thursday morning, at Tompkinsville, by Sterns's cavalry, 1500 strong. Col. Williams and Majors Jordan and Brown are reported killed. The wounded men were assassinated.—Sterns is reported en route for Bowling Green, with the intention of destroying bridges. Some railroad tracks have been torn up." Later accounts state that it is not certain that Col. Williams was among the killed.

It is said that the Presidential party from the Headquarters of the army of the Potomac bring a report that our entire loss in the recent battles, does not exceed 11,000 in killed, wounded, and missing. Stragglers are constantly returning.

A large and enthusiastic Union meeting was held at New Orleans on the night of the 21st.

The Burnside reinforcements for Gen. McClellan have all gone up the river.—They are in fine health and spirits, splendidly disciplined and efficient. Gen. Burnside is an intimate friend of Gen. McClellan, and will be next in command.

The N. Y. World has the following: "The Toledo Blade learns from private sources that 9000 men from Gen. Halleck's Department passed through Dayton on the 4th; on their way East to reinforce Gen. McClellan."

Advices from Port Royal of the 6th, state that several of our gunboats have been making a reconnoissance of the Santee and Wasbenaw rivers. Several small vessels, including a steam tug, were captured besides numerous flatboats laden with rice. The negroes, on the appearance of the gunboats, came in troops to claim protection, and 600 were taken off.

The rebels at Vicksburg recently attempted to strengthen their earthworks on the Bluff, but were driven away by shells from the mortars.

☞ A correspondent describing some of the scenes of the recent retreat says the wife of a wounded German was carrying along all her husband's equipments, musket and all, which were strapped upon her in true military order, while he, with crutch and cane, hobbled by her side, smoking and chatting as if all were the most common things in the world. Many strange sights were seen on every side. The wounded were everywhere visible.

EMANCIPATION AS A WAR MEASURE. One writer asks if Mr. Curtis, or anybody else means to insinuate that the Executive of the United States has no power to proclaim universal emancipation, should it be proved that such is the *only* way to put down the rebellion? Let us look at that question on the other side. Suppose it should be proved that the *only* way to put down the rebellion is to institute slavery in any part of the United States, would the President have the right, as a war measure, to establish slavery by proclamation?—Slavery is a legal institution in the country—we do not speak of it morally—has not the President the same right to establish as to abolish it? We are told that the rebellion is caused by a conflict between free and slave labor. If this is so it would no more aid in bringing the rebellion to a close to abolish slavery, where it exists, than to institute where it does not exist.—If a uniform system is the thing needed, it can be had one way as well as the other.—*Newburyport Herald.*

☞ The Lawrence Courier says the Washington Mills Company have given notice that the wages of their employees will be raised to what they were some six months ago, or before the reduction of ten per cent. was made, on and after the 1st inst. The company has been doing a prosperous business within the past few months.

☞ A few months since, Mr. John D. Benglees was refused ordination by a Baptist council at Camden, N. J., on account of his open communion views. A second council, however, has waived the open communion point, and he has now become the pastor of the church.

☞ The City Council of Newburyport have voted the sum of $75 to each volunteer under the new call.

CONGRESS, Thursday.—The Senate passed the bill relative to the abstracting of the Indian trust bonds. The resolution calling for all orders issued by Gen. McClellan, correspondence, number of forces, &c., was modified so as to request the President to furnish this information if not incompatible with the public interest. A long and somewhat bitter debate ensued, and the resolution was passed, 39 against 6.

The House passed the Senate resolution to suspend all payments under the act of March to officers and men actually employed in the Western Department, and to appoint three Commissioners to examine all claims and report to the Secretary of War. The Military Committee reported a joint resolution, appropriating $10,000 for medals of honor to enlisted men who distinguish themselves in battle during the present rebellion. The House passed the Senate bill for the better government of the navy, and the resolution of thanks to Com. Foote.

☞ George Mason, the first United States Senator from Virginia, and one of the most honored citizens of that State, declared that—

"Slavery discouraged arts and manufactures. The poor whites despise labor when performed by slaves. They (slaves) prevent the immigration of whites, who really enrich and strengthen a country. They produce the most pernicious effects on manners. Every master of slaves is born a petty tyrant. They bring the judgment of heaven on a country. As nations cannot be rewarded or punished in the next world, they must be in this. By an inevitable chain of causes and effects, Providence punishes national sins by national calamities."

☞ Harrison's Bar, from whence Gen. McClellan's first dispatch from James river was dated, was the birthplace of President Harrison. The house in which he was born is now within our lines, and is used as a hospital. It was the residence of the President's father, one of the signers of the Declaration of Independence, for a number of years. Its present owner, Dr. Powhatan B. Starke, is a rank secessionist, and came into possession of the property by marriage with a Harrison.

☞ The dead body of a boy, 5 years old son of Mr. L. H. Marsh, was found in the water of a reservoir in Franklin, Mass., his father's place of residence, on Thursday.—From the marks of violence upon the body, the coroner's jury decided that the lad had been murdered and then thrown into the water. Suspicion fell upon a vicious Irish boy named Shean, with whom he was in company, and it is said that Shean has confessed the deed, after having told contradictory stories about the matter. Shean is but ten years old.

RETRENCHMENT IN THE RIGHT QUARTER.—At the meeting of the Hamilton Manufacturing Company, in Boston, Dr. J. C. Ayer moved that inasmuch as the late reduction in the wages of operatives was depriving the company of able men, a corresponding reduction be made in the salaries of the Treasurer and selling agents, and that the sum thus saved be distributed among the operatives. The motion was carried.

ALARMING STATE OF HEALTH.—We don't know that we ever knew it so sickly in Newburyport, as at present. A disease has suddenly fallen on the male population between the ages of 18 and 45, that affects the head and the heart, the trunk and the limbs. It is distressing to witness some of the cases. Several have occurred where men have nearly lost their sight; they say that as bad as they hate the rebels, they could not see one across the street—and spectacles are in demand. Some are badly ruptured, but were never troubled by it till last week; and others are lame. This disease affects the mind as well as the body. They see war in a different light from formerly; and some of the foremost emancipationists begin to think that they would be willing to abandon the negro, if the war could be closed at once. This is a terrible disease, and widely spread.—*Herald.*

☞ The City Council of Salem, Mass., held a special meeting on Thursday evening, and appropriated $25,000 to aid enlistments. This will allow $75 a man to the Salem quota. This money is to be paid to citizens of Salem only, who may enlist previous to July 25.

GEN. WASHINGTON ON COERCION.—It is well known to many persons, though not to all, that when the old Confederation, of 13 States, was made in 1778-81, Vermont held back, and claimed part of New Hampshire, making this a reason for holding back;—and there was even some talk of negotiations between Vermont, Canada and Great Britain. At this juncture, viz. Jan. 1, 1782, Gen. Washington wrote a letter to Gov. Chittenden, of Vermont, in which he intimated the probable necessity of coercing that State, by the then existing United States, and also his unwillingness to resort to such an extreme measure, but intimated no doubt of the right, or the power of the United States to use force. He only suggested that the rebel State might be ruined. Gen. Washington said:—

There is no calamity within the compass of my foresight, which is more to be dreaded than a necessity of *coercion* on the part of congress; and consequently every endeavor should be used to prevent the execution of so disagreeable a measure. It must involve the ruin of that state against which the resentment of the others is pointed."

Those who would like to read the whole letter can see it in Belknap's New Hampshire, edited by Farmer, p. 392-4.

☞ Washington letters report that Mrs. S. A. Douglas is a constant visitor at the hospital, which bears the name of her deceased husband, formed from the block of three magnificent houses erected by him, by Breckinridge, and by Rice, of Minnesota. At the recent commencement at Georgetown College, silver medals were awarded to the two sons of Judge Douglas, children of his first wife, now under the charge of their step-mother.

Proposals

FOR

BUILDING AND EQUIPPING TWO FIRST CLASS AND THREE SECOND CLASS LIGHT VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 25, 1862.

Separate sealed proposals will be received at this office until 12 m, on SATURDAY, the 9th of August, 1862, for building and equipping two first class light-vessels of the following dimensions:

Length from after side of stern post to the fore side of main stem, 98 feet; breadth of beam, moulded, 25 feet 6 inches; depth of hold from top of timber strake to top of beam, 11 feet; tonnage about 322.

The Board will also receive proposals until 12 m, on MONDAY, the 28th of July, 1862, for building and equipping three second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of timber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain untapped southern timber. The printed specifications to which the vessels are to be constructed, and which will, with the drawings and plans, be attached to and form a part of the contracts, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or any part of any proposal, which may not be in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Hon. Secretary of the Treasury. No proposals will be received or considered, unless from persons engaged in ship building, and each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed by each bidder, as evidence that there is no mistake as to the object of his proposal.

A drawing of the vessel contracted for will be furnished to the contractor, to which he will be required to adhere strictly; to this end the mould loft lines will be taken off and the mould examined by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will be required to see that the work executed and the materials used are in strict conformity to the terms and specifications of the contract, and who must certify to the same in writing, before the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light-vessels may suggest any change or alterations by which the same will be lessened, without using inferior materials, and in making such suggestions the precise character of the change or alteration will be named, with the amount saved thereby. The proposals for each vessel will state the time required to complete the vessel and deliver it to the agent of the Board at such place as may be agreed upon; the same to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building Light vessels*," and then enclosed in another envelope, and addressed to the Secretary of the Light-house Board, Washington, D. C.

No bid will be considered that does not conform to the requirements of this advertisement.

Any person submitting a proposal may be present, and witness the opening of the bids at the time and place hereinbefore specified.

By order of the Light-house Board:

SMALL SILVER CHANGE.—As silver now sells at a premium, persons are busy everywhere collecting change, and those doing business should guard against their designs to take the hard coin from use. If change disappears as rapidly in the next month as it has in the past, we shall be driven to fractional bills.

☞ On Wednesday afternoon, a young man named Benj. J. Remick, had one of his feet badly jammed by a roller, while helping to remove the house on the corner of Court and Pleasant streets. He was taken to the office of Dr. Oliver, by whom his great toe was amputated. The wounded man was thence conveyed to his home on State Street.

"GOOD TIME COMING."—Our readers will be pleased to learn that Mons. Henri Denier, the great mid-air rope ascensionist, who added much to the festivities of the day on the 4th by giving his free "Walking" Exhibition on Market Square, is to be the recipient of a Complimentary Benefit, tendered by our citizens, at the Temple on Thursday evening next.

THE PLACE FOR THE HOSPITAL.—At this time it is very important to have hospitals *properly located*, for the sick and wounded soldiers. We would suggest the Sagamore House, on the borders of Piscataqua harbor and the sea, only three miles from Market Square by land, and two by water, as the best place we know of. There is a spacious, airy, convenient house, with beautiful grounds,—and the healthiest surroundings.

The buildings can be had for use *at once, without any delay*,—and could be rented or purchased by the State, doubtless on fair terms.

Will our citizens interest themselves to recommend this place to the Governor, as the best, and all ready for use?

☞ Rev. Dr. Stebbins, of Woburn, Mass., will preach at the Unitarian Church to-morrow.

A PATENT SERMON.

FELLOW SISTERS, brethren, women and children, generally and particularly speaking. You needn't bustle any pages for the text, for it ain't there. It is a special dispensation to your appointed pastor; and he hurls it at you for what it is worth: "Where the hen scratches, there she expects to find a bug." Did you come from the race track of the world to parade your "trotting harness" before the meek and lowly? Have you dropped the dazzling rattles of business and pleasure, to while an idle hour away listening to the mournful melody that is rung by angel hands from the sacred harps that hang forgotten upon the drooping willows of mortality? Or are you here only to rest from the rough-and-tumble tussle with the arch enemy for the almighty dollar? Verily I say unto you, where the hen scratches, there she expects to find a bug.

My drowsy hearers, we are all of us a lot of damaged goods, trying to palm ourselves off upon each other for more than our market value; and for all the form of Time, Death & Co., is doing a heavy commission business upon our stock in trade.—I hear the mallet of Death, with its mechanical tap, tap, and solid monotones of "going, going," and the next minute down it will come upon some of our unconscious heads, and we shall be folded up like the tents of the Arabs, and as silently borne away to the other side of Jordan, where the dry goods man refrains from troubling, and the grocer has nothing to say, and the weary hen ceases from scratching, and the precious bug is found. In the midst of life we are in debt, says a notable prophet, who was near kin to your beloved pastor. If any of you are tempted to tarry in the tavern of life, and fail to settle your accounts with the landlord, may the text rise up before you like a fabulous Arabian giant, and deter you from that sink of utter depravity where bummers lead trustful hens to scratch up the bugs they devour.

Your undivided attention is furthermore solicited to the amplification of the text, metaphorically and collectively, in small passages to suit every capacity, from the boy shucking peanuts peacefully in the corner, to the hardened sinner who stalks so proudly into your Master's presence.—And woe unto you, young women, sea-sawing up the broad aisle with your new coal-scuttle bonnets and streamers a-flyin', for you are all vanity of vanities. And you, young men, in your fancy neckcloths, go on until you slip up over a bale of cotton, and are left to drift away over the broad brimstone sea of national disgrace, a by-word and a jest unto the world you love not wisely, but too well.

My beloved, I warn you now, if you manifest symptoms of such cowardice as has been handed down to you from high places, the biggest pair of stogy boots in this congregation will rise up in judgment against you, and kick you out into the broad road that leads to everlasting ruin. And finally, when you cut the crust from your brown bread loaf, and scrape the hard beans from the top of your noon-tide pot, if you cut a little into the soft and scrape a little below the crisp for the beggar's and outcast's portion, your conscience and digestion will trouble you less; and as you steal out, as some of you will to-night, where the silver moon of memory hangs low over the haunted hills of the past, to bow at some hallowed finger-post that points the way a beloved went over your broken heart to heaven, may the eternal verdure of the evergreen hope spring up in the barren spots trod hard by the busy feet of the absorbing Now, and bring you the sweetness of that peace and the tenderness of that love that overflows continually in deeds and words, for the elevation of the ragamuffins who march in the rear ranks of the great army of humanity; for the barbarians are not all in the ragged file, but "many a gem of purest ray serene" wants but a lifting from the filth to shine.

So mote it be. Brother Slowfast, circulate the platter for the root of evil, until it is all rooted out of this place. For verily I say unto you, the hen that scratches here expects to find a bug. Shell out! So mote it be.

PROMOTION FROM THE RANKS.—Some journals are urging upon the government the propriety of promoting those private soldiers who have evinced, in the late battles, unmistakable qualities for command.—Nothing could give such an impetus to enlistments as the adoption of such a policy, and we trust to hear soon of numerous privates being selected to fill some of the vacancies caused by the death of officers.

☞ A war meeting is to be held in Faneuil Hall, Boston, this (Saturday) morning at 11 o'clock, at which Hon. Edward Everett, and other men of note will speak.—Its object is to encourage enlistments in response to the recent call of the President.

☞ The New York Times recommends, in case Sec. Stanton is removed, Gen. McClellan as his successor. The Times adds: "Even those who cavil at his leadership in the field, do not question his mastery of the art of war."

Political editors tell us that truth is their polar star, and never get nearer to it than to the north star itself.

☞ The N. Y. Times' dispatch says the War Department has determined on a general exchange of prisoners.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known in pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. June.1 1md

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

were the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity*. They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America*.

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills *sent by mail, promptly*, by remitting to the Proprietor. Sold by Druggists generally.

A Real and Great Improvement
IN HORSE SHOES.

S. W. WEBBER,
Blacksmith and Horse-Shoer,
NO 80 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

in this city and vicinity; and is prepared to furnish and set the same, at the regular prices for other Shoes, (except for steel Shoes, which for 25 cts. extra), and warrant them to give full satisfaction in all cases. The Improvement consists in the insertion of a steel plate which effectually protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c.; and gentlemen who have been troubled with their horses, will do public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

PURE OLD BOURBON WHISKEY.

Correspondence between some of the most eminent physicians of New York and Brooklyn, and WM. J. CUTTER, M.D., of Louisville, Ky.

NEW YORK May 1, 1861.

MR. WM. J. CUTTER, Jr., Louisville, Ky.:

Dear Sir:—The great difficulty experienced in procuring pure Bourbon Whiskey for medicinal purposes, has induced many of the physicians of this vicinity to adopt Bourbon Whiskey as a substitute, both in the hospitals and private practice; and, since the latter has come into general use, we have reason to believe that a great deal now sold is of very inferior quality.

Perceiving that you are extensively in the vicinity of the manufacture of Whiskey, in Kentucky, as well as your skill as a chemist, will enable you to select a reliable article, and having full confidence in your integrity, we are led to inquire whether you will not aid us in having this market supplied, through an Agency, with the best quality of Pure Old Bourbon Whiskey for the use of the sick.

We are, very respectfully, sir, yours truly,

LOUISVILLE, KY., July 31, 1861.

DR. VALENTINE MOTT, Willard Parker & others.

Gentlemen:—Your letter of May 1st has been received. In accordance with your wish, we have made arrangements to supply your city and vicinity with a pure article of copper distilled Bourbon Whiskey, which I trust will fully meet the requirements of your letter. Thanking you for your kind expressions of confidence, &c.,

I remain, very respectfully, yours truly,

WM. J. CUTTER, Jr.

We, the Physicians of Portsmouth, having full confidence in the integrity of D. R. AMBROSE, recommend him as a suitable person to sell OLD BOURBON WHISKEY in Portsmouth, for medicinal purposes, in accordance with the arrangement made between the New York Physicians and W. J. CUTTER, Jr., of Louisville, Ky., and a similar agreement between said Cutter and the Physicians of Boston.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus will the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated to suit any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience (of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal disease, such as Inflammation, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Gravel, Abscesses, Tumors, frightful Swellings, and the other train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by secret and selfish habits, which ruin the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Irritation of the nerves, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult the Doctor, experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms and charges for board moderate. apr7—1y8aw

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

VENETIAN LIQUID

HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been USED BY THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for one DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness of the HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most permanent Dye ever offered.

"HAITCHES" AND "HOES."—"Is there anything 'ere for George Hodgdon?" inquired a newly arrived cockney named Ogden, the other day, at the New York post office.

"Nothing, sir," replied the clerk, after making search for the expected letter.—The inquirer departed, returning the next day, the next, and the next, repeating the same question and receiving the same reply. At last, happening to closely observe the clerk in his searching operations, he suddenly exclaimed:

Here in this second week of July, sixteen months after the first gun at Sumter, and twelve months after the warning of Bull Run, the Confederacy has as many effective men under arms as the true Government, and the first great battle has yet to be begun with the advantage of numbers on the loyal, and not on the rebel side.—*N. Y. World.*

VOLUNTEER CONSCRIPTS.—When the last batch of rebel prisoners-of-war was landed on Governor's Island, at the roll-call the following conversation occurred:

Officer calling the roll—"Private John Smith, Tenth Georgia Volunteers?" John Smith answers: "Tenth Georgia Volunteers be hanged! Tenth Georgia Conscripts you mean. Here!"—*New York Post.*

☞ ATTENTION, THE WHOLE! ☜
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. BOWD.
Exeter, Feb. 24, 1858. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM P. LEAVITT.
From ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

MONDAY, JULY 14, 1862.

THE REBELLION.

The Richmond Examiner is fully alive to the value of McClellan's new position, and gives a minute description of it, which would be enough to send a Yankee correspondent to Fort Warren. The Examiner also complains of the refusal of the Government to give any trustworthy account of the late series of battles. It reports 814 men killed and wounded out of 1500. Fears of a pestilence in Richmond are hinted. Complaints are made of the inefficiency of certain officers, who are not named.

Morgan is again in the field, and has issued a proclamation calling upon the Kentuckians to rise.

Late news from Arkansas states that Gen. Curtis was on Monday at Jacksonport, endeavoring to make his way to the river.—His force was suffering terribly from lack of forage and supplies.

Gen. Curtis has divided his forces, and his condition it is hoped is improved.

A guerilla party attacked a railroad train near Cave City, Ky., leaving that place 1500 strong for Lexington, Ky. They announce their intention to visit Louisville. Another dispatch states that they destroyed Lexington. They are represented as strong in force and well armed. Federal troops are in pursuit.

The rebels have entirely forsaken our army on the Potomac; not one is left in front or within seven miles of it.

Pres. Lincoln had sent for members of Congress from the slave States, upon whom he urged his plan of gradual emancipation, and hinted pretty strongly it it was not adopted a general emancipation would fol low under less pleasant circumstances.

FROM NEW ORLEANS.—The price of flour in New Orleans has advanced to $24 per barrel. Gen. Shepley has issued an order fixing the price of bread at 20 cents for 24 ounces; smaller amounts in proportion.

Gen. Butler had ordered all the banks in his department to make a return to headquarters of all sums due to the banks in the rebellious States; also of all sums due to the State of Louisiana or State officers, and checks and drafts are not to be paid thereon without a permit from headquarters.

Gen. Butler had suspended the functions of the city councils. Bureaus of finance and of streets and landings, consisting of three members each, have been appointed, among whom the duties of the councils are divided. Provisions, vegetables and fruit are now freely allowed to come to the city by vessels.

Two men have been sent to Ship Island for confinement with hard labor, for exhibiting bones alleged to be of Yankee soldiers, fashioned into personal ornaments. A Mrs. Phillips, for hugging and mocking the remains of Lieut. Dekay during the passage of the funeral procession, has also been imprisoned at Ship Island.

Gen. Butler has issued an order prohibiting masters of vessels from taking away any persons of color, other than those coming to New Orleans on board their vessels, under the penalty of imprisonment and liability to confiscation of their vessels.

A military celebration was to take place on the 4th of July. The British gunboats Rinaldo and Lindrail had arrived. A new cotton plant had appeared in New Orleans.

The Delta reports quite a stir in cotton on the 25th, and samples which had been stored away for a year or more sold for 25 cents per pound.

A desperate gang of outlaws are reported to be committing nightly depredations upon the Opelousas Railroad.

☞ Mr. Stevens has proposed the alternative to Government, either to pay him the amount spent on his Battery, and relieve him of all responsibility respecting it, or to release to him its claim on the vessel, which he will finish himself according to his own plan, and, if it is a success, surrender it to the Government on the payment of $153,294—the original estimate of its cost. He pledges himself, under a penalty of $100,000, to finish it within eighteen months.

At a recent fire in Brunswick, Me., the ladies volunteered to help work the engines, there being a scarcity of men. The college students also worked one of the engines; and this was the machine, so said our special reporter, that was so popular with the ladies.—*Biddeford Journal.*

One of the ladies went up to a member of the "standing committee," who were idly looking at the fire, and told them the Fire Wardens wished more help on the engines, urging them to give it. One of them replied, "Do it, yourself." And the ladies did it.

☞ In the U. S. Senate, on Saturday, Mr. Clark, from the Committee of Conference on the Confiscation bill, made his report, which was agreed to, 27 against 13. So the bill stands passed.

NEW HAMPSHIRE ITEMS.

—— Ten recent employees of the Concord Statesman printing-office are or have been in the Union army. Five are in the Army of the Potomac. Two have sealed their devotion to the country with their life-blood; one at Fair Oaks—one at James Island.

—— The Legislature was in session 37 days, passed 59 acts, 31 public resolves, 22 private acts, and 18 private resolves.

—— The Brigade in which is the Fifth New Hampshire Regiment is now commanded by Gen. Caldwell. It was in every one of the six days' fight before Richmond, except those of Mechanicsville and Gaines' Hill, and once turned the tide of battle against the enemy.

—— At a late meeting of the trustees of the Methodist Biblical Institute in Concord, measures were inaugurated by which it is hoped to secure an ample endowment for that seminary, and effect its removal to a more central location. This is the oldest institution of the kind under the patronage of the Methodist Episcopal Church.

—— The Sixth New Hampshire Regiment is reported at Newbern, garrisoning that town in the absence of Burnside's *corps de armee* on the James river campaign.

—— Lt. B. T. Hutchins, of Concord, of the Sixth Cavalry, is attached to the staff of Gen. McClellan as temporary aid. During the six days' fighting he was almost constantly in the saddle, bearing dispatches.

—— The Statesman makes the following admirable suggestion, which the people of the State will most heartily endorse:—

If the War Department sees a necessity for more Brigadier Generals (which we doubt,) and appointments are to be made in this State, as some newspapers say ought to be the case, do let us have some who have smelt powder, like Col. Marston, Lt. Cols. Fiske and Jackson, or Majors Stevens and Bedell. These men have dared every thing in the field, and if more small constellations are to be mapped out on any one's shoulders, let them fall on their's. Honor to whom honor is due.

—— Major James M. Wilson, of Derry, has received the appointment of Paymaster in the regular army.

—— Wilson's Crossing, where a post office has recently been established, a station on the Manchester and Lawrence Railroad, between Derry and Londonderry.

NEW HAMPSHIRE GENERAL COURT.—In the recent session of this body, there were two features, remarkable in themselves, and extremely rare in New Hampshire, viz.,—the general unanimity, and the weakness of party feelings.

We learn that the yeas and nays were rarely called on any party question; and though they were called on some of the disputed seats in the House, the voting was not done within strict party lines. Of the four members who were unseated, two were republicans and two democrats.

The war appropriations and war bills generally, including militia, hospital, and family relief bills, the resolutions against slavery and in favor of a vigorous war against the rebellion,—all were passed by large majorities. And in the proceedings, whenever these matters were alluded to, the most thorough and radical views met, as we hear, with the heartiest response.

There remains no doubt that a very large majority of our legislators, and an overwhelming majority of our people, are earnest for the greatest activity and decision in putting down the rebellion.

A SCENE IN THE TROY JUSTICE'S COURT.—In Troy on Tuesday, during the trial of a case in which women alone were interested, an altercation, exciting and undignified in its nature, took place between the presiding justice and one of the counsel of the parties. The judge seized an inkstand and hurled it at the head of the offending advocate, who, luckily, escaped harm. The ink, however, took effect on the shawl and dress of the aforesaid counsel's client, rendering it unfit for use. An officer who was present, was directed by the judge to arrest the lawyer, but replied by stating that somebody else should be arrested first.

CONGRESS, Friday.—In the Senate, the bill to accept League Island for a Navy Yard was passed, with an amendment.—The bill to amend the act of 1795 was taken up and discussed at considerable length. The reports of Committees of Conference on the Tariff and General Pension bills were accepted, and the bills passed.

In the House, the Senate bill forbidding members of Congress and others to receive consideration for procuring contracts, was passed. The reports of Committees of Conference on the Naval appropriation, Confiscation and Tariff bills were severally accepted and the bills passed. The bill for the acceptance of League Island was concurred in.

☞ A destructive fire occurred in Sudbury street, Boston, on Friday night, destroying four buildings, occupied by carriage makers, harness makers and others, the loss on stock and buildings being about $10,000. A fireman was killed by the fall of the front of a three-story wooden building, and seven others were injured, some of them seriously.

STATE OF NEW HAMPSHIRE.

EXECUTIVE DEPARTMENT,
CONCORD, July 10, 1862.

To the People of New Hampshire:

The alarming exigencies of the hour have induced the President of the United States to call upon the Executive of this State for three additional regiments, to be furnished at the earliest possible moment.

The President also desires that the regiments now in the service from this State, which have, by their noble conduct in every emergency, won imperishable laurels and placed New Hampshire high in rank among her sister States, be immediately recruited to the maximum standard.

The War Department has issued the following orders:—

WAR DEPARTMENT,
WASHINGTON, D. C., June 21, '62.

Pursuant to a joint resolution of Congress to encourage enlistments in the regular army and volunteer forces, it is

Ordered, That a premium of two dollars shall be paid to each accepted recruit that volunteers for three years or during the war; and that every soldier who hereafter enlists, either in the regular army or the volunteers for three years or during the war, may receive his first month's pay in advance, upon the mustering of his company into the service of the United States, or after he shall have been mustered in and joined a regiment already in the service. This order will be transmitted to Governors of States and recruiting officers.

(Signed) EDWIN M. STANTON,
Secretary of War.

WAR DEPARTMENT,
WASHINGTON, D. C., July 2, 1862.

Ordered, That out of the appropriation for collecting, organizing, and drilling volunteers, there shall be paid in advance to each recruit for three years, or during the war, the sum of twenty-five dollars; being one-fourth of the amount of bounty allowed by law, such payment to be made upon the mustering of the regiment to which such recruit belongs into the service of the United States.

(Signed) EDWIN M. STANTON,
Secretary of War.

In addition to the above inducements, the State of New Hampshire will pay the further bounty of twenty-five dollars to each volunteer, upon his being mustered into the service.

Thus it will be seen that each volunteer will receive, cash in hand, upon being mustered into the service of the United States, the sum of sixty-five dollars ($65); also, at the expiration of his term of enlistment or honorable discharge from the service, he will receive the further bounty of seventy-five dollars ($75). In the event of his death the same will be paid to his family.

By the laws of this State, towns and cities will pay to families and persons dependent on volunteers for their support a sum not exceeding twelve dollars per month.—(See act passed June session, 1862.)

All persons are further reminded that the sum of two dollars will be paid to any citizen or soldier for each accepted volunteer, and the Adjutant General is hereby ordered to issue recruiting papers to such suitable persons as may offer their services as recruiting officers.

All men belonging to existing corps now in service, not under parole or disabled, are hereby notified that the orders of the War Department require their immediate return to their posts of duty. Col. Eastman of the U. S. Army—headquarters at Concord, N. H.,—upon application, will furnish all necessary facilities for transportation.

All good citizens are respectfully requested to report forthwith to the Adjutant General of this State the name and residence of any volunteer or regular soldier of this State, who may be evading his duty by not obeying the above order.

The Executive earnestly desires that the several towns and cities of the State forthwith adopt such measures as are recommended in the resolutions of the Legislature accompanying this proclamation.

MEN OF THE OLD GRANITE STATE!—*Now is the rescue!* Let not this call of your beloved Country ring through your hills and valleys in vain! Let there be a patriotic union of hearts and hands for the common weal, which shall not only preserve our ancient renown, and send a thrill of joy and exultation to our noble sons and brothers in the field, but shall also gladden the heart of the nation's Commander-in-Chief, and beckon our beloved sister States to higher and still higher efforts for the salvation of our once happy, but now distracted country. NATHANIEL S. BERRY,
Governor of New Hampshire.

☞ News from Mexico City is to the 28th ult. The Mexicans are returning to their old guerilla style of warfare, and have succeeded in cutting off some of the French supply trains, reducing them to starvation. Attempts to force the Government to declare for Almonte, had failed.

☞ On Wednesday, two of the selectmen of Ludlow, Mass., were arrested for refusal to execute the dog law. They are to be tried on Tuesday, and in case of conviction, are punishable with a fine not exceeding $25 each.

☞ Gen. Humphrey Marshall, the rebel commander in Eastern Kentucky, has been succeeded in his command, by Gen. Heth of South Carolina. The reason given is that Marshall was too inactive.

☞ Charles Anderson, late of Texas, has been appointed by Governor Todd, of Ohio, Colonel of the 76th regiment of volunteers from that State. He is the brother of Major Anderson, of Sumter fame.

☞ Steamer Norwegian, off Cape Race, brings a day's later news from Europe.—Nothing is said about intervention, and the news generally is of little interest.

☞ A wandering nightingale was near Manchester, England, recently, causing such interest amongst the people that multitudes went out to hear it sing.

☞ A Washington dispatch says Gen. Banks has written a letter to Mr. Gooch, relative to the charge of letting negroes ride, on his retreat from the Shenandoah Valley, to the exclusion of whites, in which he completely refutes the charge.

☞ Nathan Traverse, of Machiasport, while returning home from Machias in a boat with his wife and another lady, was drowned. The boat grounded, as he thought, and stepping out to shove it off, he sunk and did not rise again.

☞ An old and respectable citizen of Conneautville, Crawford County, Pa., died recently from the effects of poisonous vaccination.

Mr. Alfred Speer, of New Jersey, has been in town introducing an article of Sambuci Wine from his vineyards, where he has 80,000 bottles which has attained the age of four years. The samples which he left with us are certainly very palatable, and from the testimony of eminent chemists which he holds, it is doubtless a valuable medicinal remedy, as well as a superior article for family use.—[New Haven Courier.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century, by Dr. WM. GRACE, surgeon to Queen Jamie VIII. of Scotland, where he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded, by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Eyes, Sore Nipples, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Fresh Wounds, Erysipelas, Sore Legs, Stings of Venomous Reptiles, Piles, Tetters, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Mallows, Felons, Sinews, Lame Wrists, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great and celebrated Salve, never failed to effect a speedy cure when properly applied. This Salve has none of the irritating healing properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The most of the prominent physicians daily from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

TRIAL TRIP OF THE GUNBOAT SONOMA.—The trial trip of the U. S. gunboat Sonoma, just completed at the Portsmouth Navy Yard, was made on Friday last, and resulted most satisfactorily. The vessel started from the yard at about six o'clock A. M., and returned at seven o'clock P. M., having gone over 100 miles during the trip. On going out she was saluted by Fort McClary with four guns.

We understand that she did finely, having made twelve knots an hour, and proved herself to be a staunch, well-built vessel,—as, in fact, are all which the mechanics build on the banks of the Piscataqua river.

The day was a remarkably pleasant one, and all on board, including the few invited guests, enjoyed the trip greatly. It seemed to be a prominent desire among the officers, secondary only to the performance of their duty, to promote the happiness of the guests and to explain to them the different parts of the ship. Shell and grid shot were fired for their amusement, the latter from the 100-pound rifled Parrott gun in her bows, which went shrieking through the air, striking the water at a distance of five miles.—A bountiful collation was provided by the officers of the ward-room; and the guests were under much obligation to the captain for his hospitality in inviting them to his table.

The Sonoma is reported to be the best prepared and equipped vessel of her class ever built at this station, her apartments being more roomy, and her armament heavier than those of her predecessors, the Mahaska and Sebago.

The Sonoma is expected to sail on Tuesday, and will, we presume, join the flotilla which already numbers among the vessels comprising it, several which have been built and fitted out at this station. We doubt not that she will well maintain the high reputation which was long since achieved by our Portsmouth vessels, and has been augmented by those which have recently been sent out by our mechanics, under the skilful and able direction of Constructor Hanscom.

The Sonoma is under the command of Lieut. R. H. Wyman, a native of Portsmouth, who was in command of the U. S. steamer Pawnee, at the attack on Port Royal, (in which action he distinguished himself,) and more recently of the "Potomac flotilla," of which he was Flag-officer.

The names of her other principal officers are:—

Lt. Theo. F. Kane,—a young officer of much promise.

Paymaster—Edward Bellows, a nephew of Hon. Judge A. H. Bellows of Concord.

Ass't Surgeon—Thos. Hiland.

1st Ass't Eng'r—H. G. Rhoades.

Acting Masters—Wm. Post, S. H. Connell, Foster Willis.

☞ The Washington correspondent of the Concord Statesman, writing under date of July 7th, says:

"The bill which, under the management of Senator Hale, passed the Senate, appropriating $65,000 for the purchase of the whole island upon which the Navy Yard at Portsmouth is situated, did not receive the sanction of the House. By the careful management of the matter on the part of Mr. Edwards and Mr. Rollins, the subject is so placed that before Congress adjourns it is more than probable that an appropriation of $14,000, to purchase 27 acres and erect a hospital, will receive the sanction of both branches."

The correspondent must refer to Seavey's Island, as it was for the purchase of this that it was proposed to make the appropriation.

The same correspondent says:

"Hon. E. H. Rollins left Washington for the North on the 6th, at the suggestion of the government, on grave public business, and will not be again in his seat this session. Mr. Rollins has done an immense amount of hard work. He has literally worked night and day, and in less trouble some exigencies would now have a just claim to some little time to recuperate exhausted energies. There are, however, men who are expressly made for hard and everlasting workers, and who, by hard working, thrive the best. Mr. Rollins is one of those men."

THE HOSPITAL.—Among the other advantages of the Sagamore House, near Portsmouth harbor, it is easily accessible by water, as well as land. A steamer or other vessel, with sick or wounded men, could come direct from any Southern port, almost to the doors of the hospital.

There are other buildings there, beside the house, with various conveniences,—and the whole in a delightful and healthy location.

☞ Among the appointments confirmed by the Senate, and officially announced, we are pleased to find the name of Fitz John Porter, Brevet Brigadier General, United States Army, to be Major General of Volunteers.

Generals Sumner, Heintzelman, Keyes, and Franklin have all been confirmed as Major Generals.

☞ The Secretary of War has issued a general order, directing that if Col. Jennison has been mustered into service, he be mustered out, to date from the day of his muster-in.

☞ The following nominations were sent to the Senate on Friday, under the recent act reorganizing the Navy: Chief of Yards and Docks—Com. Joseph Smith; Equipment—Com. A. H. Foote; Navigation—Capt. Charles H. Davis; Ordnance—Capt. J. A. Dahlgren; Construction—John Lenthal; Steam Engineering—B. F. Isherwood; Clothing—H. Bridge; Surgery—Dr. W. Whelan.

☞ A. Williams & Co., Boston, have published in one pamphlet, two tales from the Living Age, entitled—"the woman I loved, and the woman who loved me," by the authoress of Agnes Tremorne; and "Sister Anne's probation," by Harriet Martineau. The publication in which they were first communicated to the public in this country, and the names of the authors, alone form a strong recommendation for the works. For sale by J. F. Shores, Jr.

☞ On Monday morning, Mrs. Elizabeth Herrick, wife of Mr. Henry Herrick, of Westford Centre, Mass., committed suicide by throwing herself into a well. The deceased was 74 years of age, and suffered from nervous debility and depression of spirits.

THE COLOR OF SEAS.—The Mediterranean is ultra-marine or a beautiful sky blue; the Adriatic, calaite or reddish grey; the Bosphorus, violet; the Euxine, brown; the Baltic, of a milky tinge; the South Atlantic, of an imperial azure line. The true color of salt water, not affected by the clime, is a delicate green.

☞ The John Brown Fund contributed by the people of Hayti is at last to be distributed to the heirs of John Brown and his fellow sufferers. It amounts to about $3400, and the committee includes Wendell Phillips, William Lloyd Garrison and James Redpath.

☞ Waterloo day was hardly noticed this year in England, and the Liverpool Journal says it was not well. But perchance the British lion thinks it best no longer to be frisky on the anniversary of a day so well remembered across the channel.

☞ The Aroostook Pioneer publishes a notice of a certain gentleman, that he has "settled with and *paid off* his wife," and shall therefore "pay no debts, &c., after, &c."

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for stimulating and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. June 1 1md

DEATHS.

In this city, July 11th, of consumption, Miss M. CARRIE HAM, eldest daughter of Mr. Samuel Ham, aged 20 years and 10 mos.

Throughout her lingering sickness she manifested an unmurmuring patience, and firm faith that He who doeth all things well, would not forsake her in her passage through the "valley of the shadow of death." Truly rich in her sublime faith and reliance on His help—she passed peacefully from amongst us, rejoicing in the assurance of a happy reunion with those dear friends far away and those attending her in her sickness, in that "better land" where sorrow and parting are unknown. Many friends mourn the loss of one possessing so many Christian virtues, and a disposition so amiable. "Believed by all who knew her." M.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain to correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and when obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, as they bring with them, *gently, perfectly, and regularly*. They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America*.

PURE OLD BOURBON WHISKEY.

Correspondence between some of the most eminent physicians of New York and Brooklyn, and WM. J. CUTTER, Jr., Louisville, Ky.:

NEW YORK May 1, 1861.

MR. WM. T. CUTTER, Jr., Louisville, Ky.:

Dear Sir:—The great difficulty experienced in procuring Brandy sufficiently pure for medicinal purposes, has induced many of the physicians of this vicinity to adopt Bourbon Whiskey as a substitute, both in the hospitals and private practice; and, since the latter has come into such general use, we are led to believe that a great deal now sold is of very inferior quality.

Presuming that your residence in the vicinity of the manufacture of Whiskey in Kentucky, as well as your skill as a chemist, will enable you to select a reliable article, and having full confidence in your integrity, we are led to inquire whether you will not be of use in having this market supplied, through an Agency, with the best quality of Pure Old Bourbon Whiskey for the use of the sick.

Yours, very respectfully, (forty present names)

LOUISVILLE, Ky., July 31, 1861.

DRS. VALENTINE MOTT, Willard Parker & others.

Gentlemen:—Your letter of May 1st has been received. In accordance with your wishes, I have made arrangements to supply your city and vicinity with a pure article of copper-distilled Bourbon Whiskey, which I trust will fully meet the requirements of your letter. Thanking you for your kind expressions of confidence, &c.

I remain, very respectfully, yours truly,

WM. T. CUTTER, Jr.

We, the Physicians of Portsmouth, having full confidence in the integrity of D. R. AMBROSE, recommend him as a suitable person to sell OLD BOURBON WHISKEY in Portsmouth, for medicinal purposes, in accordance with an arrangement made between the New York Physicians and WM. T. CUTTER, Jr., of Louisville, Ky., and a similar agreement between said Cutter and the Physicians of Boston.

A "WORD" FROM THE FAMOUS

"LANE,"

WHOSE BARGAINS IN GOOD, DURABLE, AND FASHIONABLE

READY-MADE CLOTHING

ASTONISH THE WORLD!

Why is it that Lane is so popular?

WHY IS IT THAT THE GREAT MASS OF THE PEOPLE BUY THEIR GOODS AT

"LANE'S?"

These are questions, the answers to which you will do well to remember.

1st. We do a strictly "CASH BUSINESS," buying and selling for "nett cash," thereby saving much from bad debts, and having great advantages in buying goods.

2d. We employ none but first-class artists in the cut and manufacture of our goods, thereby giving to the purchaser an elegant and tasty fit, combined with great durability.

3d. We always keep a very large stock, and you are sure to find garments suited to your taste and pocket.

4th. Our corps of salesmen are all gentlemen and you have no fear of being abused if you do not purchase; but on the contrary, take great pleasure in showing strangers over our immense establishment.

5th. We invite strangers who are making purchases in the city, to make our store their headquarters, and send any bundle or package there for safe keeping.

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,

Blacksmith and Horse-Shoer,

NO 80 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

In this city and vicinity; and is prepared to furnish and set the same, at the regular price for other Shoes, (except for steel Shoes, which are 25 cts. extra), and warrant them to give full satisfaction in all cases. The improvement consists in the nailheads set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c.; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

BLACKSMITH JOBBING generally attended to. S. W. WEBBER.

OF CHOICE OPORTO FRUIT,

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in European as its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in Europe and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

MATHEWS Arnica HAIR GLOSS

This is a new and invaluable preparation for preserving and beautifying the hair.

The wonderful virtues of Arnica in allaying and removing inflammation are universally known.

ARNICA HAIR GLOSS is a combination of those virtues, with other tried and excellent ingredients.

ARNICA HAIR GLOSS stimulates and invigorates the hair, prevents it from falling out—restores it when lost—promotes its growth and strength—renders it proof against all diseases.

ARNICA HAIR GLOSS permanently cures all irritations and eruptions of the scalp, and makes it healthy and fertile. For the removal of dandruff it has no equal. Its operations in this particular are magical and permanent.

ARNICA HAIR GLOSS is unequalled as a hair-dressing compound. It not only cleanses the scalp and invigorates the hair, but it renders the latter charmingly soft and lustrous. Its odor is particularly delicate and fragrant—the proprietor having taken especial pains to secure this result.

ARNICA HAIR GLOSS is the very best preparation for the hair ever discovered.

ARNICA HAIR GLOSS, notwithstanding its surpassing merits—is retailed at only Twenty-five cents a bottle, by all Druggists.

HOW A GREAT MAN'S AUTOGRAPH WAS GOT.—It is well known that towards the latter years of the Duke of Wellington's life, it was next to impossible to coax or wheedle his autograph out of him. A lady who had an album garnished with the autographs of most of the great men of the day, but who wanted that of the "great captain," mentioned her distress to the late Mr. H., and a few days after he, to her great surprise and pleasure, brought her a note. It ran thus: "Field Marshal the Duke of Wellington never ordered a pair of braces of the Messrs. Simpkin. If F.M. the Duke of Wellington had ordered the articles, he could not forget it. The Duke of Wellington always pays for his braces." This was a very odd document for a lady's album, but its authenticity was undoubted. The way in which this singular note was elicited was thus: Mr. H. filled up one of the bankruptcy court forms, and signed it, informing the duke that in winding up the affairs of the Messrs. Simpkin, he (the assignee) found on their books the sum of 6s. 6d., due by his grace for a pair of braces. Mr. H.'s ruse was founded on pure fiction, but it succeeded; and now, in a certain lady's album, may be seen the curious note of which we have given a copy.—*Court Journal.*

A FRIEND IN NEED IS A FRIEND INDEED.—At a meeting of Friends in Pennsylvania, since the beginning of hostilities, a very worthy member was placed on a committee, whose duty it was to see that the Friends did not aid in carrying on the war. He modestly declined the place, saying, "I am connected with a railroad, which is now engaged in conveying troops, and I shall not dissolve the connection. But if the meeting will appoint a committee to see that no Friend makes any money out of the war, I will serve on it and act as chairman."

GRADUAL REPENTANCE.—Gradual repentance is like a man who wants to be taken out of a burning building, but who says to those about him, "Now don't take me out too suddenly; take me down first where it is not so hot, and then to another room, where there is still less heat, and so take me out gradually." Why, the man would be a cinder before you could get him out. A man who wants to reform should do so perpendicularly.

A REASONABLE SUPPOSITION.—The Oswego Times says that at a recent wedding in that city, the bridegroom being an army officer, wore his side-arms at the nuptials. A little wide-awake brother of the bride was attracted by the display of weapons, and as he has another sister whose 'true love' is a carpenter, he boldly inquired: "Ma, when J—— comes to marry Milly, will he wear his saw and hatchet by his side?"

Proposals
FOR
BUILDING AND EQUIPPING TWO FIRST CLASS AND THREE SECOND CLASS LIGHT VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSES BOARD,
Washington City, June 26, 1862.

Separate sealed proposals will be received at this office until 12 m. on SATURDAY, the 9th of August, 1862, for building and equipping two first class light-vessels of the following dimensions:

Length from after side of stem post to the fore side of main stem, 96 feet; breadth of beam, moulded, 28 feet 6 inches; depth of hold from top of timber strake to top of beam, 11 feet; tonnage about 232.

The Light-House Board also receive proposals until 12 m. on MONDAY, the 28th of July, 1862, for building and equipping three second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of timber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain untapped southern timber. The printed specifications by which the vessels are to be constructed and which will, with the drawings and plans, be attached to and form part of the contracts, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia, at which places also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Hon. Secretary of the Treasury. No proposal will be received or considered, unless from persons engaged in ship building, and each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be sent by the successful bidder as evidence that there is no mistake as to the object of his proposal.

A drawing of the vessel contracted for will be furnished to the contractor, on which he will be required to adhere strictly; to this end the mould lofts lines will be taken off and the mould executed by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will be required to see that the work executed and the materials used are in strict conformity to the terms and specifications of the contract, and who must certify to the same in writing, before the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light-vessels may suggest any change or alterations by which the cost will be lessened, without using inferior materials, and in making such suggestions the precise character of the change or alteration will be named, with the amount saved thereby. The proposals for each vessel will state the time required to complete the vessel and deliver it to the agent of the Board at such place as may be agreed upon; the same to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building light vessels,*" and then enclosed in another envelope, and addressed to the Secretary of the Light-house Board, Washington, D. C.

No bid will be considered that does not conform to the requirements of this advertisement.

Any person submitting a proposal may be present, and witness the opening of the bids at the time and place hereinbefore specified.

By order of the Light-house Board:
jul1eod3w W. B. SHUBRICK, *Chairman.*

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JULY 15, 1862.

☞ Without having the slightest sympathy or regard for "the rebels"—the present Southern "revolutionists"—or the least fear of, or objection to the entire freedom of the negroes in "the late United States"—we consider the talk about general confiscation and emancipation, as the merest nonsense, "signifying nothing" but ignorance on the part of those who put it forth. Bring every *proved*, legally proved, traitor, to the ring-bolt, and confiscate his property—slaves or what not; but we can as easily conceive of the power and right of the General Government to annul one law as another in a State—to abrogate marriage, as well as slavery. And the talk of *any* U. S. proclamation or law being effective in the Confederate States to day, would be laughable if it were not so serious.

The following paragraphs from the Traveller and Transcript, contain much good sense:

We believe emancipation will go on better without proclamations than with them. Take all the able-bodied slaves into the army who can be used to advantage, either as laborers or fighting men, and make free all the slaves of notorious rebels, but make no declamation or proclamation about the matter. This matter of declaiming and proclaiming only tends to injure the cause. The utter unconcern of the rebels as to what the government or its generals may *proclaim*, ought to teach us a lesson that it is *deeds* not *words* which are now wanted. It is time enough to *talk* about what we will do, when we have shown that we possess the power. When we are able to hold any portion of the Southern country, out of the reach of the guns of a strong body of armed men, it will be time enough to proclaim what we will do with the slaves. Until then all *talk* about the matter is as idle as that of a young girl, how she will bring up and what she will do with the children she is going to have after marriage.—*Trav.*

There are many persons who think that the slaves would be injured rather than benefitted by the emancipation of any considerable portion of their number. Admitting this to be true, the case is not altered.—Emancipation does not come before us as a philanthropic, but a military measure. If its military results promise to be good, we have at present little to do with its philanthropic bearings. The object is not to benefit the slaves, but to weaken the rebels. If the slaves are injured, they only take their portion of the calamities created by the war. It would be ridiculous, while we are pouring out our best blood to defend and preserve the nation, and entailing on ourselves financial burdens which will press on our industry for half a century, to except the black portion of the population from their share of the injury which war necessarily produces.—*Transcript.*

☞ The Maine Democrat says in a late issue:—

"We have some among us who have, in our opinion, discarded both the *name* and the *principles* of Democracy. They are such as ask Democrats to sustain this Republican-abolition war, under Republican directions, and while that party still clings to its abolitionism."

The Dover Gazette replies:—

"In this quotation, the editor of the Democrat, clearly, and unequivocally, declares his opposition to the war, and denounces all Democrats who support it as having discarded both the *name* and *principles of* Democracy! If opposition to this war be the true test of Democracy, where is the Democratic party to be found? The Democrat cannot muster a corporal's guard upon such a platform."

☞ It is said that the "new naval expedition" hinted at by some of the papers as in course of organization, is nothing more than the re-organization of the North-Atlantic blockading squadron. A large reinforcement of new regular navy-built steam gunboats has been sent to Virginia waters of late. The Navy Department has chartered a splendid iron steamship at Boston for secret service. She is named the Merrimack, and measures over 2000 tons burthen. The Mississippi, too, of equal dimensions with the Merrimack, has been chartered and dispatched to an unknown destination.

☞ Hon. F. O. J. Smith, of Westbrook, Me., offers, through the columns of the Portland Advertiser, to be one of six persons to deposit with Gov. Washburn, within five days, $675,000, to be distributed as an extra bounty of $75 to each volunteer of the 2000 now called for from that State—the six contributors to trust to the next Legislature for their indemnity, though no legal obligation will exist upon the State for it.

☞ It is understood that there is no foundation for the statement which has recently appeared, to the effect that the Governors of the several States have been authorized to purchase or contract for the supplies for the troops to be raised under the new call. The Government has ample supplies of army equipments, quartermasters' and other stores, which will be issued as fast at needed.

☞ It is stated by correspondents at the London Exhibition that the United States will carry off more premiums, in proportion to the articles exhibited, than any other nation.

NEW HAMPSHIRE ITEMS.

—— It will be seen by the following, approved the 9th inst., that any city or town in this State has power to offer a bounty:

"*Sec.* 3.—The several towns and cities, at any legal meeting, may raise money and appropriate the same to encourage voluntary enlistments in the war against the rebellion; and the Governor, by and with the advice and consent of the Council, may offer such bounties as may be deemed necessary to encourage voluntary enlistments."

—— A most enthusiastic meeting of the people of Manchester was held on Friday evening, at the call of the Mayor, for the purpose of discussing the best means for the further enlistment of soldiers. Speeches were made by Mayor Bunton, Jos. Kidder, Esq., Hon. G. W. Morrison, Hon. Wm. Clark, Hon. David Cross, Lt. Col. Coughlin, Major Angell, and others.

—— The Washington correspondent of the Boston Transcript, in an account of the commencement at Georgetown College, says:

"The musical entertainment afforded ample evidence of the proficiency of the pupils; and whether as pianist, harpist or singer, Miss Whipple, of New Hampshire, a daughter of Brig. Gen. Whipple, U.S.A., was invariably excellent; and her piano solo from "Lucretia Borgia" was a very brilliant performance, delighting the audience as well as her father, who was present."

—— The appointment of Benj. Whidden, of Lancaster, as Commissioner of the United States to Hayti, was confirmed by the Senate on Saturday.

—— A letter from Wolfborough has the following:

We generally attend meeting when we are up in these parts. The Freewill Baptist Folk we like for their piquant originalities. "Christ wants no three-months' men for *his* army!" exclaimed Elder D. in one of his exhortations to the sinners to come under the banner of the Prince Emmanuel. "He wants you to enlist for the whole war, and not go home until you have put down the rebellion of sin and the devil. Instead of dollars, he gives a crown of glory for bounty!"

"We've listed, bent, we've listed, bound,
To fight old Satan up and down.
O, Zion Hallelujah!"

"Some of you sinners," he continued, "love your sins so dearly, that I verily believe you would not give them up for a tenacre lot in heaven!"

Congress, Saturday.—The Senate passed the Confiscation Bill. A bill was introduced in relation to letters of marque, prizes and prize goods. The bill authorizes the President, when war exists, or is declared, to issue letters of marque to private vessels. A resolution was adopted, fixing the time for the adjournment of Congress on Wednesday, 16th inst. A joint resolution, offered by Mr. Hale, authorizing the Secretary of the Navy to substitute Soyer Crimean soup for preserved meats and dessicated vegetables in the Navy rations, was passed.

In the House, Mr. Colfax stated that an extensive business had been done in the erasing, by chemicals or otherwise, of the marks on cancelled postage stamps, and selling them in lots. As there is no punishment for such an offence he reported a bill, which was passed, punishing persons so engaged with the intention of using such stamps, by imprisonment not exceeding 3 years, or a fine of a thousand dollars, or both, in the discretion of the Court.

A Heiress.—The Warren (Pa.) Mail gives an account of the sentencing of a woman named Anna J. Clements to the Penitentiary for two years on a charge of larceny. During the remarks made by the Court, she frequently interrupted with insolent and abusive language. When the sentence was pronounced she broke forth with a volley of imprecations, and let fly four or five stones, one after another, like lightning. The judges ducked their heads, and dodged, barely escaping a hit. Then she bounded like a wild cat for the judge, and actually got partly behind the bench before she was seized and held, while she yelled and struggled with the strength of a strong man.

☞ The Essex County, Mass., Teachers' Association, wishing to avail itself of the female talent in the association, and thereby enhance the value of its meetings, voted, at its meeting in April, to offer a prize of five dollars each for three essays, to be prepared by the female teachers of Essex county. The subjects for the essays have been selected by a committee of ladies, and are:

First—Best method of teaching English composition. Second—Why does study so commonly terminate with the school period, and what can be done to prevent this? Third—How shall the study of geography be rendered interesting to beginners?

T. G. Senter, Esq., is Secretary.

☞ All the pretty women of New Orleans are not Yankee haters. One of them recently fell in love with a handsome Union officer at first sight, and now that he is sick and in the hospital, she takes him flowers every day, soothes his aching brow, and says all sorts of sweet things to him. He is not very sick, but his brother officers think he will have a slow recovery, and it will be long before he will return to camp duty.

☞ Secretary Smith of the Interior Department has been confined to his bed by indisposition for three or four days past.

THE REBELLION.

It is understood, says a Washington dispatch, that the term of enlistment for the additional 300,000 volunteers, will be one year.

Southern reports state that Gen. Buell's force, estimated at 30,000 strong, have all crossed the Tennessee river. It is supposed they are making a feint movement on Chattanooga to cover movements on Rome, Georgia.

The Charleston Courier of the 4th reports that the Federal troops have retired from their position near that city, and that several transports with troops were seen going northward on the 3d.

It is Lebanon, Ky., and not Lexington, that the guerillas are reported to have burnt.

The Petersburg Express, of Monday, admits that from 15,000 to 20,000 men had reached Gen. McClellan, and that James river was almost bridged with transports.

Gen. Magruder has been relieved from command by Gen. Johnston. In an address to his troops he said he was going to a distant and important command.

The Petersburg, Va., Express has a dispatch from Mobile, 8th, stating that passengers by a flag of truce from New Orleans report Baton Rouge re-captured by Van Dorn, with 1500 prisoners.

Gen. Pope has issued a stirring address to his soldiers, in which he says:—

I have spent two weeks in learning your whereabouts, your condition and your wants,—in preparing you for active operations, and in placing you where you can act promptly and to the purpose.

These labors are nearly completed, and I am about to join you in the field. Let us understand each other. I have come to you from the West, where we have always seen the backs of our enemy,—from an army whose policy has been to attack and not to defend.

I presume I have been called here to pursue the same system, and to lead war against the enemy. It is my purpose to do so, and that speedily.

In the meantime I desire you to dismiss certain phrases I am sorry to find much in vogue among you. I hear constantly of taking strong positions and holding them—of lines of retreat and of bases of supplies. Let us discard such ideas. Let us study the probable lines of retreat of our opponents and leave our own to take care of itself. Let us look before us and not behind us. Success and glory are in the advance. Disgrace and shame lurk in the rear. Let us act on this understanding and it is safe to predict that your banners shall be inscribed with many a glorious deed, and that your names will be dear to your countrymen forever.

Charges against Gen. Mitchell.—The Cincinnati Commercial says that charges of a very serious character are made against Gen. Mitchell by officers of the division in Northern Alabama, which he commanded until within a few days.—It is alleged that he has suffered a portion of his command to be guilty of conduct toward the people among whom they were posted, utterly unwarranted, and that his personal conduct has been erratic and unsoldierlike. Gen. Buell expressed such strong disapprobation of Gen. Mitchell's conduct, that it is said the latter resigned, whereupon he was summoned to Washington. The Louisville Journal says his course has been "disgraceful to humanity."

Who Escape Drafting in the U. S. Laws.—The following persons are exempted from enrollment by the laws of the United States: Officers judicial and executive of the government of the United States, the members of both houses of Congress and their respective officers, Custom House officers and their clerks, inspectors of exports, pilots and mariners employed in the sea service of a citizen or merchant within the United States, postmasters, assistant postmasters and their clerks, post officers, post riders, stage-drivers in the care and conveyance of the mail of the United States, ferrymen employed at any ferry on the post road, and the artificers and workmen in the United States Armories and Arsenals.

More Kicks than Dimes.—The New York Herald has discovered a means of making silver change cheap. "It is," says that journal, "every man's duty to vigorously kick any person who is discovered to be guilty of boarding silver or selling it to brokers. If this duty was rightly performed we should have no further trouble about a scarcity of specie." It is suggested, however, that before the practice is generally adopted, the House Committee on Ways and Means be petitioned to introduce a bill to make kicks legal tender, as certain of those unpleasant consequences, which are commonly settled in Police Courts, might result from administering kicks to the hoarders and sellers of silver without due course of law.

☞ A Washington letter says:

"The proposals for building gunboats for the navy at private yards have not been found satisfactory, the speed proposed not being as great as desired. The gunboats will doubtless be built at Portsmouth, Charlestown, Brooklyn and Philadelphia, and the machinery will be built by contract. Each gunboat is to have two pairs of engines, with two screws, each working independently of the other."

☞ Gen. Pope has announced that his "headquarters will be in his saddle." Is he going to "stand on his head," then, or rather ride on his head?

☞ ATTENTION, THE WHOLE! ☜

Rye, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had fits ever since she was a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's Panacea, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. Josiah Jenness.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe pleuring pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. Caroline B. Swett.

This statement of my wife is correct.

Simeon Swett.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing me much pain and misery. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.

NOTICE.

Cane Seat Chairs re-seated, and BROOMS MADE to all sizes, by a Blind Man, at

No. 11 Bridge Street, near Concord Depot.

Portsmouth, April 30.

Local.

☞ A correspondent, whose opinion is worth consideration, urges that the Hospital for wounded and disabled soldiers should be so near a large town that the sufferers could easily and constantly receive the little kindnesses and delicacies that attentive and benevolent ladies can render. He suggests that the Old South Church and Hanover Street Chapel might be fitted up at slight expense: and that other buildings in the city could be obtained for the same purpose. But it is necessary to keep in mind that something must be done *quickly*, or the choice of place will not be left open. To our mind, the Sagamore House is at once the best, healthiest, and on the whole, most convenient, house in this vicinity, for the purpose designed; and if there should be several, that should be the first employed.

☞ Mr. Samuel M. Joy of this city, a volunteer in the N. H. 2d Regt., who was taken prisoner at Bull Run and kept at Richmond and elsewhere for eleven months by the rebels, and who has been at home here for about a month, has reported himself for duty, and left for the Camp of Instruction at Annapolis on Monday—"determined to see this thing through."

☞ An item entitled "New men-of-war completed," is going the rounds of the press, in which the types have made strange work with the names of the vessels. Of those built at the Portsmouth Navy Yard, the Mahaska has become the "*Mahratta*;" the Sonoma, the "*Sonora*;" the Ossipee, the "*Genessee*;" and the Kearsarge, after undergoing many changes, has at last become the "*Hearsay*."

☞ The Boston Journal in noticing Mons. Denier's exhibition at Nahant last season, says:—

It is estimated that there were at least 50,000 people present. The rope was about 1400 feet long and some 200 feet high. The whole affair was perfectly successful. The spectacle was truly grand and imposing. At such a great height the daring gymnast appeared scarcely a foot high. On arriving at the centre he sat down and proceeded to execute some of the most astounding feats ever witnessed.—The vast concourse of people seemed breathless with wonder and amazement.

☞ The Piscataqua Ministerial Association meets at Kittery Point to-day (Tuesday.) Sermon by Rev. Mr. Gage, of this city.

WHETTERS OF APPETITE.—Hall's Journal of Health has the following in relation to the use of stimulating drinks. It says:

No case is remembered in the practice of a quarter of a century, where malt liquors or any alcoholic drinks whatever, have ever had a permanent good in improving the digestion. Apparent advantages sometimes result, but they are transient or deceptive. If there is no appetite, it is because nature has provided no gastric juice; and that is the production of nature, not of alcohol.—If there is appetite, but no digestive power, liquor no more supplies that power than would the lash give strength to an exhausted donkey. If torture does arouse the sinking beast, it is only that it shall fall into a still greater exhaustion, from which there is no recovery; so with the use of liquors as whetters of appetite.

SUICIDE.—We are informed that Mr. John McIntire, 2d, of York, Me., a farmer, aged about 50 years, living near Eliot, committed suicide several days since, by drowning or suffocating himself in a very small brook or ditch. Though in at least "comfortable circumstances," pecuniarily, his mind was much depressed by the present and prospective state of the country, and the fear of coming to want; and he attempted to hang himself, but was cut down ere life was extinct. A day or two after, although watch was kept over him, he was found dead, with his face in a ditch near his home, the water scarce covering his cheeks, and one knee resting on either bank. We are told his father also came to his death in a manner almost exactly similar.

☞ At the close of services in the Universalist Church in Roxbury, on Sunday forenoon last, after a most patriotic discourse, the Pastor, Rev. Mr. Bartholomew, announced his readiness, if a reasonable number would join him, to enlist for the war or procure a substitute. Fifteen gentlemen present immediately gave him their names, and more will follow.

☞ William J. Walker, of Boston, has donated $10,000 to Amherst College, the income from which is to be used for the maintenance of a special instructor in mathematics, who will have charge of the best mathematical scholars in the college, selected from all the classes.

MORE MEN.—If we need *more* than the 300,000 men now called for, the quickest, and so far the best way to get 200,000 more, would be, to call out certain ages of enrolled militia, for 6 months. †

☞ Gen. Pope has been promoted to be a Brigadier General of the Regular Army, in place of Gen. Wool, made Major General.

☞ Two and a half millions of specie were exported from New York last week, for which from 12 to 17 per cent. premium was paid in paper.

☞ The arrest of the Circleville (Ohio) Watchman was ordered because of a recent publication of an editorial on Gen. Butler's course in New Orleans, containing this sentence: "Are there not in New Orleans some men brave enough to rid the earth of such a monstrous hellhound?"

☞ The Newark, N. J., City Council has voted to issue promissory notes to the amount of $50,000 in denominations of from 10 to 50 cents, to supply the existing want of small change—to be redeemed by the city in sums of $10 or more.

☞ Perley telegraphs that there are numerous resignations of officers in a New England Cavalry regiment, which has been placed under the command of a young Frenchman.

☞ The amount of cotton in Liverpool on the 4th inst. was 185,000 bales, of which only 61,000 were American. It was selling at 34 cents a pound and advancing. By the first of August the cotton market will be bare and clean, and we shall soon after discover whether cotton is king or not.

☞ The Boston Directory for 1862, invaluable for all Boston men, and very convenient and desirable for business men everywhere who have connection with "the city"—is just published and for sale by Adams, Sampson, & Co., No. 91 Washington street, Boston, (up stairs.)

STARVING.—A woman at the Newburyport Alms House, named Robinson, a widow, has been starving herself for the last three weeks. In all that time she has refused everything but water. Last Monday she was unable to move. What the city has done to her, that she should seek to dissolve partnership with it by such means we know not. If they have not treated her well, she could better have revenged herself in suicide by over-eating.—*Herald.*

FUNNY.—A German paper, in all good faith, informs its readers that "Gen. Banks is a native of Pomerania, and was a sergeant in the Prussian army before he emigrated to the United States, where his military experience at home enabled him to attain his present position."

☞ The Senate tabled the Mexican treaty, providing for loans to Mexico of $11,000,000, in executive session on Saturday.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. June1 1md

Morning Chronicle.

Douglas Jerrold was subjected to a series of long interviews with an old lady, a friend of the family, who was in the habit of talking to him in a very gloomy and depressing manner, presenting to him only the sad side of life. "Hang it!" said Jerrold, "she wouldn't allow there was a bright side to the moon!"

When the Memphis, a rebel gunboat, was sinking, our boats saved all they could of the crew from drowning. When the Mound City boat, up White River, blew up by steam, and a portion of the scalded sufferers were trying to reach the shore, they were barbarously fired on, and some shot by the rebels!

A "WORD" FROM THE FAMOUS

"LANE,"

WHOSE BARGAINS IN GOOD, DURABLE, AND FASHIONABLE

READY-MADE CLOTHING

ASTONISH THE WORLD!

Why is it that Lane is so popular?

WHY IS IT THAT THE GREAT MASS OF THE PEOPLE BUY THEIR GOODS AT

"LANE'S?"

These are questions, the answers to which you will do well to remember.

1st. We do a strictly "CASH BUSINESS," buying and selling for "nett cash," thereby saving much from bad debts, and having great advantage in buying goods.

2d. We employ none but first-class artists in the cut and manufacture of our goods, thereby giving to the purchaser an elegant and tasty fit, combined with great durability.

3d. We always keeps very large stock and you are sure to find garments suited to your taste and pocket.

4th. Our corps of salesmen are all gentlemen and you have no fear of being abused if you do not purchase; but on the contrary, take great pleasure in showing strangers over our immense establishment.

5th. We invite strangers who are making purchases in the city, to make our store their headquarters, and send any bundle or package there for safe keeping.

in this city and vicinity, and is prepared to furnish and set the same, at the regular price for other Shoes, except for steel Shoes, which are 25 cts. extra, and warrant them to give full satisfaction in all cases. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c.; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

OF CHOICE OPORTO FRUIT,

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine:

MATHEWS ARNICA HAIR GLOSS

This is a new and invaluable preparation for preserving and beautifying the hair.

The wonderful virtues of Arnica in allaying and removing inflammation are universally known.

ARNICA HAIR GLOSS is a combination of these virtues, with other tried and excellent ingredients.

ARNICA HAIR GLOSS stimulates and invigorates the hair, prevents it from falling out—restores it when lost—promotes its growth and strengthens—renders it proof against all diseases.

ARNICA HAIR GLOSS permanently cures all irritations and eruptions of the scalp, and makes it healthy and fertile. For the removal of dandruff it has no equal. Its operations in this particular are magical and permanent.

ARNICA HAIR GLOSS is unequalled as a hair-dressing compound. It not only cleanses the scalp and invigorates the hair, but it renders the latter charmingly soft and lustrous. Its odor is particularly delicate and fragrant—the proprietor having taken especial pains to secure this result.

ARNICA HAIR GLOSS is the very best preparation for the hair ever discovered.

ARNICA HAIR GLOSS, notwithstanding its surpassing merits—is retailed at only Twenty-five cents a bottle, by all Druggists.

BALLOON ACCIDENT.—The people of Sparta, Morrow County, Ohio, had a large celebration on the Fourth. A balloon ascension having been announced and prepared, by Mr. F. H. Westbrook, the balloon was inflated, and with Mr. Westbrook in the car, started from the earth between four and five o'clock P. M. It had not ascended more than 300 or 400 feet when it burst, and fell with rapid momentum. The unfortunate aeronaut struck the ground feet foremost, his heels going through the close wicker-work of the side of the car, and sinking to the depth of nearly two inches. He was immediately taken out of the car in a totally unconscious condition. One of his legs was broken—perhaps both, and the internal injuries to vital parts of the body and brain preclude all hopes of recovery. No human organization could endure such a dreadful concussion. The balloon was absolutely rotten, and filled with hot air. Mr. Westbrook was well aware of the imminent hazard, but rather than disappoint the people by not ascending, risked his life and lost it.

A WINDFALL TO A LABORING MAN.—The Auburn Advertiser states that a laboring man named Daniel Rogers, who has been working for the past week for D. C. Goodrich in laying a cellar wall by the perch in that city, has received a letter from Ireland stating that there is now in the Bank of Ireland $260,000 to his credit, from the estate of his grandfather. It is necessary to give six months' notice before drawing this sum from the bank. Mr. Rogers expects soon to go over for his fortune. This has not been unexpected by Mr. Rogers. He has had a sum deposited for some time in the Weedsport Bank to pay his expenses to Ireland whenever the legacy should be determined.

Proposals
FOR
BUILDING AND EQUIPPING TWO FIRST CLASS AND THREE SECOND CLASS LIGHT VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 25, 1862.

Separate sealed proposals will be received at this office until 12 m, on SATURDAY, the 9th of August, 1862, for building and equipping two first class light-vessels of the following dimensions:

Length from after side of stern post to the fore side of main stem, 98 feet; breadth of beam, moulded, 25 feet 6 inches; depth of hold from top of timber stake to top of beam, 11 feet; tonnage about 222.

The Board will also receive proposals until 12 m, on MONDAY, the 28th of July, 1862, for building and equipping three second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of limber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain autapped southern timber. The printed specifications by which the vessels are to be constructed, and which will, with the drawings and plans, be attached to and form a part of the contracts, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia, at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Hon. Secretary of the Treasury. No proposal will be received or considered, unless from those engaged in ship building, and each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed by each bidder, as evidence that there is no mistake from the object of his proposal.

A drawing of the vessel contracted for will be furnished to the contractor, to which he will be required to adhere strictly; to this end the mould loft floor will be taken off and the mould examined by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will be required to see that the work executed and the materials used are in strict conformity to the terms and specifications of the contract, and who must certify to the same in writing, before the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light-vessels may suggest any change or alteration by which the cost will be lessened, without using inferior materials, and in making such suggestions the precise character of the change or alteration will be named, with the amount saved thereby. The proposals for each vessel will state the time required to complete the vessel and deliver it to the agent of the Board at such place as may be agreed upon; the same to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building Light vessels*," and then enclosed in another envelope, and addressed to the Secretary of the Light-house Board, Washington, D. C.

No bid will be considered that does not conform to the requirements of this advertisement.

Any person submitting a proposal may be present, and witness the opening of the bids at the time and place hereinbefore specified.

By order of the Light-house Board:

WEDNESDAY, JULY 16, 1862.

BOUNTIES FOR ENLISTMENTS.—From the fall of Fort Sumter, our State government and the National government have been a long way behind the people in their earnestness to put down the rebellion. The people are alive to the emergency, and see plainly that the quickest way is the cheapest, to overwhelm the traitors. If the present pay won't get soldiers, they say give more.

New Hampshire is called upon for three regiments entire, and enough men to fill to the maximum number the regiments we now have in the field, making a call for from 5000 to 6000 men. The demand is an earnest one. The 8000 soldiers that have gone from New Hampshire join in the cry for help. What man, what woman is not aroused, and does not feel that it is impossible to do too much? Yet with a state of feelings so strong, the Governor and Council offer an additional bounty of *five* dollars! What sort of an emergency do they think exists? Do they suppose the soldiers will enlist here for a bounty of $25, when Massachusetts offers $50, Connecticut $80, and many cities offer additional bounties of $50 and $75, and even as high as $100. Without the Governor and Council offer a much larger bounty, resort must be had to the unpopular system of drafting.

Our volunteers will go into other States to enlist unless New Hampshire guarantees inducements equally up to other States. New Hampshire soldiers are as brave as any in the land and as patriotic: but they cannot afford to make greater sacrifices than the volunteers of other States, and it is clearly not right to ask them to do it. Our volunteers ask to stand on the same footing.

INDIVIDUAL EFFORT.—There never was a time in our history which called so loudly for patriotic self-sacrifice on the part of every individual as the present.—Every one should ask, What can I do for my country in this hour of its trial? Now is the time for the men of ample means to lay in the lap of the Government a portion of their surplus wealth, to enable it to crush its enemies. We notice that in many towns rich men are coming forward pledging liberal sums for bounties and for the support of the volunteers. This is not only noble and patriotic, but also the wisest and truest policy; for if the Government and institutions are not sustained, what security will there be for property in the future.

THE CONFISCATION BILL passed the Senate by a vote of 27 to 13, and the House by a vote of 82 to 42, the Republicans generally voting for it, the Democrats against it. The bill adopted is much stronger than any heretofore proposed. It declares death for treason, and the freedom of a traitor's slaves; or he shall be imprisoned five years, fined $10,000, and his estate, except slaves, shall be seized. For inciting rebellion or giving it aid and comfort, forfeiture of personal property, ten years in prison, $10,000 fine, and slaves set free. The President is authorized, for putting down the present rebellion, to seize the property of all such persons and convey the proceeds to the Government. He is to proclaim that if in sixty days rebels do not return to allegiance, their property shall be forfeited.

Slaves of persons engaged in rebellion or who give aid and comfort to the rebels, that take refuge in our lines, shall be held as captives of war and be forever free from slavery. So also shall be all slaves deserted by their masters and coming under control of our Government; also all slaves found at places occupied by our troops. No slave escaping from one State to another State shall be delivered up except for crime or some offence against the laws of the United States, until the claimant shall make oath that he has not borne arms in the present rebellion, or given aid and comfort thereto. No person engaged in naval or military service shall decide on the validity of the claim or surrender such slaves, on pain of being dismissed from the service.

The President is authorized to employ as many persons of African descent for the suppression of the rebellion as he may think fit, and use them in such a manner as he may deem best for the public welfare, and he is also authorized to make provision for colonizing the blacks beyond the limits of the United States. The President is also to extend to prisoners pardon and amnesty as he may deem expedient. The people will now look to the President for the vigorous enforcement of the Confiscation Bill.

☞ Hon. Robert J. Walker, it is said, will shortly publish the first of a series of letters, in which he will sustain at length the gradual emancipation policy of President Lincoln.

☞ Gen. Scott is at Elizabeth, N. J., his place of residence. The stories of his being in Washington are untrue.

THE REBELLION.

A Vicksburg dispatch of the 4th states that the bombardment is tremendous and increasing. It is estimated that the Federals have fired 32,000 shot and shell.—The rebel loss so far is six men killed and one wounded. The inhabitants have taken shelter in the woods. The dispatch says: "Should the invaders land, we will drive them back at the point of the bayonet.—Vicksburg cannot be taken."

Deserters report that the authorities in Richmond have taken possession of almost every home for hospital purposes, and great fear is manifested of an epidemic.

CONGRESS, Monday.—The Senate passed the resolution of thanks to Com. Foote; and bills admitting Western Virginia; punishing the fraudulent use of postage stamps; requiring commanders of vessels sailing to foreign ports, and all persons prosecuting claims against the Government to take the oath of allegiance; and for the better government of the Navy. The resolution providing that the money from prize sales be paid into the Treasury within 20 days, was passed. The bankrupt bill was made the special order for the second Monday in December. A substitute to the bill in relation to letters of marque, prizes and prize goods was adopted—that the President be authorized during the present insurrection to grant letters of marque and reprisal under the provisions of the act of 1812 and 1813, and those acts be revived against that part of the United States whose inhabitants have been declared to be in a state of insurrection, and the vessels and property to them belonging.

The House passed the bill making appropriations for civil expenses. A bill from the Committee was passed, imposing an additional cent per pound on sugar, with a proviso not to apply to sugar made from sorghum. The project of a slavery emancipation bill recommended by the President was laid before the House. Referred to a select committee.

EASTERN RAILROAD IN N. H.—The annual meeting of the Eastern Railroad in New Hampshire was held at Hampton on Tuesday. The attendance was large.—The following gentlemen were elected Directors upon a stock vote, severally receiving 940 votes out of 1089 cast:

Benj. T. Reed, Robert W. Hooper, and E. P. Bancroft of Boston; W. H. Y. Hackett and W. M. Shackford, of Portsmouth.

The following resolution was adopted:

Resolved, That the Directors of this Corporation be authorized to obtain from the Legislature of New Hampshire authority to unite this Corporation with the Eastern Railroad Company in Massachusetts, upon such terms and conditions as the two Corporations may agree upon.

The Directors subsequently re-elected Benj. T. Reed, Esq., of Boston, as President. Daniel P. Drown, Esq., who has served the Corporation for twenty-six years, declined a re-election, and William H. Hackett, Esq., of Portsmouth, was chosen Clerk, and J. B. Parker Treasurer. William H. Hackett was also elected Transfer Clerk under the recent act of our State Legislature.

☞ How little we all think, as we enjoy the luxuries of every-day life, of the toil and trouble necessary to provide those comforts for us—of the chills and sweats of the ice-man, as he drags his precious crystal from frozen darkness to torrid day; of the baker, whose dusty and heated midnight toil, while you are sound asleep, gives you hot rolls for breakfast; the milkman, whose labors must begin before the sun shows himself, to be in season; the printer, who must know no rest, no sleep, till all "the news" be gleaned; the coal diggers in the cheerless bowels of the earth; those who go down upon the sea,—and many of them into it; and all the rest, who climb, and dig, and delve,—let us think of all with compassion and kindness, while we enjoy the fruit of their labors.

—— A Dover correspondent of the Boston Journal says:—

The 11th Regiment will probably be raised in Belknap, Carroll and Strafford counties. Among those mentioned in connection with the Colonelcy is John W. Kingman, Esq., of Durham, a lawyer of ability, and well suited to the position, possessing many of the requisite qualities for a commander; also, Hon. Micajah C. Burleigh of Great Falls, formerly a State Senator, and well known in political as well as social life as a firm and staunch friend of the cause, would lead the regiment bravely. He is Captain of Company C, Governor's Horse Guards. In connection with the Majorship we hear of Mr. Joseph D. Weeks of Canaan, son of Hon. Wm. P. Weeks; for Quartermaster, Geo. D. Vittum, Esq., and Ira A. Moody, Esq., of Dover.

LETTER FROM NEW YORK.

From our Regular Correspondent.

HARLEM TERRACE, N. Y., July 6.

Dear Chronicle:—Leaving the landing at Astoria, where I closed my last letter, the boat is soon cleaving the surging waves which whirl and eddy around the surging rocks of Hell Gate, its whirlpool caused by the rushing through the narrow strait of the immense body of water of the Sound, which stretches away to the right, its shores dotted with a hundred white villages and towns, and the waters intervening with groups of islands freshly green. In close proximity on the right is Ward's Island, forming one bank of the Harlem river, which here commences its refreshing flow; and north of it, Randall's Island, on which stand the House of Refuge and attendant buildings, an asylum for orphans and juvenile delinquents, about 600 of whom here find a home, and are clothed, fed and educated by the city. On the "4th" these boys were supplied by the authorities with three bunches of fire-crackers each,—and about 100 of them, organized into a military corps, were on parade during the day. The main building is built in the Roman style of architecture, of brick, with stone trimmings, 600 feet long and four stories high, with towers on the centre and end wings.

Above, on the opposite bank of the river, is Harlem Terrace; and still further on, a half-mile or more, is Harlem proper.—From the boat the view of the villas along the bank is truly beautiful. All constructed after the most approved plans, the grounds laid out with the utmost taste, and shaded with stately trees, which give to the residences an air of graceful retirement, without obstructing the view—house-top and gable and each green-leaved branch tipped with the golden rays of the swiftly setting sun,—all this combination of loveliness alluring us involuntarily over the plank as the boat stops momentarily at the pier, and a few steps take us home. Not one of those (according to a late writer) atrocious concentrations of wicked allurements, a New York boarding-house; but a country residence, far removed from the corrupting influences of theatres, ice-cream saloons and cigar stores,—with a beautiful garden intervening between house and river,—a good old-fashioned pump, relic of a former day, but a few rods from the house,—and a good old-fashioned cow, built expressly for the purpose of giving pure milk, and kept, too, at a sufficient distance from the pump to preclude the possibility of any collusion between the two fluids.

On the river, at your service, float three trim row-boats and a yacht of ten tons—and also every facility for bathing.

About a mile distant is the town of Harlem, having a population of nearly 10,000,—well built up, and with business facilities sufficient for the wants of the residents, and connected with Westchester county by the Harlem bridge. Further up, the river is spanned by a bridge at McConnell's dam, and the magnificent "High Bridge" of the Croton department.

The 4th came as usual—that is, after the 3d. There was the customary amount of confusion in the city, a small military display, and fire-works in the evening.

It is reported that Fremont, since his "relief," has been scientifically engaged, and has discovered that the "man in the moon" is an Irishman, named "Mooney." I am in possession of other important items, but the prohibition of the government prevents my enlightening your readers,—and I here relinquish my correspondential pen for a month. Having moved so much nearer to you, (7 miles,) I have taken a strong idea (the only thing strong I do take) of tripping it to your vicinity,—and so will close with an *au revoir*, hoping, ere many days, to set foot in the sanctum of the ever-welcome Chronicle. NEWINGTON.

☞ It appears, officially that in Washington there are about 400 fugitive blacks in charge of the Government; about half of them being workers, mostly men; and that this half not only support themselves and the other half, who are women and children, but save the Government from 15 to 40 cents a day apiece, as they perform necessary work much more cheaply than white laborers would do it.

Much has been said of the "happy dispatch" among the Japanese. But the Chinese often dispatch a poor wretch in a somewhat unhappy manner. A letter, dated Shanghae, May 3, states that the keeper of an eating-house in that city had, a few days before, charged a visitor with eating a quantity of rice not paid for, when an angry dispute arose. A mandarin was sent for, who ordered the victim to be ripped open to ascertain whether he had swallowed the food. It was done, and no rice found. A false charge had been made; and to put things to rights (according to Chinese ideas) the head of the accuser was quickly taken off, when the magistrate was ready for another job.—*Boston Post.*

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Old Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Flesh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Inflamed Eyes, Tetter, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Sties, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand. For it will save them much trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of the most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 36 Union street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 33 cents—or three Boxes for one dollar.

For sale in Portsmouth by WM. H. PRESTON and J. H. THACHER; and by respectable Druggists and country stores every where. jy10 1m

Local.

☞ THE EXHIBITION OF THE HIGH SCHOOL FOR BOYS took place on Tuesday afternoon, and was highly creditable to Mr. Payson the principal, his assistants, and to the pupils. The school-room was decorated, appropriately and in beautiful taste, with inscriptions, wreaths and vases of flowers.

The exercises were commenced and relieved and enlivened, by the spirited and accurate singing performed by a large and well trained choir of the scholars, under the direction of Mr. Pearson, who presided at the piano. The pieces sung were:—Love of Country; Our Country's Flag; Hoe out your row; Song and chorus,—Song for Freedom; Hurrah for Old New England; and America.

The Salutatory Address in Latin was finely pronounced by Master Hoyt, one of the graduating class; and the closing addresses in English by Master Spalding. The declamations and other exercises by the scholars were too numerous for detail here; and the whole were well arranged and well performed, without weariness to performers or spectators.

At the close of the exhibition, the diplomas which were prepared for graduating scholars, were presented by Dr. Treadwell of the High School Committee, to Mayor Simes, who delivered them to scholars named as having gone creditably through the prescribed course. Brief remarks were then made by the Mayor, and by Rev. Messrs. Eddy, Waterhouse, Reed and Patterson, in terms of approbation, encouragement, and patriotic fervor. These public exercises were closed by an appropriate prayer, offered by Rev. Mr. Medbery.—And the school proper was closed with a neat and pertinent address to the scholars, by Mr. Webster of the High School Committee.

It was a very pleasant occasion to all concerned in it;—and the room and the movements formed an agreeable and somewhat amusing contrast to the school exercises and school rooms in the exhibitions of fifty years ago, when we used to sand the floor to receive the committee, and all the boys who had shoes used to wear them that day.

NEW HAMPSHIRE HOSPITAL.—If there is any other spot and place, so good as the Sagamore House, (to which we have before referred,) for the use of our sick and wounded soldiers, we don't know where it is. The building is new and clean, containing about forty rooms, and is empty and ready for occupancy at any hour—the location on the seashore is delightful, healthy and easily reached by land or water; and the property can be bought or rented at a low rate. Won't somebody see to it, that these advantages are improved?

☞ We are told that a movement is being made to have a public War meeting in this city on Friday evening next, to promote the speedy enlistment of Portsmouth's quota of the new levy of Volunteers.

Also that one of our wealthy and patriotic gentlemen has said he will give $500 for the aid of volunteers' families, if another will do the same. Of course the other will be readily found, and we hope several more.

☞ U. S. steamer Sonoma, Lt. Wyman commanding, sailed from Portsmouth Navy Yard, Tuesday afternoon, to join the Southern fleet.

Steamer Conemaugh, at the Portsmouth Navy Yard, will probably go into commission, in a day or two.

☞ "Perley" writes to the Boston Journal the Naval Appropriation bill was finally adopted, after a deal of red-tape and circumlocution over the purchase of lands near the Portsmouth Navy Yard. Commodore Jo. Smith, Chief of the Bureau of Yards and Docks is now "authorized to purchase that portion of Seavey's Island lying west of the road, for such sum as to him may seem reasonable and advantageous to the Government."

☞ Read what the New York Herald says in regard to one of the most astonishing feats on record:—

"Last night Mons. Denier made his first appearance this season, at Niblo's, in a new and terrific act of skill and daring, which, to be appreciated, must be witnessed; and when witnessed, fills the beholder with wonder and admiration. It is performed at an elevation of about sixty feet from the stage. The breathless attention, the crouching attitude, of the audience, proved its success. It is a performance which causes the spectator not only to hold his breath, but is rather suggestive of hair standing on end."

☞ Our old public-spirited correspondent "B." has had the pleasure of examining Rev. Mr. Eddy's fine collection of Minerals, and wants everybody else to enjoy the same too—and writes us to ask if a lecture and public exhibition of the same can't be had. This is a private matter, but Mr. E. is one of the most courteous of gentlemen, and we know would do anything in his power to interest and entertain his fellow-citizens. His rare assortment of minerals, and his skill and knowledge in the study of them, have before been alluded to in these columns.

☞ The 46th annual visitation of the Cambridge Divinity School took place on Tuesday morning. The eight members of the graduating class took part in the exercises. Among them were Mr. William G. Nowell, of this city; Mr. James DeNormandie, who is to become pastor of the Unitarian Church; and Mr. George F. Piper of Stratham.

A HANDSOME SIGN—that of Mr. Andrew Davis' "Union Saloon," in Daniel Street,—having a marine picture on either side—and bearing the imprint of "E. D. Coffin" as painter. That yacht sailing so naturally, makes us wish to go out on an excursion after oysters—only they don't go after oysters in that style.

BOUNTIES.—Massachusetts leads in patriotic efforts. Large meetings are being held in her chief cities, and immense bounties offered, showing that our (Manchester) City Government is as far behind the times as the Governor and Council are.

Cambridge has offered a bounty of $75; Boston $100, Brookline $100, Somerville $100, West Cambridge $125, Salem $75, Lowell $75, Springfield $75, Westfield $100. Several towns in the State have called meetings to see if bounties shall be offered.

What will Manchester do? What are Concord, Portsmouth, Dover, Nashua, and other large places in this State, doing?

The Governor and Council must lead off in a decent bounty, and make a schedule of the number of soldiers needed from each town in the State, as has been done by Gov. Andrew.—*Mirror.*

THIS CITY ought to take some measures to encourage enlistments. If it did not feel warranted in paying a bounty, it ought to appropriate money to hold public meetings here once or twice a week, to arouse the sentiment of the city to a pitch corresponding with the demand for enlistments.

It is true these meetings do not cost much,—the cost being merely for lights and music,—but it is more than any private individual cares about paying, when it is a matter pertaining to the interests of the whole city. Suppose the Mayor, Aldermen and Common Council hold a war meeting, and see if they cannot do something to encourage enlistments.—*Manchester Mirror.*

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. june1 1md

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever any obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the testimonials of some of the most *eminent Physicians in America.*

Explicit directions, stating when they should not be used, with each Box.—*The Price One Dollar per Box*, containing from 50 to 60 Pills.

Morning Chronicle.

A family of five persons were arrested in Boston, on Tuesday, for manifesting too strongly their secession proclivities. There are some not a thousand miles from here, who might be served in the same manner, for firing cannon in honor of rebel triumphs, and making other manifestations of their sympathies with the rebels.—*Gloucester Telegraph.*

—— Hon. Josiah Quincy of Rumney, an old school Democrat, who has been a zealous supporter of the government during this rebellion, has offered $25 bounty to each of four recruits who may enlist from that town.

A rebel cavalry officer recently released from Fort Warren, is said to have spent his time, while there, learning how to make and repair saddles. In fact, after three months' imprisonment, he went home "a saddler and a wiser man."—*Post.*

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,

Blacksmith and Horse-Shoer,

NO 80 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

In this city and vicinity; and is prepared to furnish and set the same, at the regular prices for other Shoes, (except for steel Shoes, which are 25 cts. extra), and warrant them to give full satisfaction in all cases. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c.; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

BLACKSMITHING generally attended to. S. W. WEBBER.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Also on hand, the celebrated and unequalled

MAGEE COOKING STOVES,

Which for economy, durability, ease of management and nicety of operation in every department of cooking,

For Physicians' Use.

FEMALES, WEEKLY PERSONS, INVALIDS.

SAMBUCUS FREE OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

MATHEWS. Arnica HAIR GLOSS

This is a new and invaluable preparation for preserving and beautifying the hair.

The wonderful virtues of Arnica in allaying and removing inflammation are universally known.

ARNICA HAIR GLOSS is a combination of these virtues, with other tried and excellent ingredients.

ARNICA HAIR GLOSS stimulates and invigorates the hair, prevents it from falling out—restores it when lost—promotes its growth and strength—renders it proof against all diseases.

ARNICA HAIR GLOSS permanently cures all irritations and eruptions of the scalp, and makes it healthy and fertile. For the removal of dandruff it has no equal. Its operations in this particular are magical and permanent.

ARNICA HAIR GLOSS is unequalled as a hair-dressing compound. It not only cleanses the scalp and invigorates the hair, but it renders the latter charmingly soft and lustrous. Its odor is particularly delicate and fragrant—the proprietor having taken especial pains to secure this result.

ARNICA HAIR GLOSS is the very best preparation for the hair ever discovered.

ARNICA HAIR GLOSS, notwithstanding its surpassing merits—is retailed at only Twenty-five cents a bottle, by all Druggists.

The Chronicle.

☞ It is stated that the new order by the Navy Department allows men to enlist in the navy for one, two, or three years, according to choice.

In carving a partridge, I splashed Miss Markham with gravy from head to foot; and I could see at three distinct brown rills of animal juice trickling down her cheek, she had the complaisance to declare that not a drop had reached her! Such circumstances are the "triumphs of civilized life."
—*Sydney Smith.*

☞ ATTENTION, THE WHOLE! ☜

RYE, N.H., Feb. 20, 1846. "Thereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended by the most celebrated physicians, for Sarsaparilla, Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a business extent, by all acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and continued to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it as a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE H. SWETT.

This statement of my wife is correct. SIMEON SWETT.
Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing much misery in my face, and seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH ROWE.
PORTSMOUTH, April 21st, 1863.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give me relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1838.—Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure in me, and would add that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I have used for humors and consumptive complaints."
WM. F. LEAVITT.

From ESDRE I CHESLEY, *Esr., May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and I feel it my duty to esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26

PATRIOTS WANTED.

Gentlemen Editors:—Are the patriots in this old city unaware that Government has called for 300,000 additional troops to replenish our decimated armies, and bring to an end this cruel and wicked rebellion?—Or, are there no patriots here? We, as yet, have furnished comparatively few men,—nothing like our proportion,—for the war. Places of half the population have sent four times as many men. Our recruiting officers are doing but an indifferent business. What is the cause of this? Is it answered that "we are not a manufacturing community, and our Navy Yard affords profitable employment to a large number of our citizens, and therefore we have but few men who are out of employment?" And are we to wait for men who are "out of employment" to fight our battles, and preserve the integrity of this great nation? Are men who have property and homes to defend, to sit with hands folded, and wait for those who have nothing, to go and defend them? If we happen to be worth a few hundred or thousand dollars, or to be making a few dollars more per month than we could in the army; does this argue that we should by all means abide at home? Is this a mere question of dollars and cents? and if it were, will our homes and estates be of much account if our Government be overthrown? Shall the poor, who have the least at stake, bear all the burdens of this struggle, face all the dust and smoke, spill all the blood?—Shame on such patriotism!

Who have won all the victories worth mentioning thus far in this war? Are they men who have entered the service because they had nothing to do? No! they are men who sprang to arms from the shops, the stores, the offices, and farms of the great West. You may journey for days through those Western States without finding a man destitute of profitable employment. And yet, they have thrown themselves into the work of supporting the Constitution and Laws, with a will which sent the rebel hordes quailing before them. They fight—not for their 16 dollars per month, or their 75 or 100 dollars bounty,—but for their Country.

We want something of their spirit. Shall we be compelled to resort to the cowardly expedient of *drafting*, to fill up our quota of men? Is this the record for patriotism, which we are to send down to posterity?—We ought to raise our full proportion in a single week. The new levy of 300,000 men should be enrolled within the loyal States in half a month. The moral influence of such an uprising of the People, at the call of our Chief Executive, would do more to save us from foreign intervention, and to dishearten and subdue the rebels, than the fall of Richmond. They may withstand our force now in the field, and protract the war indefinitely. They cannot meet us with such an increase to our grand army, and they know it very well. They have gone to their utmost already in raising men. Let them see 300,000 more patriots ready to risk all for the glorious old Union, and they know that their cause is doomed. Let us awake and manifest a spirit worthy of our old renown.

Why not call a meeting, and see if something may not be said and done to arouse our citizens to a sense of duty? Come young men; come men of middle age; come men without money, and men whose coffers are full; come men without employment, and men who have all that you can do; come *every man* who has an arm to strike for constitutional law, and rally under the standard of your bleeding imperilled country. The best Government the world ever saw calls to you for aid;—see to it that she does not call in vain. Let a spirit of self-sacrificing patriotism fill every heart. Strive to be first and foremost in this noble cause. If you live, a restored Union, an approving conscience, and the gratitude of millions now upon the stage of action, and millions yet unborn, will be your abundant recompense. If you die, it is sweet to die for a great principle, to die for country. Who should shrink from mingling his blood in that common offering which is to redeem this nation? Gather then, ye patriotic sons of Portsmouth, under the folds of the "star spangled banner," and bear it on triumphantly until it floats over every acre of our far-reaching domain, and is acknowledged by every son and daughter of this once proud and honored, but now distracted nation.

Since writing the above, I see that a movement is being made, to hold a public war meeting in this city on Friday evening next. Let every good citizen be there, prepared to do his duty in any and every capacity where he may best serve his country.

GRACE'S CELEBRATED SALVE.

As the general enquiry of "what is Grace's Salve, and who is its originator," may seem to be a question worthy of being answered, the manufacturer has been induced to give the following brief, yet truthful account of its history:—This Salve was invented in the sixteenth century by Dr. William Grace, who was Surgeon in King James' Irish army, and from that time he always used it in his professional practice whenever soreness or inflammation presented itself. As a medical agent for the cure of wounds it was followed with great success, and thousands of the veterans that were wounded in the campaigns of 1688 and 1691, owe to this Salve the salvation of their lives.

Colonel Richard Grace, who was King James' Chamberlain, introduced this Salve into the Royal Palace, where it was used with the greatest success and highly esteemed for its virtues in the cure of sores. At the siege of Athlone, Colonel Richard Grace ordered it to be administered to his compatriots who were wounded during the memorable days of the battle. The order was complied with, and it was used with such success that the head Surgeon of the Irish army at Aughrim, ordered Dr. Wm. Grace to manufacture one hundred gross in season to have it distributed among the hospitals before the battle. On the sad defeat of the Irish army at Aughrim, after Ginckle's army took possession of the battle-field, they found several ambulances abandoned by the retreating army, and in each of them were found sealed cases of the Salve. The English Surgeons tested it upon their wounded and ascertained its value, and thus were both of the contending armies befriended by it.

Both Dr. Wm. Grace and Col. Richard Grace died in the campaign of 1691,—the former of disease, the latter killed in the entrenchment of Athlone with the Irish flag wrapt around him, cheering on his men to victory. After the death of Dr. Grace, the Salve was not used much outside of his family, until the rebellion of 1798, when William Grace, grandfather to the present subscriber, (he being a "united Irishman,") applied its virtues as the battle of Ross to his brave comrades who fell, wounded, while fighting for the rights of their country.

The celebrated Doctor Fitzpatrick, who was connected with the leading Medical Institutions of the day, held in such high estimation this Salve that he ordered large quantities of it to be manufactured for himself, to use in his professional practice.

The Salve was used in Ireland, and in certain localities the residents had it furnished them free of charge, until the year 1848, when the subscriber's parents left their once happy home and the land of their nativity, to seek a home in the land of Columbia. With them they brought the secret of the salve they had received from their predecessors. After landing in this country they continued to make it, as before, for their neighbors free of charge, until the fall of 1861, when the frequent calls made for it, and the serious cases that it cured, induced the proprietor to bring it to more general notice and to charge a small price for the article that has received the commendation of patriots upon the battle fields of yore, as well as from persons of the present day.

The Salve is sold in Portsmouth by Messrs. Wm. R. Preston and J. H. Thacher. 1t

☞ The Annual Exhibition of the Girls' High School, took place on Wednesday afternoon—and our commendatory remarks concerning the Boys' School Exhibition of the day previous, apply in full force to this also. Mr. Phinehas Nichols, the Principal, is now by far our oldest School-teacher, and during his long term, has seemed to grow in favor each year, with scholars, committees and the public generally—as so capable, experienced and devoted a preceptor should. Miss Morgan, the Assistant, also continues in the highest esteem of all concerned. Long may they—enjoy their vacation.

We need not go into detail of the exercises—where all was so creditable to pupils and instructors. The spacious and elegant room was beautifully adorned with lovely cut flowers, &c., and the seats filled with yet lovelier and more dearly cherished "flowers" of many a home—though we could have wished for them generally to have a little more of the rose's tint on *their* cheeks.

Brief and appropriate addresses were made by Rev. Dr. Burroughs and Rev. Mr. Gage, and prayer was offered by Rev. Mr. Reed. The diplomas were awarded by Mayor Simes, after a few pertinent remarks.

Diplomas have been awarded to the following members of the two departments:

Young Ladies' Department—Rebecca J. G. Staples, Ellen A. Norton, Mary E. K. Medbery, Ruth L. Brooks, Hattie A. H. Tarlton, Abbie A. Whitcomb, Olive A. Akerman, Lizzie G. Tebbetts, Fanny L. Perry, Marie S. Andersson, Abbie E. Rowell, Nellie M. Wendell, Emma L. Norton.

Boys' Department—William Edwin Hoyt, John Edward Knowlton, Horace Haven Brown, Franklin Colemas, Stephen Horace Scriggins.

Both High Schools have now a vacation till the 1st of September.

☞ We regret to announce that Mr. Henry W. Fenno, a gentleman widely known and respected, died at his residence, in Boston, on Monday night, after a long illness. Mr. Fenno was for some years during his early manhood engaged in mercantile pursuits, but for the past fifteen years has been more generally known in connection with the Boston theatres as treasurer, in which capacity his uniform courtesy won him legions of friends, who will miss his cheerful countenance at the office window and everywhere.

OLD MEN FOR COUNSEL.

Almost everybody in New England who knows anything of her literary and conservative men, has heard of Rev. Dr. Withington, long the pastor at Newbury Old Town, and now retired from the active ministry, on account of advanced age.

The following timely counsel from his pen, has just appeared in the Newburyport Herald:—

THE WORK BEFORE US.—The Providence of God has brought our country into a very critical and dangerous state. We have a burden to bear which may well seem to task all our patriotism and all our strength. The enemy are *coming in like a flood*, and nothing but the utmost exertion, under the guidance of Heaven, can deliver us. At such a time it is no part of wisdom to conceal our danger, or diminish in forecast the magnitude of our task. We must wake to the exigencies of those awful times.

In such a condition the thoughtful mind naturally asks three questions—

First, What is our ultimate object?

Secondly, What have we done towards accomplishing it?

Thirdly, What *must* we do as a necessary measure to reach our only practical end?

First, then, what is our object? This war was begun to restore the violated constitution to its general sway. Men have risen up against it and inundated our land with rivers of blood merely because they did not carry the Presidential election.—That is the sole cause appearing on the record. Instead of waiting for a turn of the tide of politics, instead of organizing a regular opposition in Congress, they have chosen most wretchedly, most rashly, to rise up in rebellion and overthrow the government which has long protected them, and to which they had most solemnly pledged their allegiance. Mr. Wise of Virginia allows that "President Lincoln was elected according to all the forms of the constitution; but we have lost the vote and therefore we must rebel."

Now our object is to subdue this rebellion founded on this principle; and this implies that we must exterminate the principle.—Our object is to bring back our revolted citizens to a voluntary obedience. They are still freemen, and if ever they come back must come back as voters and freemen. If they are to support liberty, they must love liberty and be enthusiasts in its cause.—They must sit under their own vines and fig-trees, and taking their harps from the willows, must tune them in concert with us to the songs of our common Zion. In a word, our task is—not merely *to break the arm of the wicked*, but to subdue his heart. We must make him a volunteer.

But, secondly, what have we done towards accomplishing this object? Nothing, and less than nothing—yes, worse than nothing. We are making no approximation to our object. I do not mean to depreciate the valor of our troops, the skill of our generals, or the policy of our administration. But I do not hesitate to say, that every battle we have fought (victorious or unfortunate) has had no other effect than to infix a deeper hatred in the hearts of our brethren to us and our government, and a stronger determination never to return; and, tho' we have driven them back and opened the Mississippi, they have still vast regions to retire to—vast swamps and mountains to conceal and defend them.

What have we done, then, to the accomplishing of our object? Nothing, less than nothing. We are pouring out seas of blood for nothing.

But, thirdly, what *must* we do as a necessary measure to reach our only practical end.

My answer to this important question would be a short one. We must change the sentiment in the revolted States; we must produce there a new political feeling; and do *not* let us say, that this is *impossible* until we have surveyed *all* the means that God has put into our hands. It is as certain as anything can be, judging from our whole history since our national independence, that our revolted brethren never can come back to a cheerful and voluntary compact, with the *sympathies of slavery still remaining*; and it is equally clear, that even conquering them, with these sympathies remaining, would do nothing towards producing a strong and cheerful union. The volcano might *pause* in its eruption, but all its smothered fires would be burning in the bowels of the mountains; and ready to break out the scorching lava once more upon us. Such being our state, it seems to me *one* and *only* one dreadful choice is forced upon us; and the sooner we see it the better, for we are shedding blood now at a fearful rate.—We must either come to a compromise, or we must change the southern sentiment by proclaiming emancipation. It is the last refuge left us by an indignant God.

I do not say that proclaiming emancipation will do all that some have taught us to hope. I do not know what its effects will be. But in the name of bleeding humanity, in the name of God, let us see the alternative. L. W.

Oldtown, July 12th.

OPPOSED TO AN EXCHANGE.—At the battle of Ball's Bluff one of the gallant boys of the 20th Massachusetts Regiment was taken prisoner, and confined with many others at Salisbury, N. C. His name is—say Tom Smith—and he has a wife and children living not a thousand miles from New Bedford. When it became pretty certain that there would be a general exchange of prisoners, some kind friend, desirous of relieving the terrible anxiety of the wife, called and informed Mrs. Smith that her husband would probably be exchanged. "Well," said the lonely woman, "I love Tom, and—the children love Tom, and I don't—want him exchanged. *I won't have a rebel husband*, so now." The poor woman thought the exchange was a swap, and that she was to have another husband. Tom, we are glad to say, has reached home, to the great delight of Mr. S, who was afraid that exchange was robbery.—*New Bedford Mercury.*

☞ It is estimated that there are now on furlough, 50,000 enlisted men, most of whom are in a condition to rejoin their regiments.

THE REBELLION.

Gen. Curtis' army has reached Helena, in good condition and spirits. On the march his advance guard met and routed a force of 6000 rebels, who made a stand on the Cache river.

The guerilla bands are increasing and active all over the South, and especially in Tennessee, Kentucky and Missouri.

The British steamer Ann arrived at New York, on Wednesday, in charge of a prize crew. She was discovered under the guns of Fort Morgan, Mobile bay, unloading gunpowder, arms, &c., when the frigate Susquehannah engaged the fort, and the gunboat Kanawha succeeded in cutting the Ann out. The crew of the Ann deserted and escaped, after attempting to sink her. Her cargo consists of gunpowder, arms, torpedoes, tea, coffee, paper, &c.

☞ The four best days of racing ever seen in New England will take place at the Franklin Park, Chelsea, Mass., next week, commencing on Tuesday. A large string of the best race-horses in the country, which have recently performed in New York and Philadelphia, from Kentucky and the West, will be present.

☞ Twelve of the Newburyport traders have united to issue checks for 25 cents each, which are redeemable by any one of them in goods, or in current paper money upon the presentation of enough to cover a dollar bill.

Embryo was sitting in his room, watching his friend Shang, who was trying to go thro' the operation of shaving. "Shave up your face!" said Embryo. "Not much," said Shang; "I always shave down." "Well," said Embryo, "judging from the looks of your face, I should say *down* was all you could shave." Embryo dodged just in season to escape the soap mug.

☞ Bonner's Lantern, with Ethan Allen as a running mate, made, on Friday, the following startling time: Half mile, 1 minute 7 seconds; mile, 2 minutes 20 seconds. This is the best time with neck weight on record.

☞ The N. Y. Times' dispatch states that there are rumors, which are credited, of cabinet changes.

The reply of the Border States representatives to the President is withheld, waiting his action on the Confiscation bill. It is stated that Messrs. Fisher, Blair, Casey, Noell and Maynard favor the emancipation scheme, but the others all oppose it.

☞ The marriage of the Princess Alice with Prince Louis of Hesse, eldest son of the Prince Charles of Hesse, took place shortly before 12 o'clock, July 1, at Osborne.

PETERSON'S MAGAZINE, for August, contains two full page illustrations, besides fashion plates, etc., and the usual amount of other matter of interest to the ladies.

THE EMPIRE OF HEALTH—WHO WIELDS ITS SCEPTRE.—Universal Empire has been the darling object of scores of despots, dynasties and states, from the time of the Pharaohs to that of Napoleon le Grand. Seas of blood have been shed to attain it, and the bones of the myriads who have been slaughtered in the pursuit of this chimera, would, if they could be collected in one mass, overtop the highest peak of the Himalayan mountains. Rome came nearest the consummation, yet even she was never, in truth, the absolute "Mistress of the World."

Yet there is a species of universal empire which has been attained. It is an empire not over the souls and bodies of mankind, but over their DISEASES. The conqueror who has achieved this grand result is Doctor HOLLOWAY, of London; at least we are taught to believe that he has done so by vouchers from all parts of the Christian and Heathen world, which seem to be irrefutable, and which, in fact, so far as we know, have never been challenged. His Pills and Ointment are "universal remedies" in a double sense. They are disseminated throughout the habitable globe, and they are (so "crowds of witnesses" assure us) UNIVERSALLY SUCCESSFUL.

In this country it is quite certain that the Pills are used with the most beneficial effect in disorders of the stomach, liver and bowels, and that scrofula, and all the family of eruptive diseases and discharging sores, give way to the healing operation of the Ointment.

Surely the noblest of all universal empires is that which stretches its healing sceptre over the maladies of all nations!—["Day Book."

CONGRESS, Tuesday.—The Senate passed the bill amendatory to the act of 1795, calling forth the militia; also bills making provision for pensions for masters, &c., on gunboats; and for an additional duty on domestic sugar. The House bill making supplementary appropriations, with amendments including $15,000 for wounded soldiers, was passed. A message from the President was received, requesting the Senate to postpone adjournment at least for one day beyond the time fixed. At the evening session the Senate passed the bill transferring the Western gunboat fleet from the War to the Navy Department.

The House passed the bill requiring the commanders of merchant vessels to take the oath of allegiance, was passed. A bill was passed explaining the 5th section of the Confiscation act, so that it shall not be retroactive.

☞ The New York Commercial of last Tuesday evening, says of the vague charges against Gen. Mitchell: "We have learned from the highest authority that Gen. Mitchell declares his utter ignorance of the meaning of the attack upon him by the Louisville Journal, and that he is unconscious of having injured any man living. We learn, also, from an authoritative source, that he was ordered to Washington, not because of any complaints against him, but that he might in a given direction receive proof of the President's approval and confidence."

☞ The New York Herald notices the death of W. Eugene Webster, (grandson of Noah Webster, the lexicographer) killed in a recent battle near Richmond. Early in the rebellion young Webster, living at the South, a near relative of the rebel Gen. Lee, became tinctured with the infatuation which pervaded the family connections of his mother, a Virginian, and joined the Confederate army, and on the 27th of June, in the first day's fight before Richmond, he fell a victim to his fatal error, if not his crime. His only brother, a lieutenant of our engineer corps, was in the same battle, but on the loyal side and escaped unharmed.

☞ Notwithstanding the intense heat there was an immense gathering of loyal citizens in New York, on Tuesday afternoon. There were five stands for speakers and several presiding officers. Among the speakers were Rev. Rufus W. Clark, Rev. Samuel Osgood and Rev. R. S. Storrs.—All of the speakers vehemently favored the upholding of the Government in all its war measures until the last armed rebel surrenders. A patriotic address was adopted.

☞ Maj. B. F. Watson has been detailed by the Paymaster General as Paymaster of the New England States, to be stationed at Boston. His office is at 25 Doane street. Volunteers from the New England States officers who have resigned, and discharged soldiers of regiments belonging in New England, also all officers or men on leave, or detached duty, will be paid by him.

☞ Among the contributions to a private fair recently got up in Washington for raising funds to make the soldiers in the hospitals comfortable, was a boquet prepared by Mrs. McClellan, so arranged as to present the Union devices. It sold for $30.

By order of Hon. THOMAS L. TULLOCK, Navy Agent. JOS. B. ADAMS, Auct.

Portsmouth, July 12, 1862.

Proposals

FOR

BUILDING AND EQUIPPING TWO FIRST CLASS AND THREE SECOND CLASS LIGHT VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 28, 1862.

Separate sealed proposals will be received at this office until 12 m, on SATURDAY, the 9th of August, 1862, for building and equipping two first class light-vessels of the following dimensions:

Length from after side of stern post to the fore side of main stem, 98 feet; breadth of beam, moulded, 25 feet 6 inches; depth of hold from top of limber strake to top of beam, 11 feet; tonnage about 252.

The Board will also receive proposals until 12 m, on MONDAY, the 28th of July, 1862, for building and equipping three second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of limber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain untapped southern timber. The printed specifications by which the vessels are to be constructed, and which will, with the drawings and plans, be attached to and form a part of the contracts, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia, at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Hon. Secretary of the Treasury. No proposal will be received or considered, unless from persons engaged in ship building, and each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed by each bidder, as evidence that there is no mistake as to the object of his proposal.

A drawing of the vessel contracted for will be furnished to the contractor, to which he will be required to adhere strictly; to this end the mould loft lines will be taken off and the mould examined by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will report to certify that the contract is executed and the materials used are in strict conformity to the terms and specifications of the contract, and when he must certify to the time when and where the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light-vessels may suggest any change or alterations by which the cost will be lessened, without using inferior materials, and in making such suggestions the precise change of the change or alteration will be named, with the amount saved thereby. The proposals for each vessel will state the time required to complete the vessel and deliver it to the agent of the Board at such place as may be agreed upon; the same to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building Light vessels,*" and then enclosed in another envelope, and addressed to the Secretary of the Light-house Board, Washington, D. C.

No bid will be considered that does not conform to the requirements of this advertisement.

Any person submitting a proposal may be present, and witness the opening of the bids at the time and place hereinbefore specified.

By order of the Light-house Board:

Local.

☞ To-night comes off the long expected entertainment by the Denier Brothers, at the Temple. Everybody who has seen them perform, knows that they can hardly be excelled; and those who have not had that pleasure, will see by the advertisement that they come this time with endorsers of eminent respectability. Their out-door rope-walking feat on the 4th of July,—which was witnessed by one of the largest and most enthusiastic crowds of people we ever saw in Portsmouth—was generally regarded and received as a free contribution to the festivities of the day; and, although it may not have been wholly a disinterested act of benevolence, yet many of our best and most influential citizens have not hesitated to publicly commend the performance, and now offer their countenance and aid to the exhibition this evening.

The list of performances shows that the entertainment will be one of varied attraction and thrilling intercrest,—such as win the highest favor. The programme embraces a little of almost everything—and we advise all who wish to enjoy an hour, to take their families or friends and go early.

☞ Now is the time for Picnics.—Knight's Brass Band announce a public social gathering at Wendell's Woods, Sagamore, to-day—admittance to grounds 15 cents, and refreshments on sale; and we hear of a large private gathering in another direction. Everybody ought to spend at least one day each week in the woods, this weather.

☞ See advertisement of closing out sale of Furniture and varieties, at Towle's Sales-rooms, this (Thursday) forenoon.

☞ The crew for the gunboat Conemaugh arrived here Wednesday afternoon in steamer Nequasset, from Boston. The Conemaugh is expected to make a trial trip on Saturday.

☞ The Boston Courier is right in saying that the *people* of Portsmouth speak of the Sagamore House as the best place for a hospital for soldiers. All the people who know our localities are of the same opinion.

☞ Lieut. Alexander Murray has been ordered to the command of Portsmouth Navy Yard, in place of Lieut. Porter, detached several months since.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. June 1 1m

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a premature grave. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to Females. All cases they are invaluable, *inducing wild certainly, periodical regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America.*

Explicit Directions, stating when they should not be used, with each Box.—*The Price One Dollar per Box*, containing from 60 to 60 Pills.

HIST. OF FORMER CONSPIRACIES

AGAINST THE U. S. GOVERNMENT.

The South Carolina Nullification Conspiracy, 1832-3.—This conspiracy raised the direct issue, invented by Mr. Jefferson in his Resolutions of '98, of the right of a State to nullify the acts of Congress and to be its own judge of the constitutionality of a law.

"It is denied that Mr. Jefferson is the originator of the idea; but, as we have before remarked, the evidence to the contrary is the resolutions themselves. The time has gone by for us as partisans to make special pleas to explain away or qualify acts and expressions of great leaders.—Let plain words be interpreted in the plain way. There has been so much "pettifogging" in regard to the clear, Saxon expressions of the Constitution, so much good sense wasted in constructing equivocalities for party platforms, so much legal doubt created by Supreme Court decisions on property in men, that we should be permitted to regard them all as consigned to the past, and to read the records by the new and direct light of a present disenthralment of mind from old passions and prejudices.]

The passage of the Tariff Act of 1828 was the immediate cause of the excitement known as the "Nullification" rebellion.—That act heavily taxed woolens and other imported products—thus greatly enhancing their price to the South, and restricting importations. The complaint was one well calculated to excite a bitter feeling in the Cotton States, since it took the shape of a "Northern extortion"—a "tribute to Northern capital and labor"—an "unequal assessment of burdens," &c. Mr. Hayne, U. S. Senator from South Carolina, in January, 1830, arraigned the act as unconstitutional, and asserted the right and duty of the State to nullify the law by refusing to pay the required duties. This speech called forth from Webster his great oration on the powers of the Constitution. In it he so thoroughly killed the assumed right of nullification, that, for the moment, the friends of resistance to the law were intimidated, if not convinced.

The excitement, however, soon received a new impetus, from a most trivial, but not less significant source. The matter is thus stated:

On the 15th of April, 1830, the anniversary of the birthday of Thomas Jefferson was celebrated by a numerous company at Washington City, among whom were the President and Vice-President of the United States, several members of his Cabinet, and a numerous attendance of the members of Congress. With the promulgation of the toasts the feeling began to spread that the dinner was got up to inaugurate the doctrine of nullification, and make Mr. Jefferson its father. Numbers left the table, but the company was still numerous and the festivity a success. When the regular toasts were over, the President was called upon for a volunteer, and gave one which has since become historical.

"Our Federal Union—it must be preserved." Under the peculiar circumstances of the case—the feeling that had found vent in South Carolina and elsewhere in that section, and the excited state of the public mind generally, this simple sentiment was received as a proclamation from the President to announce a plot against the Union. The next toast was by Mr. Calhoun, and it did not by any means allay the suspicion which existed in every bosom. It was this:

"The Union, next to our liberty, the most dear: may we all remember that it can only be preserved by respecting the rights of the States, and distributing equally the benefit and burthen of the Union."

In the language of Thomas H. Benton, who was present, "this toast touched all the tender parts of the new question—liberty before Union—only to be preserved.—State rights, inequality of burthens and benefits. These phrases connecting themselves with Mr. Hayne's speech, and with proceedings and publications in South Carolina, unveiled nullification as a new and distinct doctrine in the United States, and the existence of a new party in the field."

From that moment the issue was directly presented in the shape of "our rights or disunion," and the State Rights party, in the extreme Southern States, became very powerful, particularly in South Carolina—the home of both Mr. Hayne and John C. Calhoun, where their influence was remarkably strong.

To meet the approaching storm, and avert the calamity of an open rupture with South Carolina, a modification was made of the offensive act; but the duties were not abated enough. The fact that the movement for nullification and secession had frightened Congress into some concessions, made the State Rights men more strenuous than ever. It gave them the *prestige* which comes from victory. Had not Mr. Calhoun been elected Vice-President of the United States? Had not Congress made concessions and betrayed a nervous apprehension of South Carolina threats? The leaders of the nullification movement deemed the beginning auspicious for a glorious ending.

Meetings took place throughout the State close upon the Presidential election. The Legislature came together amid much excitement. One of its first acts was to appoint a Committee to report on the relations of the State with the General Government. It reported that the Federal Constitution was a compact originally formed, not between the people of the different States as distinct and independent sovereignties; that when any violation of the spirit of that compact took place, it was not only the right of the people, but of the State Legislature to remonstrate; that the Federal Government was responsible to the State Legislatures whenever it assumed powers not conferred; that notwithstanding a tribunal was appointed under the Constitution to decide controversies where the United States was a party, there were some questions that must occur between the Government and the State which it would be unsafe to submit to any judicial tribunal; and finally, that there was a peculiar propriety in a State Legislature's undertaking to decide for itself, inasmuch as the Constitution had not provided any remedy.

A convention of delegates was thereupon ordered to assemble on the 19th of November, to act for the State in the crisis. Meanwhile the Virginia Legislature, also, by a vote of 154 to 68, gave her assent to the principle of nullification. North Carolina declared against it and held out firmly for the Constitution and the laws. Alabama and Georgia endorsed South Carolina heartily, and their course led the country to feel that, in event of South Carolina's secession, they would follow her lead. Government had just succeeded at enormous cost, in extinguishing the Indian titles to lands in these States, and they in return, were ready to cast off the Government.

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,

Blacksmith and Horse-Shoer,

NO 80 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

in this city and vicinity; and is prepared to furnish and set the shoes, on reasonable terms for other Shoes, (except for steel Shoes, which are 25 cts. extra), and warrant them to give full satisfaction, or no sale. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under side, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

MATHEWS' arnica HAIR GLOSS

This is a new and invaluable preparation for preserving and beautifying the hair.

The wonderful virtues of Arnica in allaying and removing inflammation are universally known.

ARNICA HAIR GLOSS is a combination of these virtues, with other tried and excellent ingredients.

ARNICA HAIR GLOSS stimulates and invigorates the hair, prevents it from falling out, restores it when lost—promotes its growth, and strengthens—renders it proof against all diseases.

ARNICA HAIR GLOSS permanently cures all irritations and eruptions of the scalp, and makes it healthy and fertile. For the removal of dandruff it has no equal. Its operations in this particular are magical and permanent.

ARNICA HAIR GLOSS is unequalled as a hair-dressing compound. It not only cleanses the scalp and invigorates the hair, but it renders the latter charmingly soft and luxuriant. Its odor is particularly delicate and fragrant—the proprietor having taken especial pains to secure this result.

ARNICA HAIR GLOSS is the very best preparation for the hair ever discovered.

ARNICA HAIR GLOSS, notwithstanding its surpassing merits—is retailed at only Twenty-five cents a bottle, by all Druggists.

☞ In England postage stamps are used for change and pass current. These stamps possess a uniform value all over the country. Why not imitate the example of England, and use them for change?

☞ The Richmond Enquirer of the 25th ult. states that "Gen. Jo. Johnston is entirely out of danger from his battle wound, and is rapidly recovering his full strength and vigor."

☞ ATTENTION, THE WHOLE! ☜

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake in this case, as we effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS."

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by cathartics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. BENJAMIN SWETT.

This statement of my wife is correct.
SIMON SWETT.

Portsmouth, N. H., April 18, 1851.

"I have been greatly afflicted with a Humor called by the doctors Salt Rheum, for nearly twelve years, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give my relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

"Exeter, Feb. 24, 1853. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say that AMRIOSIA PACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our home in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISAAC CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may29d

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JULY 18, 1862.

THE DIRECT TAX of the present day is not universally popular, as no such tax ever was, or ever can be: but it is not without precedent in all its essential features.

The United States Congress at the extra session in the summer of 1813, passed about a dozen direct Tax Bills, which were bitterly opposed by the federalists; nevertheless, the taxes were collected.

These were taxes on stamped paper, on stills and boilers, on watches, furniture, carriages, pictures, and on almost everything. The proportion for New Hampshire was about $96,000,—and in one of the acts of Congress there was a provision for a U. S. Collector in each State, who might appoint Deputies; also another provision that any State which would assume and collect the tax should have 15 per cent. deduction.

In New Hampshire there was a special session of the General Court in the autumn of 1813,—but it did not vote to collect the tax. A writer in this State of a letter published in a federal paper in Vermont, speaking of this matter said, "We here choose to let Mr. Madison skin his own skunks."

The President, however, appointed Gen. Clement Storer collector for the State of New Hampshire;—and Peter Wilson was Deputy Collector in the town of Portsmouth.

The taxes were laid to last through the war, in annual payments, and one year afterwards. They were intended to keep up the general financial credit of the government:—and undoubtedly did so in a great measure.

There was a large federal majority in New Hampshire then, created by the war, and opposed to the war tax:—but the tax was collected without extraordinary difficulty.

VOLUNTEER—OR DRAFT!—The Newburyport Herald of Wednesday morning says:—

"The sinews of war are being freely voted by the towns of this Commonwealth, Boston and many other places now offering one hundred dollars per head for recruits; and few places are giving less than $65.—Still we do *not* hear of *many* enlistments, and it is very probable that a draft will be resorted to. If it is to be made at all it should come at once, for the men are wanted immediately."

Per Contra, the Boston Courier of the same morning says:—

"The Stoneham recruits, under escort of a large number of citizens from that town, came to Boston yesterday, and marched through some of the principal streets accompanied by a brass band. The recruits numbered forty-three men—the full quota for Stoneham under the new requisition.—They bore a banner inscribed—"Stoneham always ready."

We see similar statements from several small towns:—and we trust the troops required from each State will be speedily enlisted. If not, and the militia be ordered out, as they may be,—it would be wise, on the drafting day for the officers to call for volunteers, offering *bounty*,—while drafted men, of course, would get no bounty, but only wages.

CONGRESS, Wednesday.—The Senate passed the bill explanatory of the Confiscation act. The House resolution, providing that it be voted an excuse for absence from duty in Congress to be in active military service, passed without amendment, making it conditional that the military service be without pay.

The House passed the bill prohibiting the confinement of soldiers in the Penitentiary of the District of Columbia. The bill admitting Western Virginia was postponed to December. The bill authorizing the President to contract with any foreign power to receive and colonize recaptured Africans was passed. The bill amendatory of the militia act of 1795 was taken up. It authorizes the President to call out the militia not exceeding 9 months, and the employment of blacks. Passed under operation of the previous question. A resolution of thanks was passed to Naval officers Lardner, Davis, Dahlgren, D. D. Porter, and Stringham. The Confiscation Bill, as amended by the Senate, was received and the Senate amendments agreed to—83 against 21.

☞ The Sprague of Rhode Island have made a most generous and patriotic proposition to the men in their employ who have families. They offer to continue to such, if they will enlist, half their pay during their absence, and to secure their positions to them when they return. This is a noble offer, worthy of the noble family making the patriotic tender.

☞ A law has passed Congress discontinuing all regimental bands in the United States army. They are to be mustered out of service at the end of thirty days, unless they volunteer to join brigade bands, the only bands retained.

☞ The Machias, Me., Union says beans, squashes, &c., in that vicinity, were considerably damaged by frost on the night of the 10th inst.

NEW HAMPSHIRE ITEMS.

—— We are indebted to the Superintendent, Brooks Scattuck, Esq., for the sixth annual report of the Trustees of the State Reform School, at Manchester.—There has been during the year more sickness than heretofore among the inmates, and two have died. The School is represented to be in a flourishing condition and apparently well answering the purpose for which it was instituted. The number of inmates has increased during the year from 58 to 105, (94 boys and 11 girls,) and it is thought that the next annual report will give 150—the whole number the building will at present accommodate. Nine have been committed by the Portsmouth Police Court during the year—making the whole number from this city, nineteen.

—— A mad dog was killed in Manchester, on Monday. It sprang at a little child in the house of its mistress, but the mother seized her child and held it up out of the dog's reach, while she screamed for help.

—— Letters received from the Seventh Regiment, now stationed at Beaufort, state that companies I and K, Capts. Freschl and Brown, of Manchester, had met with some losses on picket duty, the latter having six men killed, wounded and missing.

——A correspondent of the Boston Post, writing from New Orleans under date of June 26th, says:—

"Gen. Phelps is still at Carrolton. He has the 12th Conn., the 15th Me., and seven companies of the 8th N. H. under his command. The other companies of the 8th N. H. Volunteers are at Fort Macomb.—Lieut. Col. Lull has had command there, but is now relieved and ordered to report to his regiment at Carrolton to take command there, as Col. Fearing is sick. The Eighth N. H. V. has been paid in part—that portion of it at Carrolton. The companies at Fort Macomb are still anxiously looking for pay day. They have been in service now eight months and have not received one cent. It is too hard. The men are continually receiving letters from their wives asking for aid and telling the most pitiable stories of suffering and want. It does seem that Government might make some arrangements for prompter payment."

—— The London American, in speaking of the United States Department at the Exhibition, says that the Delaine prints and ladies' hosiery, exhibited by the Manchester Print Works, are attracting much attention. Although there is a greater assortment from other countries, it is said that it is doubtful if more excellent fabrics in texture, manufacture, or beauty in design and colors, can be seen in the Exhibition building. It is said that the prices of these goods is much less than inferior goods of this class are selling for in London. The papers state that quite a number of European ladies have applied to Hon. Frederick Smyth, Commissioner, for dresses of these American fabrics, at the close of the Exhibition. The superior shirtings and skirtings, manufactured by the Langdon Mills, are also noticed for the durability and finish which they exhibit.

—— Capt. Farr, of the N. H. Second who had his right arm so much shattered at the battle of Williamsburg, that he was obliged to have it amputated above the elbow, left his home in Manchester, Wednesday afternoon, to rejoin his regiment.

—— The Manchester Common Council, on Tuesday, unanimously passed a resolution appropriating $10,000, for the purpose of paying a bounty of $50 to each volunteer residing in that city.

—— Moses N. Collins, Esq., of Exeter, is mentioned as the probable Lt. Col. of the 11th regiment.

—— The American states that, although there was not a quorum of the Council present at Concord, on Tuesday, yet it is certain, from the expression among those present, that the bounty to volunteers will be raised to at least fifty dollars, and perhaps to sixty dollars.

—— Three Exeter men of Co. C, 6th N. H. Regiment, arrived home on Saturday, discharged on account of ill health. The Ballot, which does not give their names, says a look at them suggests the impression that if such men are discharged from service on account of sickness, the health of the regiment generally must be good.

—— It is thought that Dover will contribute a company for the 10th (Irish) regiment. The mills will stop in about ten days, and recruits will then be forth-coming.

—— A dispatch from Concord, Thursday, says:

The body of Capt. Caldwell of the Sharpshooters arrived this morning, and will be taken to Dunbarton for interment.

The State bounty for Volunteers is now fifty dollars.

☞ English papers relate that a Newcastle, England, milk dealer had a fearful rough and tumble fight with his wife a short time since. She used her fists scientifically, and was punishing her husband severely, when by a foul blow, he disabled her, and finally deprived her of life by breaking her head against the flag-stones. He was arrested and a verdict of manslaughter brought against him.

☞ The President has approved the confiscation act and the act supplementary thereto.

THE REBELLION.

A letter from Warrenton, Va., of July 12th, states that on that day orders were issued for the soldiers of the army of Gen. Pope to take ten days' rations for an immediate march. It is estimated that his force is about thirty-five thousand strong.

Morgan is causing much alarm in Kentucky, and doing considerable injury. At Medway, on Tuesday, he cut the telegraph line, tore up the railroad, and took everything convertible to his own use. He left for Georgetown on the same evening, and on Wednesday our pickets were falling back on the Georgetown road. The rebels were approaching in force, and our troops, with several pieces of artillery, were advancing to meet them.

Intelligence from the Shenandoah states that another rebel raid was threatened. It was rumored that Jackson, with half the large army which he took to Richmond, has returned, and been reinforced by numerous guerrilla bands. During the past ten days our vast depots of stores at New Creek, Martinsburg and other places, have been broken up, and the stores removed elsewhere.

CAMBRIDGE DIVINITY SCHOOL.—The 46th Annual Visitation of the Cambridge Divinity School took place on Tuesday, 15th inst. There was a good attendance of visitors, including, we understand, a delegation from this city. Since the death of Pres. Felton, Rev. Dr. Peabody has acted as temporary President; but on this occasion Prof. Convers Francis, of the Divinity School, presided.

The first essay was on "Arbitrary Faith a Source of Scepticism," by James De Normandie. The speaker said Faith might be of the understanding and of the heart, and argued that, while the truest man at heart might have scepticism of the understanding, scepticism of the heart is a want of faith in our own spiritual nature. The argument was able, and justified the high reputation which the speaker had previously earned. Mr. De Normandie will enter upon his duties as pastor of the Unitarian Church in this city, in September next.

"The Holy Spirit in the Human Soul," was next treated by Edward I. Galvin,—who was followed by Frederick M. Holland, son of Rev. Dr. Holland, of Dorchester, in an instructive essay on "John Huss." "The comparative value of the Intellect and Moral Nature as the basis of Faith," was next considered by John C. Learned; this was a profoundly metaphysical dissertation on the intellect and moral nature of man.

The fifth piece was by William Grey Nowell, of Portsmouth, on "Jewish and Christian Theism." The Hindoo and Semitic are the two great races which form by their confluence the current of history.—The Monotheism of our religion is due to the Hebrew nation, the best known of the Semitic race, its utmost limit of belief resting in the one invisible God. While politics, art, poetry, science and philosophy owe almost everything to the Hindoo race, to the Semitic are we indebted for the great principles of religion. The speaker then explained the nature of Monotheism, or the doctrine of one God, as meaning a union of spirit and life, of idea and manifestation, and the corollate doctrine of the presence of the Creator in things created, and the idea of universality unlimited, existing with unity which was absolute. We are informed by those who listened to this production that it ranks high among essays of its class. Mr. Nowell, who is a native of this city and was here fitted for college, bids fair to become distinguished in his profession.

"St. Paul at Athens," by George F. Piper, of Stratham, N. H., was also a superior production. The necessity of revelation was ably maintained and the views of the late Theodore Parker were severely criticized.

The closing piece, entitled the "Christian Patriot," by Samuel B. Stewart, of Farmington, Me., was not spoken. We understand that Mr. Stewart has accepted a call of the Unitarian Society at Nashua, N. H.

After singing, the exercises were concluded by prayer from Dr. Hedge. In the afternoon the annual discourse before the Alumni of the Divinity School was delivered by Rev. Edward Everett Hale, of Boston.

☞ The following in the London Spectator of the 28th ultimo is unaccompanied by note or comment:—

"The Russian Government has applied officially to that of Great Britain for the loan of a hangman."

☞ Samuel F. Miller of Iowa has been confirmed by the Senate as an associate Justice of the Supreme Court of the United States.

☞ A Washington dispatch says the President has signed the bill making postage stamps a legal currency. Congress adjourned, sine die, Thursday.

☞ The first New England Regiment under the new requisition is the Vermont Ninth.

Good, with the Hot Work Before Us.—A General Draft all round.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable Invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Bilblains, Chapped Hands, Ringworms, Sprains, Fresh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Old Sores, Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Stiles, Lame Wrist, and Sores and Wounds of the most malignant nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 38 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 38 cents—or three boxes for one dollar.

For sale in Portsmouth by WM. H. PARSON and J. H. THACHER; and by respectable Druggists and country stores everywhere. jy10 1m

Local.

☞ The following is a list of the officers of the U. S. steamer Conemaugh, which went into Commission on Wednesday:—

Lieut. Comd'g—Reed Werden.
Lieut.—Richard W. Meade, Jr., Ex. Off.
Master—Geo. A. Crall.
Acting Masters—W. D. Urann, J. W. Stapleford, J. L. Lee.
Paymaster—Geo. Lawrence.
Asst. Surgeon—J. Allingham.
Engineers—Alfred La Point, 1st Asst.; B. F. Beckett, 2d Asst.; P. H. Hendickson, George R. Fuller, Eben G. Gardner, 3d Asst.
Master's Mates—A. P. Bashford, George H. French, Jos. H. Wainwright and J. G. Brown.
Paymaster's Clerk—W. F. DeLacy.
Commander's Clerk—E. B. Cummings.
Yeoman—Warren Swett.

☞ The High School Exhibitions this week are believed in many respects to have been the best we have ever had in Portsmouth. The declamations at the Boys' school were unusually well rendered, and special credit is due Master Moody, who delivered an argument on the "Importance of Classical Learning" with an ease and grace worthy of the highest praise. In the Girls' school the valedictory, by Miss Medbery, was a composition characterized by rare good sense, healthiness of tone, and an absence of the "school girl" style which has become sadly proverbial. The delivery also corresponded with the excellence of the sentiment and language. By the way, the school room was not half large enough to accommodate those who wished to be present on Wednesday, but went away unable to find even standing room.

☞ The first *five Volunteers* for the country's service, will see something to their advantage, on looking at Mr. Morse's advertisement, wherein he makes the generous freewill offering of $100 to help suppress the rebellion.

☞ Orders have been received by the Mayor and Aldermen to make an enrollment of the persons in this city liable to do military duty—such enrollment to be completed on or before August 1.

SHARP PRACTICE.—The New Bedford Mercury says that for several mornings a woman appeared at a certain bakery in that city, bought a loaf of bread at each visit, and presented a dollar bill, taking 95 cents in change. After a time the baker "smelt a rat," and watching his customer discovered that she went straight from the bakery to a broker, and exchanged her 95 cents for a dollar bill.

☞ While a freight train was passing along Commercial street, Portland, on Monday, Miles McShea, one of the employees of the Grand Trunk Company, in jumping off a car to change a switch, accidentally stumbled and fell upon the track. Saveral cars passed over him. He died in the course of the evening.

☞ A New York recruiting officer thus advertises:—

"*Grand Excursion by Steamboat and Railroad.*—This ticket entitles the bearer to a passage to Richmond, Va. Fare, clothes, and food, gratis, and $38 given for nothing. For further particulars, apply, &c."

☞ Telegraph operators, printers, and amiable fathers who read the newspapers aloud, will be glad to learn that the name of the steamer *Coatzacoalcos* is changed to *America*.

☞ Godey's Lady's Book for August contains, among many attractions, a fine engraving of Daniel Webster at the tomb of Shakespeare.

☞ Ex-President Buchanan has sent one hundred dollars to the Pennsylvania relief Association for the sick and wounded at Washington.

In the olden time they had but seven wise men. Now, take them at their own valuation, you won't find half that number fools.

☞ Capt. Charles E. Rand of Co. I, 1st Mass regiment, has arrived home on a furlough to recruit his health.

The Southern Confederacy seems to be losing its English backers of late. The London Times of the 18th of May calls the rebels the "Transatlantic dregs of the English cavaliers." What an unmerciful and ungracious cut!

"*Stonewall*" *Jackson.*—In view of the facility with which this famous Rebel moves himself from field to field, it is suggested that his *sobriquet* be changed from "Stonewall" to "Portable Fence" Jackson.

"I presume you won't charge anything for just *re-membering me*," said a one-legged sailor to a wooden-leg manufacturer.

If a man is murdered by his hired men, should the coroner render a verdict of killed by his own hands?

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. June1 1m d

Proposals

BUILDING AND EQUIPPING TWO FIRST CLASS AND THREE SECOND CLASS LIGHT VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 25, 1862.

Separate sealed proposals will be received at this office until 12 m, on SATURDAY, the 9th of August, 1862, for building and equipping two first class light-vessels of the following dimensions:

Length from after side of stern post to the fore side of main stem, 95 feet; breadth of beam, moulded, 26 feet 6 inches; depth of hold from top of limber strake to top of beam, 11 feet; tonnage about 332

The Board will also receive proposals until 12 m, on MONDAY, the 28th of July, 1862, for building and equipping three second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of limber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain untapped southern timber. The printed specifications by which the vessels are to be constructed, and which will, with the drawings and plans, be attached to and form a part of the contracts, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia, at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Hon. Secretary of the Treasury; no proposal will be received or considered, unless from persons engaged in ship building, and each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fullfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed by each bidder, as evidence that there is no mistake as to the object of his proposal.

A drawing of the vessel contracted for will be furnished to the contractor, to which he will be required to adhere strictly; to this end the model for the vessel will be taken off and the model examined by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will be required to see that the work executed and the materials used are in strict conformity to the terms and specifications of the contract, and who must certify to the same in writing, before the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light-vessels may suggest any change or alterations by which the cost will be lessened, without using inferior materials, and in making such suggestions the precise character of the change or alteration will be named, with the amount saved thereby. The proposals for each vessel will state the time required to complete the vessel and deliver it to the agent of the Board at such place as may be agreed upon; the same to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building light vessels*," and then enclosed in another envelope, and addressed to the Secretary of the Light-house Board, Washington, D. C.

No bid will be considered that does not conform to the requirements of this advertisement.

Any person submitting a proposal may be present, and witness the opening of the bids at the time and place hereinbefore specified.

By order of the Light-house Board:

HIST. OF FORMER CONSPIRACIES

AGAINST THE U. S. GOVERNMENT.

The South Carolina Nullification Conspiracy, 1832-3.

Concluded from yesterday.

The Convention of Delegates assembled on the 19th of November. Governor Hayne (late U. S. Senator) was made its President. The tariff acts of 1828 were declared null and void and not binding upon the citizens of the States. It was further declared that if the United States should attempt to enforce them by naval or military force, the Union was to be dissolved, and a convention called to form a government for South Carolina. It further provided that no appeal should be permitted to the Supreme Court of the United States in any question concerning the validity of the ordinance, or of the laws passed to give effect thereto. This threw the die for the important movements to follow. The legislature immediately took all steps necessary to carry out the programme of the Convention—the legislators being convened for the especial purpose, by call of the Governor. The acts adopted embraced one authorizing the Governor to call on the militia to resist any attempt on the part of the government of the United States to enforce the revenue laws. Ten thousand stand of arms and the requisite quantity of military munitions were ordered to be purchased, and any acts done in pursuance of that law were to be held lawful in the State courts.

This was followed by the resignation of the Vice-Presidency of the United States by Mr. Calhoun, and he proceeded to Washington to resume his seat in the Senate.—The President, Andrew Jackson, just re-elected, felt extremely indignant toward Calhoun, and, it is now known, had made up his mind to arrest him, on his arrival at the Capital, to try him for high treason, and to hang him if convicted. He was persuaded from this extreme and hazardous course by Mr. Webster and others; and, on the 10th, issued his famous proclamation against the nullifiers, in which was forcibly and plainly stated the nature of the American Government; the pretended right of sovereignty was denied; the supremacy of the Federal Government declared, and an exhortation made to the citizens of South Carolina not to persist in a course which must bring upon their State the force of the Confederacy, and expose the Union to the hazard of dissolution. At the same time all the disposable military force was ordered to assemble at Charleston, and a sloop-of-war was sent to that port to protect the Federal officers, if necessary, in the discharge of their duty. General Scott, then, as at a later day, the watchful Guardian of the public weal, was given charge of the military movements, under special instructions from Lewis Cass, Secretary of War. Ere the South Carolinians were aware Scott was in Fort Moultrie, with a strong force, prepared to collect the revenues of the harbor at the cannon's mouth, if necessary.

At the opening of Congress, Jackson sent in his Message, setting forth the facts of the case. His policy was one of peaceful settlement, if possible; but if Congress did not repeal or modify the law, he was ready to *force* South Carolina into *submission*.—Nullification he termed revolution, which he was bound to suppress. The entire country, save the States of Virginia, South Carolina, Georgia and Alabama, approved "Old Hickory's" policy, and stood ready to sustain him. Even in these apparently disloyal States there was a very strong Union party, which repudiated the baleful idea of nullification, and which eventually succeeded in making itself heard and felt.

The determined front of the government—the argument read in General Scott's face—the silent admonition of Moultrie's guns, induced a material abatement of the nullifiers' zeal. South Carolina, it became evident to the leaders of the conspiracy, could not get out of the Union if she would. Her revenues were collected by the Collector, at the regular Custom House, and, in all other respects, the state of affairs was not changed. The Convention, after its most extraordinary display of arrogance and opposition, resolved to wait until Feb. 1st before ordering hostile action!

On the 21st of January, Mr. Wilkins, of Pennsylvania, introduced in the United States Senate his bill to empower the President to crush out all opposition to the collection of the revenue by summoning the military power of the Confederacy. Pending the discussion which followed, Calhoun delivered his argument on the Constitution. It was a most powerful and subtle plea, claiming the rights of states *as* states and independences, and assuming nullification to be the bulwark of their liberties. The speech was published and circulated extensively throughout the country, to be quickly followed by Webster's truly magnificent reply, which, in fact, made the Government and the Constitution stronger for the assault o the Carolina logician. The bill of Mr. Wilkins passed by an almost unanimous vote—so united was the sentiment on the question of sustaining the laws and protecting the Constitution from infringement upon its powers. John Tyler, of Virginia, was among those who voted against the bill.

This act was followed by one of concession and compromise, introduced by Henry Clay, proposing a graduated scale, by which the duties were to be abated annually.—This bill allowed government the needed benefits of the revenue, only detracting from the tariff one-tenth each year upon all articles tariffed *over* twenty per cent., thus gradually reducing the duties until they should strike the free list, in December, 1841. This act passed both Houses by good majorities, and was signed March 24, 1833. In the meantime, February 1st had come, and the Nullifiers did not drive General Scott out of Fort Moultrie, nor cease to pay their duties both to the Collector and to the Government. Accepting the "highly satisfactory settlement" of the difficulty, it only remained for Governor Hayne to summon the Convention to undo what they had done. The delegates came together March 11th, placed South Carolina back in the Union, declared the great principle of State Sovereignty established, and adjourned.

This conspiracy left behind it the seeds of disunion. The idea of a State independence, of a power to control circumstances to their own liking, of a disoverance of all bonds with the "hated North," was left to germinate and grow, to burst out again, when a weak Executive should afford the opportunity, into treason and revolution.

A Real and Great Improvement
IN HORSE SHOES.

S. W. WEBBER,

Blacksmith and Horse-Shoer,

NO 60 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

in this city and vicinity; and is prepared to furnish and set the same, at the regular prices for other Shoes (except for steel Shoes, which are 25 cts. extra), and warrant them to give full satisfaction in all cases. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c.; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual.

FRANKLIN HOUSE,

Portsmouth, N. H.

The undersigned having assumed the management of this well-known public house, and having made extensive improvements therein, solicits a continuance of the patronage of the travelling public that has so long been extended to the house.

A new parlor and an extensive suite of commodious and well-ventilated sleeping apartments have been added, and a separate Ladies' Entrance from Congress Street, arranged. Gentlemen with their families, or ladies unattended, will now find quiet and retired apartments connected with the first and dining hall of an independent staircase.

The house will be kept as a first class hotel in every respect, and the proprietors will spare no pains to merit the patronage of those visiting this section of the State.

A good STABLE is connected with the house, where persons visiting Portsmouth with teams, will be promptly and carefully waited upon.

MATHEW'S Arnica HAIR GLOSS

This is a new and invaluable preparation for preserving and beautifying the hair.

The wonderful virtues of Arnica in allaying and removing inflammation are universally known.

ARNICA HAIR GLOSS is a combination of these virtues, with other tried and excellent ingredients.

ARNICA HAIR GLOSS stimulates and invigorates the hair, prevents it from falling out—restores it when lost—promotes its growth and strength—renders it proof against all diseases.

ARNICA HAIR GLOSS permanently cures all irritations and eruptions of the scalp, and makes it healthy and fertile. For the removal of dandruff it has no equal. Its operations in this particular are magical and permanent.

ARNICA HAIR GLOSS is unequalled as a hair-dressing compound. It not only cleanses the scalp and invigorates the hair, but it renders the latter charmingly soft and lustrous. Its odor is particularly delicate and fragrant—the proprietor having taken especial pains to secure this result.

ARNICA HAIR GLOSS is the very best preparation for the hair ever discovered.

ARNICA HAIR GLOSS, notwithstanding its surpassing merits—is retailed at only Twenty-five cents a bottle, by all Druggists.

☞ ATTENTION, THE WHOLE! ☜

RYE, N.H., Feb. 25, 1845. "Thereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—it affected her hands very much. A large sum had been expended by the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as an hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to hope for a cure in this instance, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, I was completely cured in about two months, and I have had no trouble from it since. CAROLINE B. SWETT.

This statement of my wife is correct. SIMON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores, and much pain. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors. HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I am good health. M. LOWD.

Lowell, Feb. 24, 1858. Dr. Swett.—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add, that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints. WM. F. LAYITT.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for the same, if they do not agree with the same, or not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may 20o

SATURDAY, JULY 19, 1862.

"THE MASTER RACE."

It may be well, sometimes, to know what other people think of us, and also what they think of themselves as compared with us. With this view we reprint the following editorial headed the "The Master Race," from the Richmond (Va.) Whig of June 25.

Since the great battle of Shiloh, and including it, we have had an almost uninterrupted series of victories. We encountered the enemy generally with heavy odds against us, and frequently behind intrenchments, but in no single instance, unless it be the unexplained affair at Lewisburg, have Southern troops failed to exhibit superior manhood to the mongrel and many-tongued enemy.

Indeed, the whole experience of the war is an attestation of the truth long since discovered by impartial observers, that the master-race of this continent is found in the Southern States. Of a better stock, originally, and habituated to manlier pursuits and exercises, they have *ruled* in affairs of *State* by force of the stronger will and larger wisdom that pertain to and distinguish superior races of men, while on the field of battle they have in every contest held a priority of place, conceded to them by their present adversaries.

This natural *dominancy* of the Southern people had much to do in *bringing on the war*. The inferior race, grown strong in numbers and ambitious from prosperity, have *resolved* against and now seek to overthrow and destroy those whose superiority was a constant source of envy and self-reproach. There is no fiercer malevolence than that of caste, and it is this which has so long stirred the Yankee bile. Always, in the presence of the Southern gentleman, he has felt a strong and painfully-repressed impulse to take off his hat. This conscious inferiority has galled the jealous and malignant creature, until he has broken out in *servile insurrection*. He has vainly concluded that his numbers can overwhelm and exterminate the subjects of his envy, and that he, succeeding to the broad acres and liberal habitudes of the Southern gentry, will come to be looked upon as a gentleman, too!

With as the contest is one for *hereditary rights*, for the sacred things of home, for the old repute of the *better blood*—with the Yankee it is a *rebellious* and infatuated struggle for a place he is unworthy of, for privileges he would degrade, for property he would barter, and for institutions he could neither comprehend nor enjoy. It is the old and never-ending strife between patrician and proletarian, between gentle and vile. It is the offer of battle on a new field of muscle against spirit—numbers against courage. It is not upon Southern soil and among the descendants of Cavaliers and Huguenots that this battle will go in favor of brute force.

It may be that the armies in front of this city are about to rush into mortal wrestle. When they meet it will not, perhaps, be upon such unequal terms as we have generally encountered. But should there be as great inequality of number as on other fields, it may and will be neutralized here, as it ever has been, by the superior courage and constancy of our troops. True to their lineage, their fame, their pledges, their principles; true to the expectations and prayers of all who love them; true to the immeasurable interests that hang on the issue; the soldiers who fight for liberty and native land will never give back, never weary, never cease to strike till certain and glorious victory perches on their banners.

MCCLELLAN AND THE NEGROES.—In the U. S. Senate, on Tuesday, Mr. Harris of New York read a letter from Gen. McClellan, saying that all negroes, male and female, who have come into the camps of the Army of the Potomac on the peninsula, have been protected and set to work at wages in performing services which would otherwise have devolved upon our soldiers. The supply of these operators has thus far been insufficient for Gen. McClellan's wants in this direction.

This statement is quite different from the general impression which has been made on the public, both at the North and South. There can of course be no doubt of its correctness; and if Gen. McClellan had given out a public notice last summer that he *would do for all* contrabands what he actually has done for these few, he might have had enough shovellers to turn the sacred soil of old Virginia upside down, long ago.

As we write this, our eye falls on the following item:

"Col. Paine, of the Fourth Wisconsin, and Col. Cartanius, of the Sixth Michigan, have been put under arrest at Baton Rouge by Gen. Williams for refusing to exclude negroes from camp according to orders."

☞ Rev. Darwin Mott, late pastor of the Freewill Baptist Church in Lowell, Mass., has lost the fellowship of that church, and by his "many immoralities (say the council) has forfeited his character as a minister and christian." Mott is supposed to have gone to Europe with a strange woman, in double adultery. A man of the same name, and probably the same man, was once the minister of the First Universalist Church in Lynn, but left in a hurry, and took himself out of the connexion suddenly, to avoid a trial.

☞ Maine has increased the bounty from $30 in the new regiments and $25 in the old, to $45 for the new and $55 for the old.

SHINPLASTERS AND SPECIE IN THE CITY.—He who has no specie is poor; he who has nothing but shinplasters is poorer. No matter how hot the atmosphere, he must walk in the burning sun, because the omnibus conductor will not change a bill without the usual discount. He may be parched with thirst, but he cannot purchase a glass of soda-water, because he lacks the change. In New York thousands and tens of thousands of persons during the past week have been compelled to walk to and from their places of business, who would gladly have patronized a coach. They have suffered hunger and thirst; they have submitted to various inconveniences and annoyances, because they were too poor or too prudent to pay the ruinous discount demanded by bankers and brokers.

Speculators seize the opportunity presented for the gratification of their avarice; and in the face of the penalty of $1000 fine, are flooding the city with shinplasters. Not less than fifty varieties of shinplasters are already in circulation, and in some instances men whose credit is below par are scattering their promises to pay as though they were Rothschildses or Astors; while the greedy corporations and speculators who have gotten up this temporary panic, are hoarding every shilling within their grasp. For a long time our city railroad companies and ferry corporations have been sweeping the small change into their treasury. They have refused good current bills and Treasury notes without discount. In this way the panic originated, and in this way it is perpetuated.

On Saturday, the Treasurer of one of the City Railroad Companies received about one hundred dollars premium on the silver taken in that day. Many other Companies and Corporations did a heavier business, and now they are beginning to reap the reward of their avarice, for multitudes of persons had rather walk than submit to such arbitrary and unjust taxation. The Banks refuse to redeem one, two and three dollar notes unless presented in quantities. They, therefore, are bound in equity to assist in providing change for the community. It has been suggested that they issue silver counters, 800 fine, of the denomination of five, ten, and twenty cents. If 800 is considered too fine let the standard be 750 or sufficiently low to prevent its purchase for export or melting. The Banks will be obliged to redeem the counters ultimately, and the counters will possess absolute intrinsic value. The Canadians did this to relieve themselves from financial embarrassment a few years ago, and the Bank of England did the same thing during the Napoleonic wars.—*N. Y. Tribune.*

CONGRESS, Thursday.—In the Senate the bill making postage stamps legal currency was passed. The President's message on Confiscation was laid on the table and ordered to be printed.

The House passed the bill that U. S. postage stamps under $5 shall be received for all dues, and may be received in exchange for U. S. Treasury notes. By its provisions, no private corporation or bank shall make and issue any note for less than one dollar, under penalty of fine and imprisonment.

A message from the President was received and read. He says he has approved of the confiscation bill and supplemental resolution, considering them both one act.

Before he was informed of the passage of the resolution he had prepared a draft of a veto message. As the bill does not touch the persons or property of loyal citizens, it is just and proper. It is startling to say that Congress can free the slaves of a State, but as the rebels forfeit their slaves to the Government, the question is whether they shall be declared free or be returned to slavery. He saw no objection to the former. In reviewing other parts of the bill he says:—

Military Commanders should seize and use whatever real or personal property may be necessary for their commands, but in some way preserve the evidence of such appropriations. He thinks it proper that military commanders should employ as many blacks as can be used to advantage, &c.

Both houses adjourned sine die.

Congress during the session has appropriated about $800,000,000 including upwards of $560,000,000 for the army and somewhat less than $100,000,000 for the navy.—Among the bills postponed by the House, or remaining unacted upon, are the following:—

Providing for the admission of the State of West Virginia into the Union; the bankrupt bill; the bill appropriating $200,000,000 for Border Slave State emancipation purposes.

The Senate took no definite action upon the House bills to totally abolish the franking privilege, and to repeal all laws allowing mileage, including the present members of Congress.

☞ From the report of the meeting in Portland on Saturday evening, as given in the Press, we learn that Judge Rice, having urged the importance of putting down the rebellion, signified his readiness to go to the field if he could be excused from the Bench; Judge Davis said he had a proposition to make to his colleague.

There are eight Judges upon the Bench; seven could do all the business for the next two years, that ought to be done. He would say to his colleague that he was ready to be one of the seven to do the whole business, and let the eighth go to the war; or, as he was the youngest member of the Bench, save one, he would be the *one* to go if the other seven would do the business. The proposition was received with rounds of applause.

State of the Weather at Present.—No Small Change.

THE REBELLION.

Price and other rebel Generals are collecting a force near Napoleon, Ark., it is thought to act against Gen. Curtis.

Gen. Halleck has relinquished command of the army of the southwest, and there is a rumor that he is to assume general command of all our armies.

The news that Gen. Hatch had occupied Gordonsville, Va., created great consternation among leading rebels in Warrenton, who had no idea that Gen. Pope would reach that point without a great battle.

Rebel dispatches contradict their story that they had taken Baton Rouge with 1500 Union prisoners.

Reports exist in our camps, on rebel authority, that Stonewall Jackson is at Staunton, Va., preparing for another visit down the Shenandoah valley. He will not have an undisputed march. The command of Gen. Hatch is reported to have penetrated as far as Rapidan station, on the Virginia Central Railroad, 74 miles from Washington.

☞ The Post Office Department is having postage stamps printed, of denominations ranging from three to ninety cents, on thick ungummed paper, to be used for general circulation as a substitute for specie.

☞ At the Pennsylvania State convention of the People's and Republican parties, in Philadelphia, on Thursday, Col. Forney announced that President Lincoln had stated that his future policy would be as stringent as could be desired, and that there would be no restrictions as to the employment of men to put down the rebellion.

NEW HAMPSHIRE ITEMS.

—— St. Luke's Church, at Nashua, was consecrated on Tuesday, according to the usual forms of the Protestant Episcopal Church. In the evening an excellent discourse was delivered by Rev. Mr. Davies of Portsmouth. Text—1st Chronicles 17th chapter, 3d and 4th verses: "The word of God came to Nathan, saying, Go and tell David my servant, Thus saith the Lord, thou shalt not build me a house to dwell in."

—— A Concord correspondent of the Mirror asserts that a man named Keniston, living at Salisbury, enlisted a few days since, but losing his desire to "become a soldier," deliberately cut off one of his fingers.

—— On Saturday last, Mrs. Sarah A. Ford, wife of William Ford, of Haverhill, Mass., committed suicide by hanging herself, in the Insane Asylum at Concord.—She had been out of health for a number of months, her nervous system, which we learn has never been very strong, being much affected in consequence.

☞ By the recent postal convention with Mexico, the single letter rate is ten cents per half-ounce, and prepayment is required. On all letters received from Mexico by sea, the domestic rate of postage is charged, to be collected on delivery. Letters to or from Mexico, when not conveyed by sea, pay the regular U. S. rates;—to be prepayed on letters sent, and paid on delivery of letters received. For newspapers sent by sea, one cent is to be added to the usual inland rate of postage, and this must be prepaid. Newspapers sent by land, and newspapers received from Mexico, are to be charged only our usual inland postage.

☞ Yellow fever has not made its appearance in New Orleans, notwithstanding the predictions and hopes of the rebels, and physicians of experience are of opinion that there may probably be no epidemic this year. The disease last summer was very slight, and Gen. Butler's judicious sanitary precautions will, it is hoped, prevent any outbreak of the pestilence.

☞ A French paper states that in Burgundy this season in consequence of the prospect of a very abundant vine crop, and in order to empty their casks in preparation for it, wine is sold by the hour and not by the bottle. Sixty centimes for an hour's drinking. If this state of things lasts, adds the journalist, we shall hear of more than one farmer catching a sun stroke in the shade.

☞ See advertisement of the racing at Franklin Park, Chelsea, next week,—the best ever seen in this part of the country.

Sheep and Lambs—Extra consists of choice Bucks and fancy Ewes for stock.

Beeves are sold by the head, at prices equal to the value per pound of the estimated weight of beef in the quarter with the fifth quarter, or the hide and tallow, at the same price at a shrinkage from live weight agreed on by the parties—varying from 23 to 34 per cent.

Number of stock cars over the different roads: Western & Fitchburg 25; Boston & Lowell 94; Boston & Maine—; Western 71. Total 210.

A GREAT CARGO.—Ship S. E. Smith cleared from Bangor for Liverpool 14th inst., with a cargo of 1,040,000 feet of lumber (deals.) This is the largest cargo ever cleared from Bangor.

☞ It is conceded that Gen. Curtis, in his military operations in Arkansas, has displayed some of the best generalship of the war.

☞ Among the recent confirmations by the Senate is that of Capt. John P. Sherburne, of this city, of 19th Infantry, to be Assistant Adjutant General, with the rank of Major in the U. S. Army.

Rev. Mr. Bradley, of Augusta, Me., announced on Sunday last his intention of tendering his resignation as Rector of St. Mark's Church. Mr. Bradley is a gentleman of much learning and ability, but being a native of the South, he does not sympathize with his people in their feelings on the question of the rebellion. This is understood to be the cause of his action. As a Christian and private gentleman, Mr. B. is above reproach.—*Kennebec Journal.*

NEW HAMPSHIRE

MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE

Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the BEST. As this is to be a STATE instead of a County Fair, we would like to have EVERY NAME OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER, Corresponding Secretary, Portsmouth, N. H.

For further information apply to the same.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon to King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day. He was rewarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Scrofula, Sore throat, Swelled Neck, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Fresh Wounds, Erysipelas, Blind and Bleeding Piles, Corns, Bunions, Inflammations, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Stinging, Cancers, Whitlows, Felons, Scalds, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and leave it free and fair as the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other ointments, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 30 cents—or three Boxes for one dollar.

For sale in Portsmouth by WM. R. PEIRSON and J. H. THACKER; and by respectable Druggists and country stores everywhere. jy10 1m

WAR MEETING.—The meeting to consider what measures shall be taken in our city, to promote enlistments and to secure a prompt answer to the call on us for volunteers, which it was intended to hold on Friday evening, was necessarily postponed. It will be held on Wednesday evening next, at some place to be hereafter designated. Several of our most active and patriotic citizens have already expressed a desire to take part in it, and it is hoped and expected that the meeting will accomplish much good

We implore the mercy of the junior editor of the Chronicle. We can endure his jibes at our lack of comeliness, his blackguardism and misrepresentation; but to have him attribute his own execrable puns to us, is too much for our equanimity. "Let his revenge take any form but that."—*Exeter Ballot.*

"Hold,—enough!" eh? It is but a few weeks since this same fellow, who now cries for mercy—in then referring to his false charge that we had cut him from our exchange list, (on account of his abuse of us, of course, if his statement had been true at all,) finished with this same quotation "Let his revenge take any form but *that!*" too. The pertinent, not to say polite, motto of the Mechanic Association in this city, is "Mind your business." We commend it to our "satisfied" "truly rural" cotemporary—with whom we think we never *began* any dispute, and we guess nobody else ever had to. By the way, "the junior editor of the Chronicle" never wrote a line concerning the Ballot, or its editor, that we know of. "The Chronicle" takes all the responsibility, and will try and stand all the "equanimity" the bawl at man has to spare.

☞ The entertainment of the Denier Brothers, at the Temple, on Thursday evening, was attended by a large and highly respectable audience—who were alternately amused and thrilled, pleased and startled, delighted and scared—as they went to be. Mons. Denier did not carry a man across the tight-rope on his back, as there was no man to be found willing to ride pick-a-back there.

PEYTON R. FREEMAN, Esq., has removed from Portsmouth to Hanover, N. H., there probably to spend his days. Mr. Freeman is now in his 87th year, but retains his faculties in a remarkable manner. He can read fine print without glasses, and for accuracy in drawing up legal documents he yet stands among the first. Mr. Freeman has been a resident here for more than sixty years.

☞ We learn that the Portsmouth Vinegar Company are to erect a large building in this city, for the manufacture of their excellent and highly popular Vinegar—and that preparations have already been begun for its construction, on the eligible wharf lot of Mr. Benj. F. Webster, where once stood the old Sugar Refinery, burnt a year or two since.

NEW HAMPSHIRE HOSPITAL.—The Portsmouth people are arguing in favor of the Sagamore House in that city for a hospital. We can see many advantages in having a hospital located there, and if it is in accordance with the act of the Legislature, establishing the institution for the treatment of our wounded and disabled soldiers to locate it by the sea-shore, we can see no objection.—*Manchester Amer.*

☞ Rev. C. Y. DeNormandie of Fairhaven, Mass., will preach at the Unitarian Church to-morrow.

☞ Rev. Mr. Waterhouse is to preach at the City Farm on Sunday afternoon, at 5 o'clock.

CAPTURED.—The Congregational Journal says:—

We learn that William F. LeBosquet, son of Rev. John LeBosquet, of Newington, enlisted as a private in the 5th Regt., Co. K, was left by his regiment at Rock Point, being too sick to be moved, and was taken prisoner by the rebels. He is probably now at Richmond, if alive.

☞ Schr. Prioress, Capt. Thurlow, was in our harbor yesterday with a party of twenty gentlemen from Newburyport, visiting the Shoals, etc.

☞ Mr. Edward A. Rand, of this city, at a meeting of the Piscataqua Association on Tuesday, was licensed to preach.

☞ We hear the 3d N. H. Regiment has only seven officers fit for duty in camp. Among those sick in camp is Lieut. John S. Sides of this city.

☞ Mr. George Haselton, aged 20, youngest son of Mr. Benj. B. Haselton, formerly of this city, was killed in battle near Savage Station, Va., June 29th.

☞ Samuel Cushman Haven and Henry Mathes, of Portsmouth, took degrees at Harvard College on Commencement Day, last Wednesday.

MECHANIC FAIR IN PORTSMOUTH.—It will be seen by an advertisement that a movement is in operation for a public State Fair in this city in September. It is proposed to be kept open five days. Besides the use of Jefferson Hall, a large temporary building will be put up on the open lot between the Hall and Piscataqua Bank—affording sufficient room for an extensive exhibition. The affair is in the hands of responsible parties, and is worthy all encouragement.

☞ J. H. Foster has received Harper's Monthly for August,—a fine number finely illustrated.

Mr. Avery also has Harper's Monthly, for August, at his periodical store on Congress street.

☞ See auction column for sales of real estate, furniture, team, &c.

PREMIUM ON GOLD.—One of the Montreal papers, speaking of the recent advance in the price of gold in the loyal States, says it is to be remembered that in Britain's struggle with the first Napoleon, when she had to make Bank of England notes a legal tender, the premium on gold rose much higher than it has yet done in the States, the guinea, or 21s. gold piece, having been worth 26s., or, it thinks, at one time, 27s. in bank notes.

☞ A Maine paper thinks those who are now leaving that State to avoid being drafted, are not worth wasting breath upon.—Such skulkers, it says, 'would be just as likely, and a little more so, to shoot a loyal soldier as a rebel. If they will only *stay away*, it will be a decided gain to the community. If the Provinces can stand it, we can!"

☞ The muskets recently found concealed in Baltimore, were in a section of a house especially constructed for that purpose. The information that the muskets were there, was communicated to the proper authorities by a negro. The search proved the information correct.

☞ A fellow who carried a white flag into the mass meeting in New York almost lost his life by the indignant denouncers of any truce policy with the rebellion. He was personally much disfigured by severe punches in the head.

TAXES IN NEW ENGLAND A CENTURY AGO.—During the French War, as it was called, the poll tax in New England was four dollars, the tax on real estate was at the rate of thirty-six dollars on an hundred valuation, and there was an excise duty on tea, coffee, wine, rum and other articles in general use.

THE QUOTA OF BOSTON.—Mayor Wightman stated, a day or two since, that, in his opinion, the measures now in progress will secure the full quota of Boston, for the new call for troops, in thirty days.

☞ In the little town of Stockton, Me., in four hours, the sum of $2000 was pledged for the use of volunteers, with the declaration that as much more should be forthcoming if necessary. The quota of the town is but seventeen men.

☞ See jon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. June.1 1md

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have conducted so many to a premature GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands who have used them at different periods throughout the country, having the sanction of some of the most eminent physicians in the country.

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished, by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of decisions and official decisions relative to patents.

There, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enables him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor* by the Commissioner of Patents. R. H. EDDY.
Boston, Dec. 2, 1861. 3w.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed, when he has entrusted them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleets, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating marriage, consider the consequences of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
apri—1y3taw

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 Endicott Street, Boston, is consulted daily for all disease incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person such rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will be not opened.

Office Hours from 8 A. M. to 9 P. M.
April, 1862—1y3aw

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. at above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

MATHEWS' VENETIAN LIQUID HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1545; since that time it has been USED BY THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is only $1 PER BOTTLE, and each bottle contains DOUBLE THE QUANTITY OF DYE contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of the class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,
Blacksmith and Horse-Shoer,
NO 30 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

in this city and vicinity; and is prepared to furnish and set the Shoes as easily and cheaply as for other Shoes, (except for steel Shoes, which are 25 cts. extra), and warrant them to give full satisfaction in all cases. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c.; and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of shoe will be put on, to suit customers, as usual; and
BLACKSMITH JOBBING generally attended to. S. W. WEBBER.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by numerous physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine:

FRANKLIN HOUSE,
Portsmouth, N. H.

The undersigned having assumed the management of this well known public house, and having made extensive improvements therein, solicits a continuance of the patronage of the travelling public that has so long been extended to the house.

A new parlor and an extensive suite of commodious and well-ventilated sleeping apartments have been added; and a separate Ladies' Entrance from Congress Street, arranged. Gentlemen with their families, or ladies unattended, will now find quiet and comfortable apartments connected with the street and dining hall by an independent staircase.

The house will be kept as a first class hotel in every respect, and the proprietor will spare no pains to merit the patronage of those visiting this section of the State.

A good STABLE is connected with the house, where persons visiting Portsmouth with teams, will be promptly and carefully waited upon.

MATHEWS' arnica HAIR GLOSS

This is a new and invaluable preparation for preserving and beautifying the hair.

The wonderful virtues of Arnica in allaying and removing inflammation are universally known.

ARNICA HAIR GLOSS is a combination of these virtues, with other tried and excellent ingredients.

ARNICA HAIR GLOSS stimulates and invigorates the hair, prevents it from falling out—restores it when lost—promotes its growth and strength—renders it proof against all diseases.

ARNICA HAIR GLOSS permanently cures all irritations and eruptions of the scalp, and makes it healthy and fertile. For the removal of dandruff it has no equal. Its operations in this particular are magical and permanent.

ARNICA HAIR GLOSS is unequalled as a hair-dressing compound. It not only cleanses the scalp and invigorates the hair, but it renders the latter charmingly soft and lustrous. Its odor is particularly delicate and fragrant—the proprietor having taken especial pains to secure this result.

ARNICA HAIR GLOSS is the very best preparation for the hair ever discovered.

ARNICA HAIR GLOSS, notwithstanding its surpassing merits—is retailed at only Twenty-five cents a bottle, by all Druggists.

☞ ATTENTION, THE WHOLE! ☜

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr Swett's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines are equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe pleasing pain, and when about it large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach quiet by medicine which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE H. SWETT.

This statement of my wife is correct.
JEREMIAH SWETT.

Portsmouth, N. H., April 18, 1851.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness and unusual loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about one year ago, when I took one bottle of Dr. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1835. Dr Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented my rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. P. LEAVITT.

From EDMUND I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied for a number of physicians, but continued to grow weaker till I commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price, will orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may25o

MONDAY, JULY 21, 1862.

THE REBELLION.

Gen. Pope has evidently determined upon hard and effective work. He has directed that his troops shall subsist upon the country where they operate, and that the use of trains for carrying subsistence be dispensed with as far as possible. He also states that whenever the order for the movement of any portion of his army emanates from headquarters, the time of marching and that to be consumed in the execution of the duty, will be expressly designated, and no departure therefrom will be permitted to pass unnoticed without the gravest and most conclusive reasons. Movements of cavalry must always be made with celerity, and no delay in such movements will be excused hereafter on any pretext.

On Thursday, a portion of the army of Gen. Pope entered Gordonsville, Va., unopposed, and destroyed all the railroad paraphernalia at that point, the junction of the Orange and Alexandria and Virginia Central Railroads. Three-fourths of the troops, munitions and supplies of every description, for the rebel army at Richmond, of necessity, passed through Gordonsville by railroad. The blow, therefore, is a most important one, more especially, as it is the first of a series.

The town of Cynthiana, Ky., 66 miles from Cincinnati, surrendered to Morgan on Thursday morning, after a half hour's fight. Morgan has about 2500 men. The excitement in the vicinity is very high, and the citizens are organizing for defence.—Henderson Ky., and Newburg, Ind., have been taken by the rebels.

Important changes have taken place in the fleet at Vicksburg. A letter from that point to the St. Louis Republican, dated 10th inst., says:

This afternoon Com. Porter's mortar fleet starts for New Orleans. It will be accompanied by four of Flag Officer Farragut's vessels. Evidently their destination is Mobile, though many of the officers think it Fortress Monroe and James river. Flag Officer Davis' fleet has been increased by the arrival of the Sumter, and the Bragg and Essex are both reported on their way here. Of one fact there is no doubt. The rebel force in this section—between here and Mobile—have been under-estimated.—The conscription law is in full force, and the Confederate army is greatly increased. Battles will yet have to be fought through this section of country against a formidable enemy, and months will elapse before navigation is open to New Orleans.

Gen. Nelson arrived at Nashville on Thursday, with heavy reinforcements, and assumed command.

The Columbia (S. C.) Guardian says, two Federal gunboats, attempting to go up the Santee river on the 7th, were attacked by a rebel force and, in turning to go back, one of them got aground on a sand bar and was captured. It reports that we lost 100 in killed and wounded.

BY TELEGRAPH.

A delegation of Senators called on the President, on Saturday, making a formal address on the coming change in the war policy of the Government, the seizure of rebel property, a vigorous forward movement, &c. The President said all these measures would be promptly carried out.

The provisions of the Confiscation bill are to be explained to the Union Generals, and if any are unwilling to comply with its provisions, they will be expected to tender their resignations.

Parties direct from Winchester deny that there is a rebel force near there. The known disposition of our forces render it an utter impossibility.

In an engagement in the Indian Territory the rebels were defeated. We took 125 prisoners, 1500 head of cattle, a large quantity of camp and garrison equipage, &c. Chief John Ross, with 1500 warriors, is about to join the Federal forces. 400 Cherokee and Osage Indians came into our camp with white flags, and gave up their arms.

Gen. Burnside returned to Fortress Monroe on Saturday. The rebels have paroled the sick and wounded Union prisoners taken in the recent battle, before Richmond.

Lebanon, Tenn., is in possession of the rebels. 800 rebel guerillas are within 22 miles of Nashville. 1046 Federal troops, taken by the rebels at Murfreesboro', have been paroled and arrived at Nashville on Friday.

☞ There are about thirty glass factories in the 1st Congressional District of New Jersey. There are twelve in the single town of Millville, and most of the sand used in the factories near New York, Boston and Philadelphia comes from that vicinity.

☞ John Taylor & Sons, the extensive Albany brewers, have notified the workmen in their establishment that those who desire to leave for the war will be allowed one-half their wages while gone, and that their situations will be retained for them on their return.

WORK OF THE OLD MASTERS.

BY B. P. SHILLABER.

In the schools kept forty years ago, and perhaps later, the ferule was the emblem of authority, and a picture I once saw, illustrative of the "Work of the Old Masters"—not in Jarves's collection—represented a boy undergoing flagellation with such an instrument, in the hands of the conventional lean and lank individual designated the Schoolmaster. The picture was interesting to me as feelingly recalling scenes wherein I had taken unwilling part, no more pleasant than this—the contortions of the boy revealing a far from beatific state of mind under the progress of the work. Who of the older boys does not remember the day and dominion of ferules? Every master was supplied with one, either lying ready for use upon his desk or stuck in a socket by its side, in open sight of the scholars, held—as my friend the linguist says, in Latin, which he speaks like his mother tongue—"*in te Deum* over them." There was often an exercise of fancy and taste in the form of the ferules, and the character of the master could be gathered from the implement employed to enforce his authority. The same peculiarities were apparent in the use. Some were but botches and bunglers, their simple aim being to get through with the flogging as soon as possible—striking heavily and in earnest, but the performance bore none of the masterly touches of genius; others refined upon punishment, their motive apparently being to manifest to their subjects the superiority of their mode of "laying on" to that of any one else. I remember the first ferule at which I trembled. It was a formidable "ruler," of lignumvitæ, broad, thick and long, and we to the delinquent unfortunate enough to be flogged with it! An aching hand for a week secured a week's immunity from mischief, but oh, such hatred as it enkindled, and such bitterness of spirit, and such nursing of revenge, that even the good-nature of boyhood could not find forgetfulness of. The master who wielded this was no artist—the quantity of his performance—like the girl's dancing—making up for its quality. He, had, besides, a raw hide, with which he dusted the backs of the larger boys, another proof that he was a botch, because the legitimate master always stuck to the ferule. There be those, I dare say, who remember the attentions of "Three Fingered Jack"—the affectionate name by which he was called. His dominion was succeeded by one who bore the name of "Mud Sill"—a billious gentleman, choleric and severe, but a true artist. He well know the delicate appliances of the flogging art that would make one blow sting worse than two under the old regime, but the victims, by the influence of appreciation, entertained not more than ordinary spite for the infliction; they felt the artistical excellences of the touches and bore no malice. His ferule was of leather, a round bowl, bevelled at the edges, with a handle some 18 inches long. Several thicknesses of sole leather were sewed together, and the implement thus formed was one which commended itself to true taste and genuine feeling. When applied under the inspiration of the occasion—the flexible handle bending to the form, and the broad bowl fitting with a loving closeness to the shrinking flesh—it was sublime. That ferule was always an object of profound admiration, and no scholar ever went up to get his pen mended who did not feast his eyes on it as it lay in repose on the desk. There were certain tricks of McD—'s that always savored of true art, one of which was to cause offenders to put their head in holes, cut in the back of the front seats for hats, and then to apply the ferule in a manner that gave infinite delight to all save the sufferers. A performance of this kind was marred once by a truculent brother of one of the subjects, who threw an inkstand at the master's head as he was patting on the final touch. It flew like a black comet, with a dark train behind it, and, missing the master's head, dashed through a window. Another expedient was to cause the delinquents to stand bent over, holding by their toes, when he would steal behind them, whisk out the leather ferule and apply it as dexterously as a surgeon will cut off your limb before you know it.

The several successors of McD—, in the time intervening between then and the erection of the new school house, were men of small mark. Their ferules were of very ordinary make, their floggings uncharacterized by any thing that could rank them with high artistic performances. I indistinctly remember that one of them cut the head of a boy who made resistance, but it was a bungling matter. At another time, as I dimly recall, one attempted to ferule two boys at the same time, whereupon they both pitched into him, when, seizing them and throwing them down, he planted a knee on each, and, throwing away his ferule, he resorted to fists, making the claret run plentifully, amid their cries of "Come on, Jim Hill, come on!" But nobody came and the master triumphed. It was well enough for amateur work, but was not the work of a master. It was minus the æsthetical effect, though in the main striking.

The erection of the new West School-house was an important event. It divided the districts and brought the boys within their proper limits. The school-house was an imposing structure, two stories high, with a bell on top. It became in its turn an old building, and has been replaced by another. Herein the first sceptre was swayed by Master W——, a very amiable man, conscientiously devoted to his duties and bringing to their discharge as much kindness as was consistent with a proper conformity thereto and a due regard for the "spare the rod and spoil the child" proverb of Solomon. He had been in former years a printer, a profession that has supplied talent to all the professions known to men and been universally admitted, and he felt that he could marshal children like types, and from the chaos of their uncultivation produce form and beauty, as the types by stick and rule are made practicable and intelligible. He had had years of experience, but he had an unfavorable prestige in our school. It is wonderful how shrewdly boys will read character. It is as if young intuition, not yet dulled by the world, took in the character at a glance with as nice an analysis as though it were a long known thing; and boys are right in these judgments, as nature is always right. A dog never forms a wrong estimate of a man. His attractions and repulsions are based on the nicest instinct, or reason, according to Prof. Agassiz. So we, boy-like or dog-like, read Master W——, and maugre the formidable ferule we formed a favorable estimate. We read beneath the authority a kindly nature, which we too severely tried before he left us, and provoked certain measures of wrath which we certainly received. As an artist in ferules, Master W—— hardly excelled. He was too ambitious in securing certain improvements in chirography, mathematics and grammar, to attend to the nicer embellishments of the teacher's art. Therefore his flogging was done without the regard to system that secured our admiration in the case of McD—. With him, simple soul, it was enough that he had given adequately for the offence, irrespective of the lights and shades, although there was an instance where light and shade were both represented. A widow of questionable character had a son in the school, a very bad boy, and Master W—— had administered a severe correction. The next day the widow came with her son and poured out unmeasured abuse upon the teacher for his treatment of her boy. "How badly is he hurt?" said Master W——, slightly pale, with anger, however. "If you wait a moment till I remove his linen I will show you he is all black and blue." The master unceremoniously shut the door in her face.—The boy's back would, undoubtedly, have presented a good specimen of coloring, and I have always regretted that we were not allowed the opportunity of seeing it. It was undoubtedly an excess of modesty on his part, that would not allow what was merely the result of accident to pass as a work of art. There was, however, one feature in his handling of a subject that was masterly. He was easy to detect a delinquent, and a face made up at the master never went unrequited. It was his custom, upon seeing an offence, to pitch the ferule very gently at the head of the offender, with a dexterity that would have shamed a Chinese juggler, and it never failed of alighting just where he intended. This was a hint that the ferule was to be brought to the desk, where the offender received the full of what he had earned—at least I never heard of one asking for more. It was really an artistic performance when he made the ferule fall upon the head of an offender in the very back seat, who was at the moment engaged in solving a chemical problem raised by putting saltpetre in his inkstand. A black stream was flowing down his desk, and so lost in admiration was the experimenter that he failed to respond in carrying back the ferule. Master W—— on tiptoe followed his messenger, and seeing the phenomenon demanded an explanation. "Tis the traction of cohesion, sir," said the boy, who was not very bright. The master collared him, and better handling of a subject, or one with more breadth and strength of finish, I never saw.

But my essay is growing lengthy, when it was only intended to introduce the fact that the identical ferule, belonging to Master W——, has become mine, after a lapse of thirty-five years. The master has long since passed away, remembered kindly by thousands, who, though never spared for faults, were ever encouraged in well doing by him, who had constantly their good at heart. The writer hereof yields his tribute to his old master's worth, recalling the benevolence of his smile and the gentle words of admonition and loving counsel that marked their last interview. The ferule, as a relic, relessed a crowd of old time memories and reflections, that took the form of a rhyme, which I here append.—[See another column.] They rather apply to the general ferule than the particular, and that its dominion has ceased is a matter for hearty gratulation, though the tyranny that prompted its use still exists, but that is dying out before the light of to-day's progress.—*Boston Sat. Eve. Gazette.*

GRAND WAR MEETING.

There will be a GRAND RALLY of the citizens of Portsmouth and the vicinity,

AT JEFFERSON HALL,

On WEDNESDAY EVENING, July 23,

at 7½ o'clock,

To promote an early response from this city to the recent call for Volunteers. The exigencies of the times admit no delay.

Let Portsmouth furnish her quota at once; and let all her sons lend their aid and encouragement to this work, by their presence at the meeting.

Rally then! and listen to words of counsel from the prominent speakers who will address the meeting; and see to it that Portsmouth does not forget her duty in this crisis.

You can do no less for your country than this; you can do much more.

NEW HAMPSHIRE MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE

Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have talent to attract, INTELLECT and ENERGY as GREAT. As this is to be a STATE instead of a County Fair, we would like to have EVERY CITY OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

As far as the best of care will be taken of all Articles sent in.

To the Ladies

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Odic and Leather Frames, and all kinds of Fancy Work.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to

WAR MEETING.—We publish in another column the call for a meeting of the citizens of Portsmouth and vicinity, at Jefferson Hall, on Wednesday evening next, at half-past seven o'clock. The call having been circulated on Saturday to a limited extent, is signed by many of our prominent and patriotic citizens, and the names of others would have been added had there been an opportunity to present the paper for their signatures.

The call we commend to the earnest attention of our citizens, appealing to them to do all that is in their power to make the meeting one worthy of the name of our city and of the Granite State. A call has been made *upon us* for more troops. The hour demands that each one of us should do all in his power, if we would save our country, if we would enjoy in the future those high privileges which have been ours in the past,—if we would hand down those privileges to our children as they were handed down to us. This is no time to hesitate or falter. We must act,—act promptly, act unitedly. Let ALL the people come up to this meeting with determination to do their whole duty in this trying time of the republic. Let it be shown that it is the stern determination of every one that our Government shall be sustained at whatever cost of blood and treasure.

☞ The house and lot, 24 Court street, belonging to heirs of the late John W. Abbott, was sold on Saturday, by Henry F. Wendell auctioneer, for $1600. George Chesley, Esq., was the purchaser.

MINSTRELSY.—We refer our readers to the advertisement of Messrs. Duprez & Green's great double Minstrel Troupe and Brass Band combined in one. They now number twenty-five first-class performers, and have an excellent brass band of twelve pieces. They have just completed a most flattering engagement at the Boston Museum and are now on a short tour through some of the principal cities, previous to closing the season. The Boston papers speak in the most glowing terms of this company, who by their gentlemanly bearing, honest and upright dealing, have gained for themselves a high reputation. Go and see them.

NULLIFICATION, &c.—*Messrs. Editors:* You have done good service by republishing the account of South Carolina Nullification which took place in 1832: as that account shows plainly that the "most pestilent heresy" of secession, rebellion, and civil war, is no *new* thing, caused by some event of last year, or the last ten years,—but that it was the darling doctrine of the Cottonocracy of Charleston, thirty years ago. It shows also, that the disloyal States then were the same as the *leading* disloyal States now,—viz, the greatest slave breeding and slave using States:—and that no one need to have been surprised at any acts or airs of overseeing or assumed superiority in Congress, by such men as Mason, Butler and Toombs, over the Representatives and Senators from the non-slaveholding States.

In strict accordance with this domineering spirit, the Richmond Whig of June 25, 1862, calls the present war the "servile insurrection of the Yankees against Southern gentlemen."

It is not yet certain how many Yankees in New Hampshire will admit their "conscious inferiority" to those who assume to be lords and masters. A READER.

AN HONEST CONTRACTOR.—Some Enfield rifles were ordered from England by the Government, through Messrs. Howland & Aspinwall, of New York city, early in the Rebellion, and Wm. H. Aspinwall, in accordance with the determination then expressed, not to receive any pecuniary benefit for services rendered, or for risk incurred, in behalf of either Department of the Government, has just remitted to Sec. Stanton his check for $25,290.60,—this being his share of the profit on the contract. Sec. Stanton has, by an order, acknowledged the receipt of the check, and returned the thanks of the Department to Mr. Aspinwall.

☞ There are six millions of grapevines in California, and they will produce five millions of gallons of wine this year.

☞ The new grand reservoir in Central Park, New York, will have water let into it in the course of a week. Its capacity is estimated at a billion of gallons. The entire cost was $2,000,000.

☞ The number of horses in the world is estimated at about twenty-seven million. Of this number the United States have five million. The general estimate has been eight to ten horses in Europe for every hundred inhabitants.

☞ Perley writes that Mr. Gooch of Massachusetts secured the passage of a bill giving the Secretary of the Navy authority to regulate the hours of labor and the rates of compensation therefor at the different navy yards, so as to secure uniformity.

THE OLD FERULE.
BY B. F. SHILLABER.

Grim relic of a distant time,
More interesting than sublime!
Thou'rt fitting subject for my rhyme,
And touch'st me queerly;
Unlike the touch that youthful crime
Provoked severely.

It was a dark and fearful day
When thou held's sovereign rule and sway,
And all Humanity might say
Could not aver;
The doom that brought thee into play,
And wrought us hurt!

Ah, Solomon! that dogma wild
Of sparing rod and spoiling child,
Has long thy reputation soiled,
And few defend it;
Our teachers draw it far more mild,
And strive to mend it.

Oh, bitter were the blows and whacks
That fell on our delinquent backs,
When, varying from moral tracks,
In youthful error,
Thou made our stubborn nerves relax
With direst terror.

I know 'twas urged that our own good
Dwelt in the single of the wood
That scored us as we trembling stood,
And couldn't flee it;
But I confess I never could
Exactly see it.

The smothered wrath at every stroke
Was keenly felt though never spoke,
And twenty devils rampant broke
For one subdued,
And all discordances awoke—
A fiendish brood.

And impish trick and vengeful spite
Essayed with all their skill and might
To make the balance poise aright;
And hate, sharp-witted,
Ne'er left unpaid, by day or night,
To pass omitted.

I see it now;—the whittled doors,
The window-panes smashed in by scores,
The desecrated cabin floors,
The benches levelled,
The streaming ink from murky pores,
The books bedevilled.

Small reverence for Learning's fane,
For master's toil of nerve and brain,
They saw instruction marred with pain,
And Alma Mater
Was thought of only by the train
To deprecate her.

'Tis strange to have thee in my grasp;
My fingers round thy handle clasp,
No sense of pain my feelings rasp,
As last I knew thee;
Then thou didst sting me like an asp,
Foul shame unto thee!

But gentler moods suggest the thought—
That still thine office, anguish-fraught,
For our best good unselfish wrought,
Had we but known it.
And we, with grateful spirit, ought
To freely own it.

Perhaps—but I am glad at heart
That thou no more bear'st sovereign part
In helping on Instruction's art
By terror's rule—
That other modes will prompt the smart
Than thee in school.

Thanks, old reminder of the past,
For this brief vision backwards cast;
We measure progress to contrast
Times far and near.
Rejoiced, on summing up at last,
We're not arrear. —*Sat. Eve. Gaz.*

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. June-1 1md

Important to Females.
DR. CHEESEMAN'S PILLS.
The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstrations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS
was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a premature GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS
are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inclusing, with certainty, periodical regularity*. They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America*.

Explicit Directions, stating when they should not be used, with each Box.—*The Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills *sent by mail, promptly*, by remitting to the Proprietor. Sold by Druggists generally.

Morning Chronicle.

LEGAL ANECDOTE.—The following anecdote is related of a late distinguished lawyer of New Hampshire. The incident is said to have occurred at the Court House in Exeter many years ago.

"Two of the great guns of the New Hampshire bar, Jeremiah Mason and Ichabod Bartlett, had been battling all the week, and the most important cases had been disposed of. The Judge was half asleep, the jury in scarcely a better condition, and cases were decided before those interested hardly knew which way to turn. At about four o'clock, an old man was placed at the bar, accused of passing counterfeit money. There were but few persons in the Court House—the lawyers who had finished their business, had gone home, and the old fellow seemed in a fair way to be rapidly consigned to the State Prison. Mr. Bartlett, the younger *gun*, sat with his arms folded, and his feet upon the edge of the table, apparently asleep, while the Attorney General examined two or three witnesses. Never was justice hurried through in a more summary manner. The evidence was direct and conclusive, and as witness after witness left the stand, the old prisoner's face grew paler and paler, and he trembled at the certainty of his fate.

By and by Mr. Bartlett opened his eyes, cast a glance at the gray hairs of the culprit, yawned gently, and turning to the Attorney General, said audibly—"I'll defend this man." He asked no questions of the witnesses, and took no notes—but when the evidence was through, he rose and delivered one of the most beautiful arguments ever heard. The testimony which appeared as clear as noonday, he pulled all to pieces—he made discord of harmony—nonsense of sense—discrepancy of the most exact agreement—and when he touched upon the old man's unjust suffering, he even drew tears.

Without leaving their seats, the Jury declared the prisoner "Not Guilty." The weeping man, with clasped hands, leaned forward, seeming to invoke a blessing upon the head of his defender. 'Let him out, gentlemen,' said Mr. Bartlett, *and mark me, you old rascal, go about your business, and never let me catch you passing counterfeit money again.*' The Jury stared in wonder—and we left the Court House, laughing, yet sorrowful."

A farmer, having made his fortune, moved into the city to enjoy it; but his old love clung to him, and he indulged in a small way in the agristic pursuit. Visiting his friends in the country, and relating his experience in city farming he said: "I put outside my window a large box, filled it with mold, and sowed it with seed. What do you think came up?" "Wheat, barley or oats?" "No, a policeman, who ordered me to remove it."

TO KEEP BIRDS FROM PLUM TREES.—A plan devised by a correspondent for the purpose of protecting plum trees from birds, who often get more than their share of fruit, is to place in the branches of trees plaster cast images of cats, after having them painted some natural color. Stuffed cats have been placed in trees, and the results have been most satisfactory.—*Maine Farmer.*

☞ A party of secessionists, at Norwich, Vt., on Thursday night, sawed off a flagstaff on a recruiting office and carried the flag away, besides committing other outrages. Another flag has been raised and an armed guard will protect it.

"Mike, and is it yourself that can be after telling me how they make ice crame?"—"That I can. Don't they bake them in cowld ovens, to be sure?"

Con. by a Pupil of the Champion.—Why would Gen. McClellan make a No. 1 boxer? Because he has just shown that he is a splendid maneuverer with his "left."

Care is considered a very bad thing, and yet we are told all the time to take care.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (ss-*for the Ass of 1857.*)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other Foreign Countries. Also, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Searches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, and ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below, given by persons who have to MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration as their cases admit."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART,

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications, on all but two of which patents were obtained in six days, by the Commissioner of Patents.
R. H. EDDY.
Boston, Dec. 2, 1861. sw

J. P. MORSE,
Periodical & Newspaper Depot.

Having sold my Periodical and Newspaper business to S. AYERS AVERY, who can devote all of his time to the business, and therefore can, and I have no doubt will, give entire satisfaction to all who may patronize him.

I avail myself of this opportunity to return my sincere thanks to all of my subscribers and customers for their long-continued patronage. I trust that our business transactions have proved equally as pleasant and profitable to you as to me.

All indebted to May first will confer a great favor by calling at my room in the Post Office, and settling the same.

A Real and Great Improvement
IN HORSE SHOES.
S. W. WEBBER,
Blacksmith and Horse-Shoer,
NO 80 STATE STREET, Portsmouth,
Has purchased the sole right to manufacture and use
Cate's Patent Grooved Horse Shoes.

In this city and vicinity, and is prepared to furnish and set the same, at the regular prices for other Shoes, (except for steel Shoes, which are 25 cts. extra) and warrant them to give full satisfaction in all respects. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the inside and outside, so as to make it much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c., and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and
BLACKSMITH JOBBING generally attended to.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, purifying the Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and beautifying ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine:

MATHEWS'
VENETIAN LIQUID
HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1846; since that time it has been USED BY THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is SEVENTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, and most convenient, most successful, and most *permanent* Dye ever used.

☞ ATTENTION, THE WHOLE! ☜

RYE, N.H., Feb. 28, 1846. "I hereby certify that my daughter has had the rheumatism for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some few or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my neighbors, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

"About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Dr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE B. SWETT.

This statement of my wife is correct. SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most safe remedy in the world for Humors. HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1858. Dr Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest, night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints. W. R. LEAVITT.

From EZDRI I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest, by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH; since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JULY 22, 1862.

NEW HAMPSHIRE ITEMS.

—— Rev. E. M. Gushee, of the Episcopal church of Dover, has been appointed Chaplain of the 9th regiment.

—— A very interesting ceremony took place at Hanover, on Sunday, the 6th inst., viz: the baptism, by immersion, of the celebrated deaf, dumb and blind girl, Laura Bridgman. The ordinance was administered by Rev. J. S. Herrick, of the Baptist Church, with which church she united.—Miss Bridgman is now stopping with her father, in Hanover.

—— Senator Clark arrived at his home in Manchester, on Saturday morning.

—— The Ossipee Register says more persons have visited the White Mountain District during the past fortnight than is usual thus early in the season. Trout are plenty: snow still lingers in the ravines.

—— The project is being considered of a carriage road over Mts. Clinton, Pleasant, Franklin and Monroe to the "Tip Top" House, and engineers are to begin the survey.

—— Miss Lavina Hazeltine, of Manchester, while engaged in cooking, on Friday evening, suddenly fell upon the stove in a fit, and was badly burned on the face and neck.

—— In a recent debate in the Senate, Mr. Clark of this State said that at one time there were sixteen men from a rural town in New Hampshire in one regiment of the army of the Potomac; but he was informed that not one of them was alive now. Not one of them perished by the bullet, the sabre or the bayonet, but all died in the trenches of Virginia.

—— As the workmen were engaged in cutting the grass among the trees on Merrimack Square, Manchester, on Thursday, two dead infants, evidently just born, were found in the grass. Appearances indicate that the birth was premature, and produced by some unnatural and illegal process.—They were removed and buried by order of the city Authorities.

—— Many years ago, a clergyman of this State, who still lives at advanced age, was invited to serve as Chaplain at a Masonic Celebration, although not initiated into the mysteries of the Order. He had some impediment in his speech, and one passage in his prayer was as follows:—"We have met, O Lord, to *thelebrate*——to *thelebrate*——*we know not what.*"

—— Some one's dog entered the pasture of Mr. Kimball Thurston, on the Newmarket road, near Exeter, a few nights ago, and killed four valuable sheep of a flock of fourteen. Such occurrences are reported every week.—*N. H. Statesman.*

—— The Selectmen of Exeter commenced last week to make an enrollment of the citizens liable to do military duty.

THE REBELLION.

Hon. John S. Phelps has been appointed military governor of Arkansas.

The formidable rebel gunboat Arkansas is reported in a rebel newspaper to have come down the Yazoo River, disabled several of Com. Farragut's boats and anchored under the Vicksburg batteries.

We have news from New Orleans to the 12th. Gen. Shepley had received his appointment as military governor of Louisiana. The organization of 5 regiments of Louisianians had begun with fair prospects.

British brig Richard O'Brien, from Kingston, with contraband stores, was burned by boats' crews from the Rhode Island, in the harbor of Galveston on the 4th. The boat's crew further celebrated the 4th by planting the Stars and Stripes on Texas soil.

The Ohio river is practically closed to navigation, the rebels holding Henderson, Ky., a thriving village about 200 miles below Louisville; also the town of Newberg. They declare their intention of not molesting any but government boats, and of respecting private property.

The N. Y. Tribune's Washington dispatch says it is now positively known that the President, under the advice of Gen. Scott, and with the acquiescence o Gen McClellan, has called Maj. Gen. Halleck to Washington to act as General-in-Chief of the armies of the United States.—A special order, issued by Gen. Halleck before leaving, places Gen. Grant in command of his army and Gen. Pope's old army, together with the divisions of Gens. Quimby and Mitchell of Kansas.

Gen. Pope reports that a cavalry expedition sent out on the 19th, made a descent upon the Virginia Central Railroad at Beaver Dam Creek, 35 miles from Richmond, and destroyed the railroad and telegraph for several miles, and burned up the depot which contained 40,000 rounds of musket munitions, 100 barrels of flour, and much other valuable property.

Gen. Carlton's expedition from California, consisting of ten companies of infantry, five of cavalry, and a battery, have joined Col. Canby, in Arizona, thus ensuring the supremacy of the Stars and Stripes in that territory and the northern counties of Texas.

EDITORIAL JOTTINGS.

AT HOME, July 21.

A charming drive is that to Mr. Rogers' Nurseries at Kittery—especially at sunset time, and when the tide is in. To people who have always lived within sight and smell of salt water, no landscape is complete which does not embrace it; and for picturesqueness of view,—though South Road and Sagamore are "delighting to the eye," (and *would be* to the nose but for those outrageous slaughter-houses,)—yet probably we have no suburban drive quite equal to that along the river's banks and across the bridges, to Kittery Point. You can pass the Navy Yard and Willow Lodge on your route down; and return by way of Rogers' Gardens and Love Lane.

As we drove along, enjoying one of the most balmy of summer eves, the loveliness of the scenery of the Piscataqua was varied, and perhaps enhanced, by the handsome buildings at the Navy Yard, which the same view took in. And, when we had arrived in the midst of the floral loveliness of the Kittery Gardens—even there the view of the blue salt creek running behind the hill, adds to the beauty of the gay and varied parterres laid out all around us.

Notwithstanding almost "the last rose of summer has faded and gone," yet Mr. Rogers' grounds are looking finely, and will well repay a visit—a walk, ride or rail. He has some of the most splendid fuschias we ever saw, and those matchless grapes promise well. Love Lane affords a beautiful sequestered passage of a quarter of a mile, as quietly rural, and apparently as "far from the haunts of men" as the most inveterate, world-sick hermit could desire.

A private Picnic Party to Rye Beach, one day last week, was an occasion of much pleasure to the four-horse "Ivanhoe" load of a quarter of a hundred or more of ladies and gents who participated therein. The gentlemen of the party, (whose numbers as to that of the ladies was in exact proportion to their relative value, taken singly, as generally estimated by the gallant beaux themselves—or, to state it more distinctly, whose comparative numbers was, to the "softer" sex, as the difference in space filled in "the world's eye" by each, now-a-days,) were entirely overshadowed, on this occasion, and occupied the subordinate position that the ironically so-termed "lords of creation" must soon permanently assume, except when having a gun on the shoulder, or "sword and pistol by their side."

First to the late Ocean House woods and beach, till dinner time; then to the lofty grove at the Atlantic House till supper—and the staunch swings of the Atlantic, and the courtesies of mine host Philbrick and his gentlemanly clerk Mr. Geo. W. Lougee of Exeter, helped out the success of the affair not a little. And it was unanimously agreed, that a single gentleman who could fearlessly take charge of a couple of dozen of ladies at dinner, would make a worthy leader of volunteers at the forlornest hope. As to those swings, it seemed as if "the dear creatures" would tilt-on, tilt ever, with that "raw recruit," never minding how late-on the time ran; till at last it became necessary to up-ham and leave; and an imperative call was made for "the lady who had that table-cloth on"—meaning she had carried it *off*, of course. But no matter about that, nor what made that lemonade so red; supper was got through with, on the green sward, in the willows' shade, just above the rocky beach—though not *all* of it, by perhaps the parable number of "baskets-full" of fragments. Then how they sat on the grey old rocks, and listened to the singing of the sea, and the sweeter warbling of the fair ones:

"Tender, and soft, and slow,
Like the low cadence of the tranquil sea;"

and then all joining in chorus, with the accompaniment of old ocean's surging.

And then that lovely ride home, as the setting sun lit up the luxuriant woods, or waving grain, or new-mown but June-green fields, with the sturdy hay-makers closing up the day's work. What pleasant memories of that day! Long may all foster them; and may each similar gathering find as hale-y and well met fellows, and tend as much to lighten up as to darken the "complexion" of affairs.

*** Rather a trifling sketch, this, and a light-hearted state of feelings which prompted it, for such serious and trying times as these—says some long-visaged individual, who never laughed, and don't dare to smile now-a-days. Well, no doubt—but "a little nonsense now and then," you know; and we don't believe in dying more than once. So let's have more like it.

Yours, IND.

THIRD N. H. REGIMENT.

Official Reports of Acting Brig. Gen. Williams, and Lt. Col. John H. Jackson, of the Battle on James Island.

HILTON HEAD, July 10.

To His Excellency the Governor of N. H.:

SIR—I have the honor to inclose herewith the official report of Lt. Col. John H. Jackson, of the 3d N. H. Volunteers, concerning the part taken by his regiment in the battle of Secessionville, on James Island, S. C., on the 16th of June. * * * The 3d Regt. was ordered to the position on the side of the marsh of which Col. Jackson speaks, and was kept in that position as long as possible, for the purpose of keeping down the fire of the work and covering Gen. Stevens' second advance. So well did they do this, that the enemy could not man their guns on Gen. Stevens' side, and he was enabled, without loss, to bring up his regiments to within 400 yards of the work, ready for the assault, when the order was given to retire. The Colonel is in error in saying that he was far in advance of other troops, for the R. I. Regt. was then on his left flank, at a short distance, and the 97th Penn. and 47 N. Y. Regts. were in immediate supporting distance. I do not say this to find fault with the Colonel, for he did his duty nobly; but it is impossible for an officer immediately under fire to see accurately what goes on around him. The Colonel reported that which he believed correct.

With deep regret for the many men who have fallen, I desire to express to your Excellency my admiration of the extreme bravery, discipline and soldierly conduct of the officers and men of the 3d Regt. I do not believe it possible for men to have acted with more courage, and I desire particularly to call the attention of your Excellency to the marked gallantry of Lt. Col. Jackson, Major Bedel, and Capt. Plympton. Their conduct was noticed even by the enemy, as it was afterwards stated at a flag of truce. * * * ROBERT WILLIAMS,
Col. 1st Mass. Cavalry, Comd'g Post.

JAMES ISLAND, S. C., June 19.

To Act. Brig. Gen. Robert Williams:

SIR—I have the honor to present the following report. On the morning of the 16th inst. I received orders to form the six companies of my regiment remaining in camp—four companies being on picket—and fall in the rear of the Rhode Island 3d, which I did at 3 o'clock. After the line had been formed a short time I received orders to march forward. When I came up with our picket I was joined by the remaining four companies of my regiment. I soon received orders to again advance, which I did till I reached some wooden buildings near the enemy's earthworks, and as I had then got in advance of those I was ordered to support, I halted my command and waited for further orders.—Orders came for me to move on and support the advance. Thinking I had made some mistake, and that there were some of our forces in advance, I threw forward my two flank companies as skirmishers, under cover of some shanties that were very near the earthworks and gave them a fine opportunity to operate against the enemy. Co. A was commanded by Capt. Clark, and Co. E by 1st Lt. Maxwell. I then moved the remainder of the regiment to within forty yards of the side of the earthwork, and opened fire, driving them from three guns which appeared to me to be facing to the southwest.

I found there was no artillery facing the side I was on, and it would have been very easy for me to have gone into the fort, provided I could have crossed a stream between me and the earthwork, about twenty yards in width, with apparently four or five feet of water; the mud was very soft, and the men, therefore, could not cross. After getting into this position, the enemy soon opened on me from a battery that was about 200 yards in our rear, throwing grape into our ranks, from which we suffered severely. In a short time they opened fire with rifle and infantry; at the same time a battery, about a mile north of me, opened on us with round shot and shell, one shot from which killed a captain and non-commissioned officer; yet the men stood all these fires and obeyed orders promptly.

There soon appeared on our left a body of the enemy, forming in three battalions, in which form they marched to reinforce the earthwork in front of us. During this time I had informed the General of our position and of the above mentioned reinforcement. At this time the Rhode Island 3d made an attack on the force in our rear, materially assisting me in my position.—Meanwhile the reinforcement of the enemy had come in range of our fire, and I opened fire on them with good effect; but they were so well covered that they succeeded in throwing a portion of the force into the fort, and there, being well covered, their fire on us was very severe and detracted our fire from the reinforcements and gave them an opportunity to throw them all into the fort. Their number was so large we could not cope with them to any advantage; and by this time the other batteries, both in our rear and the one north of us, opened afresh on us, with more effect than ever.—Some of my men by this time had fired over fifty rounds, and many of the guns were very foul; some even having to shoot away their rammer, being unable to withdraw it.

Finding at this time that I was far in advance of all our forces, and seeing some of the forces retiring from the field, and as it appeared of no advantage to hold our position any longer, I gave the order to retire, which the regiment did in good order, to the old buildings from which we started. I soon received orders to fall back in the rear of some of our forces; and in a short time after reaching that position, orders to return to camp.

All my command, with one exception, behaved so well, that it is hard to discriminate in favor of any few; but a number of cases coming under my personal observation, I will take this opportunity to mention them. * * * Capt. Dow, of Co. H, although he carried his company into the field in good shape, behaved very imprudently while there, making remarks about the impossibility of sustaining our position, and the impropriety of our remaining in that position; all this in the hearing of his men—discouraging the men, and taking their attention from the enemy in front of us. * * * We went into the fight with 26 officers and 597 enlisted men, and 104 were killed and wounded. * * *

JOHN H. JACKSON,
Lt. Col. Comd'g 3d N. H. Vols.

☞ We are pleased to learn that Prof. Chamberlain, of Bowdoin College, has been offered and has accepted the Colonelcy of the 20th Maine regiment. During Prof. Chamberlain's connection with the College, he has received, to an unusual extent, the respect and esteem of the students, and has ever been regarded by them as one of their best instructors and truest friends. His many warm personal friends among the graduates, while they regret his withdrawal from the College, will be pleased to learn that he has accepted a situation to which he will devote that untiring industry, vigilance and courage which will ensure success.

P. S. A dispatch from Augusta states that Prof. Chamberlain has not been tendered the Colonelcy, and it is not probable that a 20th regiment will be raised. Well, so much the better for the College.

☞ Messrs. Blakeman and Mason, of New York, will publish, the first week in August, a collection of papers written for the N. Y. Mercury, by Orpheus C. Kerr the piquant and sparkling satirist of men and measures.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most painful sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Eyes, Sore Breasts, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Flesh Wounds, Prickly Heat, Poisoned Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Stiles, Lame Wrist, and Sores and Wounds of the most serious kind, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands now who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should have a box of this salve for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amherst, N. H.

M. S. Burr & Co., 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 28 cents—or three Boxes for one dollar.

Local.

THE UNITARIAN CHURCH.—It is understood that Mr. James DeNormandie accepts the call of the South (Unitarian) Church in Portsmouth, to become their pastor, but will not commence his pastorship until early in October next. Mr. DeNormandie was graduated at Antioch College, at Yellow Springs, Ohio, during the Presidency of Hon. Horace Mann. This pastor elect is the seventh, from the year 1713, when the old town parish was split in two. Counting back to 1671, when Joshua Moody was ordained over the whole, Mr. DeNormandie will be the ninth pastor, including in each case Mr. Alden's colleague term in Dr. Haven's.

Rev. John Emerson was Pastor from	1715 to 1732.
Rev. William Shurtleff	1732 to 1747.
Rev. Job Strong	1749 to 1751.
Rev. Samuel Haven, D. D.	1752 to 1805.
Rev. Timothy Alden (Colleague)	1799 to 1805.
Rev. Nathan Parker, D. D.	1808 to 1833.
Rev. Andrew P. Peabody, D. D.	1833 to 1861.

This Parish in 1731 built the old South Church—their present Stone edifice was erected in 1824, and enlarged a year or two since. They had but four pastors for the last century, (about 109 years, from 1752 to 1860,) and seem to have a decided taste for settling very young men, and keeping them to the end.

We hope the great promise and high expectations, which seem so reasonably entertained concerning the newly-selected pastor, may be fully realized, and continue through as long a term as any of his revered predecessors.

ROCKINGHAM COUNTY AGRICULTURAL SOCIETY.—At a full meeting of the Trustees, held at the office of the Secretary, in Exeter, on Saturday, further arrangements were made for the holding of a Rockingham Fair and Cattle Show in September next. The location is not yet decided upon, but the Fair will be held in that town of which the citizens will offer the greatest inducements, and where the most liberal arrangements can be made with Railroads, &c., and where the best general show can be provided, and the interests of agriculture most promoted.

Committees were appointed to make inquiries as to the locations which can be procured for grounds, &c., in Exeter and Portsmouth; the amounts of subscriptions which can be raised in either place, &c.; and the terms which the different Railroads will make,—report to be made at an adjourned meeting to be held a fortnight hence. We presume the City Government and citizens of Portsmouth will be as ready to all "do what they can" for the cause, (which is also so evidently the cause of self-interest,) as they were two years ago. The expenditures of the Trustees in this city on that occasion, were about $1600, if we remember correctly.

CHANGE — FOR THE BETTER.—Since the passage of the Postage Stamp currency bill by Congress, the common stamps have been freely offered and taken as change. All at once, other change, cents, and three cent and five cent pieces, have re-appeared: and by the time we get hold of the new stamps, there will be a great resurrection of change, which has been buried or hidden in the earth, where the "wicked and slothful servant" deposited his lord's talent.

☞ The Washington correspondent of the Concord Statesman well says that in giving two such men as Fitz John Porter and Robert H. Wyman to the country, in this great exigency, Portsmouth has some claim to honor.

☞ Thanks to Thacher for that bottle of "Jaques' extract of the garden lavender" —an exquisite perfume, put up in a most *present*-able form.

When the U. S. steamship Colorado came round from Boston to Portsmouth, a short time since, a Boston paper patronizingly remarked that this was the largest ship ever in Portsmouth harbor, which statement was incorrect. The Portsmouth people now joke the Bostonians upon the fact that the Colorado was so large that she had to wait for the tide to rise in order to get out of Boston harbor, while she came into Portsmouth at dead low tide, and had below her keel twenty or thirty feet of water to spare.

There is no harbor in the United States where there are such facilities for taking in deep ships as at Portsmouth, a fact that the Navy Department understands, though the Boston people perhaps do not look deep enough into the subject to see it in that light.—*Statesman.*

☞ Mr. Ephraim Otis, of Kittery, has advertised to give $20 each, to the first five able-bodied young men of that town who enlist as volunteers.

ILLINOIS LEADS THE VAN.—The Washington correspondent of the N. Y. Herald says the Governor of Illinois writes to the President that he has one hundred full companies ready for service under the recent call for additional troops. The quota for Illinois under this call is nine regiments.—The Governor wants to know if the government will not accept the additional regiment.

A dispatch from Warrenton says there was a report in secession circles on Monday morning, that Jackson was at or near Gordonsville with a large force.

THREE HUNDRED THOUSAND MORE

We are coming, Father Abraham, three hundred thousand more,
From Mississippi's winding stream and from New England's shore.
We leave our plows and workshops, our wives and children dear,
With hearts too full for utterance, with but a silent tear;
We dare not look behind us, but steadfastly before.
We are coming, Father Abraham—three hundred thousand more.

If you look across the hill-tops that meet the northern sky
Long moving lines of rising dust your vision may descry;
And now the wind, an instant, tears the cloudy fabric asunder,
And floats aloft our spangled flag in glory and in pride;
And bayonets in the sunlight gleam, and bands brave music pour—
We are coming, Father Abraham—three hundred thousand more!

If you look all up our valleys, where the growing harvests shine,
You may see the sturdy farmer boys fast forming into line;
And children from their mothers' knees, are pulling at the weeds,
And learning how to reap and sow, against their country's needs;
And a farewell group stands weeping at every cottage door—
We are coming, Father Abraham—three hundred thousand more!

You have called us, and we're coming, by Richmond's bloody tide,
To lay us down for freedom's sake, our brothers' bones beside;
Or from foul treason's savage grasp to wrench the murderous blade;
And in the face of foreign foes its fragments to parade.
Six hundred thousand loyal men and true have gone before—
We are coming, Father Abraham—three hundred thousand more!

☞ The "racing" proper, (running of thorough-bred horses, not trotting,) which commences at Boston to-day, is an event for New England. Some thirty of the very best thoroughbred horses in the Southern and Western country will run in one or more of the races,—and the high position their owners occupy will insure the fairest contests. The racing will continue four days, and will attract thousands of people from all quarters. See advertisement.—We acknowledge the courtesy of an invitation from Messrs. D. Robbins & Co., managers; and shall endeavor to be "there or thereabouts," for the benefit of those of our readers who feel an interest in true "sport," no less than for our own.

☞ A gentleman who arrived in Boston on Saturday, from Texas, states that Gen. Sam Houston is positively dead, and that before he died he requested the old flag to be brought, that he might die as he had lived, under the Stars and Stripes.

☞ Richmond papers of the 18th contain accounts of the death of Gen. Twiggs at Augusta, Ga., July 15th.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ Mathews' Arnica Hair Gloss. The *Arnica Montana*, from which this invaluable preparation derives its name, is a perennial plant, a native of the mountains of Siberia. From it is obtained an oil which has been discovered to be the most powerful remedy for allaying and removing inflammation known to pharmacy. This oil, combined with other tried ingredients, forms the Arnica Hair Gloss. junea1 1md

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America.*

Explicit Directions, stating when they should not be used, with each Box. *Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills *sent by mail, promptly*, by remitting to the Proprietor. Sold by Druggists generally.

From the Journal
A GOOD EXAMPLE.

Messrs. Editors,—I was much pleased to hear this morning that our postmaster, Mr. Morse, has made a good beginning, in the right way, by offering a private bounty of $20 each to the first five who enlist here to fight the battles of our country. I hope we shall see more of the same sort from other towns. Have we not, yes we know we have, citizens of large, patriotic hearts and purses, who will come forward at this time and give liberally, as they have before, for the defence of our beloved country, and encourage those who go out to meet the enemy, while we stay at home. Let us have a noble, generous response. B.

A communication from another source states that the quota of Portsmouth of the 300,000 men, is 150, and recommends that our city at once offer $50 bounty to each inhabitant of the city, who enlists, in addition to all the other bounties pledged.

The Great Question.—The events of the last few weeks—the immense strengthening of the secession armies; the inroads of sickness and losses in severe battles upon our own; the numerous instances, almost daily reported, of cruelty and cold-blooded murder of friends of the Union in the rebel States; and the late resort becoming more and more frequent, to robbery and bandit murder by guerilla bands, who must rob even their friends for subsistence when Union "abolitionists" were not to be found;—all point to the extreme, and by a large and increasing number deemed *necessary* measure of *demolishing slavery* to preserve the government and the Union; the slaves of Union men, well known and proved to have been such, all along, to be accounted for at a fair rate, while the slaves of rebels are *confiscated* and declared *free*, but to be used as laborers or soldiers in restoring peace and order throughout the Union.

Such a measure has hitherto been no part of President Lincoln's policy. By the platform of principles on which he came into office as well as by the constitution, the rights of slaveholders within the Slave States have ever been recognized. The President has always been desirous of putting down this insurrection, still recognizing these rights; but having rebelled, made war upon the government bound here to protect them, and used their slaves as "mudsills" in the erection of their works of defence and offence, and latterly have put arms in their hands, compelling them to aid as soldiers in their unholy work—no constitutional pleas are longer binding. Men the most conservative are fast becoming convinced that the time has come which a large proportion of the old Democracy, but friends of the Union, early advocated.

The Confiscation Act, which the President has found it necessary to approve, goes a great way in this direction. But his known view of the equal necessity of crushing the institution itself to preserve the government and the Union, will insure his approval of more decisive measures which Congress may feel compelled to adopt before they adjourn.

CITY COUNCIL.

In the Board of Aldermen on Thursday evening, the communication of Mr. J. H. Head was referred to a joint committee on finance, as the Aldermen have no controlling authority in the matter.

A communication was received from the Executor and heirs of Horace A. Haven, in relation to a fund bequeathed many years since for the purchase of medals for deserving scholars, and recommending that the medals be bestowed upon the two High Schools. The recommendation was adopted.

A communication was received from Gov. Berry in relation to having all persons between the ages of 18 and 45, liable to do military duty, enrolled and return made within ten days to the Adjutant General. If not made by the city within that time, the State to make the enrollment.

It was voted that the subject of enrollment be postponed until the law in relation to it is obtained.

Enthusiasm.—A dispatch from Hartford, Connecticut, says:

The largest and most enthusiastic outpouring of the people ever seen at Hartford was witnessed to-night. In response to a call to meet to devise ways and means to meet the call for troops, three thousand people met in Allyn Hall, and when that place was literally packed, the people gathered in the street until they numbered many thousands. Mayor Hammerly presided.

In Boston and other cities public meetings have been held and the same patriotic spirit is manifested. The Traveller says:

Active preparations still continue all over the State to raise the fifteen thousand additional men required from Massachusetts. There is now not the least doubt that the number required will be raised by voluntary enlistments.

Reports from all parts of the country, says the World, show a great activity in enlistment, and there is little reason to fear that the quota will have to be filled up by drafting. In this city a steady stream of recruits is pouring into the different offices. The enrollment of the militia of the State, which has just been completed, shows a force of nearly three hundred thousand men capable of bearing arms.

Just the place for a Hospital.—We know of no better place in New England, for a Hospital for the sick and wounded soldiers, than is offered at the place near where the first settlement was made in New Hampshire. The Sagamore House is now unoccupied, and contains every internal accommodation for the comfort of the sick; and the outside surroundings are open to the sea and to pure air, as well as enlivened by the verdant landscape. It is shut out from the noise and bustle of a public thoroughfare, and is easily accessible by land and water. We doubt whether any location of superior advantages can elsewhere be found, all fitted for use.

Gen. Pope.—The address of Gen. Pope to his soldiers is one of the most stirring, cheerful signs of the times. He promises his well trained army a series of quick actions. His style of warfare is the dash, which has succeeded well at the west, and on the rebel side under Jackson, in the Shenandoah. It certainly looks as though this excellent officer might achieve victories in Virginia on that plan as well as they have been achieved elsewhere before.

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,

Blacksmith and Horse-Shoer,

NO. 80 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

in this city and vicinity, and is prepared to furnish and set the same, at the same price for other Shoes, (except for steel Shoes, which are 25 cts. extra), and warrant them to give full satisfaction. English and American. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and lower surfaces, so as to be much lighter to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c., and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

BLACKSMITH JOBBING generally attended to. S. W. WEBBER.

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

MATHEWS'

VENETIAN LIQUID

HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been USED BY THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness of the hair,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

SOLD BY ALL DRUGGISTS.

Proposals
FOR
BUILDING AND EQUIPPING TWO FIRST CLASS AND THREE SECOND CLASS
LIGHT VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 25, 1862.

Separate scale1 proposals will be received at this office until 12 m. on SATURDAY, the 9th of August, 1862, for building and equipping two first class light-vessels of the following dimensions:

Length between perpendiculars, 98 feet; breadth of beam, moulded, 23 feet 6 inches; depth of hold from top of floor timber to top of beam, 11 feet; tonnage about 232

The Board will also receive proposals until 12 m. on MONDAY, the 28th of July, 1862, for building and equipping three second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of timber to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain antipodes southern timber. The printed specifications by which the vessels are to be constructed, and which will, with the drawings and plans, be attached to and form a part of the contract, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia, at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Hon. Secretary of the Treasury. No proposal will be received or considered, unless from persons engaged in ship building, and each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed by each bidder, as evidence that there is no mistake as to the object of his proposal.

A drawing of the vessel contracted for will be furnished to the contractor, to which he will be required to adhere strictly; to this end the mould loft lines will be taken off and the mould examined by the superintending officer, who will be assigned to look after the work, with the approval of the Secretary of the Treasury, and who will be required to see that the work executed and the materials used are in strict conformity to the terms and specifications of the contract, and who must certify to the same in writing, before the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light-vessels may suggest any change or alterations by which the cost will be lessened, without using inferior materials, and in making such suggestions the precise character of the change or alteration will be usually adopted when deemed saved thereby. The proposals for each vessel will state the time required to complete the vessel and deliver it to the agent of the Board at such place as may be agreed upon; the same to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building light vessels*," and then enclosed in another envelope, and addressed to the Secretary of the Light-house Board, Washington, D. C.

No bid will be considered that does not conform to the requirements of this advertisement.

Any person submitting a proposal may be present, and witness the opening of the bids at the time and place hereinbefore specified.

By order of the Light-house Board:

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS;
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street.
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of decisions and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full account of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse"

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in the strongest form with a view to a candid and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all inventors* to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

WEDNESDAY, JULY 23, 1862.

THE REBELLION.

The rebels in force are within five miles of Nashville. The troops are out, and there is great excitement in the city.

The telegraph gives the particulars of the escape of the rebel gunboat Arkansas, on the morning of the 15th. It being reported that she was about to attempt to run the Federal fleet, the gunboats Carondelet and Tyler, and a ram, started up the Yazoo to reconnoitre. Eight miles from the mouth they came suddenly upon the Arkansas, lying under the bank. She opened upon them with 68-pounders, and for a short time a fierce engagement ensued. The Tyler and Carondelet gradually dropped down the river, the Arkansas following closely. But the Carondelet and Arkansas got aground, and while the latter succeeded in getting off, the Carondelet remained fast for nearly an hour. The Arkansas immediately passed down the river, the Tyler preceding her, and maintaining a running fight with her greatly superior adversary. None of our gunboats with the fleet had steam up, and the entire fleet was so scattered that few could fire at the Arkansas, as she passed, without danger of hitting our own boats. Such boats as could safely do so, opened upon her, but her plating resisted most of the shots. The injury to our fleet was light. Our entire loss was 12 killed and wounded; 5 or 6 of the latter will probably die.

The Tribune's Washington dispatch says a letter from Gen. Johnston to Gen. Stewart was found on Capt. Mosely, who was captured by the recent expedition to Beaver Dam. It revealed that Gen. Stewart was at Atlee's station, nine miles from Richmond, and that Gen. Stonewall Jackson was between Charlottesville and Staunton. There were 16,000 rebels at Louisa Court House, and a considerable force at Bowling Green.

It is ascertained that Gen. Ewell with three brigades now occupies Gordonsville; for not taking which position, Gen. Hatch was severely censured.

Hamilton, N. C., has been taken by our fleet.

Porter's gang of guerillas were badly whipped by our troops, near Memphis.—The rebels left 23 dead on the field.

The official report of the late naval fight at Vicksburg, says the rebel gunboat Arkansas was armed with 12-rifled 68-pounders. Our total loss 27 was killed and wounded; Farragut's entire fleet is below Vicksburg.

DRAFTING.—A Canadian paper says:

"The call for 300,000 more men across the line will be the means of driving hundreds from that country into Canada. We are informed that quite a number have already made their appearance in this and the adjoining counties. They have ignominiously left their country in her peril, to escape conscription — three times three groans for the sneaking cowards."

The editor of the Portland Advertiser is writing letters from Canada for his paper,—and he says, speaking of these refugees:

"I learn that they offer to work for their board among the farmers till the drafting is over, when, I suppose, they will steal back into Maine, to vote against any and all resolute measures to suppress the rebellion. Such citizens deserve perpetual exile beyond the regions of Canada. The favorite shelter for fugitive slaves most heartily despises these runaway cowards, and ought not to be expected to shelter them."

GOOD COUNSEL.—We must, says the N. Y. Post, no longer befool ourselves with stories of the sufferings of the rebels. They will not starve; they may lack luxuries, but they will always have sufficient corn-meal, and with bread and iron, it has been said, an army may march anywhere, and may carry everything else. What they lack in material of war they have hitherto made up in energy, nor will they abate in this particular. They will not give up—the leaders will not suffer that. They must be beaten into the law and constitution—this is what they loudly tell us, and we may safely believe them.

☞ A Hartford broker started for New York with $6000 worth of silver change, which he had bought up for a less premium than he expected to get. Before he reached the metropolis, about $500 was stolen from him.

THE KNICKERBOCKER, for August, is published. Under the new publisher, Morris Phillips, it has again become a purely literary magazine, and is, we think, much improved by the change.

☞ It has been decided by judicial authority in Vermont, that a man who has signed the enlistment roll of a regiment, although not sworn in, is bound to service the same as if he had taken the oath.

☞ The U. S. steam sloop-of-war Hartford and gunboat Montgomery have arrived at New York. The Hartford was with the fleet before Vicksburg, ten or twelve days ago.

EDITORIAL JOTTINGS.

AT HOME, July 21.

The ride to Exeter is one of the most inviting we know of. We think we never travelled over fifteen continuous miles, inland, where the road was so uniformly good, and the scenery so agreeable.—Through Greenland's fine farms, and among Stratham's hills, with Great Bay and its tributary streams often in sight; and getting an occasional glimpse of blue Mount Agamenticus, if you turn your head; with New Market and Exeter coming in view—always variety, and ever beauty. Almost the only change along the road, excepting the pleasing alternations of the seasons, is the cutting down of the dense pine woods on one side of the forest path just this side of Stratham Hill; and is its place, among innumerable blackened stumps of trees, there was stacked, as we passed on Saturday, a luxuriant crop of golden grain—presenting a very singular spectacle for New England.

Nature rarely presents so lovely a face at this season of the year, as now; and the promise is, of a rich general harvest. So that our Rockingham farmers can get up a fine Fair if they choose, next Fall—to assist in arranging for which, was our errand to Exeter on this occasion.

Exeter, like Concord, has been greatly improved within a few years, by rebuilding after fires; and is a good specimen of a quiet New England town. Her Town Hall building puts Portsmouth to the blush; and the house-lots generally are better arranged than ours, too—there being liberal yards and gardens allowed to nearly all, with low open fences and hedges,—presenting a very cool, roomy and inviting appearance. If laid out in the same way as Exeter, Concord, Lynn, or almost any well-contrived town, the present buildings and population of Portsmouth would extend continuously, almost to Greenland, Rye and Newington, instead of being huddled into about a single mile square, as at present. And even now, when almost any man builds a house here, instead of seeking a roomy lot "out of the compact part of the city," where he can see, and breathe and move, he must needs crowd in between other buildings which had not elbow room before. A mistaken idea, we think, that all our dwellings, and school-houses, churches, and what not, must be huddled together thus—and we hope another generation will learn better.

Portsmouth with all her repute for beauty—which consists mainly in her numerous fine trees—has nothing of site to boast of, except her lovely water surroundings; and although her streets are good and her sidewalks excellent, and her buildings mostly substantial and well kept; yet the general style of architecture is neither modern, varied, nor especially attractive,—though there are some rare and elegant structures; and most of the fine gardens are so concealed by high close fences (the like of which we never saw elsewhere,) as to be beyond the observation and admiration of the passer. Why need these things be?

Our course home from Exeter lay through North Hampton and Rye, along which road the farms appeared even finer, and the crops heavier, than by the other route.—And in North Hampton, just beyond "Marm Hobbs's," somebody is putting up a large house and a long string of outbuildings, all very tasteful and expensive, and which will make one of the most showy residences in this region.

Riding thirty miles, per post road, is no very inviting day's work for those who have tried it often enough. A drive of five miles, out and back, is far enough for pleasure, for most. And so we were glad to get home—though the trip was full of beauties. And neither on our way, nor in the aspect of affairs in our own city do we see any cause for despondent feelings, except in the evil conduct of bad men. Nature smiles her loveliest, and prosperity reigns in our borders. Let us not borrow trouble, but make the most of our present blessings.

A Sunday spent in Kennebunk, has only the more firmly convinced us of the correctness of our opinions respecting houses, gardens, fences, &c., as above expressed.—Kennebunk is a beautiful little village, agreeably diversified with hill and valley,—affording fine sites for building; and the houses are, many of them, very elegant and costly, with ample grounds finely laid out, and not a high, state-prison fence in the place. The greatest inconvenience for a live man is, that the railroad is two or three miles from the town. The rain of Sunday prevented our looking about much; but as you pass through the town evidences of wealth, comfort and ease, are plentiful. Somebody well says that "we are all as indolent as we can afford to be;" and people here seem able to live quite at their ease.—Somebody else says, equally well, that "the best use of a farm is to lie down upon"—and we have here found the prescription to agree with our constitution.

BOSTON, July 22.

Dear Chronicle:—Nothing very new that I see, here in Boston—save wars and rumors of wars; and even that is getting to be an old story now. Boston is not "finished" yet, by a great sight; and even Washington street is blockaded in numerous places, as usual. We have often wondered why great cities did not make regulations forbidding the everlasting needless and useless changes of buildings on their principal thoroughfares—or at least, if not that, limit the clutter to the premises to be rebuilt and the rear access to the same, if any; and if none, why all the worse for the owners; that's all; but the public need not and should not be thus perpetually inconvenienced by being forced to climb round and tumble over piles of lumber and stone.

The running races here are to be well attended, and there will be rare sport—so the initiated say. I shall try and "be there to see" this afternoon; and also to get back here to attend the daily mass war meeting on the Common this evening—and will perhaps tell you something of both.

The Sons of old Portsmouth here, are expecting to hear good report from old Jefferson Hall to-morrow evening and thereafter. Roll on the three hundred thousand!

Yours, IND.

NEW HAMPSHIRE ITEMS.

—— Nashua has voted to give $100 to every citizen enlisting before the 15th of August. Dover offers $75 bounty.

—— The Manchester American hints that "that jasper cave" at the White Mountains is a somewhat contracted apartment of as "pure jasper" as the most fertile imagination could create when surrounded by walls of well-smoked flint rock.

—— Dartmouth College Commencement takes place this week. Tuesday was class day. On Wednesday, the orations before the different societies. On Thursday, the regular graduating exercises.

—— Capt. E. L. Bailey of Co. I, Second N. H. regiment, from Manchester, has been acting Colonel of the regiment during several days' absence of Col. Marston at Washington.

HARRISON'S LANDING, VA., July 10.—The shameful desertion of officers and men from the ranks of their regiments, which has been going on since the battle of Williamsburg, and which has more than decimated the ranks of the army within the last fortnight, should receive notice at the hands of the press. In the recent battles and movements, hordes of stragglers rushed to the hospital boats and escaped from the army, while thousands who could not get on the boats were only compelled to return to the ranks of their regiments by provost guards and by hunger. The writer of this cannot give his name, but the press can ascertain how far what is here said is true, by looking around and seeing the numbers of returned officers and soldiers in every city and village of the North. If every officer and soldier fit for duty would emerge from his hiding place and come to his regiment, the army would be much strengthened, and the cause for which we struggle materially served.

☞ Cunard steamship Asia, off Cape Race, brings two days later foreign news.—The English Press regard Gen. McClellan's position as very precarious, and the Confederate capital safe. Our new tariff excites the most hostile comments. The prizes were awarded at the Great Exhibition on the 10th; America gets twenty medals for Agricultural and Horticultural machines, six for military articles, and five each for Colt's revolvers and naval architecture.—The date of the departure of the French fleet is still doubtful.

ROBBERY IN THE CARS.—On Thursday evening, Miss Margaret O'Donnell of Brighton, in the cars from Hamilton for Boston, when passing through the tunnel at Salem, was robbed of a gold watch in her belt and waist. She seized the supposed robber and held him till the cars came to the light, but the watch was not found on him. When the cars reached Boston, three suspected persons, well known to the police were arrested, and the watch was subsequently recovered.

HIGH PRICE OF COTTON.—The cotton market is going up to fabulous prices.—Sales of middling upland were made at New York, on Thursday of last week, at 47 1-2 to 48 cents a pound; and a small lot of middling fair sold at 52 1-2 cts. a pound, which is believed to be the highest figure paid for cotton during the history of the country.

☞ Edward Smith, Esq., a leading citizen of Salem, well known as the efficient Superintendent and Treasurer of the Naumkeag Mills since the formation of the company, died in that city recently, after a prolonged illness. Mr. Smith went to Salem from Newmarket, N. H., where he held the position of manager of the Exeter Mill. He was 65 years of age, and leaves a family.

☞ There was a boiler explosion in Philadelphia on Monday morning. The boiler was located in a cellar. It passed upward through three stories and the roof. Crossing the street, it went through the Market House, into the Melodeon Building, down into the cellar. Nobody was hurt, but many had narrow escapes.

☞ The American Tract Society have undertaken a new branch of publishing.—The managers have caused crackers to be baked, on each of which is stamped a text of Scripture.

NOW OR NEVER!

We can take a note occasionally from the poet's lyre—and few have been so stirring and beautiful as the following from Oliver Wendell Holmes. It appeals to every heart in this hour of our country's need, and should be read everywhere:

Listen, young heroes! your country is calling!
Time strikes the hour for the brave and the true!
Now, while the foremost are fighting and falling,
Fill up the ranks that have opened for you!

You whom the fathers made free and defended,
Stain not the scroll that emblazons their fame!
Ye whom the heritage spotless descended,
Leave not your children a birthright of shame!

Stay not for questions while Freedom stands gasping!
Wait not till Honor lies wrapped in his pall!
Brief the lips' meeting be, swift the hands' clasping,—
"Off for the wars" is enough for them all!

Break from the arms that would fondly caress you!
Hark! 'tis the bugle-blast! sabres are drawn!
Mothers shall pray for you, fathers shall bless you,
Maidens shall weep for you when you are gone!

Never or now! cries the blood of a nation
Poured on the turf where the red rose should bloom;
Now is the day and the hour of salvation;
Never or now! peals the trumpet of doom!

Never or now! roars the hoarse-throated cannon
Through the black canopy blot ing the skies;
Never or now! flaps the shell-blasted pennon
O'er the deep zone where the Cumberland lies!

From the foul dens where our brothers are dying,
Aliens and foes in the land of their birth,
From the rank swamps where our martyrs are lying,
Pleading in vain for a handful of earth;

From the hot plains where they perish outnumbered,
Furrowed and ridged with the battle-field's plough,
Comes the loud summons; too long you have slumbered,
Hear the last angel trump—Never or Now!

GRAND WAR MEETING.

There will be a GRAND RALLY of the citizens of Portsmouth and the vicinity,

AT JEFFERSON HALL,

On WEDNESDAY EVENING, July 23,

at 7½ o'clock,

To promote an early response from this city to the recent call for Volunteers. The exigencies of the times admit no delay.

Let Portsmouth furnish her quota at once; and let all her sons lend their aid and encouragement to this work, by their presence at this meeting.

Rally then! and listen to words of counsel from the prominent speakers who will address the meeting; and see to it that Portsmouth does not forget her duty in this crisis.

You can do no less for your country than this: you can do much more.

On SATURDAY, the 26th day of July,

at 12 o'clock, noon,

unless previously disposed of at private sale,

THE valuable lot of LAND and BUILDINGS formerly owned by Mr. Rand, upon Wendell street in Portsmouth; bounded on the North by the ship-yard of the late George Raynes about 144 feet; on the East by Sherburne's wharf about 71 feet; on the South by Wendell street about 138 feet; and on the West by land of Mrs. Margaret Rand about 71 ft.

The land is now divided into three lots, one of which is a two story dwelling HOUSE, containing two tenements, and upon another a one-story dwelling HOUSE. The land will be sold together or in lots to suit purchasers,—with all the rights which Mr. Rand had at his decease in Sherburne's wharf, so called.

Sale on the premises. For particulars, enquire of Mr. HALL B. RAND, or of

ALBERT H. HATCH, Executor.

NEW HAMPSHIRE

MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE

Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the REST. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER,

Corresponding Secretary,

Portsmouth, N. H.

For further information apply to the same.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Flesh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Chilblain, Scald Head, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Sties. Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save hours of pain, suffering and misery; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefit received from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 26 Tremont st., Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 38 cents—or three Boxes for one dollar.

For sale in Portsmouth by WM. E. PHENSON and J. H. THACHER; and by respectable Druggists and country stores everywhere. jy10 1m

THE MEETING TO-NIGHT.

We trust that every citizen of Portsmouth will feel it his duty to attend the meeting at Jefferson Hall, this evening. It should be a large and enthusiastic meeting of men who realize the object of its call and who are eager to promote that object which patriots now have most in view.

However confident we may be of the ultimate result of the present repetition of the old contest between truth and error, between wrong and right, it cannot be denied that the present is a gloomy time. Prompt action and liberal outlay are imperatively demanded, and with them we are safe.—Without them, we may lose that which yet remains. Will our citizens, a small portion of the twenty millions of freemen, see to it that there is no apparent reluctance on their part to do their duty in the present crisis? Let them all assemble, and let the word go forth from Portsmouth, as it is now going forth in thunder tones from so many other cities and towns in the North, that the Federal Union must and shall be preserved.—Men are wanted; let them be ready. Money is needed, let it be forthcoming. Hard work is necessary; let it be eagerly done.

Men do not care to go forth to meet dangers and privations, to leave home and friends for the camp, unless they can feel that they are aiding in the accomplishment of a work in which the sympathies of all the people are interested. A few words, spoken lightly, may deter one who was already half persuaded to volunteer. It is very easy to say—"I wouldn't go if I were you—there are others who can go better than you."—Such words, we fear, have been spoken too frequently. It is time they were heard no more. The men are needed. There are now enough in the North, if they will only rise in their might, to put down this wicked rebellion, and to "conquer a peace" as suddenly, as unexpectedly to Europe, as was the sound of the first cannon in April, 1861.

The men will go, if every citizen will feel that the time has arrived when he should do what he can, and all can do something, to advance the object of recruiting.

There are thousands who need only the resolution, and in forming this all his friends and acquaintances can exert an influence. We firmly believe our young men need only encouragement to fill up the ranks, willingly and eagerly. They know that the cry is—To arms! They know that the common mother of us all implores us with the tenderness and authority of a parent in peril, to rise for her defence. They know that never has there been such a call for *men*—bone and muscle, directed by intelligence, energized with will, inspired with a holy enthusiasm. And they will be found willing to go. But some have families dependent upon them for support. Shall they not have the assurance that their families shall be freely, liberally cared for? Some have need of money to pay small yet honest debts. Shall it not be guaranteed to them? And some are restrained by friends. Hundreds of young men—how many in our city?—are urged by their friends to think "no more of these horrid tales of bloody war." Shall not these fetters be stricken off? Shall not the word be—Go, for your country calls?

Let all then, meet together to-night, to see that something is done to send forward good men. The enlistment of men who are of the "better class," of those who have heretofore been kept back by friends, will be worth very much to the cause. Good men are needed in the ranks to give tone and character to them—to secure a moral power. No education, no refinement, no moral excellence need be wasted there.—Let the ranks be filled up now. Four in the legions and make short work of this accursed rebellion. New Hampshire troops have proved themselves worthy sons of the old Granite State. She has yet more that she is ready to offer up on the altar of the Union. Her agriculture, her manufactures, keep them busy at this season, but the country calls. It is not their way to hold back, whatever the sacrifice patriotism may demand. They will rally round the flag.

☞ We understand that quite a number of gentlemen have promised to speak at the meeting at Jefferson Hall this evening. It is intended to make it a city affair chiefly, in which the voice of Portsmouth shall be heard. The speeches will, probably, be brief and to the point,—and we trust there will be a full attendance.

☞ In the list of the sick on board the sanitary steamer Commodore, taken from Harrison's Landing, July 15 and 16, we notice the name of George H. Alton, of this city, a member of Co. K, 2d N. H. Regiment. Disease, debility.

☞ The two Baptist Societies of Manchester have completed arrangements for an excursion to this city, on Wednesday of next week.

☞ The U. S. steamer Conemaugh sailed from the lower harbor on Tuesday morning, for the South.

ST. JOHN'S CHURCH.—This church was built here in 1732, and was then called Queen's Chapel; after the Revolution it was incorporated by the name of St. John's Church, and for a period of a century and a quarter, or 125 years, only four pastors were settled over them, two of them remaining 86 years.

Rev. Arthur Brown, Pastor from	1732 to 1773.
Rev. H. Ogden from	1786 to 1794.
Rev. Joseph Willard from	1794 to 1806.
Rev. Chas Burroughs from	1812 to 1857.

Rev. Arthur Brown died in 1773, and was buried under the old Church, which was destroyed by fire in 1806. In building the present Church, his coffin was found in a good state of preservation and recognized by some that were present at his funeral 33 years previous. It was reburied under the present Church. Rev. Dr. Burroughs (now living) after a long and successful ministry of 45 years tendered his resignation, and after many and repeated wishes and votes of his parish that he should remain with them during his life, refused to recall his resignation. Since his resignation, the Rev. W. A. Hitchcock was chosen Rector, and resigned in November, 1861, when the Rev. Thomas F. Davies, Jr., was chosen Rector, and it is ardently hoped and wished by his parishioners, he may continue (should life last,) the long and useful ministry of his predecessor of 45 years.

☞ Rev. James Hobart, of Berlin, Vt., a veteran old school clergyman, who has been preaching for seventy years past, died July 16th, aged 95 years, 11 months and 14 days. Father Hobart was well known in this region, having labored in the ministry at Newcastle, Newmarket, Nottingham, &c.

☞ At a special meeting of the Board of Aldermen on Tuesday evening, the following gentlemen were elected to make an enrollment of those liable to do military duty, viz.—Frank W. Hackett, Ward 1; Oren Bragdon, Ward 2; and Geo. T. Vaughan, Ward 3. They will enter upon the discharge of their duty forthwith.

☞ The U. S. gunboat Sonoma from Portsmouth Navy Yard, arrived at Fortress Monroe on the 19th, after a passage of fifty-five hours.

☞ MATHEWS' ARNICA HAIR GLOSS STIMULATES and STRENGTHENS the hair.

☞ Mr. John Philbrick, for many years a bookseller in Boston, was drowned while on his passage from St. Thomas to Boston, via Machias, Me., in the brig Manna, of Machias. On the evening of the 1st July he, with the other passengers, was sitting on the quarter deck, smoking, leaning against the rail, which gave way beneath his weight and threw him into the water. He sank immediately, though an excellent swimmer, and boats put out could find no trace of him. His home was in Chelsea. He leaves a wife, but no children.

in this city and vicinity; and is prepared to furnish and set the same, at the regular prices for other Shoes, (except for steel shoes, which are 25 cts. extra), and warrant them so give full satisfaction in all cases. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c.: and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and put them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending the close of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forbodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, on all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which enables patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

FRANKLIN HOUSE,

Portsmouth, N. H.

The undersigned having assumed the management of this well known public house, and having made extensive improvements therein, solicits a continuance of the patronage of the travelling public that has so long been extended to the house.

A new parlor and an extensive suite of commodious and well-ventilated sleeping apartments have been added; and a separate Ladies' Entrance from Congress Street arranged. Gentlemen with their families, or ladies unattended, will now find quiet and retired apartments connected with the street and dining hall by an independent staircase.

The house will be kept as a first class hotel in every respect, and the proprietors will spare no pains to merit the patronage of those visiting this section of the State.

A good STABLE is connected with the house, where persons visiting Portsmouth with teams, will be promptly and carefully waited upon.

MATHEWS' VENETIAN LIQUID HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been USED BY THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye now used.

SOLD BY ALL DRUGGISTS.

WARNING AND DRAFTING.—In Maine the militia law calls out the citizens of each ward or town, liable to train, for the purpose of choosing officers. The Portland Courier tells the following story of a man who thought he was drafted—but was not:

"Many humorous scenes resulted from the leaving of notices throughout the city previous to the recent military elections.—The difference between warning a man to attend the ward election and drafting him for service, was nor quite clear to all our naturalized citizens. The members of one family were particularly elated because the "drafting officer" had been the rounds and the lintels of their door posts had not been contaminated by his presence. Patrick with difficulty found language to express his delight to his fellow workmen at the anvil for his freedom from military responsibility. But their joy was doomed to be evanescent. When least expected—like a clap of thunder from a cloudless sky—came the dreaded warning, and Patrick, who left the shop in glowing humor, with his heart as light as thistle down, reached his home where, instead of a steaming dinner and bouncing "childers" to greet him, he beheld his darling Kathleen and the numerous scions of his house, 'spread out' on the floor and uttering heart-breaking wails of sorrow over the paper that lay in their midst and which summoned Patrick to the battlefield. He rushed to his employer—who by this time knew where the laugh came in—and in a phrenzied air exclaimed—"Mistur ——! Mistur ——! Arrah now give me five dollars, I'm off for Canada!" "Off for Canada!—what's the row?" "Ah, ye see that divil of a malishus ossifer has been there and I'm drafted for the war! Arrah musha bad luck wid him! I'll not lave Kitty and the childers to fight the bloody secesthers!—Give me the five, quick, or I'll miss the cars." But Patrick missed the five dollars, missed the cars, but did not miss the laugh the next morning when the whole joke was ventilated at his expense. But he became reconciled when assured that he was not drafted."

ALABAMA.—The Montgomery Advertiser says that "from the most accurate estimate that can be made from the returns of the probate judges and sheriffs of the counties, Alabama has sent to the war from first to last, about sixty-five thousand men, out of a voting population of some eighty-five thousand. Of these the State has armed ninqteen thousand and equipped eight thousand. Alabama has also turned over to the Confederacy twenty-one thousand stand of arms, captured by her own troops from Mount Vernon arsenal." Alabama has about 350,000 slaves and 450,000 whites; with very few free blacks.

A "WORD" FROM THE FAMOUS

"LANE,"

WHOSE BARGAINS IN GOOD, DURABLE, AND FASHIONABLE

READY-MADE CLOTHING

ASTONISH THE WORLD!

Why is it that Lane is so popular?

WHY IS IT THAT THE GREAT MASS OF THE PEOPLE BUY THEIR GOODS AT

"LANE'S?"

These are questions, the answers to which you will do well to remember.

1st. We do a strictly "CASH BUSINESS," buying and selling for "nett cash," thereby saving much from bad debts, and having great advantage in buying goods.

2d. We employ none but first-class artists in the cut and manufacture of our goods, thereby giving to the purchaser an elegant and tasty fit, combined with great durability.

3d. We always keep a very large stock, and you are sure to find garments suited to your taste and pocket.

4th. Our corps of salesmen are all gentlemen and you have no fear of being abused if you do not purchase; but on the contrary, take great pleasure in showing strangers over our immense establishment.

5th. We invite strangers who are making purchases in the city, to make our store their headquarters, and send any bundle or package there for safe keeping.

THURSDAY, JULY 24, 1862.

ANDREW JACKSON'S WAR POLICY.—When Andrew Jackson was charged with the defence of our Southern Coast, he issued a proclamation dated Mobile, Sept. 21, 1814, "To the free colored inhabitants of Louisiana:"—in which he says:—

"Through a *mistaken* policy, you have heretofore been *deprived* of a participation in the glorious struggle for national rights, in which *our* country is engaged. This no longer shall exist.

As sons of freedom, you are now called upon to defend our most inestimable blessings. *As Americans*, your country leans with confidence to her adopted children for a valorous support.

To every noble hearted free man of color, volunteering to serve during the present contest with Great Britain, and no longer, there will be paid the same bounty, in money and lands, now received by the white soldiers of the United States, namely, one hundred and twenty-four dollars in money, and one hundred and sixty acres of land—The non-commissioned officers and privates will also receive the same monthly pay, daily rations and clothes, furnished to any American soldier.

On enrolling yourselves in companies, the Major General commanding will select officers for your government, from your white *fellow citizens*. Your non-commissioned officers will be appointed from among yourselves.

Due regard will be paid to the feelings of freemen and soldiers. You will not, by being associated with white men, in the same corps, be exposed to improper comparisons, or unjust sarcasm. As a distinct independent battalion or regiment, pursuing the path of glory, you will, undivided, receive the applause and gratitude of your countrymen."

A large number enlisted, and were good soldiers. After some fighting with good success, on the 18th of December, 1814, Gen. Jackson issued, in the French language, the following address to the colored members of his army:—

"Soldiers!—When, on the banks of the Mobile, I called you to take up arms, inviting you to partake of the perils and glory of your *white fellow citizens, I expected much from you*; for I was not ignorant that you possessed qualities most formidable to an invading enemy. I knew with what fortitude you could endure hunger and thirst, and all the fatigues of a campaign. *I knew well how you loved your native country*, and that you, as well as ourselves, had to defend what *man* holds most dear—his parents, wife, children and property. *You have done more than I expected.* In addition to the previous qualities I before knew you to possess, I found among you a noble enthusiasm, which leads to the performance of great things."

One of the best accounts of the battles before New Orleans says:—

"No regiments did better service at New Orleans, than did the black regiments, which were organized under the direction of General Jackson himself, after a most glorious appeal to the patriotism and honor of the people of color of that region; and which, after they came out of the war, received the thanks of Gen. Jackson, in a proclamation, which has been thought worthy of being inscribed on the pages of history."

TO DECIMATE, means, to take the tenth. And it means no more nor less than this.—But during the present war we have seen an account of a fight in which a quarter of the force on one side was lost, and the writer said the command was "*greatly* decimated." An account of another action says that the force was "*dreadfully* decimated." If such writers will condescend to look into a dictionary, they may see that one definition of decimate is given in these words:—viz., "to select by lot, and punish with death every *tenth* man: a practice in armies for punishing mutinous or unfaithful troops."

THE OLD FLAG IN THIRTY-FOUR STATES.—On the 4th the Stars and Stripes waved in *every* State of the Union. Heretofore, since she rebelled, the "sacred soil" of Texas has not been visited by the emblem of freedom, but on the 4th a party of men from the steamer Rhode Island landed at Galveston and raised the old flag. They were subsequently driven off, but they had accomplished their purpose and were satisfied.

☞ A girl, six years old, has just died in France, after great suffering, from having inhaled, in smelling some flowers, the eggs of a caterpiller, which passed through her nostrils into the interior of her head, and then hatched out by the warmth of the human system. The child suffered great agonies, and discharged caterpillers from her nostrils shortly before she died.

A LIFE SENTENCE.—In the Superior Court, criminal session, at Boston on Tuesday, Timothy Cronan, for feloniously assaulting and ravishing a young woman at East Boston, on the 9th inst., was convicted and sentenced to imprisonment at hard labor in the State Prison during his natural life.

☞ The Yarmouth Register says the maggot has destroyed the onion fields of that county. Last year $8000 worth of onions were sold from Falmouth alone, and this year probably not a hundred bushels will be saved, though a larger surface was planted.

THE GREAT WAR MEETING.

The meeting at Jefferson Hall last evening, for consultation in regard to the war and the best means to promote enlistments, was attended by a large number of our citizens, the hall, notwithstanding the rain, being densely crowded.

The meeting was called to order by Mr. Albert L. Jones, who read the report of the committee on Organization, appointed at a preliminary meeting of citizens held at the City Rooms on Tuesday evening. This committee consisted of Messrs. A. H. Hoyt, A. L. Jones, John Chase, Geo. W. Towle, and Joseph P. Morse. The report recommended the following list of officers for the meeting, which was unanimously adopted:

President—Hon. Wm. Simes.

Vice Presidents—Hon. Ichabod Goodwin, Rev. Dr. Burroughs, Wm. P. Jones, Albert R. Hatch, Edward F. Sise, Josiah G. Hadley, J. M. Tredick, L. D. Spalding, C. W. Brewster, G. W. Towle, Andrew J. Beck, Stephen H. Simes, Elias Ayers, Peter Jenness, Horton D. Walker, Alfred W. Haven, Augustus W. Simpson, Isaiah Hanscom, Joseph P. Morse, George Thompson, Horace Webster.

Secretaries—Wm. H. Rollins, Joseph H. Thacher.

Rev. Mr. Waterhouse then, in a fervent prayer, invoked the Divine blessing on the meeting and its object.

Owing to the lateness of the hour at which the meeting adjourned, it is impossible for us to give this morning full reports of the many patriotic and eloquent speeches which were made. Those who listened to them could never find in a newspaper report, that patriotic fervor and impassioned zeal which animated the speakers, one and all, and so many of our citizens were present the omission on our part will hardly be regretted.

Mayor Simes, after a few patriotic and earnest words of encouragement and of counsel, introduced Hon. Ichabod Goodwin, who was received in the most flattering manner by the audience,—spontaneous applause being followed by enthusiastic cheers, which were repeated many times during his earnest and patriotic address. He was followed by Rev. Dr. Burroughs, who also was most warmly and enthusiastically received. In the course of his eloquent and fervent remarks, Dr. Burroughs stated that two youthful members of one of the oldest families of Portsmouth, at the beginning of the rebellion were in Georgia. One of them escaped, the other, 18 years of age, was seized and ordered to enter the rebel ranks, and on refusing, was shot. "Here," said the eloquent speaker, "is the record that demands our retribution of the act."

The committee to prepare an address consisted of Messrs. W. H. Y. Hackett, Peter Jenness, Wm. P. Jones, Alfred W. Haven, Josiah G. Hadley, Albert R. Hatch and Wm. H. Rollins. Mr. Hackett, in behalf of the Committee, submitted and read the following address to the citizens, having first read a letter from a nephew of Gen. J. G. Hadley, dated Camp New Harrison Bar, insisting upon the necessity of promptly reinforcing the Army of the Potomac, and paying a high compliment to its young commander, which was received with applause. The Address is as follows:

To the People of Portsmouth:

The perils of the country demand the attention and efforts of the people.

The Constitution, which has made ours a great and prosperous nation, is in danger. The enemies of equal laws and popular rights have combined to overthrow a nation which is a galling reproach to tyranny, a growing encouragement to liberty.

In such an hour, at such a crisis, every one will feel it a privilege to aid his country. United, systematic, and well-directed efforts will ensure success. To aid in the accomplishment of this object, Portsmouth must furnish its quota of soldiers to meet the recent call from the President of the United States.

This can be readily accomplished, notwithstanding our large contribution recently made to the Navy of the United States, if every one will give his or her aid to the work. Let each one consider the best way aid can be offered, and promptly act upon the decision.

All cannot go into the field,—all are not needed. Those who remain at home may work as effectually, if not in as conspicuous and brilliant position, to sustain the war and serve the country, as those who meet the enemy. But those who go should be encouraged by the influence and sympathy and aid of those who remain at home. They are to be liberally rewarded, and to feel sure that their families will be cared for and provided for in their absence. To do all this is the duty—the privilege of those who remain at home.

Now instead of having enlistments dependant upon the spontaneous impulses of patriotism, the suggestions of gain, or the persuasions of recruiting officers, let our whole population manifest the interest and sympathy which they really feel in this subject. Let each and every one where they have influence encourage enlistment and aid in making provision for the families of those who enlist.

Who is not willing to work harder and practice self-denial to give encouragement and comfort to the soldier and his family? Who remembers the sacrifice our liberties cost and is not willing to do much to preserve them? Let each one perform the first duty he meets. Do something for your country, and you will love it the better for what it may cost you. Let our true feelings be known, and take the form of action and effort, and the work will soon be accomplished.

Mr. Hatch then, in behalf of the committee, submitted the following resolutions:

Resolved, That the people of Portsmouth declare most earnestly our devotion to the Union and the Constitution; and that in the prosecution of the present unhappy war we have no object but the restoration of the Union under the Constitution, as it was made and understood by the Fathers of the Republic.

Resolved, That while we can never consent to a dissolution of the Union, which at its formation was designed to be perpetual, nor to the partition of a territory which nature has intended to constitute one broad empire, we fully recognize the duties of conciliation as the means not only of securing the ultimate termination of the present struggle, but of perpetuating those free and republican institutions, without which a union of this great country could not exist, or would not be worth preserving.

Resolved, That honor, patriotism and the duty of self-preservation compel us to engage our lives and fortunes in this contest, and inspire us with determination never to sheath the sword so long as any armed force remains opposed to the execution of the laws, and the rightful government of the country.

Resolved, That a Committee of ten, to be nominated by the chair, be now appointed to confer with the City Government upon the amount of bounty to be offered to induce enlistments and to adopt such other measures to obtain enlistments and to fill up the quota which Portsmouth ought to furnish, as they may deem proper, with authority to fill any vacancy which may occur in their Board.

Resolved, That we recommend to the City Government that the bounty allowed be given to all who have enlisted or may hereafter enlist, under the present requisition by the President of the United States.

The address and the resolutions were adopted unanimously.

Rev. Mr. Patterson was then introduced and made one of the most eloquent, inspiring and thrilling speeches we ever heard. Yet not content with such words even, he offered a check for $20, which he held in his hand, to the first volunteer.

He was followed by Hon. E. H. Rollins, Capt. Barker, of the 2d Regiment, Rev. Messrs. Waterhouse and Eddy, and G. J. Prescott, Esq. We regret that our space will not permit our giving even a brief outline of their remarks.

The President then announced the following committee, provided for in the above resolutions—Messrs. I. Goodwin, Peter Jenness, A. W. Haven, A. R. Hatch, A. L. Jones, Elias Ayers, H. D. Walker, A. W. Simpson, J. H. Bailey, A. H. Hoyt.

Mr. Patterson announced that he was authorized by a responsible gentleman in the hall to offer $60 to the first volunteer.—The Chairman stated that a laboring man present had expressed a willingness to give at any time a week's work to the cause.

The following gentlemen were appointed a Rallying Committee to bring in recruits:

C. C. Jackson, A. R. H. Fernald, John Hodgdon 2d, Thos. L. Tullock, Henry H. Ham, Andrew J. Beck, Wm. P. Walker, Thomas Watkins, Wm. H. Hackett, Joseph B. Flagg, Elias Ayers, Samuel W. Moses, Wm. E. Hadley, Wm. H. Laws, Charles W. Marden, Wm. Sawyer, James Junkins, Thornton B. Hoyt, Gustavus V. Rowe, Wm. H. Sise, M. Cunningham, John Donovan, Henry S. Hartshorn, Barzillai Harding, Arad Tibbetts, F. W. Ham, Washington Freeman.

A vote of thanks to the committee, the officers of the meeting and the band, was unanimously passed, and the meeting adjourned to this, Thursday, evening at half past seven o'clock.

The Portsmouth Cornet Band kindly volunteered their services, and by their skillful music, added greatly to the interest of the meeting.

NEW HAMPSHIRE ITEMS.

—— This week's local column of the Wolfborough News, take it all in all, gives rather a strange picture. It says it is reported that several anxious papas in that town have within a few days stampeded their boys out of the country for the purpose of keeping them out of the way of a draft; and adds:—

"The fathers of these boys have ever manifested a perfect willingness and indeed an over-weening desire to serve the country; "provided nevertheless" it is in some capacity where the largest possible price is obtained for the smallest possible equivalent rendered. None among us have been more loud-mouthed in their professions of interest for the dear country and its dear people than they."

It also says that in one family in Ossipee, after a grave consultation, it was determined to so maim the prospective soldier as to disqualify him from liability to a draft; accordingly a favorable opportunity was seized upon, the doctor being about to pass. The axe and the chopping block soon did the job, and the bleeding patriot presented himself to the man of medicine minus a thumb. And it also has a report that there is an organized band of rebels, numbering some 60 men, in the town of Jackson, pledged to resist any and all demands made upon them by the Government on account of the war. It, however, expresses a doubt as to the truth of this story.

—— Col. Marston of the N. H. Second was in all the late battles before Richmond. He then returned to Washington to look after matters at the close of Congress.

—— Dartmouth College Commencement takes place next week.

THE REBELLION.

Generals Halleck and Burnside are in Washington.

It is reported that our cavalry has overtaken Morgan's band and that after an hour and a half's fighting Morgan's forces were completely scattered, and the cannon and horses captured by Morgan at Cynthiapa retaken, as was also a large portion of the stolen property. The rebels lost 25 men. The Federal loss is 20 killed.

The rebels are said to be concentrating in some force between City Point and Richmond, on the south bank of James river, for the purpose of covering the flanks of the forts on the river. Beauregard is said to be in command and to have in the neighborhood of 30,000 men under him.

It appears from a general order, dated Tupello, Miss., June 27th, that Gen. Bragg has assumed permanent command of the rebel army of Department No. 2.

Six hundred loyal residents of Arkansas followed Gen. Curtis on his way through the State to Helena, and demanded that arms be given them to form the 1st regiment of Arkansas volunteers. This will be done at once.

President Lincoln, by an order dated July 11th, has appointed Maj. Gen. Halleck General-in-Chief of the whole land force of the United States.

The President has appointed Gen. Marcy Chief of Gen. McClellan's staff.

AN EXECUTIVE ORDER.

WAR DEPARTMENT, July 22.

Special Order.

First.—Ordered, that Military Commanders within the States of Virginia, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas and Arkansas, in an orderly manner, seize and use any property, real or personal, which may be necessary or convenient for their several commands, as supplies or for other military purposes, and that while property may be destroyed for proper military objects, none shall be destroyed in wantonness or malice.

Second.—That Military and Naval Commanders shall employ as laborers within and from said States so many persons of African descent as can be advantageously used for military or naval purposes, giving them reasonable wages for their labor.

Third.—That as to both property, and persons of African descent, accounts shall be kept sufficiently accurate and in detail to show the quantities and amounts, and from whom both the property and such persons shall have come, as a basis upon which compensation can be made in proper cases, and the several departments of the Government shall attend to and perform their appropriate part towards the execution of these orders.

By order of the President.

E. M. STANTON.

☞ Very many of our citizens were grieved to learn on Wednesday, that Mr. J. J. Laighton, son of C. E. Laighton, Esq., wandered away from his father's residence on Tuesday afternoon, it is thought while laboring under temporary aberration of mind, and had not returned. Search was made for him throughout Wednesday, but it was unsuccessful. It is intended to make a thorough and systematic search of the outskirts of the city to-day, and all who can aid it, are requested to meet at the corner of Auburn and Middle streets this morning at 9 o'clock.

☞ It will be seen by the advertisement of the New Hampshire Mechanic Fair, that the proceeds, above the expenses, are to be appropriated to aid our volunteers.

☞ The Irish and negro laborers in Cincinnati had a severe fight last Tuesday. The Irish made the attack. Several of the rioters were arrested.

☞ The Troy Times says a son of Secretary Seward has just enlisted in New York City as a private. A son of Gov. Tod of Ohio has done the same thing.

☞ Among the non-confirmations by the Senate was that of Maj. Z. K. Pangborn, formerly of The Boston Atlas and Bee, as Paymaster.

☞ At Fort Preble, Portland, on Tuesday morning about 5 o'clock, Thomas Cascadden drew his pistol and shot a private in Co. H, 17th Regiment U. S. Infantry.—The ball entered the shoulder of the unfortunate man and lodged in his back, inflicting a wound supposed to be fatal. The cause is stated to be a quarrel between the parties which occurred the day previous.—The quarrel had its origin in drink.

NEW HAMPSHIRE

MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE

Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have all the NATURAL INTELLECT and ENERGY as the best. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimen of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER, Corresponding Secretary, Portsmouth, N. H.

For further information apply to the same.

☞ ATTENTION, THE WHOLE! ☜

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the rheumatism for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe pleuring pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And though the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE B. SWETT.

This statement of my wife is correct.

SIMON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea do trouble from it since. I have had no sign of the complaint since. I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. P. LEAVITT.

From ELDER I. CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicine, shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

Proposals

FOR

BUILDING AND EQUIPPING TWO FIRST CLASS AND THREE SECOND CLASS LIGHT VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 25, 1862.

Separate sealed proposals will be received at this office until 12 m, on SATURDAY, the 9th of August, 1862, for building and equipping two first class light-vessels of the following dimensions:

Length from after side of stern post to the fore side of main stem, 98 feet; breadth of beam, moulded, 23 feet 8 inches; depth of hold from top of lower strake to top of beam, 11 feet; tonnage about 232.

The Board will also receive proposals until 12 m, on MONDAY, the 28th of July, 1862, for building and equipping three second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 22 feet 6 inches; depth of hold from top of limber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain untapped southern timber. The printed specifications by which the vessels are to be constructed, and which will, with the drawings and plans, be attached to and form a part of the contracts, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia, at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Secretary of the Treasury. No proposal will be received or considered, unless from persons engaged in ship building, and each proposal must be signed by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed by each bidder, as evidence that there is no mistake as to the object of his proposal.

A drawing of the vessel contracted for will be furnished to the contractor, for which he will be required to adhere strictly; to this end the mould loft lines will be taken off and the mould examined by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will be required to see that the work executed and the materials used are in strict conformity to the terms and specifications of the contract, and who must certify to the same in writing, before the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light vessels may suggest any changes or alterations by which the cost will be lessened, without using inferior materials, and in making such suggestions the precise character of the change or alteration will be named, with the amount saved thereby. The proposals for each vessel will state the time required to complete the vessel and deliver it to the agent of the Board at which place it may be agreed upon; the same to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building Light Vessels*," and then enclosed in another envelope, and addressed to the Secretary of the Light-house Board, Washington, D. C.

No bid will be considered that does not conform to the requirements of this advertisement.

Any persons submitting a proposal may be present, and witness the opening of the bids at the time and place hereinbefore specified.

By order of the Light-house Board.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils Scurvy, Sore Lips, Sore Ears, Swelled Nose, Tetters, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Fresh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Felons, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 28 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

A METHODIST MINISTER ENLISTS AS A PRIVATE.—At a recent war meeting at Newton, Mass., a fine active young man of twenty-five years, a minister of the Methodist Church, placed his name upon the enlistment roll, and then made the following effective appeal to the assemblage: "As the servant of my Divine Master, I do not call upon you to go, but I say unto you, COME!"

CUTTING DOLLAR NOTES IN TWO.—To supply the want of small change the Ætna Bank of Hartford has stamped each end of some of its bills, and agrees to redeem each half if the holder shall cut the bill in two, and pass each half for fifty cents. It will give postage stamps for a single half, or its own full bills for an even number of halves.

Several Pennsylvania Banks are now accommodating the public in the same way.

A GASSY WEDDING.—There is a spouting well in Salineville, Ohio, up which the gas rushes with great violence. A romantic couple, a few evenings since, invited their friends and a clergyman to the vicinity of the well, set fire to the spouting jet of gas, and by the light of the tall pillar of roaring flame were united in marriage.

A NOBLE OFFER.—REV. Jonathan Bruce, D. D., of Milford, Mass., has offered to give $10 to each person who will enlist from that town, and if a full company is formed there, he will give them $500 additional.

The Boston traders shut up shop every afternoon, now, and stick upon their doors the placard, "May be found at the War meeting on the Common." We can't imagine anything more inspiring, unless, possibly, the label should be amended by striking out the last four words.—*Salem Gazette.*

Since postage stamps have become a legal currency, the wags say the government, after giving the country a "shin-plaster" currency, is now giving it a "*sticking-plaster*" currency.

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,

Blacksmith and Horse-Shoer,

NO 80 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

in this city and vicinity; and is prepared to furnish and set the same, at the regular prices for other Shoes, (except for steel Shoes, which are 25 cts. extra), and warrant them to give full satisfaction in all cases. The improvement consists in the nails being set in a steel groove which protects the heads, and the Shoe being concave on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c., and gentlemen who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers on the Limbs, Pains in the Bones of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirit, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

apr7—1y8taw

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of the female and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered.

Office Hours from 8 A. M. to 9 P M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases, of every name and nature, having had his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

FRANKLIN HOUSE,

Portsmouth, N. H.

The undersigned having assumed the management of this well known public house, and having made extensive improvements therein, solicits a continuance of the patronage of the travelling public that has so long been extended to the house.

A new parlor and an extensive suite of commodious and well-ventilated sleeping apartments have been added, and a separate Ladies' Entrance from Congress Street, arranged. Gentlemen with their families, or ladies unattended, will now find quiet and retired apartments connected with the street and dining hall by an independent staircase.

The house will be kept as a first class hotel in every respect, and the proprietors will spare no pains to merit the patronage of those visiting this section of the State.

A good STABLE is connected with the house, where persons visiting Portsmouth with teams, will be promptly and carefully waited upon.

MATHEWS' VENETIAN LIQUID HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1846; since that time it has been used by THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness of the hair,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

For a Square (14 inches) or less, one insertion 50 cents, three insertions $1, one week $1.50, one month $3, three months $6, six months $8, one year $15. These are Daily rates—and no adver tisements receive more than one insertion in the Weekly (Gazette) without special order and charge.
Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity, and throughout the State. ☞ Liberal terms for yearly advertising.

The Chronicle.

☞ Henry Smith was convicted at Philadelphia on Saturday of robbing the mint about five years since. Smith, about twenty years since, was employed as laborer in the U. S. mint; for good conduct, honesty and promptitude, he was promoted. Early in the year 1857 various losses were discovered in the valuation, and it was evident that somebody was robbing the mint. Col. Childs arranged a blind so that he could watch the coining and the milling rooms, as it was evident that the robbery was committed in one of these places,—and he saw Smith go into the milling room, and whisper to one of the young women. She turned her head away, as if to look at something, and then Smith put his hand into the box and lifted some pieces of unstamped coin. He did this three times, whispering to the young lady each time, to divert her attention. Col. Childs then called him into a room. Twenty-one pieces were found upon his person.

☞ Charles C. Munsell, foreman of Ætna hose company No. 1, of Hartford, has been arrested for setting fire to the barn of the late Captain Barnard, last Tuesday night. The police have suspected and traced him for several years, but could not obtain conclusive evidence until now. Munsell confesses to several deeds of arson, and seems to have a mania for incendiarism in order to gratify his love of excitement and effort at fires. He was always early on hand and a hard worker at such scenes.

☞ Mr. Ambrose Hughes, of Bradford, England, a gentleman heavily engaged in the iron trade, was nearly killed by his own dog—a mastiff—whose master liberated him at night. The dog, as usual, bounded into a field, into which Mr. Hughes went when it was nearly dusk. While getting under a railing, the dog seized him by the head, and not recognizing him, tore and lacerated him in a shocking manner. Mr. H. only liberated himself by getting out his pocket knife, and applying the blade with all the vigor he could summon into the conflict.

The Duke of Chandos obtained his third wife in the following manner:—Riding along the road, he saw a drunken groom of a neighboring nobleman unmercifully beating his wife, who was quite a young creature and whose situation and appearance much interested the Duke. The man was not disposed to acquiesce in the remonstrance made against his cruelty, so nothing remained but for the duke to buy the man's wife from him, which he accordingly did.—He was a little puzzled to know what to do with his purchase, but in the meanwhile sent her to an excellent school, where she turned out a very apt scholar. In a short time the husband died of drink from the money he had received for his wife. The Duchess of Chandos, his second duchess also died. The duke married his purchase, who became an exemplary character, as his third wife and duchess.

WIFE VS. LADY.—It is certainly not in good taste for a gentleman to speak of his wife as his "lady," or to register their names upon the books of a hotel as "John Smith and *Lady*," or to ask a friend, "how is your lady?" This is all fashionable vulgarity, and invariably betrays a lack of cultivation.

The term *wife* is far more beautiful, appropriate and refined, whatever may be said to the contrary. Suppose a lady were to say, instead of "My Husband," "*My Gentleman*," or suppose we were to speak of "Mrs. Fitz Maurice and her gentleman." The thing would be absolutely ludicrous, and its obverse is none the less so, if rightfully considered.

A man's wife is his wife, and not his lady; and we marvel that this latter term is not absolutely tabooed in such a connection, at least by intelligent and educated people. It ought to be left for the exclusive use of the codfish aristocracy.—*Providence Post.*

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JULY 25, 1862.

THE WAR MEETING.—We were unable, in our hastily prepared report of the war meeting at Jefferson Hall on Wednesday evening, which we published in Thursday's Chronicle, to give a full report of the speeches as we at first intended. But there were many suggestions made, and many incidents occurred, which should idly be forgotten.

The original design of the meeting itself was most happily carried out. It has not often happened in the past that old Portsmouth has been favored with so good, so enthusiastic and so harmonious a gathering of her citizens; and we doubt if ever before there have been so many eloquent, fervent and patriotic speeches delivered at one meeting. And what gave the meeting so much additional interest to all who took part in it, was the fact that it was essentially a Portsmouth meeting, and proved that we have among us all the material necessary to render any meeting of our citizens, called for a praiseworty object, a complete and decided success. The speakers, with but two exceptions, were our own citizens, and although the presence of Hon. E. H. Rollins, of Concord, and Capt. Barker, of the 2d Regiment, was most gratifying to the assembly, we can with justice claim, that they but added to the interest of a meeting which without them seemed al that could be desired;—with them, was al that the most ardent had hoped.

Ex Gov. Goodwin, after having alluded in fitting terms to the many occasions on which he had addressed his fellow citizens in that hall, always heretofore as the member of a political party or as the advocate of some plan tending to promote our local interests and welfare, referred to the far different purpose for which he met them then—not as a member of a party—not to discuss any merely local question, but as citizens of the United States, as earnest and unwavering supporters of the best government that was ever granted a nation. It was too late to complain of whatever errors had been committed in the past, to mourn over what had been done or what had been left undone. When the call for troops to rally to the defence of the Government was made by the President after the cowardly attack on Fort Sumter, he, as Governor of the State, determined that, if possible, New Hampshire should send none but volunteers into the field, and he believed that New Hampshire was the first State to determine upon pursuing this course. And he also decided, (as was well known to many of our citizens at the time,) that if necessary to stimulate enlistments of volunteers, he would announce that he himself would lead the New Hampshire troops to the field. In his last message to the Legislature he recommended that the State, after her quota was filled up, should not stop enlistments, but should have two other regiments armed, officered and equipped, and drilled daily, that, in case of a sudden and unexpected call for more troods, New Hampshire might be able to respond at once.

This agestion was not carried out; in its failure, another suggestion, made subsequently by Rev. Mr. Eddy in the course of his patriotic remarks, seems to us eminently worthy of immediate attention. It would not, it is true, accomplish all that was desired by Gov. Goodwin, but would be a move in the right direction. His suggestion, as we understood it, was that companies of all those liable to do military duty, be enrolled in the several cities and towns, and that they be drilled by competent officers, that they may be ever ready to rally, at a moment's call, to the defence of the Stars and Stripes. Would it not be well to act upon this suggestion now, in our own city, and let all our young men, of whatever condition, have practical experience in the use of arms? We trust that some one will move in this matter immediately, and that we shall have at least our quota ready hould another call be made.

During the course of his remarks, Mr. Goodwin referred to the almost uninterrupted series of glorious achievements of our forces in the Mississippi valley. He spoke of Island No. 10, of Memphis, of Forts Henry and Donelson, when some one in the hall inquired, "But who took them?" "The federal government," was the prompt reply. "Yes, but the sailors took them."—"Yes, the sailors took them, and old Portsmouth glories in the fact that she has as much interest in them as in the volunteers, for she has sent more men into the navy than any other city or town in the State."

The remarks of Rev. Dr. Burroughs were conceived in his most felicitous manner, and were delivered with that ease and grace for which the reverend speaker has long been noted. In a few words of terrible power, which seemed to slight no portion of the awful picture, he pictured the fearful work of traitors at the North,—of those, who by communication with the rebels had already done as more injury than the arms of the South. He paid a most eloquent tribute to President Lincoln,—a man who seemed to have been born for the hour,—firm, honest, and true. It were strange if any man went away from the meeting with even an undeveloped sympathy for the rebels, after listening to Dr. Burroughs' address alone.—The enormity of their offence, the utter causelessness of their rebellion, and the terrible evils to result from their success, if success were possible for them, were presented so fully and clearly, that there seemed nothing left to be said.

The following is the letter which was read by Hon. W. H. Y. Hackett, before presenting the address:

CAMP NEAR HARRISON'S BAR, Va., July 16th, 1862.

Dear Uncle:—As I have for once in a long time a few moments' leisure, I know of no better use I can put them to than that of writing you a few lines. I have escaped without a scratch from all that fearful week of battles. Elbridge was less fortunate, as he was shot through the neck; that he was not killed is the wonder of all. He is now in New York, and I think will soon visit your section of the country.

One word in regard to the situation of affairs in this Department of the army, after a series of battles, the most desperate the annals of any war ever produced. We have been forced to retire from the prize for which we have struggled through weeks of hardships and suffering. Yet it was almost in our grasp; had we been properly reinforced with fifty thousand men, this controversy would have been settled fifteen days ago forever, on the banks of the James. We yet look with confidence to the mighty North, for that aid which will enable us to fill up our shattered but invincible legions, and strike once more for the rebel Capital. There can in nowise be but one answer to our appeal. Let the mighty North arouse itself to a sense of our situation, and let her loyal sons come forth in their might and settle this question at once. The time of inaction has passed, and every man, no matter what his position, must come to the prompt determination to devote himself to the cause of his country, or suffer the disgrace of having turned a deaf ear to her call, when her glorious institutions are menaced with danger, may be with destruction. I regard all men who underrate the capabilities of our youthful General, as traitors to our cause, men who are as deep in the plot as our rebel *friends* who are in sight right over the hill here. Hoping to see you in a few short months. I will bring this brief letter to a close. Please answer at your earliest convenience, and allow me to subscribe myself, your nephew with respect,

Rev. Mr. Patterson spoke in a fervent and impassioned manner, that inflamed the hearts of the crowded audience, till they caught the fire of his enthusiasm, and repeatedly interrupted him with the most hearty and spontaneous applause. He insisted that there was no possibility of conciliation, that the rebel leaders had already spurned the idea that there could be conciliation. We must fight it out. We are bound to crush the rebellion by the best means in our power, and that right speedily. And the best means was—to send against them overwhelming forces, and this was the only means. The men must come, the treasure must be contributed. The rebellion must and shall be put down. He appealed to the young men to step forth; he urged them to fill up our city's quota. For himself, he would do all he could for the Government: where he could serve his country best, there he should be found.—If it were necessary for him to go, that the quota might be filled up, you could not keep him in Portsmouth. And he would not live in a place that failed to do its whole duty in this crisis. At the close of Mr. Patterson's address, Gov. Goodwin called for three cheers for his noble speech, which were given with hearty good will.

We should be pleased to speak in detail of the other speakers; to give in full Hon. E. H. Rollins' statement of the results to flow from the independence of the South, giving to the South the control of all our rivers south of the Hudson; to reproduce Capt. Barker's statements of facts concerning the rebels' barbarity, and fiend-like mutilation of the bodies of Union soldiers; to convey here some faint idea of the beautiful language and imagery of G. J. Prescott, Esq., who painted in such glowing colors the blessings which are ours beneath the sheltering folds of the Stars and Stripes, and gave such a dark and terrible background to his picture by his recital of the evils inevitably consequent upon the triumph of any other flag. And yet, where the speakers were all animated by one object, where there was no expression and no thought of any result of the present contest save the cordial re-union of thirty-four states and the perpetual supremacy of the Stars and Stripes, it is hardly necessary. On the introduction of Capt. Barker, three cheers were given for him, who has been in every battle in which the N. H. 2d has participated; and three for the N.H. Second, which has done its part nobly in every battle in which the Army of the Potomac has been engaged.

Capt. Towle was called upon, but declined to make a speech, declaring he was for action, and that he would be in the Hall the next morning at 9 o'clock, with plenty of blanks, to enlist all who were willing to obey the call, and he hoped to find there all who were present at the meeting.

We think the meeting will be productive of much good, and that it will be found that old Portsmouth is indeed awake, determined to do her whole duty.

EDITORIAL JOTTINGS.

BOSTON, July 23.

Dear Chronicle:—"Rather a poor day for the race," as the fellow said. "What race?" "Why, the human race, to be sure." Yes, and for the running races, now going on at Franklin Park, too. Hot weather, a clear sky, and a bright skin, bring out the low time; but a cold wind chills the blood of the best nags, and their machinery won't work well. If there be any place where the east wind is more "easterly" than in Boston, we don't want to be acquainted with it—which puts us in mind of an old friend of ours, (now gone to the only place where the rich and poor are "equal,") who, if a stranger was offered for his acquaintance, would ask, "Is he poor?—I don't want to know any more poor folks." So we don't hanker after any more east winds.

But, notwithstanding the uncomfortable weather, there has been rare sport at the Chelsea track, and Mr. Cassady has strictly carried out his advertised programme. The three races of Tuesday, and two on Monday, were a novelty for this latitude; and attracted a large attendance of ladies and gentlemen, there being many of both sexes, of the highest respectability. The Southern horses engaged include some of the best blood and highest repute in this or any other country; and all the usual accompaniments of racing, whether desirable or otherwise, are present. The thoroughbred and gamey-looking animals, usually three or four in a race, with their little riders dressed in various gay colors, (say red or white or striped jacket, and white pants, or all blue or all white,—and each different,) present a novel appearance,—exciting in proportion as you understand or enjoy it, or have "invested" (bet) on the result. And horse-flesh, like "white folks, is mighty onsartain." Dr. Underwood, of Kentucky, sold what are called pools for each race, at auction, at the Parker House and on the course before the race. That is, if three horses are in, A pays $60, and chooses the animal he deems No. 1; B pays $30, and "names" No. 2 as he "sees it;" and C pays $10 for the chances of the horse that is left. And whichever horse wins, the whole $100 goes (less the auctioneer's commission of 3 or 5 per cent.) to the bettor who named the winning animal.

The first race, a mile handicap, four horses, on Wednesday, was won by "Hillsborough," who was sold as low as $5 and $7 in pools of upwards of $100! and who had been regarded as the poorest of the four in. It may be worth while to explain this, for the benefit of those not posted in sporting matters, but who like to read about them. More anon.

Yours, IND.

THE REBELLION.

Gen. Lovell is in Richmond demanding a Court of Inquiry as to the evacuation of New Orleans. A large quantity of clothing has been sent to Bragg's army. Gen. Beauregard has gone to Columbus, Ala., to join his wife and recuperate his health.—Magruder and staff arrived at Columbia on Tuesday, *en route* to East Tennessee, to take command of the rebel forces opposed to Gen. Buell. Prof. Patton, of Petersburg has built a war balloon for upper air rebel reconnoisances, and has arrived at Richmond with it.

Maj. Gen. Pope has issued orders requiring his generals to seize all the horses, mules and stores in their vicinity, especially in Culpepper county, not absolutely needed by the inhabitants.

Gen. Green Clay Smith telegraphs from Stanford, Ky., that he is still pursuing Morgan. Gen. Boyle replied, "Capture him or drive him out of the State."

It is said that Jackson, with 70,000 men, is opposing Gen. Pope.

The sale of munitions of war is prohibited in St. Louis.

☞ Ex-President Martin Van Buren died at his residence at Lindelwold at two o'clock Thursday morning, in the 79th year of his age.

☞ Zeb. Ward, a famous sporting character, who lives near Versailles, Ky., suffered severely by Morgan's raid. The guerrillas took his blooded horses, and left their broken-down nags in exchange.

☞ In the list of the graduates of the State Normal School in Salem, Mass., the present year, we notice the name of Miss Sarah L. Myers, of this city.

☞ The Springfield Republican says at Worcester, last week, one young man was rejected by the mustering officers because his teeth were not good.

☞ A nephew of Garibaldi has recently arrived at Washington to offer his military services to the government. He wears the Liberator's sword.

☞ Parson Brownlow gives as a reason for not visiting the State of Vermont that the State never voted the Democratic ticket. Vermont probably feels bad.

☞ The interest on the Virginia State debt was not paid in London, the statement of "no funds" being made to the claimants.

NEW HAMPSHIRE ITEMS.

—— The Nashua Iron Company have just finished for the Government a test plate fifteen feet long, forty inches wide, four and a half inches thick and weighing ten thousand pounds. This plate is considered ball-proof, and will put to the test some of the new projectiles which have recently been invented.

—— On Monday afternoon, July 21, a train in Holderness, ran over and killed a little child about two and a half years old. The father went to his work in the field and the mother left her little ones to visit a neighbor; and they wandered off. The father went in search of them, and had found the others, when he came upon the railroad track a quarter of a mile from his house, just as the engine had severed the head from the little one's body.

—— A young man named Frank Hoyt, while raising a barn in Grafton a few days since, fell from the top of the frame to the ground, striking upon his head and shoulders, knocking him senseless. He was taken up for dead, but it is now thought he may recover.

—— Commodore Nutt and his brother, who have been in New York since January last with Barnum, arrived at their home in Manchester on Saturday last.

—— On Saturday evening an engine on the Northern Railroad came in contact, above Franklin, with a hand-car, instantly killing Mr. Rufus Tyrrel, a section hand, aged about 58 years. He lived in Franklin and leaves a family. His body was torn into fragments. There were three men in the hand-car. The others saw the approaching engine just in season to jump and save their lives.

—— Dr. S. J. Quimby, of Moultonborough, has received the appointment of Assistant Surgeon in the regular army and is attached to Gen. Grant's army near Memphis, Tenn.

☞ A sad exhibition of unchristian temper took place, on a recent Sunday, in the auto-room of one of the New Haven churches. Two prominent members of the church had a knock down fight, which lasted for some minutes, until the combatants, bruised and bleeding, were separated by the lookers on. The affair originated in a quarrel of long standing.

☞ Miss Jane Anna M'Clary, eldest daughter of Major William M'Clary, of Port Jackson, died suddenly last Wednesday night. It seems she had gone to the cellar to bring out something for the tea-table, and while there became frightened by what was supposed to be a rat. Impressed with great fear, she went to her bedroom, and in a few moments died.

☞ Gen. Butler has forwarded to Washington three swords which had been presented to Gen. Twiggs for gallant conduct by Congress, in years gone by. The swords had been entrusted to the care of a young lady, by Twiggs, and by her subsequently turned over to the custody of a negro.

☞ The Hartford Times says that workmen on farms in that vicinity, have, in several instances demanded and received $60 a month and their board. Even at these prices, farm labor is hard to get, and many farmers are sorely troubled how to secure their hay and grain harvests.

NEW HAMPSHIRE

MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE

Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the best. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of their industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cane and Leather Frames, and all kinds of Fancy Work.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER, Corresponding Secretary, Portsmouth, N. H.

For further information apply to the same.

July 19.

ATTENTION, THE WHOLE!

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—at times the use of her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of his Vegetable Cancer Salve fully cured me in six months, and I have had no trouble from it since.

CAROLINE B. SWETT.

This statement of my wife is correct.

SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my right ankle. And the virtues of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.

HANNAH ROWE.

PORTSMOUTH, *April 21st*, 1862.

I have for several years been much afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1838. Dr. Swett:—"Sir, for the benefit of those who may be afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure in me, and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. P. LEAVITT.

From ELDER I. CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my little daughter suffered with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

Proposals

FOR

BUILDING AND EQUIPPING TWO FIRST CLASS AND THREE SECOND CLASS LIGHT VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 25, 1862.

Separate sealed proposals will be received at this office until 12 M, on SATURDAY, the 9th of August, 1862, for building and equipping two first class light-vessels of the following dimensions:

Length from after side of stern post to the fore side of main stem, 93 feet; breadth of beam, moulded, 23 feet 6 inches; depth of hold from top of timber strake to top of beam, 11 feet; tonnage about 252.

The Board will also receive proposals until 12 M, on MONDAY, the 28th of July, 1862, for building and equipping three second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of timber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain untapped southern timber. The plans and specifications by which the vessels are to be constructed, and which will, with the drawings and plans, be attached to and form a part of the contract, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia, at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Hon. Secretary of the Treasury. No proposal will be received or considered, unless from persons engaged in ship building, and each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed to each bidder, as evidence that there is no mistake as to the contract, and to equal.

A drawing of the vessel contracted for will be furnished to the contractor, to which he will be required to adhere strictly; to this end the mould loft times will be taken of her and her model examined by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will be required to see that the work executed and the materials used are in strict conformity to the terms and specifications of the contract, and who must certify to the same in writing, before the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light-vessels may suggest any change or alterations by which the cost will be lessened, without using inferior materials, and in making such suggestions the precise character of the change or alteration will be named, with the amount saved thereby. And persons making such vessel will state the time required to complete the vessel and deliver it to the agent of the Board at such place as may be agreed upon; the same to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building Light vessels*," and then enclosed in another envelope, and addressed to the Secretary of the Light-house Board, Washington, D C.

Bids will be considered that does not conform to the requirements of this advertisement.

Any person submitting a proposal may be present, and witness the opening of the bids at the time and place hereinbefore specified.

By order of the Light-house Board:

For the Chronicle.

WHERE ARE OUR YOUNG MEN?—How can the young men stay at home? Why is it that when the country is suffering for their help, we see so many who could be doing her good service, going quietly about their ordinary peaceful occupations, as if there were no war in the land? As if to buy and sell and get gain, to ride, walk, and sail, to laugh and chatter, to woo and be married, were all that God required of them? How is it that Portsmouth is so poorly represented in the army of the republic? Not that those who have gone are not brave men and true, but why are they so few? And why are there literally almost *none* from the so-called higher walks of life? Other cities have sent the very flower of their youth and strength; the best cultivated, best connected, those to whom life seemed most desirable. Where are our clerks? our students? our young business men? our gentlemen of leisure? Where are our sons and brothers? aye—our married men and fathers? Shall only those give themselves for their country who have no ties to hold them back? Or those only who are destitute of employment, and need the bounty which the State offers? Or are Portsmouth men too proud to be "nothing but a soldier," and must they wait, if they go at all, till they can wear—fit or unfit—the uniform of an officer? Oh for words burning enough, for speech eloquent enough, to rouse our men to their duty; to kindle in their breasts the patriotic flame which should make business, wealth, ease, yes, even family and friends, of no account, while their native land is struggling in the death grapple with treason and rebellion. To those who are *forced* to remain inactive, it is almost maddening to see the cool indifference of those whose only hindrance is cowardice, laziness, or selfishness, though veiled perhaps under fine words and soft phrases. Come on, then, come! young men, strong men, brave men! Do not wait to be drafted, do not wait for higher bounties; do not wait till you have nothing else to do! Alas! if your country perish by your neglect, what will all your excuses avail? Arouse, men of Portsmouth, from your stupor! Let the one hundred and fifty whom we are required to furnish, come forward at once; nay—let the number be doubled to compensate for former lukewarmness.

"To arms, to arms, ye brave!
The avenging sword unsheathe!
March on, march on, all hearts resolved,
To victory or death."

A WOMAN.

☞ The residence of A. M. Hoyt, Esq., on Pleasant street, was entered on Wednesday night, through a back window. From the large number of half burnt matches which were afterwards discovered on the floors, it was evident that the thief ransacked the lower part of the house. He then ascended to the sleeping apartment of Mr. Hoyt, and in moving about the room, awakened Mrs. Hoyt, who, supposing it was her son, spoke to him, whereupon the man went down again. After some time had elapsed, he again came so far up the stairs, with a lighted lamp, that the light was thrown into the room; Mrs. Hoyt again spoke to him, still supposing that it was her son. The man then turned and Mr. Hoyt soon followed him. The robber passed out of the front door, leaving it open behind him, and setting the lamp down at the door. In his first visit to Mr. Hoyt's room he rifled the pockets of Mr. H.'s pants, obtaining about $2 in change, and some other articles of small value. Nothing else has been missed.

ONE OF THE PATRIOTS.—One of our townsmen called upon us on Wednesday afternoon to say good bye, having just enlisted, commending his wife and seven children to the care of his fellow citizens here. They must and will be cared for.

☞ The war meeting, which it was voted to hold last evening, was postponed to some evening next week, to be hereafter announced, when speakers from our own State and from Massachusetts are expected to be present.

☞ Assistant Paymaster William H. Thompson, of this city, at present attached to the U. S. steamer Mohican at Philadelphia, has been promoted to Paymaster.

IMPORTANT ARRIVAL.—We are happy to state to our citizens that Pearson's Great Mirror of the War will revisit this city in a few days, as they are on their way home from a highly successful Eastern tour. They have visited all the principal places of the eastern country since they last exhibited here, with crowing success; and having added some new and beautiful scenes to their splendid exhibition, they once more visit this place, in order that our people shall again witness this great master-work of art. No encomiums from us will be necessary relating to this entertainment, as all that have witnessed it can testify to its superiority. We would state that Mr. Somerby and lady still accompany the exhibition, and as our friends know, are a valuable acquisition to the entertainment.—Therefore we would say to one and all, look out for them and greet them with an overflowing house the first evening.

CITY COUNCIL.—The Board of Aldermen, Thursday evening, appropriated $150 towards defraying the expenses of the celebration of the 4th of July. The Common Council non-concurred.

Both Boards voted, in concurrence, to give volunteers in this city $100, in addition to all other bounties.

☞ Mr. H. P. Tuttle, of the Cambridge Observatory, discovered early on Friday evening last a telescopic comet in the arctic constellation *Camelopardalus*. Since then it has rapidly increased in brilliancy and now shows a tail of more than a degree in length. Mr. Wm. Grosser, who will have a good telescope on Market Square for a few evenings, will afford a fine opportunity to those who wish to see the comet.

☞ Capt. George F. Towle, of this city, Co. F, 4th N. H. Regiment, has been appointed Provost Marshal of St. Augustine, Fla.

ANOTHER ARMY FOR UTAH.—Another "army" has been sent to Utah. The pioneer regiment, the Second Cavalry, was ordered to break camp at San Francisco about three weeks since and repair at once to the city of the Saints, or its neighborhood. There is some talk of sending troops from the Department of the East to the same destination.

THE DARKEY'S IDEA.—"Ef slav'ry am de cause of de war, and ought to be wiped out, den de nigga am de cause of slav'ry, and ought to be wiped out too; kase thar would be no war widout slav'ry, and thar would be no slav'ry widout de nigga. And who made de nigga? Take kar dat you don't wipe out too much."

TO-DAY'S DEMAND.

God gives us men. A time like this demands
Strong minds, great hearts, true faith, and ready hands;
Men whom the lust of office does not kill;
Men whom the spoils of office cannot buy;
Men who possess opinion and a will;
Men who have honor—men who will not lie;
Men who can stand before a demagogue
And damn his treacherous flatteries without winking;
Tall men, sun crowned, who live above the fog
In public duty, and in private thinking;
For while the rabble, with their thumb-screw creeds,
Mingle in selfish strife, lo! freedom weeps,
Wrong rules the land, and waiting justice sleeps.

A contemporary says of the presents of the Princess Alice, on the occasion of her late marriage:—"The marvels of diamonds, rubys, topazes, emeralds, brooches, clasps, tiaras, necklaces, and all that sort of thing, in amount enough to crush down a woman of ordinary pedestals—are dazzling even to read of. A vast amount of love and affection must have been involved in the affair, though the quality of the former may not have been just like what Hood describes:

"That love matures extreme sagacious ken,
And makes contentment and joy agree,
With the coarsest of beds and bedding."

A CAMPAIGN INCIDENT.—It is related that during the campaign on the Shenandoah, one of Fremont's batteries, supported by a squadron of horse, was engaged in a sharp conflict with a battery of the Enemy, and shot and shell were flying thick and fast, when the commander of the battery, a German, one of Fremont's staff, rode suddenly up to the cavalry, exclaiming:—"*Pring up de shackasses; for Cot sake hurry up de shackasses in me-di-ate-ly!*" The necessity for this order will be obvious when it is known that the "shackasses" are mules carrying mountain howitzers, which are fired from the backs of those much abused but valuable animals; and the immediate occasion for the "shackasses" was that two regiments of rebel infantry were at that moment discovered descending a hill immediately behind our batteries. The "shackasses," with the howitzers loaded with grape and canister, were soon on the ground. The mules squared themselves, as they well knew how, for the shock. A terrific volley was poured into the advancing column, which immediately broke and retreated. Two hundred and seventy-eight dead bodies were found in the ravine next day, piled closely together as they fell, the effects of that volley from the backs of the "shackasses."

A Real and Great Improvement

IN HORSE SHOES.

S. W. WEBBER,

Blacksmith and Horse-Shoer,

NO 50 STATE STREET, Portsmouth,

Has purchased the sole right to manufacture and use

Cate's Patent Grooved Horse Shoes.

in this city and vicinity; and is prepared to furnish and set the same, at the regular prices for other Shoes, (except for steel Shoes, which are 25 cts. extra), and warrant them to give perfect satisfaction in all cases. The improvement consists in the nails being set in a steel groove which protects the heads, and the shoe being countersunk on both the upper and under sides, so as to be much lighter, to hold on better, and afford a good purchase for the horse without corks, except on very hard ice.

These Shoes are peculiarly favorable for tender or bad feet, quarter cracks, interfering, overreaching, &c., and guarantee those who have been troubled with their horses, and the public generally, are invited to call and examine the same, and give them a trial.

Any other pattern of Shoe will be put on, to suit customers, as usual; and

BLACKSMITH JOBBING generally attended to.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Size, and others.

Also on hand, the celebrated and unequalled

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Gleet, gains and distresses in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, rendering the mind a prey to individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. apr7—1y3taw

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate cases yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

FRANKLIN HOUSE,

Portsmouth, N. H.

The undersigned having assumed the management of this well known public house, and having made extensive improvements therein, solicits a continuance of the patronage of the travelling public that has so long been extended to the house.

A new parlor and an expansive suite of commodious and well-ventilated sleeping apartments have been added; and a separate Ladies' Entrance from Congress Street, arranged. Gentlemen with their families, or ladies unattended, will now find quiet and retired apartments connected with the street entering hall by an independent stairway.

The house will be kept as a first class hotel in every respect, and the proprietors will spare no pains to merit the patronage of those visiting this section of the State.

A good STABLE is connected with the house, where persons visiting Portsmouth with teams, will be promptly and carefully waited upon.

MATHEWS' VENETIAN LIQUID HAIR DYE.

MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been used by THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness of the HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

HIST. OF FORMER CONSPIRACIES

AGAINST THE U. S. GOVERNMENT.

Dorr's Rebellion, 1842.—This merely local "rebellion" deserves mention rather from its peculiar nature than from its importance. Its circumstances were as follows:—

Down to 1833 the government of Rhode Island was based upon the original charter of settlement, granted by Charles II. in 1663, by which the elective franchise was restricted to persons possessed of real estate to a specified amount, and to their eldest sons. This disfranchised fully two-thirds of the actual citizens. Yet, so prevalent were old prejudices, so powerful old associations, that the Legislature steadily refused to substitute a more modern and republican constitution for the old, but simple and strong, government of the Charter. Thomas W. Dorr, an attorney at law, of Providence, and a member of the Assembly, sought to introduce a reform; but, for a long time labored in vain. When brought to a vote his proposition for a change obtained only seven out of seventy votes.—Not to be thwarted, Dorr then appealed to the people, agitating the question of change and reform in several mass meetings held in 1840-41. When the movement had gained sufficient strength, a Convention of Delegates was called, which prepared a State Constitution to be submitted to a regular vote of the people. It obtained 14,000 votes—said to have been a clear majority of the regular citizens of the State.—The Chartists pronounced the entire proceedings seditious and declared the vote, illegal as it was, to have been largely fraudulent. Dorr decided otherwise; and, with a true Puritan independency, proclaimed the Constitution to be the law of the State. He ordered, accordingly, an election to be held for State officers.

Dorr was chosen Governor, and a Legislature, composed exclusively of his supporters, was elected, to meet at Providence on the first Monday of May, 1842. The Charter party also held an election for State officers, polling 5700 votes, while the Suffrage party claimed to have polled 7300.

On the 3d of May, Dorr's Government attempted to organize at Providence and seize the reins of power. They were resisted by the legal State Government, which assembled at Newport on the same day, and at the head of which was Gov. Samuel W. King. Both sides appealed to arms. The excitement was intense, and the people flocked to the respective standards in large numbers from various New England States. Gov. King proclaimed the State under martial law, called out the militia, and asked and obtained the aid of the United States to suppress the treason. On the 18th of May a portion of the Suffrage party assembled at Providence under arms and attempted to seize the arsenal, but were dispersed by Gov. King and a military force. They assembled again, to the number of several hundred, May 25, 1842, at Chepachet Hill, ten miles from Providence, but again dispersed on the approach of the State forces. Three days afterwards the affair was over. Dorr fled from the State, and took refuge first in Connecticut and then in New Hampshire. A reward of $4000 being offered for his apprehension by Rhode Island, he voluntarily returned home, was tried, convicted of high treason, and sentenced to imprisonment for life. In 1847 he was pardoned, and in 1852 the Legislature restored him to his civil rights, and ordered the record of his sentence to be expunged. He lived to see a liberal constitution and his party in possession of the reins of government.

Rhode Island is now as democratic as any of her sister States. She boasts a population nearly as great as that of Texas, and twice that of Florida, while, in intelligence and industrial enterprise, she is vastly before either of the States named. In the hour of the General Government's peril she has proven a tower of loyalty, and the names of her sons occupy a favored place in the record of the struggle against revolution and national disintegration.

Commissioner's Notice.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 26, 1862.

MEN WANTED.—Good men and true, many brave men are wanted for the army, to reinforce all our generals, and make the United States victorious every where over the rebels,—and a few are wanted from Portsmouth. But let us not deceive ourselves, or suffer others to be deceived, into the notion that we have done nothing towards carrying on the war to defend the Union from the assaults of the rebels. Far from this. Besides building seven gunboats and fitting out a lot of old ships of war, 630 men have been shipped here for the U. S. Navy, and about 400 have here enlisted for the Army. So says a recruiting officer, who knows whereof he affirms.

It is expected that the new call for 300,000 volunteers will soon be fully answered, and the men get into the field in rapid succession.

It would be the part of wisdom for the President to call for another large body of men, as soon as these 300,000 are raised.—This call might be on the militia, for nine months, as authorized by Congress: and the men would be furnished on requisition by drafting, and in many cases by volunteers on the drafting day, if a bounty accompanied the volunteers but did not go with the drafts.

What we need, and what we must have, is an overwhelming force of new troops to stand on the line now with the veterans, who have so far had a hard fight, learned to stand fire, and learned all the tricks of the enemy.

Humanity, economy, and equity would justify the Government in calling into the field a representation of all classes, rich and poor, bond and free, of all nations, colors, and languages.

Economy and humanity, especially, demand that the war be *shortened* by being made in *earnest*, and using all our efforts *specially*.

☞ One of the Boston clergymen, the Transcript states, devotes a Sabbath afternoon now and then to the children of his congregation. Last Sunday afternoon the sermon was for the especial benefit of the little ones, its main purpose being to show them how to "behave" before their elders. The preacher, however, would have them childlike; and to illustrate a point, he spoke of seeing a frolicsome calf, a day or two previous, that ran rollicking through the fields, "kicking up all the while in this way," said he; and thereupon the good man leaned his hands forward upon the pulpit, and threw his heels into the air right vigorously some half-dozen times, to the great amusement of the children, one of whom whispered to another,—"*Is* n't it better than the Museum?" And when, afterwards, the minister illustrated the manners of some young misses, whose *wriggle* is so disagreeably noticeable, the child whispered,—"Didn't I tell you it would be better than the Museum?"

☞ Hall's Journal of Health recommends to those writing to soldier friends to enclose a little *capsicum*, (in the vulgar, simply strong cayenne pepper,) in the letter.—The editor declares that the effect of the slightest pinch in a glass of water, is better than quinine whiskey. It prevents thirst, and wards off miasma—it protects from chills, and does not induce too much animal heat. It stimulates without leaving any depressing effect,—all of which we most firmly believe. The weight is so small that enough to do a great deal of good may be put in tissue paper and be enclosed in a single letter without cost additional to the regular postage rates.

☞ Gen. Lewis Partridge, of Norwich, Vt., was arrested a few days since by U. S. Marshal Baldwin on the charge of treason, and taken to Windsor, where the U. S. Circuit Court sits next week. His trial is expected to take place during the coming session of the Court. The evidence against him is said to be very strong. Gen. Partridge was U. S. Marshal for the State under Buchanan's administration.

☞ The Gordons, who have been on trial in Boston, on complaint of giving aid and comfort to the enemies of the United States, have been discharged, no overt act having been found against them, and the laws having thus far failed to make opinions, sympathies or intentions, or the expressions of these, however disloyal, base or hostile to the existing Government, an offence cognizable by the Courts.

THE TAX BILL.—The first of September is determined on as the day in which the internal tax will go into practical operation. Collectors and assessors will be appointed before that date, which is officially proclaimed.

☞ The mills of the Hazard Powder Co., at Hazardville, Conn., blew up on Wednesday afternoon. The cause of the explosion is a mystery. Eight employees were killed, and others were injured.

NEW HAMPSHIRE ITEMS.

—— A Texan who was taken prisoner at Fort Donelson, and is now at Camp Douglas, Chicago, in a letter to the editor of the Portland Advertiser states that J. M. Clough, of Marshall, Texas, who was Lieut. Col. of the 7th Texas Regiment, was killed at Fort Donelson. Col. Clough was a native of New Hampshire, and has a brother living at Nashua. Mr. Clough studied law at Harvard. He went to Texas and commenced the practice of law in Marshall with Van Zandt, who was Minister to the United States, when Sam Houston was President of the Texan Republic. Mr. Clough married one of Van Zandt's daughters. He served with distinction, as a Lieutenant, in the Mexican War. The friends of Mr. Clough can possibly secure particulars by addressing "W. W. Field, Co. H, 7th Texas Regiment, prisoner of War, Camp Douglas, Chicago, Ill."

—— There was a rousing War Meeting at Concord, on Tuesday evening, and great enthusiasm was elicited. Joseph B. Walker presided, and remarks were made by Gov. Berry, Congressman Rollins, Joseph A. Gilmore, L. D. Stevens, W. L. Foster, A. S. Marshall, Ex-Gov. Colby, and Capts. Barker and Littlefield of the 2d Regiment.

—— Two Scotchmen, who have recently been in the English army in China, and got away by purchasing their discharge, arrived in Manchester on Wednesday, and enlisted in the 10th Regiment within 10 minutes after their arrival in the city.

—— The Fourth Regiment celebrated the 4th of July, at St. Augustine, Fla., in an enthusiastic manner. In the morning the "odds and ends" paraded through the principal streets, headed by a Calithumpian Band of 21 pieces. An oration was delivered in Ethan Spike fashion by John Brown of Co. A; and afterwards a watch was presented to the most ragged soldier.—The other sports of the day consisted of a wheelbarrow and sack race, a run for the greased pig, and also a potato race, if the reader knows what that is: potatoes don't have running vines nor tendrils, though they do shoot from the eyes.

—— Corporal Nathaniel Marshall, of Co. A, died at Hilton Head July 15th, of a wound he had received at the battle on James Island. He had been President of the Common Council of Manchester, three years in succession; has had $5 per day as overseer of two rooms in the mills of Nashua, but enlisted as a private, and faithfully performed the duties of a soldier.

—— The down train ran over a man named Henry Little, at the railroad bridge near Nashua on Wednesday, cutting off one of his legs and otherwise injuring him. He is not expected to survive. After being struck he fell through the bridge to the water, a distance of over 25 feet, where the water is shallow, the current swift, and the bed of the river rocky. He was engaged in whitewashing at the time.

—— A peaceable young man visited Manchester on Wednesday evening, and while wending his way quietly from the depot, was accosted by a scapegrace, who asked him if he had enlisted. The peaceable young man replied quietly that he had not. "Well," said the other, "I am a captain, and want you to enlist—have you got any whiskey?" Having again quietly replied that he had not, he was urged "to come and take a drink." But he positively refusing, the "captain" seized the peaceable young man's nose in his mouth, and bit it through both nostrils, causing it to swell frightfully. Being a peaceable fellow, he did not enter complaint to the authorities, but left town the same night. He knows not who the aggressor was.

—— Many are much alarmed at the enrollment of the military now going on in this State, supposing it a forerunner of drafting. This is not necessarily so. Conscription is not needed in New Hampshire. There is patriotism enough among our people to answer every call made for troops. It is unfortunate that the enrollment was not made earlier. By the first of August it will be completed and each town will probably furnish her quota.

—— The 4th Regiment at St. Augustine, Fla., it is stated, is becoming very proficient in drill under the management of Col. Bell. Their health is excellent, as the most rigid precautions are taken to prevent the accumulation of filth and rubbish, and every man is obliged to bathe three times a week in the salt water, thereby doing away with the too common but dangerous habit of uncleanliness.

—— The Nashua lock company have erected a very large and commodious shop, this season, for the accommodation of their prosperous business. An unusual amount of building is in progress at Nashua.

—— Up to Wednesday morning, fifty-five men had been enlisted in Dover for the 9th Regiment, and nine had already been secured for the 10th.

—— Mr. Nathan Cutter of Nashua, was instantly killed on Saturday last by falling from a load of hay.

☞ Col. Bures, of Gen. McClellan's staff, telegraphs that all civilians are excluded from the army of the Potomac, including newspaper correspondents.

THE REBELLION.

The 2000 white troops who had accompanied an equal number of Indian refugees to the Indian Territory, have already made a good impression in the country, and with the addition of 1500 Indians, under John Ross, further important results are anticipated. A large number of Indians have asked to be furnished with arms to operate against rebels in various tribes.

There is a rumor at Memphis that the rebel ram Arkansas has been captured.

A party of 22 guerillas in Todd county, Ky., were mistaken for Federal soldiers by another rebel squad of 40, coming into Kentucky, and attacked. The former whipped the latter. Of both parties 7 or 8 were killed, and quite a number wounded.

The Federal forces under Gen. Nelson re-occupied Murfreesboro', Tenn., on the 18th inst.

The Secretary of War has directed the mustering officer at Harrisburg to accept Pennsylvania Volunteers for the term of 9 or 12 months, if they are offered for such a term by the Governor of that State. It is probable that the whole Pennsylvania contingent—21,000 men—will be accepted under this order.

The N. Y. World has the following "important if true" dispatch from Washington:

"I learn from pretty accurate private sources that Ewell's, Hill's, Longstreet's and Jackson's divisions of the rebel army have left Richmond gradually during the past fortnight, most of them going over the Virginia Central railroad, and that they are now concentrating near Gordonsville, constituting an army 60,000 strong. Undoubtedly an attempt is to be made on Maryland or Washington. Our people are still uncertain whether it will be made up the Valley or this way. Counter raids and attacks are to be instituted by us. A force may push for Richmond from Fredericksburg, with the purpose either of fighting them back or of gaining more than they can."

Gen. Halleck and staff, with Gens. Burnside and Meigs, went to the Peninsula on Thursday afternoon.

Col. Norton, the accuser of Gen. Mitchell, has been ordered to be arrested. He has not yet been found. Capt. Mansfield, the late Provost Marshal of Fredericksburg, Va., is under arrest. His doings while in office are being investigated.

A Baltimore letter in the N. Y. Herald gives a list of twenty-eight rebel fortifications around Richmond.

Maj. Gen. Sherman has assumed command of Memphis. 400 persons took the oath of allegiance in one day, and 130 received passes to go South.

☞ Lt. Col. Patrick R. Guiney, of the 9th Regt. Massachusetts Volunteers, an Irishman by birth, is now in Maine, making war speeches. He enlisted as a *private* under Col. Cass, and has been promoted step by step, till as Lt. Col. he fought at the head of his regiment in the late terrible battles before Richmond. His regiment is rapidly filling up, and he will doubtless be its Colonel. That is the right way to make officers.

☞ Some young men in bathing in the Lake, near Chicago, the other day, had rare sport riding a drove of horses brought down to water. The sport grew rarer, when one of the youths found himself naked on a runaway animal, who took him through the streets of the city, regardless of his want of attire, or of the astonished looks of citizens who thought him Lord Godiva on a bender.

☞ A dispatch to the Boston Herald says Senator Lane, of Kansas, has received authority to recruit in the West, and to receive all loyal persons into the ranks, be they white or black. He declares that he will have two negro regiments in the field within three weeks.

☞ The rate of taxation in some of the neighboring towns is as follows:—Greenland, 89 cents on every $100 of valuation, including highway tax; Rye, 80 cents; North Hampton 77 95-100 cents; Hampton $1.01; Hampton Falls, 71 25-100 cents; Seabrook $1.03. The Portsmouth rate is 96-1-10. Portland goes up to $1.55.

☞ The Philadelphia Ledger states that the New Ironsides war steamer, the first of the iron-clad ships of the kind built in this country, is only waiting for her gun-carriages, to be put in commission.

When the suggestion was first made on Wednesday afternoon, that the Portsmouth Cornet Band would play, at the war meeting, if invited, the members were scattered—some being at the Navy Yard at work, one resides at Newcastle, and others were at considerable distances from the city. They all left their work and were at the Hall promptly at the appointed hour. It is not too much to say that the success of the meeting was owing in no small degree to their enlivening and patriotic music.—*Journal.*

☞ In Chatham, Mass., on Wednesday evening, a spirited meeting of the citizens of the town was held at the town hall to encourage enlistments. Eleven persons volunteered for the war, being the entire quota for the town. Rev. E. B. French was the first man to enlist, and Rev. A. Hall followed.

☞ Hon. Ruell Williams, of Augusta, Me., died in that city on Friday, in his 80th year.

REFORMS, BUT NOT A REFORMATION.—To eradicate the curse of intemperance from our soil, has engaged the serious attention of statesmen and philanthropists. The vice, however, still spreads with frightful rapidity. The law even gives it an impetus by winking at the manufacture of the poisonous compounds which annually destroy thousands of our citizens and soldiers. We have but to point to the sale of the essential oils of gin, rum, brandy, &c., one ounce of either of them warranted to make gallons of the pure article.

In France, Spain, Italy and Portugal, where alcoholic liquors are as remarkable for purity as cheapness, the people are healthy and temperate, simply because wine is their principal beverage. We have a native wine in many respects superior to any imported from Europe. We refer to the Sambuci wine, prepared from the Sambuci grape by Mr. A. Speer, in his vineyards in New Jersey. Messrs. Chilton & Co., the eminent chemists of New York, and hundreds of respectable physicians throughout the country, speak in high terms of its medicinal properties. For persons of sickly and debilitated constitutions it is specially recommended as a valuable tonic and invigorator. As a dinner wine it is pleasant and agreeable, and its exhilarating effects considerably assist digestion. For general family use it cannot be excelled by the finest Port for taste, flavor, or juicy richness, while it is devoid of the deleterious and intoxicating qualities which uniformly characterize foreign wines.—[Independent.

☞ The following testimonial is from the postmaster at Amesbury:

AMESBURY, May 20, '62.

This is to certify that I have used a Salve prepared by Mr. William Grace, and find it a very valuable article, having proved its healing qualities. It is remarkably efficient for cuts, burns, &c.

NEW HAMPSHIRE

MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE

Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the best. As this is to be a State Instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and return on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Gimp and Leather Frames, and all kinds of Fancy Work.

N. B.—All articles should be sent in three or four days previous to the exhibition; all articles must be directed to HENRY M. CARTER, Corresponding Secretary, Portsmouth, N. H.

For further information apply to the Sec'ry.

July 19.

☞ ATTENTION, THE WHOLE! ☜

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the scrofula from a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A Dego gum had been applied to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. We think it a most excellent Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, which I supposed was a cancer, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about six months, and I have had no trouble from it since. CAROLINE H. SWETT.

This statement of my wife is correct.

SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.

HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1833. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, that by the use of it, my health has been greatly improved; thereofre, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. H. LEAVITT.

From ELDER I. CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered perfectly well, and can rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

Proposals

FOR

BUILDING AND EQUIPPING TWO FIRST CLASS AND THREE SECOND CLASS LIGHT VESSELS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
Washington City, June 28, 1862.

Separate sealed proposals will be received at this office until 12 m., on SATURDAY, the 9th of August, 1862, for building and equipping two first class light-vessels of the following dimensions:

Length from after side of stern post to the fore side of stem, 96 feet; beam, extreme breadth of beam moulded, 26 feet 6 inches; depth of hold from top of timber strake to top of beam, 11 feet; tonnage about 422.

The Board will also receive proposals until 12 m., on MONDAY, the 28th of July, 1862, for building and equipping three second class light-vessels of the following dimensions:

Length between perpendiculars, 81 feet 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of timber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain untapped southern timber. The plans and specifications by which the vessels are to be constructed, and which will, with the drawings and plans, be attached to and form a part of the contracts, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston, New York, or Philadelphia, at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract, and no contract will be considered binding until it shall have been approved by the Hon. Secretary of the Treasury. No proposal will be received or considered, unless from persons engaged in ship building, and each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the name for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed by each bidder, as evidence that there is no mistake as to the object of the proposal.

A drawing of the vessel contracted for will be furnished to the contractor, to which he will be required to adhere strictly; to this end the mould loft lines will be taken off and the work examined by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will be required to see that the work executed and the materials used are in strict conformity to the terms and specifications of the contract, and who must certify to the same in writing, before the vessel will be received, and payments authorized to be made.

Persons making proposals to build any of these light-vessels may suggest any change or alterations by which the cost will be lessened, without using inferior materials, and in making such suggestions the precise character of the change or alteration will be named, with the amount saved thereby. The proposals for each vessel will state the time required to complete the vessel and deliver it to the agent of the Board at such place as may be agreed upon; the place to be named in the bid. All proposals must be sealed and endorsed "*Proposals for building Light vessels,*" and then enclosed in another envelope and addressed to the Secretary of the Light-house Board, Washington, D. C.

No bid will be considered that does not conform to the requirements of this advertisement.

Any person submitting a proposal may be present, and witness the opening of the bids at the time and place hereinbefore specified.

By order of the Light-house Board:

Local.

☞ Perhaps it may interest the readers of the Chronicle to learn what has been done on the Portsmouth Navy Yard in the matter of ship building and repairing since the commencement of the war. We are not prepared to state how many vessels have been built at the Charlestown Yard during the past year, but we are informed from pretty good authority that an equal number have been built here, in the same time. Perhaps this may surprise some who have thought that the amount of work done on the Charlestown Yard is double that performed here. But we will give the following to show that since May, 1861, six vessels have been repaired, (and upon some the repairs were quite extensive,) fitted and sent off, while in the same length of time seven vessels have been built—five of which have been sent to their destination, and the other two are fast approaching completion. The Colorado, which succeeded in getting up into our harbor,(!) and can get out any time, even in mid-winter without going to a great expense of cutting a channel-way through the ice to allow an egress, will probably be ready about the time the Ossipee and Sacramento are completed. The names of the vessels and the order in which they were built or repaired are as follows:—

REPAIRED.

Marion, Dale, Santee, Sabine, Portsmouth and Constellation.

BUILT.

Kearsarge—screw propeller.
Ossipee " "
Sebago—side-wheel.
Mahaska " "
Sonoma " "
Conemaugh "
Sacramento—screw propeller.

The Ossipee would have been ready for sea long ago, had her machinery been finished. We learn that it is now completed and that the work of putting it in has already commenced.

For the Chronicle.

Messrs. Editors:—We are sorry to see in your last issue that the small appropriation passed by the Board of Aldermen to help pay the bills of the Celebration on the 4th of July was non concurred in by the Common Council. The deficiency of the Committee amounted to $206, a few days after the 4th, since which time a number of bills have come in which has raised the deficiency to $250. So that the sum appropriated by the Aldermen would not cover the bills which must be paid by some one. The City Finance Committee has had a statement of all the accounts, and all of the bills have been given to them for examination, and with such a plain statement of the expenses, it is hoped that a meeting of the Common Council will be called in the coming week, and that every member will help the committee out of their embarrassment, by voting for the appropriation.—Among the principal bills not yet paid is that of our Portsmouth Band, who well earned the Money on that day, and with many others are waiting patiently for payment of services. All who were instrumental in getting up the celebration worked hard, and received no pay for services.—The result of the celebration was, that the city was benefited by a great amount of trade, every one remained quiet, the best of order reigned in our streets, and all were of one opinion that the celebration was an honor to our city. Under the circumstances we hope the members of the Common Council will not be so ungrateful as to let two or three individuals pay for what a whole city has enjoyed and has been benefited by.

JUSTICE.

☞ Pearson's Grand Panorama will visit us Monday, the proprietors having added new and exciting scenes to their fine exhibition. They will stop with us for a short time only, in order that the people may once more witness this beautiful work of art. The have just returned from a very successful tour through the eastern country, and are about returning to their homes for a slight recreation. Having many friends in our city, they have kindly consented to give a few entertainments, in order that our people may see the great additions which have been received from the talented artists since they were here.

We are happy to state that Mr. Somerby and lady will accompany this exhibition.—His fine delineations of the various scenes, and the pleasing ballads of Lizzie Somerby, are not forgotten by our citizens. We would say to our readers, give them a joyous greeting by a crowded house the opening night.

SAD ACCIDENT AT RYE BEACH.—As a party of young ladies were bathing at Rye Beach on Thursday morning, one of their number, Miss Alice Simmonds, was seized with the cramp, and fell fainting beneath the waves. She was immediately brought to the shore, but all efforts to resuscitate her proved unavailing. Miss Simmonds was 22 years of age, and belonged in Warner, N. H., whither her body was carried on Friday for interment.

☞ Rev. Mr. Waterhouse will preach at the Alms House to-morrow afternoon at 5 o'clock.

☞ The Concord & Portsmouth Railroad, as usual, pay a semi-annual dividend of 3 1-2 per cent. to its stockholders, this month,—payable at the office of the Treasurer of the Concord Road, in Merchants' Exchange Building, Boston.

☞ The citizens of Eliot held a town meeting on Thursday afternoon, and voted to pay the sum of $200 bounty to each individual enlisting for the war. Her quota is ninety-ten. Good for Eliot. The meeting in the town of Kittery for the same purpose, is to be held next Wednesday afternoon, July 30. It is due to the credit of old Kittery to mention the fact that seventy-six of her sons have enlisted in the army and navy since the commencement of the war. Her quota for the 300,000 is thirty-one. Berwick and North Berwick also offer a bounty of $200 for volunteers.
